BIG ALCOHOL CONVERSATION: THE CONTEXT

Dr Jeanelle De Gruchy
Director of Population Health
jeanelle.degruchy@tameside.gov.uk

ALCOHOL HARM IN GREATER MANCHESTER

Costing c. **£1.3bn per year** - that's approaching **£500 per resident**

Alcohol-related **deaths & hospital admissions** over **50% higher** than for England

Incapacity benefit claims directly related to alcohol **75% higher** than England average

17% of violent crimes and **12% of sexual crimes** linked to alcohol

Over 45,000 children live with parents who binge drink – and **over 33,000** with dependent alcohol users.

1,200 babies born with Foetal Alcohol Spectrum Disorder

TAMESIDE DRINKING CONSUMPTION PATTERNS

GMCVO / 10GM: LOCALITIES ENGAGEMENT

GMCVO

Supporting voluntary action in
Greater Manchester since 1975

A joint venture to
support the local VCSE
in the ten boroughs of
Greater Manchester

- Engage **8,000 organisations & 3,000 individuals**
- Focus in particular on those with **lived experience / harder to engage** through mainstream campaign
- **Grant-giving programme** sees funding flow to voluntary and community groups and social enterprises:
 - One-to-one / small group conversations
 - Focus groups
 - Social movement building

WHAT DOES SUCCESS LOOK LIKE?

Engaged citizens in a **meaningful dialogue** around **scale and nature of alcohol harm** in GM and **potential options** for tackling it

Increase citizens' **understanding of importance of scale and nature** of alcohol in GM, and of **responsible alcohol consumption** to themselves as individuals, their families, and their communities

Meaningful **understanding of attitudes** of GM public to potential areas of transformation, including policy & legislation

Developed a **wide-ranging GM 'ambition for alcohol'** underpinned by the findings of the engagement activity

We want to gain your views on:

- How to raise public awareness of the damage caused by alcohol in Greater Manchester?
- How to build an understanding that this is “everyone’s problem”?
- What could help shift attitudes and behaviours?
- What is the appetite for legislative change?
- How can we make the most of the campaign and the community engagement work?

Community engagement – what's planned?

- **October 2018** – Opportunity for voluntary sector partners to put themselves forward to be involved in paid for:
 - Survey work
 - 1-2-1 interviewing work
 - Focus group work
- **Mid-November 2018 to the end of February 2019** – Big Alcohol Conversation takes place including delivery of above work by voluntary sector partners and movement building activity
- **March 2019** – report writing
- **April 2019** – feedback work and movement building workshop

Discussion

- To what extent do you think it is the role of different people to address the harms caused by alcohol?

e.g. individuals, friends and families, communities, GPs, local/regional government, national government, retailers, alcohol industry...

- What powers do any of these have and how should they use them?

Thank You - For more information

Ben Gilchrist

Deputy Chief Executive, Action Together

Healthy Lifestyle

Walking & Cycling in Tameside

Neighbourhood Forums - South

50%

of adults in GM are physically inactive

£500,000

This costs the local NHS more than £500,000 per week

30%

of trips under 1km in GM are made by car, the equivalent of:

mins walking

mins cycling

46%

One recent UK study showed that walking or cycling to work led to an overall 46% reduction in the risk of cardiovascular disease ¹⁷

600

More than 600 people are killed or seriously injured on GM roads every year

The Mayor's Challenge Fund

- In March 2018, approval was granted for the Transforming Cities Fund. £160m from this fund will be allocated (over 4 years) for the delivery of walking and cycling measures across GM.
- This fund is known as the Mayor's Challenge Fund and should be complementary to the wider ambitions of 'Made to Move'.
- GM wide ambition to create a modal shift away from travel in cars to walking and cycling either as the whole journey or in part when linked with public transport.

The Case for Action

- Increasing the number of journeys made by walking and cycling will have many benefits for Tameside and its residents. These benefits will include improved health, pollution, congestion and economy.
- A great deal of research has been conducted to put a monetary figure to the benefits of walking and cycling

How will this be achieved?

- Network Planning Sessions
- Beelines
- Strategic working across GM on documents such as the LCWIP, Made to Move and Streets for All
- Designing schemes to the best possible standards (Competent 12 year old test)
- Promotion, signage and education

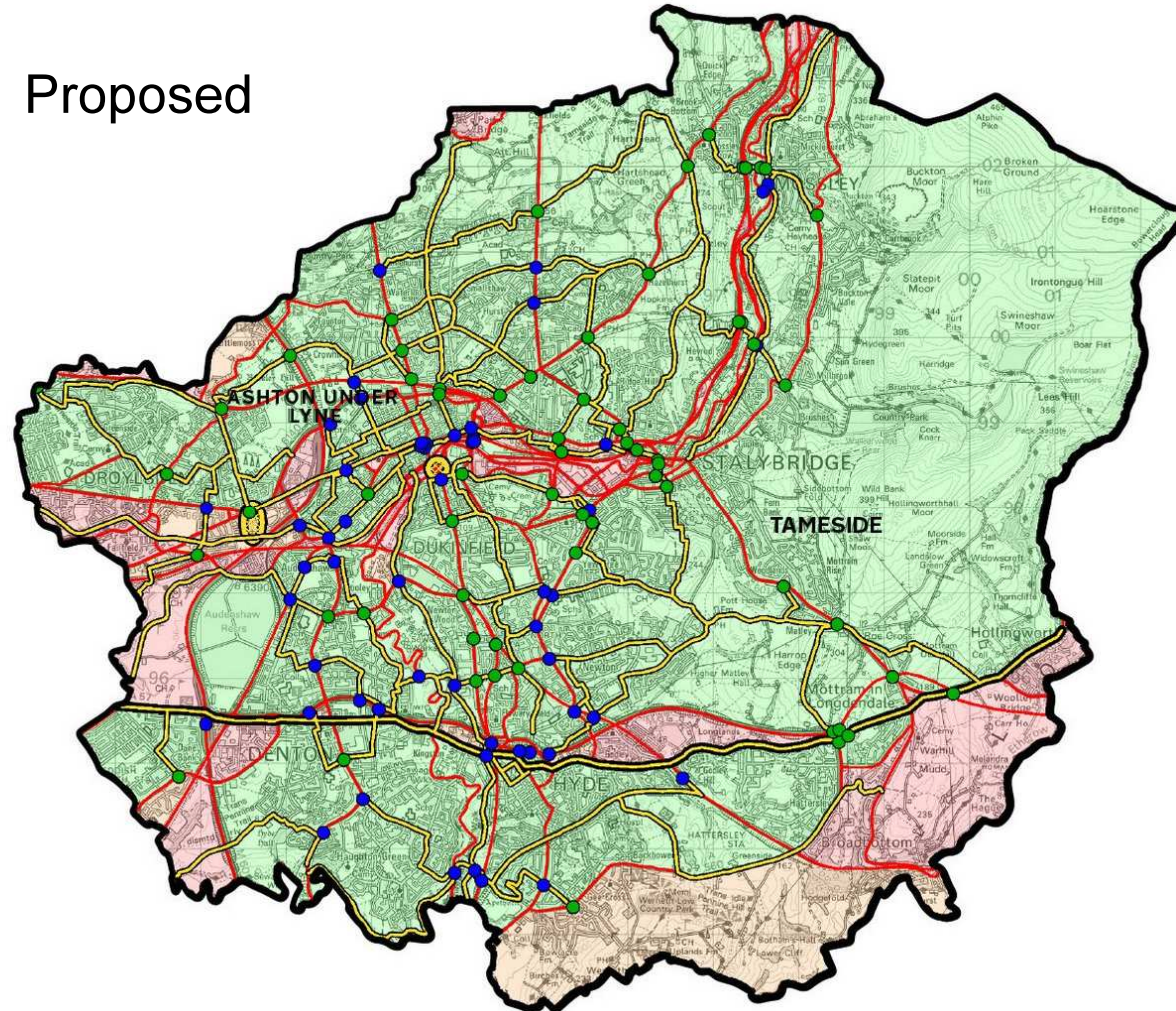

Beelines

Beelines – Tameside South

Tameside South schemes

Programme Bid Schemes

- Stockport Road, Hyde
- Hattersley – Various routes

Big Ticket Schemes

- A57 Corridor
- Bridge at Manchester Road
- Bridge at Cavendish Street

Beelines – Tameside South

Tameside South schemes Identified Beelines

- Talbot Road- Ashton Rd through to Victoria Street
- Talbot Road through to Clarendon Rd/junction of Commercial Brow
- Matley Lane/Victoria Street through to Welch Road.
- Welch Rd through to Victoria Street.
- Danby Road through to Commercial Street/ side of M67 Motorway
- Ashton Road through to Clarendon Road/ Jct of Park Road.
- Bennett Street through to Tow path.
- Jet Amber Fields through to the A57
- Great Norbury Street and around Asda Store.
- Jct Stockport Rd/Joel Lane through to Tow Path.
- Harrop Edge Road- Mottram Road through to Hattersley Roundabout.
- Old Rd/Coach Rd- Mottram Rd through to A57
- A57 Through to Broadbottom Road Via Green Lane and Mottram Old Rd.

Where should the next Beelines be?

- Beelines are intended to encourage people to leave their cars at home for short journeys and to walk or cycle instead.
- In order to create the network that will achieve this ambition, the Council needs your input on where these routes should be.
- Imaginative ideas / creative solutions eg. Use Market Street and Great Norbury Street as a gyratory?
