| Report to: | HEALTH AND WELLBEING BOARD |
| Date: | 9 March 2017 |
| Executive Member/Reporting Officer: | Cllr Ged Cooney, Executive Member (Healthy and Working) Angela Hardman, Executive Director, Public Health, Performance and Business Intelligence |
| Subject: | GREATER MANCHESTER CANCER PLAN |
| Report Summary: | <p>The paper is to introduce the Greater Manchester Cancer Plan – Achieving world-class cancer outcomes: Taking charge in Greater Manchester.</p> <p>The plan sets out the ambitions for Greater Manchester Cancer, the cancer programme of the Greater Manchester Health and Social Care Partnership. It is set out in eight domains reflecting a combination of the five key areas for change set out in Taking Charge and the six key workstreams of the national cancer strategy.</p> <p>Much of the work set out in the plan will be delivered by the current and proposed Greater Manchester Cancer infrastructure.</p> <p>A substantial part of the plan in 2016/17 and 2017/18 is part of the vanguard innovation programme and funded by NHS England's New Care Models Team.</p> <p>Greater Manchester Transformation funding will be sought to deliver other key parts of the programme and, if appropriate, to roll out successful pilots from the vanguard innovation programme beyond 2017/18. A full implementation plan will be developed by June 2017</p> |
| Recommendations: | The Health and Wellbeing Board are asked to note the Greater Manchester cancer plan – Achieving world-class cancer outcomes: Taking charge in Greater Manchester. |
| Links to Health and Wellbeing Strategy: | Cancer is the most common cause of death in Tameside for males and females, and there are significantly more deaths than there should be, given the population age and gender profile, so improving cancer outcomes delivers against all life course priorities of the Health and Wellbeing Strategy. |
| Policy Implications: | The Greater Manchester Health and Social Care Strategic Partnership Board approved the plan for implementation on 24 February 2017. |
| Financial Implications: (Authorised by the Section 151 Officer) | <p>There are no direct financial implications arising from the report at this stage.</p> <p>However, it is essential that appropriate governance arrangements are implemented relating to any future Greater Manchester Transformation funding which is allocated to the Tameside and Glossop economy to support the implementation plan.</p> |

Legal Implications:
(Authorised by the Borough Solicitor)

It is important that decisions regarding resources are made on an evidence based approach. This report sets out the evidence of the challenges and how we tackle improving cancer outcomes.

Risk Management :

The plan contains a substantial amount of work, much of which contributions from all parts of the cancer system. Support will be required to encourage this.

Support is required for the agreement of contributions from the system towards the baseline costs of the infrastructure of the Greater Manchester Cancer Board.

The proposed accountable cancer network model as part of cancer vanguard programme requires further substantial Greater Manchester system debate and engagement.

Transformation funding will be sought to deliver some of the signature proposals in the plan, including lung health check (if pilot successful) and delivery of the recovery package.
