Purpose of this report

This report provides the Audit Committee with an update on progress in delivering our responsibilities as your external auditors.

Audit progress

2020/21 financial statements audit

Our audit of the Council's 2020/21 financial statements is substantially complete. Finalisation of the audit is subject to the resolution of a small number of queries in relation to infrastructure assets and pension liabilities.

Committee Members will recall the national, technical accounting issue in relation to the accounting for infrastructure assets. Since the last meeting of the Audit Panel, the Department for Levelling Up, Housing and Communities (DLUHC) issued a statutory override, which provides a temporary solution up to the 2024/25 financial year. CIPFA released updated guidance based on the statutory override on 11 January 2023. The Council's finance team has reviewed the updated guidance and has updated the financial statements for the new guidance. We are in the process of completing our audit procedures on this area.

The auditor of Greater Manchester Pension Fund has notified us of a potential issue in respect of the valuation of level 3 investments. Until their work in this area is finalised, we are unable to determine the impact on the Council's accounts. We are awaiting further correspondence from the auditor of Greater Manchester Pension Fund before being able to finalise our audit.

We will report the results of our work in our Audit Completion Report.

2020/21 work on the Council's arrangements to deliver value for money

We are completing our fieldwork on the arrangements for the 2020/21 financial year, and intend to report the findings from our work in our Auditor's Annual Report.

2021/22 financial statement audit

Our audit of the Authority's 2021/22 financial statements is progressing. Our audit planning procedures are complete and we will issue our Audit Strategy Memorandum to the next meeting of the Audit Panel.

1. FRC Major Local Audit Inspection Report - October 2022

The FRC is responsible for monitoring the quality of the audits of the largest health and local government entities (called Major Local Audits or MLAs). They do this by annually inspecting a sample of MLAs from each of the audit firms who deliver this work. In their most recent publication, they reported on their review of 20 MLAs, three of which related to Mazars. The ICAEW also reviewed 17 non-MLAs (none from Mazars).

Audit firms undertaking local audits	Number of major local audits (within scope of AQR inspection)	Market share %	Reviewed by AQR in 2021/22
Grant Thornton UK LLP	125	39.8%	7
Ernst & Young LLP	72	22.9%	4
Mazars LLP	55	17.5%	3
KPMG LLP	24	7.7%	2
BDO LLP	21	6.7%	2
Deloitte LLP	17	5.4%	2
Total	314		20

Overall, the FRC found that the number of audits categorised as good or limited improvements required has remained consistent with the prior year. However, there was an increase in the number of audits assessed as requiring significant improvements and they deemed this as unacceptable.

All financial statement reviews – for the firms inspected

For Mazars, the FRC found that all 3 2021.22 files reviewed met the expected standards.

This was the second successive year of 100% compliance for Mazars.

Whilst the sample size is small and focused on the higher risk audits, these strong outcomes reflect the investment we have made in people, technical expertise, specialists (such as building an in-house valuation team) and strengthening our audit methodology. Maintaining and improving audit quality is a key objective of the firm and our investment will continue.

2. Insourcing in the Public Sector: A Practical Guide (2022 edition), December 2022

The guide is an information source for public bodies to help widen their understanding of insourcing and support internal discussion on whether services should be brought back in-house and, if so, how they should be brought back in. In recent times, several outsourced arrangements have failed due to poor quality and unreliability of providers. It is important to note that while insourcing does not require a public body to run a full procurement process, it still needs to follow a process and undertake key steps (for example, TUPE and asset transfer) and is equally reliant on the public body having expert and skilled personnel to manage this.

This practical guide will support public sector practitioners in understanding key areas to focus on when considering insourcing as part of future delivery models.

3. CIPFA Bulletin 12 Accounting for Infrastructure Assets Temporary Solution, January 2023

The CIPFA Bulletin 12 – Accounting for Infrastructure Assets – Temporary Solution covers the issues to be considered regarding the temporary solution for the accounting and reporting issues relating to infrastructure assets.

The objective of the bulletin is to provide guidance on the temporary solution for accounting for infrastructure assets, focussing on the reporting of the derecognition provisions where there is replacement expenditure and particularly for highways infrastructure assets

The temporary solution includes the Update to the Code and Specifications for Future Codes for Infrastructure Assets (Update to the Code) from 1 April 2021 to 31 March 2025 which features a temporary relief not to report gross cost and accumulated depreciation for infrastructure assets and the statutory prescriptions from England and Wales and Scotland

The Bulletin also includes guidance on accounting for the pattern of consumption of economic benefits and service potential i.e. depreciation.

The Bulletin includes guidance on materiality, an overview of different elements of the temporary solution, the accounting requirements for derecognition including the statutory prescription, the impact on accounting policies and the reporting requirements for disclosure of gross cost and accumulated depreciation

6. Audit Committees: Practical Guidance for local Authorities and Police (2022 edition), October 2022

Audit committees are a key component of governance. Their purpose is to provide an independent and high-level focus on the adequacy of governance, risk and control arrangements. They play an important role in supporting leadership teams, elected representatives, police and crime commissioners and chief constables.

This edition updates CIPFA's 2018 publication to complement the 2022 edition of the CIPFA Position Statement on audit committees. The suite of publications has separate guidance resources for audit committee members in authorities, members of police audit committees, and a supplement for those responsible for guiding the committee.

New aspects include legislation changes in Wales and new expectations in England following the Redmond Review. All authorities and police bodies are encouraged to use the publication to review and develop their arrangements in accordance with the Position Statement.
