Financial Implications :
(Authorised by the statutory
Section 151 Officer & Chief
Finance Officer)

Whilst there are no direct financial implications arising from the recommendations in this report, the scorecard should assist Members in making decisions regarding the prioritisation of the Council's limited resources.

The CIPFA Financial Management Code sets an expectation that to remain financially sustainable an authority must have timely information on both its financial and operational performance. Performance information should aid Members understanding as to whether spending decisions are achieving objectives, and enable informed decisions regarding the prioritisation of scarce resources in the face of significant financial challenges.

Legal Implications :
(Authorised by the Borough
Solicitor)

Members have a statutory duty to ensure that the Council achieves a balanced budget whilst delivering efficient and effective services addressing priority needs of the Borough.

Clearly in circumstances the council is now in where demands exceed the council's resources it is critically important that the focus is concentrated on where the council can have most impact and reduce inequality, especially in light of the pandemic whilst continuing the delivery of universal services.

This report enables members to consider whether their strategy having desired impact and whether need to focus or redirect resources appropriately.

Risk Management :

Effective use of data, including performance management through scorecards, helps to identify areas where improvement activity is required thus avoiding the risk of service failure. Alongside this services have management information that is used to assess risk and drive improvement.
