Background History

This site is an existing forecourt and shop which has been acquired by our clients and is to be traded by the applicants much as the other sites that they operate. The shop is being re-ranged and re-merchandised to the Convenience Store format to fully realise its trading potential. This includes installing a Costa Coffee machine, a cash machine, Camelot and Paypoint where applicable, and enhancing the retail offer across the range adapting and replacing fittings as necessary.

The Shop

The new shop layout has been designed to serve both the local community and those from further afield. Trading as a convenience store under the Company's own tried and tested convenience format a good range of fresh foods, groceries and other products are to be offered and the off licence is an important part of the service that such a shop is now expected to provide.

The Operation

The shop is operated by the Manager assisted by a team of staff who live locally. The DPS trained and certified through the national APLH certificate scheme will be responsible for training all staff and keeping and maintaining ongoing training records utilising the Off Licence Training System. The refusals system will be used with records kept in the Refusals Book to tie in with the CCTV system. The Challenge 25 trading initiative will also be embraced.

Security

The premises are secured by an alarm system and the CCTV system will benefit from cameras supported by a 24 hour recorder and library which can be made available to the Police if required.

Background History

This site is an existing forecourt and shop which has been acquired by our clients and is to be traded by the applicants much as the other sites that they operate. The shop is being re-ranged and re-merchandised to the **Convenience Store** format to fully realise its trading potential. This includes installing a Costa Coffee machine, a cash machine, Camelot and Paypoint where applicable, and enhancing the retail offer across the range adapting and replacing fittings as necessary.

The Shop

The new shop layout has been designed to serve both the local community and those from further afield. Trading as a convenience store under the Company's own tried and tested convenience format a good range of fresh foods, groceries and other products are to be offered and the off licence is an important part of the service that such a shop is now expected to provide.

The Operation

The shop is operated by the Manager assisted by a team of staff who live locally. The DPS trained and certified through the national APLH certificate scheme will be responsible for training all staff and keeping and maintaining ongoing training records utilising the **Off Licence Training System**. The refusals system will be used with records kept in the **Refusals Book** to tie in with the **CCTV** system. The **Challenge 25** trading initiative will also be embraced.

Security

The premises are secured by an alarm system and the **CCTV** system will benefit from cameras supported by a **24 hour recorder** and **library** which can be made available to the Police if required.
