

APPENDIX 11

[REDACTED]

I am an 11 year old girl who shops at a street mini market for my mum and dad to get bread and milk. I always feel safe when I am in there or around because I know what lovely people the owners are and how helpful they are too and if anything ever happened around there they knew they would try and help. Having this shop near our house is very helpful if we need anything in the house from bread to.
