# Healthy Lifestyle Walking & Cycling in Tameside

---

Neighbourhood Forums - South

# 50%

of adults in GM are physically inactive

# £500,000

This costs the local NHS more than £500,000 per week

# 30%

of trips under 1km in GM are made by car, the equivalent of:

mins walking

mins cycling

# 46%

One recent UK study showed that walking or cycling to work led to an overall 46% reduction in the risk of cardiovascular disease <sup>17</sup>

# 600

More than 600 people are killed or seriously injured on GM roads every year

# The Mayor's Challenge Fund

---

- In March 2018, approval was granted for the Transforming Cities Fund. £160m from this fund will be allocated (over 4 years) for the delivery of walking and cycling measures across GM.
- This fund is known as the Mayor's Challenge Fund and should be complementary to the wider ambitions of 'Made to Move'.
- GM wide ambition to create a modal shift away from travel in cars to walking and cycling either as the whole journey or in part when linked with public transport.

# The Case for Action

- Increasing the number of journeys made by walking and cycling will have many benefits for Tameside and its residents. These benefits will include improved health, pollution, congestion and economy.
- A great deal of research has been conducted to put a monetary figure to the benefits of walking and cycling

# How will this be achieved?

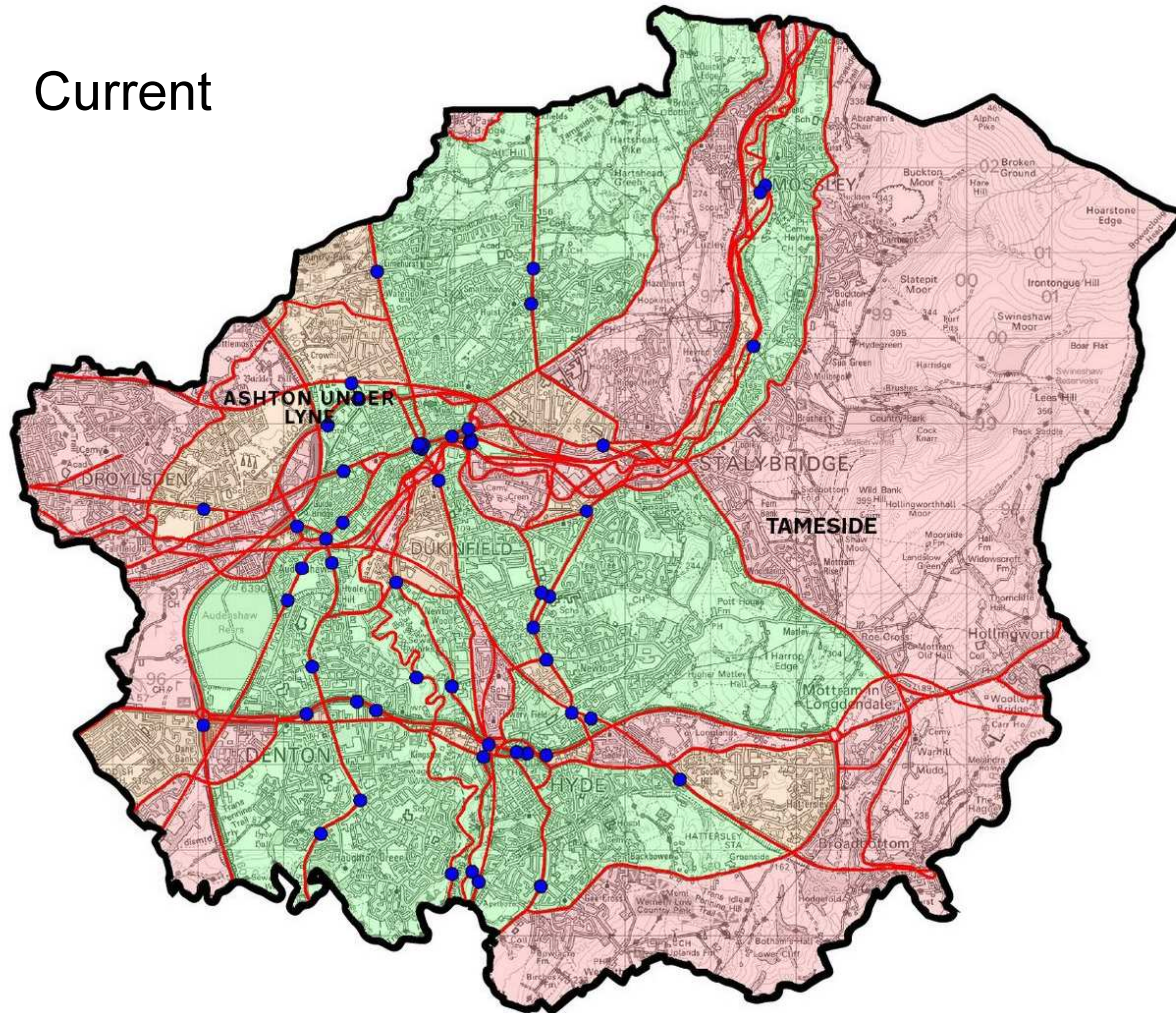

- Network Planning Sessions
- Beelines
- Strategic working across GM on documents such as the LCWIP, Made to Move and Streets for All
- Designing schemes to the best possible standards (Competent 12 year old test)
- Promotion, signage and education

- Harrop Edge Road- Mottram Road through to Hattersley Roundabout.
- Old Rd/Coach Rd- Mottram Rd through to A57
- A57 Through to Broadbottom Road Via Green Lane and Mottram Old Rd.

# Where should the next Beelines be?

---

- Beelines are intended to encourage people to leave their cars at home for short journeys and to walk or cycle instead.
- In order to create the network that will achieve this ambition, the Council needs your input on where these routes should be.
- Imaginative ideas / creative solutions eg. Use Market Street and Great Norbury Street as a gyratory?
