Collection Fund Monitoring

Collection Fund – Forecast Variations NDR

The 2018/19 budget was based on NDR income and transitional protection in 2017/18. The increase in NDR income and reduction in transitional protection reflects the actuals to date during 2018/19.

NDR expenditure reflects the amounts of business rates to be paid out of the collection fund to the relevant precepting authorities. The Council's budget for 2018/19 assumed business rates income at the level forecast under the 50% retention scheme. The forecast position for 2018/19 is based on the 100% retention scheme which results in increased business rates income for the Council. This benefit will be shared with the GMCA.

Collection rates

Collection rates for both Council Tax and NDR are on track against the targets for 2018/19 and exceed the collection rate achieved at the same point last year.
