Agenda Item 2.

EAST STRATEGIC NEIGHBOURHOOD FORUM

14 October 2020

Commenced: 6.40 pm

Terminated: 7.10 pm

Present: Councillors Pearce (Chair), Sharif (Vice-Chair), Sweeton, Billington, Dickinson, Feeley, J Lane, Patrick, Wild and Wills

Apologies for Absence: Councillor Jackson

1 MINUTES

RESOLVED

The minutes of the meeting of the East Strategic Neighbourhood Forum held on 22 January 2020 be approved as a correct record.

2 COVID-19 UPDATE

Consideration was given to a presentation of the Director of Operations and Neighbourhoods updating Members on the COVID-19 situation within Tameside.

The Director reiterated the measures that individuals should undertake to limit the spread of the virus:

- Regular hand washing (20 seconds with soap and running water);
- Maintain social distancing (2 metres or 1 metre with additional precautions);
- Wear a face covering in public spaces;
- Isolate and stay at home if showing symptoms; and
- Get tested if displaying symptoms.

The new restrictions in place for residents and businesses were also highlighted:

- Hospitality venues closed from 10pm until 5am;
- Increased fines for enforcement action (£1000 for first offence);
- Maximum number of mourners at a funeral restricted to 30, wedding guests restricted to 15 and six at religious ceremonies/celebrations;
- Mandatory wearing of face coverings for all hospitality and retail workers;
- Illegal to not self-isolate when required to do so (£200 fine); and
- Introduction of a £500 test and trace support payment for those eligible from October 12.

The Director explained the new 'Tier' system that had been introduced by the Government earlier in the week as part of an attempt to bring down infection rates in the worst affected areas of the country. Greater Manchester, including Tameside, was currently in Tier 2 and this meant that hospitality venues would be mandated to close at 10pm. In addition, individuals were prevented from mixing indoors, in both private and public settings, unless they were part of the same household or had formed a 'social bubble'.

Members were informed that COVID-19 infection rates had increased across all Greater Manchester boroughs in recent weeks and that Tameside was currently ranked seventh out of the ten boroughs in the city region for infections. In total, there had been 336 new cases, compared to 309 during the previous week. Infection rates had been particularly high among young, white British people of working age but also among the BAME community, particularly children. The spread of

infection was across the Borough and linked, in part, to hospitality, workplaces, schools/education settings, care homes and the hospital.

It was emphasised that any individual with symptoms of the virus should obtain a test and details of the new local testing facility at Darnton Road in Ashton-under-Lyne were given. The facility was open seven days a week between 08:00 and 20:00 and an appointment was essential and could be booked online or by calling 119.

Information was also provided in relation to the NHS COVID-19 app, part of a large-scale coronavirus testing and contact tracing programme in England and Wales. The app would be used alongside contact tracing to notify users if they had come into contact with someone who had tested positive for coronavirus. It was hoped that the rollout of the app would assist in understanding if COVID-19 was spreading in a particular area thus allowing the local authority to respond quickly to help stop the spread of the virus and save lives. Addressing privacy concerns, the Director explained that the app would protect the user's anonymity and nobody, including the government, would know who or where a user was.

Members were keen that any new information concerning the 'Tier' system or changes to the restrictions in the Borough were communicated as soon as possible so that this information could be disseminated to residents quickly and concisely.

RESOLVED

That the content of the presentation be noted.

3 MINIMUM LICENSING STANDARDS CONSULTATION

Consideration was given to a presentation of the Director of Operations and Neighbourhoods updating Members on the implementation of Minimum Licensing Standards for taxi drivers.

Members were informed that the proposals to introduce Minimum Licensing Standards for taxis had been put forward to support the city region's wider Clean Air Plan. The proposals focused on four areas:

- Drivers – common standards;
- Vehicles – accessibility and emissions;
- Operators – accountability; and
- Local Authorities – licensing and enforcement.

It was hoped that the proposals would achieve a single vision for licensed vehicles across the 10 local authority areas and ultimately lead to a zero emissions taxi fleet.

Members queried the impact that the proposals could have upon taxi drivers given that their trade had been significantly impacted by the COVID-19 pandemic. The Director explained that by running the consultation in tandem with the Clean Air Zone consultation, this had allowed the region's local authorities to lever in central government funding to support the taxi trade to upgrade their vehicles, funding that would not otherwise have been available.

The consultation on the proposals would take place from 8 October 2020 for eight weeks and Members hoped that the consultation would not only allow local people to give their views but also provide an opportunity to dispel a number of myths related to the proposals.

RESOLVED

That the content of the presentation be noted.

4 CLEAN AIR PLAN CONSULTATION

Consideration was given to a presentation of the Director of Operations and Neighbourhoods updating Members on the implementation of the Greater Manchester Clean Air Zone. Air pollution was linked to a range of serious health conditions and contributed to around 1,200 early deaths in Greater Manchester each year.

Members were informed that local authorities across Greater Manchester had been mandated by central government to bring nitrogen dioxide levels on local roads within legal limits as soon as possible. The 10 Greater Manchester local authorities had worked together to consider a wide range of measures to tackle air pollution, including a Clean Air Zone. A public consultation on the planned Clean Air Zone for the city region would be launched in October 2020, lasting for eight weeks. The consultation would work to establish how and when the charges would apply and the Director urged Tameside residents to respond to ensure their views were reflected in the final scheme.

It was stressed that the Clean Air Zone would apply only to the most polluting commercial vehicles and would not apply to private cars or motorcycles. The scheme would include financial assistance to help the city region's people and businesses to switch to cleaner vehicles and avoid the charge.

RESOLVED

That the content of the presentation be noted.

CHAIR

Census 2021 in Tameside

@Census2021 | @Cyfrifiad2021

Census 2021

- The census is a survey organised by the ONS that happens every 10 years - and every household takes part.
- Census 2021 is “Digital-First”, 90% of households receiving a Census Invitation Pack, 10% paper version. Paper Questionnaires are available to all.
- **Census Day 2021 - March 21st**
- **What’s New ? 3 new topics (Service in Armed Forces / Gender Identity / Sexual Orientation)**
- **Completion of the Census affects future local funding. So we need a big push to represent Tameside.**

Why is the Census important to Tameside ?

census
2021

Page 7

- **Census 2021 provides us with the most detailed demographic information about society; it will provide information on key demographics, living arrangements, health, education and the jobs we do and the data from it will help inform policy at a local and national level for years to come. It will also provide us with important insights into the impact of the pandemic on our society.**
Completion of the Census affects future local funding. So we need a big push to represent Tameside effectively ensuring services and funding are directed to those places where they are most needed
- **The Census impacts on Health Services incl. GP Surgeries, Schools & Transport Links**
- **Impact of Covid-19 - Yes, Census 2021 is going ahead**

Tameside Key Population Groups

Key Population Groups identified as Hard to Reach. To ensure a successful Census for Tameside, we need to engage effectively with these groups:

- **Pakistani**
- **Bangladeshi**
- **Indian**
- **Eastern European**
- **Adults 80 +**
- **Low Income Households**
- **Veterans**
- **People Lacking Digital Skills Aged 65 +**
- **Digital Access - Economic & Skills**
- **Mental Health & Wellbeing**

Engagement to date

census
2021

- **BAME - Mosques / Temples - Imam Ghulam (Ashton Central Mosque) & Others**
- **Councillor Network - Individual meetings / Development Sessions**
- **Action Together - Dawn Acton**
- **Age UK / Foodbanks**
- **Diversity Matters**
- **Numerous Charities**
- **Eastern European Supermarkets**
- **All Housing Associations**
- **Veterans - TASC - David Brown**
- **Media - Correspondent / Reporter & Radio / In & Around**
- **TOG Mind**

Local Knowledge is Key

- **Local knowledge and expertise is essential to support a successful census in your area. It helps to ensure census information continues to improve, protect and save lives**
- **We need to know of any groups we can engage with**
- **Mechanisms you may have for getting the message out about the census to residents**

Online Census Support Centres

- **We acknowledge the difficulties some residents will have in completing the census online – lack of technology or digital skills**
- **Running six online census support centres - Main Hub - Ashton Library with 5 other local libraries : Denton / Droylsden, Hattersley / Hyde and Stalybridge**
- **Residents will be able to access PCs to complete the census themselves within the library**
- **Residents will be able to access assistance from a trained advisor to complete the census**
- **Impact of Covid-19 on our ability to deliver this offer**

Thank you
Any questions?

January 2021

COVID-19 Update

Page 13

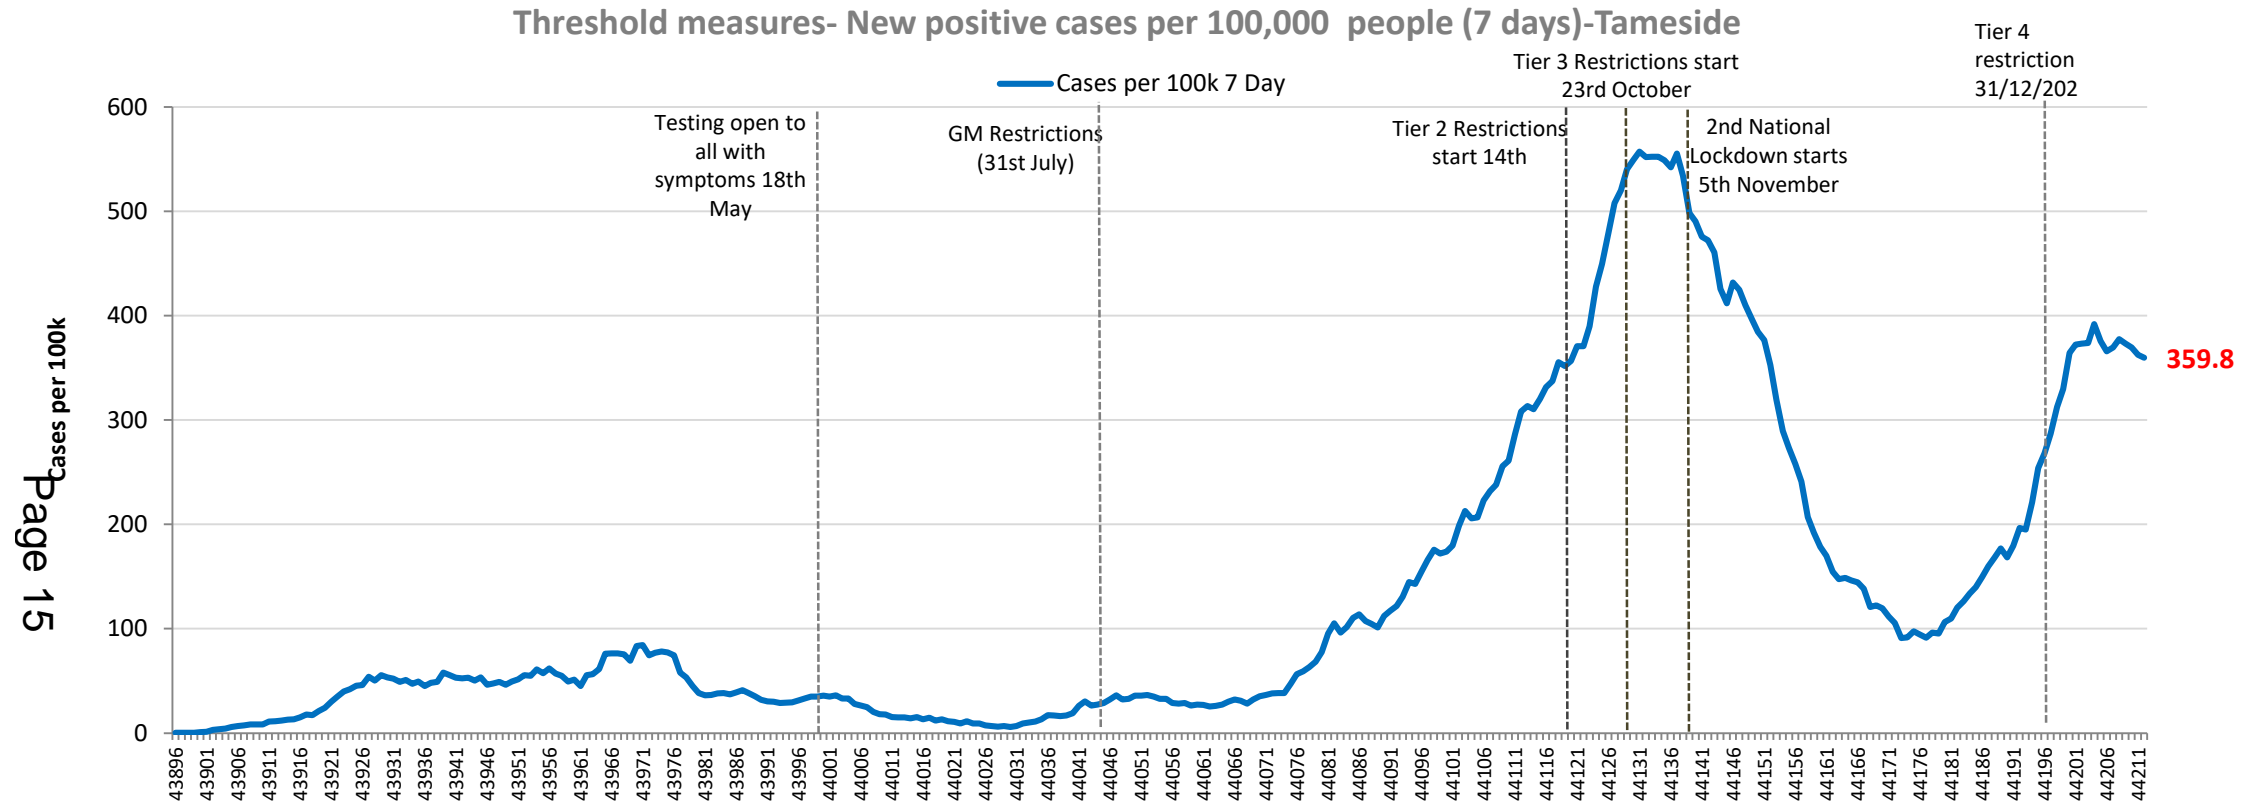

Agenda Item 4.

COVID-19 – What is the Current Situation?

Trends in New Cases for Tameside (16/01/2021)

Current rate of new cases in the last seven days per 100,000 people is **359.8/100,000**

The rate has increased rapidly in recent weeks, however this is showing signs that it is stabilising

Highest numbers of new cases in younger working age adults (20-40)

The Current Situation in Tameside

- Tameside currently 8th lowest rate in GM (Rochdale and Oldham currently lower).
- GM still has lower rates nationally but neighbouring areas such as Liverpool City Region have very high and growing rates.
- The positivity rate (proportion of all tests that come back positive) is reducing.
- Seeing high numbers of outbreaks and some large outbreaks.
- New variant is more transmissible and estimated to be 70% of new cases in Tameside.
- Hospital activity steadily increasing and expected to do so for the coming weeks.

COVID-19 – What is Driving the Current Situation?

What is Driving Spread in Tameside? (1)

There are certain places where COVID-19 spreads more easily:

**Crowded
places**

**Close-contact
settings**

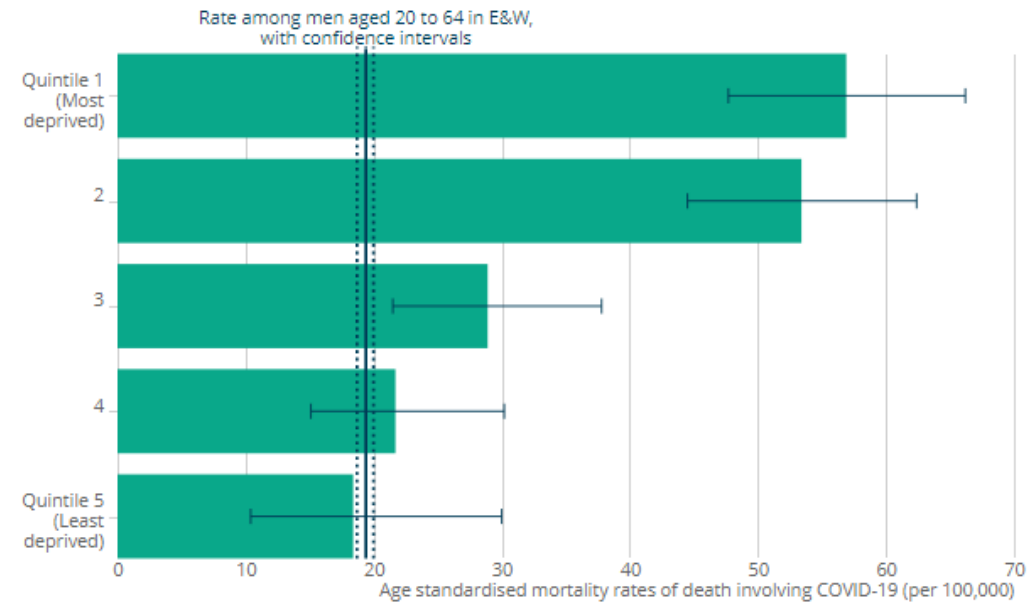

**Confined and
enclosed spaces**

- Widespread circulation of Covid-19 across all parts of the borough.
- Continue to see high numbers of outbreaks in settings across the borough.
- Certain situations increase risk of Covid-19 transmission (The Three C's).

What is Driving the Spread in Tameside? (2)

- Some of our communities are more likely to be exposed to The Three C's
 - people and families living in overcrowded housing
 - people with poor work conditions
 - people who use public transport or car share for work
 - type of work (eg. taxi drivers)
 - smaller settings (takeaways; small shops)
- Some communities at greater risk of severe disease
 - Older people
 - People living with long-term health conditions
 - Occupational exposure

Page 19

Source: Office for National Statistics

- The reasons for this link to existing health inequalities which our residents experience in Tameside

COVID-19 – What Can We Do About It?

Basic Measures to Prevent Transmission

- The same **basic measures** to reduce risk of transmission have been the same throughout the pandemic:
 - Regular, thorough handwashing with soap and running water
 - Social distancing from others of at least 2 metres
 - Wear a face mask/covering when in certain places (especially where the Three C's are more likely)

Page 21

- Following the relevant **guidance and restrictions**
 - Reducing our social contacts
 - National lockdown
 - Only essential retail and travel

- **Finding infections and stopping spread**
 - Test, Trace, Isolate
 - Outbreak Management

Solutions to Tackling the Pandemic

- **Test, Trace, Isolate**

- PCR Testing – wide availability of mobile and fixed sites for those with symptoms to get tested
- Targeted Testing at Scale – rapid lateral flow asymptomatic testing for front line staff and schools
- Contact Tracing – local call handlers / support for high risk settings
- Isolation – messaging and support to self-isolate (including £500 support payments)

- **Covid-19 Vaccination**

- Rapid roll out of the vaccination programme
- Priority groups to prevent deaths and protect the most vulnerable

Encouraging these Solutions in Tameside

- **Ongoing messaging** – lockdown / testing / vaccination.
- **Engaging** with our communities to provide information and listen to concerns.
- **Supporting people** to follow guidelines and reduce spread.
- Finding the right balance on **compliance** (support & enforcement) .
- The **vaccination programme** is already identifying those who may struggle to access (e.g. Troubleshooting transport issues).
- **Humanitarian Response** – this has been ongoing throughout the pandemic but has stepped up again in the new lockdown to provide support to those who need it most in the community.
- **Community Champions** programme.
- **Wider engagement** – workforce; partners (eg. Health & Wellbeing Board); BAME community groups.

Questions?

Page 24

Neighbourhood Forums - January 2021

Why Community Champions - Supporting a COVID Safe and Healthy Tameside ?

Page 26

- Community Health Champions can empower thousands of Tameside residents – like you – to be up to date on the latest advice/messages about COVID, discuss it and share it with friends and family.
- The Council will keep you informed about the latest advice and guidance so that you can help your family and friend and other community members to make sense about the latest facts about the virus.
- By having and sharing clear information, you, your family and friends and community can make informed choices.
- We will give you the chance each week to share back with us what you are hearing and to discuss any questions you may have.

Why Community Champions - Supporting a COVID Safe and Healthy Tameside ?

- Being out and about and visible in the community
- Getting broader health messages out to friends, family and communities
- Support people who may need additional help and support
- Sharing information and key messages and listening to others
- Can help combat fears and anxieties about testing and vaccinations provide up to date details

How Does it Work?

1 Information is provided by zoom, email, soon whatsapp and sometimes phone

2 Information is shared by champions in whatever way works for them

3 Champions share ideas, ask questions and provide great feedback so we can all work together and get the messages and information right.

Page 30

“what do the new measures mean for place of worship?”

“Nobody understands what a support bubble is”

“People really bought into Halloween and changed behaviour when they were given

Champions Positive Feedback

"The two styles of sessions are complimentary."

"Really helped with sharing information and messages with family and friends. The factual information is particularly useful."

"Really helps me with passing information onto patients and also feeding the needs of patients in."

"I really enjoy these meetings and it is very reassuring for the public that we have these channels of communication open."

"The information via the champions has been great and eased lots of anxiety amongst our service users. It has been the best way to deliver up to date, relevant and local information."

"The slide pack is very helpful for me in my role as Community Cohesion Officer. Enables me to pass on correct and up to date information."

"The translated materials and emails are very useful."

"Honest and open conversation – really welcome."

"Can only be a good thing getting messages and information out to a wider audience."

"I look forward to the sessions and have really enjoyed them."

NSL

Ideas for 2021

- Vaccine Q&A
- Whats App broadcast
- Engaging other priority groups e.g. taxi drivers, Board Members
- Make Every Contact Count (MECC)
- Safety in our Communities
- Green Spaces – what we can do locally/what we have locally
- Sensible drinking/Alcohol , Drugs and Homelessness
- Suicide Awareness and Mental Health
- Heart Disease and Cancers

Tameside & Glossop Covid-19 Vaccination Programme

Strategic Neighbourhood Forum
January 2021

Aims of Vaccination

- To prevent morbidity (illness) and mortality (deaths) **by protecting those most vulnerable to Covid.**
- JCVI Priorities:
 - Older age groups
 - Care Home residents and staff
 - Frontline health and social care workers who provide care to vulnerable people
 - Clinically Extremely Vulnerable

Note: pregnant women and those aged under 16 years will not be offered the vaccine at this stage.

Covid Vaccine Update

| | Total number of people vaccinated (1 st dose) | Total vaccinations 1 st and 2 nd dose | % of population in cohorts 1-3 | % of population in cohorts 1-4 | Projected % (22 nd Jan) cohort 1-3 |
|-------------------------|--|---|--------------------------------|--------------------------------|---|
| As at 15/01/2020 | 16,000 | 18,000 | 70.66% | 45.69% | 92.74% |

Page 37

- Approximately 90% of 80+ priority group now vaccinated
- NW average is 36% and national average is 35%
- Health inequalities analysis to be undertaken but access to vaccination data on the national systems is still an issue; working with GM to resolve
- The Safe Steps app shows that 96% of CH residents have given consent to be vaccinated
- Expected deliveries week beginning 18th Jan is 6,000 (4000 OAZ, 2000 Pfizer)
- No wastage and no stockpiling
- 75+ Housebound roll out starts on 18th Jan across all 5 PCNs – aim to complete within 10 days
- Ashton PCN site - Oxford Park - goes live 18th Jan

The Next Phase

AIM: further reduction in hospitalisation and targeted vaccination of those at high risk of exposure and/or those delivering key public services

Page 38

Groups could include:

- Teachers
- Police / first responders
- Military
- Those involved in the justice system
- Transport workers
- Public servants essential to the pandemic response.

Next Steps

- Open Ashton PCN site; Oxford Park
- Complete Priorities 1 – 3 for all PCNS including revisiting Care Homes
- Housebound +70 and appropriate care givers within the home
- Transfer of responsibility for wider health, social care and system staff to ICFT
- Review of activity data including health inequalities; identify if any areas or communities below where they should be and develop mitigating actions
- Review vaccination clinic staffing models; essential to maintain resilient General Practice
- Keep going!

The first phase of the NHS Covid-19 vaccination programme has started.

When it is the right time people will receive an invitation to come forward.

For most people this will be a letter, either from their GP or the national NHS.

This letter will include all the information you will need to book appointments, including your NHS number.

Please do not contact the NHS to get an appointment until you get this letter.

Information on the vaccine is available on the NHS.UK website.

The #COVIDvaccine is here and that's great news for us all!

However, it may be some time before many of us will receive the vaccine so it's important we continue to follow social distancing and other restrictions in place.

Find out more at nhs.uk/CovidVaccine.

HM Government

KEY FACTS ON VACCINES

After clean water, vaccination is the **most effective** public health intervention in the world for saving lives and promoting good health.

Early Help/ Early Years & Neighbourhoods

Motivated

Collaboration

Improved Confidence in IT

Resilience

Creativity

Positive

Mental Health

Working From Home

Flexibility

Supportive

Anxiety

Isolation

Personal Challenges

Early Help

- Targeted support with CSC to support vulnerable families during COVID and lockdown – FIW supported over **400 families on a CIN plan**
- Referral and Links with Humanitarian Hub through Early Help **60+ families supported**
- Secured **over £50,000** of additional funding – community grant & Cash 4 Kids to support families/ Save the Children/ Toy Appeal
This enabled us to purchase specifics to support families
Nappies/ Resources/ Baby Milk/ School Uniforms
- Early Years virtual GROW Offer – group/ activities and 1-1 – **1,200 children supported through Children Centre pathways / over 92 children with SEND/ over 3,000 attendees on virtual groups**
- Parenting Strategy / Early Help Strategy & Webpage Launched **over 9,000 hits**
- Relationship offer developed and launched for families
- Virtual group, online and 1-1 parenting support - Over **200 families** have received support and **120 people trained for delivery**
- Early Years & Education pathway support – daily contacts to support schools and childcare settings and families to support attendance and management of concerns –**964 children** supported only **2 escalated to CSC**
- Virtual Early Help Panel continued
- **53 TAS** & with Family Group Conference support as needed supporting **320 children**
- Developed resource packs to support families to engage with activities on line
- Young Carers service delivered a virtual offer and resource packs for all families
- Duty rota from TFT/ EoC enabling a more responsive service across all levels of support both face to face and in homes
- Created a designated duty team to respond to emergencies

WHAT HAVE BEEN THE CHALLENGES

- Initial adapting to Covid 19
- Working differently throughout the partnership - connectivity
- Confidence to try new ways of working
- Not being able to have face to face with families – we don't know what we don't know
- The impact and sustainability of delivering Evidence based interventions virtually to families – not 'trying and testing' these with families
- The emotional impact on children and young people
- IT
- Gaining Voice of Child and the lived life experience at this time
- How do we know children are safe
- School / Early Years closures
- Working from home
- Moving families down/out of the continuum. VCIFP are offering limited support.
- Keeping schools/settings engaged in the TAS process – low number of EHAs being completed by partner agencies, not being proactive in identifying emerging needs and not seeing this as a priority
- Not having peer to peer support within teams as not office based
- Personal/work life balance – WFH
- Families using COVID as an excuse to disengage
- To get vulnerable children into schools during lockdown
- Administration of Free School Meals has been a challenge/families understanding of this as well/target audience complex needs and our approach

Feedback Received

I just want to let you know that Racheal has done amazing with AR and family she truly is a gem! Her hard work has supported the family to get AR home and cared for by her parents and for her to spend her first Christmas with her family

'Nothing is better than being able to pick up the phone and speak to someone who can point you in the right direction and that is exactly what the Neighbourhood Team have done for me.'

I am incapable of describing what You have done for me and my daughters.. In fact you have done your job with me to the fullest and in good way full of kindness and everything going well because of you and your help.. You was like an angel who holds a magical sticks and achieves for me everything.. My situation has stabilized and I have a permanent house because of your help.. The help this year with with every small and large thing, school, health condition, and everything, and you did not leave me.. even during your holiday you make your friend helped me.. even with my status situation.. you Prepared for me and for my daughters the food and tools which is necessary for the house and many things.. without you I could not bear the situation and the good life her for me and for my daughters..

This has been the most wonderful experience, I've enjoyed all the learning, I now clearly understand how to communicate with my children

PARENTS
"Without the advice from other professionals that form part of our Team Around the School we would not have had the results with mum that we have and in turn this has improved the pupils attendance and the general wellbeing of all the children in the family. The TAS meeting helped the whole family and took inconsideration that the children are Young Carers. We have had no other concerns over the family since the TAS meeting and mum feels that the process worked really well for her family and has helped to make life better for herself and her family which is the best result we could have hoped to achieve."

I thank you unconditionally for ALL your support and good advice. It helped enormously having the family conference...Having you there was just what we all needed. Your a lovely person very easy to talk to and very unjudgmental. I thank you from the bottom of my heart for being there not just for me but ALL of us. Your an inspiration
Xxxx

non-judgmental and made me feel at ease to open up and share the struggles I was facing

Helped me with my anxiety especially now with covid –

Thank You - Please believe me when I say Im so very grateful for what u've done in such a short time for us. U really are a special n deserve everything n more. Have a absolute brill xmas n new year. All my love M M X

I can understand my daughter much better

Service Pressures During Covid

- Social Care and Early Help services have worked consistently throughout the pandemic – unsung heroes
- Demand for Early Help and Social Care services has been very high
 - Services have been resilient and flexible
 - Staff have adapted to new working conditions, sickness and worked at risk of Covid on a daily basis
 - There has been increased external pressures on services such as schools, health and Police
 - Big increase in contacts and referrals from Police
 - Increased pressures on families > additional demand

External Pressures

Risk Averse

Examples of Excellent Work by Social Workers During Covid

- Working innovatively with children and young people using technology and children and young people appreciating this.
- Being creative in seeing children young people in lockdown, not just sitting in the house: going to the park etc.
- Creatively enabling Family Time to happen, not relying on the Contact Centre
- Offering families the option to attend Child Protection Conferences in person or virtually.
- Working more collaboratively with Early Help services around particularly vulnerable families: e.g. food parcels and children missing from education.
- Making better use of family networks to care for children in emergency situations.

Page 49

Schools - Update

- Headteachers and school staff worked tirelessly despite huge challenge
- Disproportionate disruption to education for children in NW and disadvantaged
- In the Autumn term, as of 2 December 2020, almost all schools affected:
 - 579 students and 364 staff confirmed COVID
 - 2,793 students and 131 staff isolated in two weeks previous

Page 50

Current attendance 17% (25% primary) in line with GM

All national exams and assessments cancelled for summer 2021

- Current requirements for schools to remain open for: vulnerable children; critical worker children; nursery
- DfE funding for additional costs incurred due to COVID-19 although there are significant restrictions and concern about the financial pressures on schools

Schools - Support

- Support for schools and colleges continues to be available to all schools
- Collective processes which support safe and sensible local decision-making.
- Planning and communication: daily calls, scenario planning group, TASH, TPC, Special School Heads, at least weekly bulletin from AD Education
- Public Health and Health and Safety webinars
- Risk assessment template and advice, regular COVID Committee review process
- Round the clock availability of officers for schools
- Parent Helpline for parents with children with additional needs

Schools – Remote Learning

- Summer - DfE laptops for children with SW and disadvantaged Y10
 - Autumn/Spring - additional laptops for disadvantaged children isolating due to COVID-19 from Y3
 - Challenging expectation to teach children in school and at home to a high standard
- Support for schools from DfE EdTech Demonstrator school and Russell Scott Primary School
- Improvement & Partnerships offer to schools streamlined and focused on disadvantaged children
- Education Endowment Foundation CPD, Making a Difference for Disadvantaged Learners
 - National Tutoring / Tutor Trust
 - Early language support – Making it REAL; WellComm; Helicopter Stories; Y1 research seminars

Schools – Free School Meals (FSM)

- October half-term over 5,000 supermarket vouchers (£15 per child)
- Winter COVID Grant, supermarket vouchers (£40 per child)
 - Christmas: FSM in schools 9,554, 436 EY Pupil Premium, 1,085 vulnerable 2-yr-olds additional vouchers for families in need who did not meet the criteria
 - February half-term (£15 per child)

Schools are providing food parcels or supermarket vouchers for children isolating or unable to attend school due to COVID-19
