

INTRODUCTION:

The Tameside Local Area SEND inspection took place in October 2021. Inspectors identified a number of areas for development, which must be addressed to secure necessary improvements, which will lead to better outcomes for Tameside children and young people with SEND.

The outcome of the inspection is that the Tameside local area has been requested to produce a Written Statement of Action (WSOA). The WSoA will focus on the following 10 areas of significant concern identified during the Local Area SEND inspection:

1. The endemic weaknesses in the quality and, due to the pandemic, timeliness of EHC plans, which lead to poor outcomes for children and young people with SEND across education, health and care
2. The high level of dissatisfaction among parents and carers with the area's provision
3. The local offer not being well publicised and not providing parents with the information that they need
4. The placement of some children and young people in unsuitable education provision
5. The unreasonable waiting times, which lead to increased needs for children and young people and their families
6. The lack of contribution from social care professionals to the EHC plan process
7. The limited oversight of the quality of SEND provision for children and young people's education
8. The inconsistent application of a graduated approach across different settings, leading to weaknesses in meeting needs across the area
9. The poor transition arrangements across all stages of education
10. The lack of strategic direction in the support for children and young people to prepare them effectively for adulthood.

Our WSoA identifies those actions that the partnership will take to secure improvements, how we will measure our success and what difference we expect our actions to make to the Tameside SEND community. It is our ambition to make this a dynamic process, responsive to the changing needs of the Tameside SEND Community and we acknowledge the need to develop and refine our actions as we drive forward to secure improvement. We will therefore produce an annual report to share the success of the actions that we have taken; identify any new challenges and clearly describe our progress in relation to the positive change we are aiming to achieve.

Tameside Council and Tameside and Glossop CCG) are jointly responsible for submitting the WSoA. We will work with our Parent Carer Forum and Our Kid's Eyes (OKE), our schools, colleges, health providers and other stakeholders and together we will own this plan, utilising principles of co-construction and joint working to address all areas requiring improvement.

Joint working will mean that Tameside Council and Tameside and Glossop CCG) commit to a shared vision for the Tameside SEND community and accept equal responsibility for delivering the agreed outcomes for children and young people with SEND. Embedding co-production means that the voice of the Tameside SEND Community will be present in all strategic discussions that will impact on this community. Representatives from the Tameside SEND Community will sit alongside statutory leadership, to inform and shape strategic planning from the earliest point. We will set the agenda together and agree what needs to be talked about, what are the important issues and what we need to achieve. We will put in place the necessary structures so that this ethos of joint working and co-production will be present throughout the Tameside SEND system and will be reflected in the experience of individual children, young people and families so that they are empowered to be fully involved in planning how their support will be delivered and what outcomes will be achieved.

We know that there is much more to do, to ensure that the offer for children and young people with special educational needs in Tameside is good enough. Inspectors found too many weaknesses in our offer and our practice. We were particularly disappointed to have highlighted the poor experience of children and families across the borough. We are committed to addressing every weakness identified and improving the experience and outcomes of children and families, ensuring that the services in place to support them are fit for purpose and effective. Despite these challenges, inspectors noted that leaders have established a clear and accurate view of the area's strengths and weaknesses and drawn up suitable plans to resolve issues. Inspectors also noted Leaders have set a clear vision for the future and have developed SEND strategies to prioritise planned improvements and joint commissioning. However, we agree with inspectors that there is still a long way to go. We are pleased that parents are quick to cite the positive difference made by the excellent front-line staff.

Meeting this challenge and resolving these significant weaknesses will require urgent action. We are committed to improving practice wherever that is required, and also building on, securing and embedding the good practice that already exists across Tameside. We will therefore continue to develop our action plan based on our SEND Strategy and our self- assessment alongside those actions identified within the WSoA.

"I would like to thank everyone who has been involved in the development of the Written Statement of Action. We recognise the areas of concern identified by Ofsted and the Care Quality Commission, and we are committed to working closely with our Parent Carer Forum and other partners such as schools and health providers to make a swift, positive and lasting difference. While we know that there is much work ahead of us, I am confident that the Written Statement of Action gives us a solid foundation on which to begin our improvement journey. An annual report will also be produced to share our successes, identify any new challenges, and ensure that residents can follow our progress in improving the services that we provide to children and young people with Special Educational Needs and Disabilities"

Councillor Leanne Feeley, Executive Member (Lifelong Learning, Equalities, Culture and Heritage)

"Our Kid's Eyes & Tameside's Parent Carer Forum – believes that the parent carer voice must be central to all activity and decision making on provision of SEND services in Tameside. Representatives of parent carers have been actively involved in the development of this Written Statement of Action, and their efforts have seen the principles of co-production start to be embedded through dialogue with senior health decision-makers and engagement at strategic meetings. All children and young people, no matter what their circumstances, deserve the chance to live happy and fulfilled lives. Our focus must now move to building on this positive start, and working with Tameside Council,

Tameside & Glossop Clinical Commissioning Group and other partners to make our joint vision of high-quality and co-produced services a reality. As the voice of Parent Carers locally, we will ensure that the voice of the child and the family is front-and-centre of any progress going forward"

Elaine Healey Chair of Tameside's Parent Carer Forum

"Following the Tameside Local Area SEND inspection in October 2021, Tameside Council and its partners have agreed this Written Statement of Action. As well taking into account all ten priority areas identified within the Inspection Report, we are also resolved to strengthening our commitment to co-production. This will ensure that the aspirations and concerns of Tameside's SEND community and service users are recognised and incorporated into everything we do. Our focus now will be on working closely with service users, the local voluntary sector, and education, health and social care practitioners to co-produce a realistic and ambitious timeframe to deliver and embed improvement. This will be supported by additional funding and resourcing to expand our specialist school capacity, statutory assessment and service pathways. Together, we will make sure that every child and young person with Special Educational Needs and Disabilities in Tameside can achieve their potential"

Ali Stathers-Tracey Director of Children's Services

"Tameside & Glossop Clinical Commissioning Group welcomes the publication of the Written Statement of Action. We remain committed to providing the right services, in the right place, at the right time to ensure that every child and young person with Special Educational Needs and Disabilities can expect and have the same opportunities in life as anybody else. Since the local area inspection last year, together with Tameside Council and our partners, we have undertaken work to start addressing the concerns highlighted in the Inspection Report, including reflecting on our perceived strengths and areas of improvement, reviewing existing action plans, and promoting shared ownership and co-production of any solutions. Progress will be monitored by the CCG's Quality, Performance and Action group to ensure that we are responsive to the changing needs of the local SEND community, and that our actions can be developed and refined as we drive forward to secure all necessary improvements"

Dr Christine Ahmed Tameside & Glossop CCG Governing Body Lead for Starting Well

OUR STRATEGIC AIM:

Our SEND strategy was refreshed in 2020. Our strategy has grown from the collective voices of our SEND community and supports all partners to work together to achieve our shared priorities for development. We aim to work together so that the aspiration of our children and young people becomes not only a possibility for some but the *expectation for all...*

“We want to enable Tameside’s children and young people to have better education, health and emotional wellbeing outcomes. We want to ensure that we provide the right service in the right place, at the right time, supporting children & young people to have a good quality of life, live healthily and to achieve their full potential. The delivery of good and outstanding education to every one of our resident children is a key priority for Tameside MBC. This is because together with support in their early years and to parents and through addressing poverty, the future life chances of those who are currently children will in large part be determined by their educational outcomes as a means to reducing inequality. So our focus is not just upon our formal statutory responsibilities, important though those are, but upon providing effective strategic leadership to ensure that all those partners with a role to play are delivering effectively for our children and young people.”

Tameside Special Education Needs and Disabilities Strategy 2020 – 2023

STATEMENT OF INTENT:

As equal partners we are committed to addressing our areas of improvement and will work with practitioners and leaders from across education, health, and social care, as well as parent carers and young people and the voluntary sector to:

- Improve and address all 10 of the areas identified by the inspectors as being of significant concern
- Agree a realistic and ambitious timeframe to secure improvement
- Build on, achieve and embed our vision so that we can evidence that children and young people with SEND can have and expect the same opportunities in life as others.

To achieve this we will:

- Commit to identify and better understand the significant challenges that we face across the local area
- Secure the commitment and support of all agency decision-makers to overcome these challenges
- Embed co-production across all aspects of our work, including the development, implementation and monitoring of the WSoA, so that parent carers and children and young people with SEND are recognised as equal partners in this work and are fully involved in decision making
- Challenge preconceived expectations where these may place a limitation on what can be achieved
- Embrace and develop new ways of working to support innovative practice, learning from other places delivering better outcomes for children and young people.

- Continue to work in partnership across all services, promoting transparency and consistency in decision making and delivery of support and amend any areas where partnership working can be improved
- Commit to the principles of personalisation and embed these across all aspects of SEND commissioning so that the Tameside SEND system is informed by accurate data; can effectively respond to local need; provide a diversity of choice, is financially sustainable and makes best use of all resources available.

We recognise that SEND is everybody's business and the priorities within our WSoA will be the responsibility of all partners and stakeholders who make up the Tameside local area.

OUR PROGRESS:

Since the local area inspection we have continued to work on our SEND priorities and have made a good start addressing the concerns identified by Ofsted/CQC in October 2021. We have, with parents, colleagues and stakeholders, reflected on our perceived strengths as well as the areas for improvements. We have reviewed our existing action plans and the overall strategic direction to ensure that our longer-term priorities are the right ones and also to promote shared ownership of the SEND agenda and a mutual understanding of our responsibilities to the Tameside SEND community. We have strengthened our commitment to co-production and can evidence increased understanding of the principles of co-production. We have also engineered many more opportunities to gather and reflect the voice of the child and family.

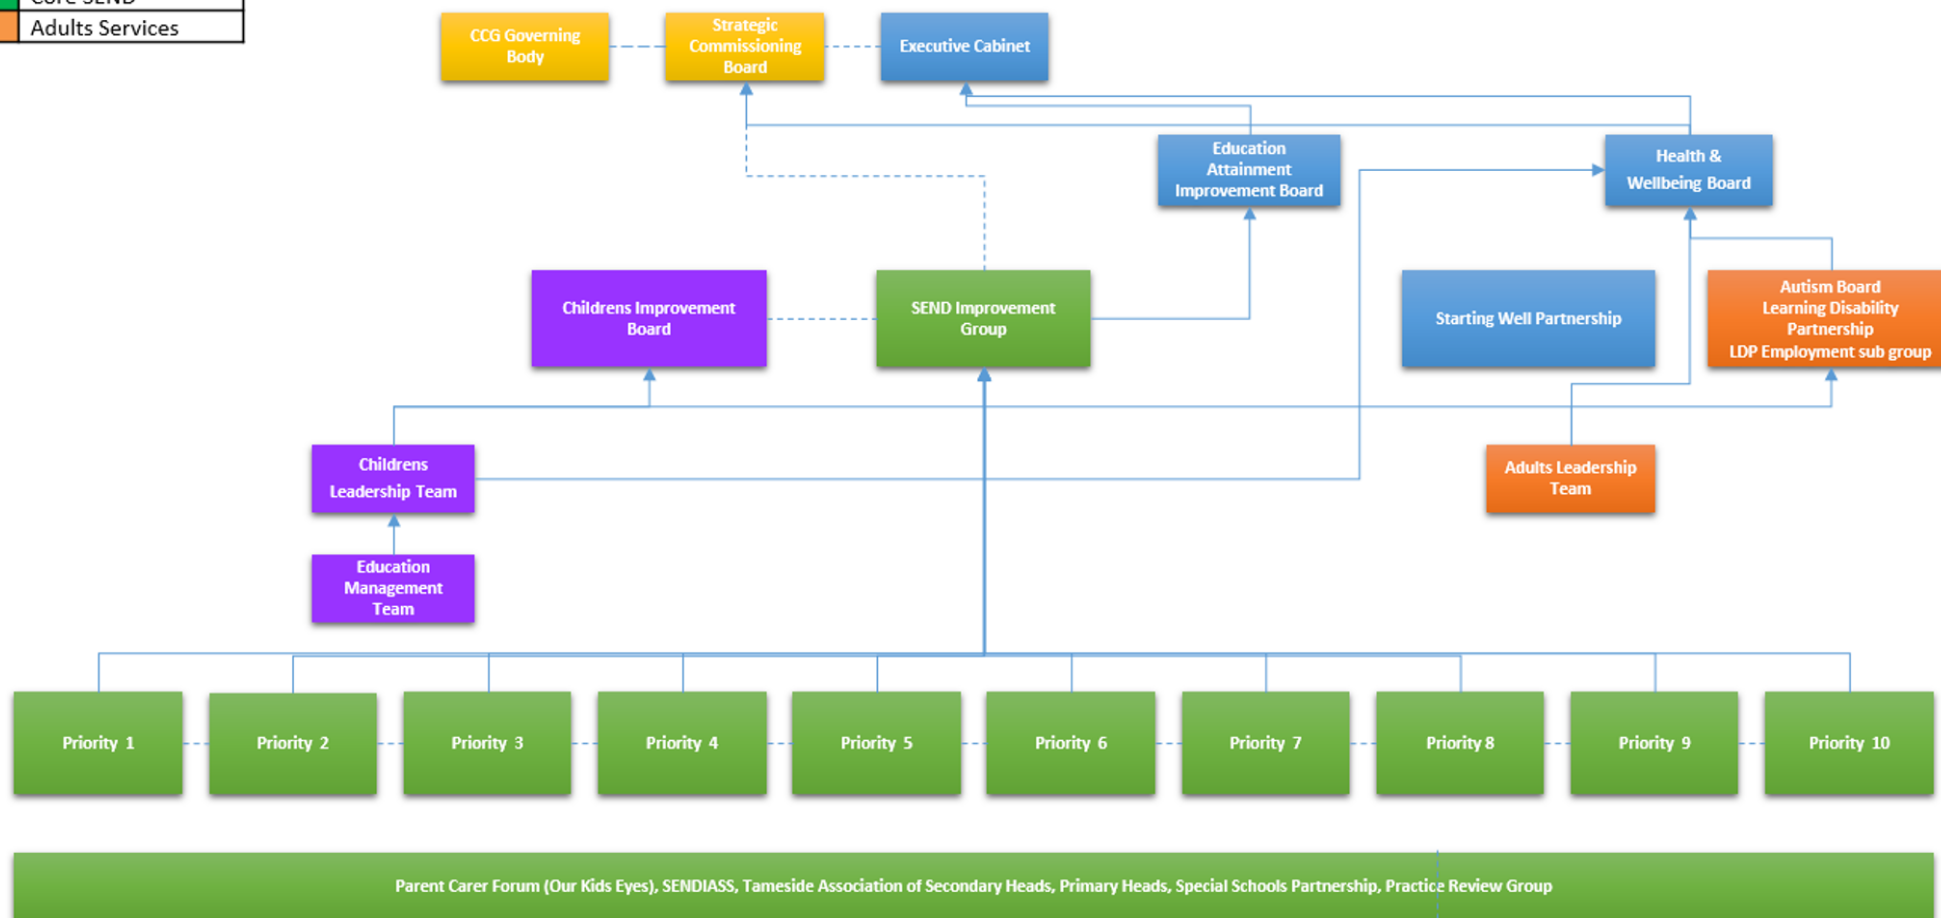

Our Kids Eyes (OKE)- a Tameside-based charity which also facilitates our parent/ carer forum, has established a SEND Inspection Engagement group for parent carers who want to be actively involved in the development and implementation of the WSOA, acting as parent carer representatives. This is supported by information about the WSOA process on the Local Offer, and both daytime and evening online meetings. Regular communications about the development of the WSOA have been shared with the wider SEND community via parent engagement network events.

Parent and carer forum (OKE) has been fully involved in the development of the WSoA, with representation at a number of meetings. OKE is starting to experience improved engagement in health strategic meetings, now providing parent carer representation on the Learning Disability and Autism Board. Access to senior health decision-makers is reported as starting to improve.

SEND GOVERNANCE:

Tameside SEND Governance Structure

	Adults Services

OUR PRIORITIES:

Priorities will be assigned to improvement work streams. Named leads have been identified for each priority and it is the responsibility of the person undertaking this role to ensure that all work is co-produced; that progress toward securing improvement is timely and that information is provided to the SEND strategic board (known locally as the SEND Improvement Group - SENDIG). This will ensure appropriate challenge and scrutiny can enable the local area to meet its statutory responsibility and address the significant concerns identified through the local area SEND inspection October 2021. Formal oversight of the implementation of this WSOA will be undertaken by the Education Attainment Improvement Board (EAIB) and Health and Well Being Board. These formal committees, chaired by elected members, will ensure transparent and robust governance.

In addition to the specific key performance indicators (KPIs) that have been identified within the priorities below, additional KPIs will be identified for each priority and work stream to measure the extent of progress across all priorities. KPIs are evident within all action plans for each area of work. The identification and collation of comprehensive baseline data that will enable progress to be accurately evaluated and reported on will be an immediate priority of the local area and will be reviewed by the SEND strategic board (SENDIG) quarterly. A comprehensive and co-produced survey to capture baseline data will be undertaken. This will be completed by the end of May 2022. In addition, a work stream will be allocated to each of the priority areas and each work stream lead will be responsible for ensuring that appropriate impact data is identified and collected and that progress against impact as well as progress against outcomes is collated and presented to SENDIG monthly. The SENDIG will review progress against impact quarterly to ensure actions and milestones are achieved and delivered in line with our shared ambition. We will also report formally to the EAIB and Health and Well Being board. Completion dates identified alongside each action may indicate a timeframe for completion rather than a specific completion dated. This is to ensure that work is initiated at the earliest opportunity whilst also acknowledging that an action may have multiple elements to it that require a longer time period in order to ensure that an action is embedded so that impact can be measured effectively. Some actions will be ongoing, where this is the case, this is indicated within the table below.

Alongside these priorities we will continue to develop the work that we had identified as ongoing and incomplete, this will enable us to continue to work on those areas that our parent carers, children and young people had identified are important to them.

Funding

As well as drawing on existing resources from a range of initiatives and funding streams to focus on the priorities within this plan, significant additional financial resources, in excess of £1million, have been secured and directed towards supporting the implementation of the actions in this plan. In addition, more than £20 million of capital funding has been identified to expand and improve on the specialist school offer across Tameside. This will ensure that the Local Area makes a real impact on the lives of children and young people with SEND and their families. Importantly, the CCG and Tameside Council have committed additional resources to co-fund a project officer to support the SENDIG in driving the improvements forward to work alongside local area leaders to establish and embed the principles of co-production. Tameside Council is

investing heavily to implement our SEND Sufficiency Plan and also to secure additional capacity to support improvements across statutory assessment; the CCG has allocated additional financial resource to support the work on the DCO, Therapies, CAMHS and ASD pathways. Details are included in the plan.

Priority 1	The endemic weaknesses in the quality and, due to the pandemic, timeliness of EHC plans, which lead to poor outcomes for children and young people with SEND across education, health and care
Lead	Charlotte Finch (Head of SEND), Wendy Young (Deputy Head of SEND)

Outcomes:

- 1.1 Improved timeliness of EHC Plans.
- 1.2 Improved quality of EHC Plans.
- 1.3 Improved culture of co-productivity and greater engagement with children and families and agreement among all contributors that SEND is “everybody’s business”.
- 1.4 Good quality health advice that accurately reflects children and young people’s needs.
- 1.5 Professionals are confident that the established quality assurance processes are appropriately supportive and challenging and will increase the quality of EHC Plans.

Impact Measures:

These are the key impact measures to determine the success of Priority 1 of this plan. Further detail about the impact of each action is included in the table below.

1. An improvement in the timeliness of EHCPs to achieve an average of at least 65% within a 12 month rolling period by December 2023, (above national average).
2. Improvement in the number of positive responses of the Statutory Assessment parent / carer satisfaction survey. Following the completion of the survey to acquire an initial baseline. Comparing to baseline results (established in July 2022), 10% improvement by July 2023, 25% by July 2024, and working towards at least 51% of parents reporting a positive experience by December 2024.
3. Children & young people feel genuinely heard and able to influence outcomes, not just individual level but also on a strategic level. Following a baseline student feedback survey in October 2022 with particular reference to the voice of the child, improvement of 25% from the baseline by October 2023 with at least 51% of children & young people reporting a positive experience by October 2024.
4. An improvement in performance so that by December 2023 at least 60% of advice reports are completed and returned within the 6-week timescale.
5. 60% of the statutory assessment workforce has training in the first year, 80% in the second year and 90% of the workforce will be trained by the third year.
6. At least 60% of new EHCPs achieve a pass rate against QA tool by December 2023.

Priority 2	The high level of dissatisfaction among parents and carers with the area's provision
Lead	Charlotte Finch (Head of SEND)

Outcomes:	
2.1 Increased parental satisfaction – as evidenced in survey returns 2.2 Parents and families feel that they are well informed and listened to in a timely manner 2.3 Parents and carers feel well prepared and have greater involvement in person centred planning 2.4 Successful completion and delivery of the area SEND sufficiency Plan.	
Impact Measures:	
<i>These are the key impact measures to determine the success of Priority 2 of this plan. Further detail about the impact of each action is included in the table below.</i>	
<ol style="list-style-type: none"> Parents and carers report that they are well informed and can see their feedback is reflected in all SEND improvement work. Improvement in the number of positive responses of the area parent / carer satisfaction survey. Following the completion of the survey to acquire an initial baseline (established in July 2022). Comparing to baseline results, 10% improvement by July 2023, 25% by July 2024, and working towards at least 51% of parents reporting a positive experience by December 2024. Fewer complaints received regarding SEND educational provision – complaints categorisation process to be implemented and baseline established by December 2022. 10% reduction by December 2023 in interim reviews requesting a change of placement – reporting process to be established and implemented by December 2022. Lower rates of fixed term (FT) exclusions of children and young people with EHCPs as a result of the positive impact of the SEND Sufficiency Plan so that Tameside is in line with, or better than, the national average. The most up to date published data for a full academic year indicates 8.5% of pupils with an EHCP received one or more fixed term exclusions in Tameside, which is more than pupils with an EHCP nationally. Increase SEND specialist provision across the borough, including the development of satellite bases within mainstream settings, in line with SEND sufficiency strategy to meet need (100 additional places by December 2023).

Priority 4	The placement of some children and young people in unsuitable education provision
Lead	Wendy Young (Deputy Head of SEND) and Pierre Coiffait (Headteacher, Hawthorns Primary Special School)

Outcomes: 4.1 Successful implementation of the area SEND Sufficiency Plan. 4.2 Improved parental satisfaction with education provision. 4.3 Increased specialist capacity and capability. 4.4 Improved culture of inclusion across all settings. 4.5 Annual Review management and monitoring process in place - all Capita one IT systems fit for purpose.
Impact Measures: <i>These are the key impact measures to determine the success of Priority 4 of this plan. Further detail about the impact of each action is included in the table below.</i>
<ol style="list-style-type: none"> Reduction in independent specialist placements of 20% by September 2024. Currently we have 71 students in independent specialist placements, this will reduce to 55 at the most by September 2024. There is a reduction in fixed term exclusions of children and young people with EHCPs, as a result of the positive impact of the SEND Sufficiency Plan. As a result, Tameside is in line with, or better than, the national average. The most up to date published data for a full academic year indicates 8.5% of pupils with an EHCP received one or more fixed term exclusions in Tameside which is more than pupils with an EHCP nationally. 50% reduction in in-year transition between settings (baseline to be established). Reduction in complaints relating to school placement by September 2024 - baseline to be established by complaint audit by December 2022.

5. Improvement in the number of positive responses of area parent / carer satisfaction survey- comparing to benchmark survey result, with specific focus on school provision. At least 51% by December 2024.

Priority 6	The lack of contribution from social care professionals to the EHC Plan process
Lead	Daniel Murphy (Service Unit Manager, Children's Social Care) DSCO – (recruitment in process)

Outcomes:

- 6.1 Improvement in the quality of social care contributions to EHC Plans, and in the timeliness of contributions from social care professionals to the EHC plan process
- 6.2 Through co-produced training, develop an improved understanding of the EHC Plan process with all social care professionals
- 6.3 Shared Practice Standards for contribution from social care professionals to the EHC Plan process implemented across the service
- 6.4 All requests for statutory assessment will result in the receipt of social care advice, including those not known to social care.

Impact Measures:

These are the key impact measures to determine the success of Priority 6 of this plan. Further detail about the impact of each action is included in the table below.

1. At least 85% of social care advice as part of the EHCP assessment will be returned within statutory timescales throughout all social care departments and threshold of involvement by December 2023.
2. 100% of children open to an EHC needs assessment will be contacted by the Early Help Access Point and offered information about the Local Offer, and to be offered an Early Help Assessment by December 2023.
3. 100% of new EHCPs will be informed by appropriate social care advice by December 2023.
4. Children and families have faster access to appropriate assessment. Consequently, children and families have a more positive experience of the statutory assessment service overall. Evidenced by improvement in the number of positive responses to the statutory parent / carer satisfaction survey, following the completion of the survey to acquire an initial baseline by July 2022. Comparing to baseline results, 10% improvement by July 2023, 25% by July 2024, and working towards at least 51% of parents reporting a positive experience by December 2024.

6.3 Shared Practice Standards for contribution from social care professionals to the EHC Plan process implemented across the service								
6.3.1 [6.4] IM 1, 2, 3 & 4	Develop and implement Practice Standards for the contribution from social care professionals to the EHC Plan process.	January 2023	DSCO	SEN Assessment Team, CSC, Early Help	20 days	Set of practice standards developed and implemented with flowcharts to give clear instruction for expected social care involvement in EHC process.	Improved performance from social care contributors, enables a more positive experience of the assessment experience for children and families and greater confidence in the process overall. This will be evidenced by improvement in the number of positive responses to the statutory parent / carer satisfaction survey, following the completion of the survey to acquire an initial baseline, with specific reference to questions around the understanding of the child's needs. Comparing to baseline results, 10% improvement by July 2023, 25% by July 2024, and working towards at least 51% of parents reporting a positive experience by December 2024.

							In addition, there will be a reduction in the number of complaints relating to the quality of social care advice and timeliness of assessments. (Complaints baseline to be established by December 2022).	

Priority 7	The limited oversight of the quality of SEND provision for children and young people's education
Lead	Jane Sowerby (Head of Education Improvement and Partnerships) Andrew Foord (Headteacher, Cromwell Specialist School) ; Bev Oldham (Headteacher, Discovery Academy); Gus Diamond (Headteacher, All Saints Catholic College); Tina Tray (Headteacher, Oakdale Primary Special School)

Outcomes:

7.1 SEND data is used to understand and improve SEND provision

7.2 Best practice SEND provision is identified and effectively shared to ensure that children are prepared for the next stage of their education or life journey

7.3 SEND provision in schools and settings is effectively evaluated and LA has clear oversight

Impact Measures:

These are the key impact measures to determine the success of Priority 7 of this plan. Further detail about the impact of each action is included in the table below.

1. A baseline is established (September 2022) to measure improved outcomes for children with SEND; we will benchmark against both statistical neighbours and set a challenge target to match national outcomes by September 2024. (This will be a deliberate stretch target as outcomes achieved by authorities with the same context as Tameside are below national outcomes.)
2. Children and families will see an improvement in the confidence of teachers to support children with SEND evidenced through annual teacher surveys; 10 % improved practitioner confidence reported by September 2023 (from a baseline established by September 2022) until at least 65% confidence is realised by September 2024.
3. At least 40% of schools sign up to the Inclusion Quality Partnership (IQP) by September 2024.
4. Practice in settings is improved as a result of practice sharing between schools evident through case studies, a reduction in incidents of interim reviews requesting amendment and a change of setting - 10% reduction by December 2023 in interim reviews requesting a change of placement – reporting process to be established and implemented - and by improvement on the July 2022 baseline in the number of parents reporting a positive experience of provision in the area parent / carer satisfaction survey: 10% by July 2023, 25% by July 2024, and at least 51% by December 2024.
5. Annual reduction in complaints relating to parent experience of area provision following December 2022 baseline (complaints categorisation process to be implemented and baseline established by December 2022).

Priority 8	The inconsistent application of a graduated approach across different settings, leading to weaknesses in meeting needs across the area
Lead	Erica Douglas-Osborn (Senior Specialist Educational Psychologist) and Naomi Cartledge (Headteacher, Corrie Primary School and Specialist Resource Base)

Outcomes:

- 8.1** The graduated approach as exemplified in Tameside's 'Thrive Matching Provision to Need' (MPTN) document is embedded across Tameside and utilised by educational settings.
- 8.2** Positive change in attitude, ethos, skills and knowledge across education settings shown in an increase of inclusive practices (e.g. increase in breadth of support provided within mainstream settings / reduction in permanent exclusions etc.).
- 8.3** An improvement in practice across the sector, generated by access to workshops and training, and sharing of practice between settings.

Impact Measures:

These are the key impact measures to determine the success of Priority 8 of this plan. Further detail about the impact of each action is included in the table below.

- 85% of schools in Tameside access the SEND CPD 'passport' by September 2024. 60% of educational settings attend SENDCo networks and evaluations demonstrate that 85% of SENDCos are positive about the impact of the networks on practice by September 2023.
- 60% of education settings report in the annual SENDCo Survey that they use MPTN to support children with SEND in their settings by September 2024.
- Annual SENDCo surveys demonstrate improved confidence in using MPTN and the Assess-Plan-Do-Review (APDR) approach with 10 % improved practitioner confidence reported by September 2023 (from a baseline established by September 2022) until at least 65% confidence is realised by September 2024.
- 40% of schools and settings have accessed the peer coaching support model and case studies demonstrate practice change by September 2024.

Priority 9	The poor transition arrangements across all stages of education
Lead	Jane Sowerby (Head of Education Improvement and Partnerships) , Mel Wicks (Executive Principal Stamford Park Trust), Peter Taylor (Principal, Audenshaw Boys Academy), Jane Martin (Ashton Sixth Form College)

Outcomes:

- 9.1 Timely, strategic and effective programme for review of plans at key transition points established.
- 9.2 Clear SEND transition protocol and standardized paperwork in place and practice embedded, including targeted approaches, resulting in improved understanding of the transition protocols among children and families.
- 9.3 Standardised SEND transition paperwork and data sharing established.

Impact Measures: *These are the key impact measures to determine the success of Priority 9 of this plan. Further detail about the impact of each action is included in the table below.*

- 85% of annual reviews in place for key transition points in early years, 6 to 7, and KS4 to 5 at least one year in advance of regular transition activity, in place by September 2024.
- Feedback from children & young people via young people's fora demonstrates understanding of the transition process and confidence in it. Compared to a baseline of student feedback via a survey, with particular reference to transition, in October 2022 there will be an improvement of 25% by October 2023 with at least 51% of children & young people reporting a positively by October 2024.

Priority 10	The lack of strategic direction in the support for children and young people to prepare them effectively for adulthood
Lead	Mark Whitehead (Head of Operation Services, Adults) and Sarah Jamieson (Head of Economy, Employment & Skills)

Outcomes:

10.1 Preparing for Adulthood Plan (PfA) refresh is co-produced with all stakeholders including those with lived experience. The plan provides clear strategic direction, clear multi-disciplinary governance, oversight of the plan, staff development and improved processes.

10.2 Updated tracker (register) to capture all young people with EHCPs in need of social care from aged 14+ effectively linked with housing and support planning within Adult Social Care, and informing joint commissioning decisions regarding future delivery models for young people.

10.3 The Learning Disability and Autism Strategies align to the Preparing for Adulthood Plan objectives and that these are monitored via the established Tameside Partnership Board, the Greater Manchester Delivery Group and the Greater Manchester Health and Social Care Partnership governance and reporting structure.

10.4 Improved access to health provision that is available for those with more complex needs.

Impact Measures:

1. An increase in % of KS4 cohort with SEND who are in Education & Employment or Training to at least be in line with national average of 89% for 2021 (Tameside at 88% in 2020).
2. An increase in annual health checks for 14-25 year olds with a Learning Disability to be at least in line with the National Target of a minimum of 75% in 2022/23. Currently 63% 2021/22.
3. Maintain the proportion of people (aged 18+) with LD living in own homes (ASCOF 1G) in Tameside. Ensuring we remain above NW average which was 87% in 2021.
4. Area parent / carer satisfaction survey demonstrates an increase in the proportion of the SEND community who feel included in decisions regarding preparation for adulthood. Following the completion of the survey to acquire an initial baseline by July 2022. Comparing to baseline results, 10% improvement by July 2023, 25% by July 2024, and working towards at least 51%+ of parents reporting a positive experience by December 2024.
5. Young people feel they have greater insight into the opportunities afforded by the PfA process, including supported internships, and complete an annual SEND survey which show improved satisfaction among learners. Following a baseline survey in October 2022, with particular reference to PfA, improvement of 25% from the baseline by October 2023 with at least 51% of young people reporting a positive experience by October 2024.
