The revenue and capital budget allocations are subject to robust monthly monitoring within the Adult Services Directorate budgets during the 2023/24 financial year, the details of which are reported to the Council's Executive Cabinet. Each of the funding allocations are also be monitored in accordance with their related grant conditions.

The quarter 2 monitoring return of the related metrics for the Tameside locality that are delivered by the schemes within the 2023/24 plan are provided in **Appendix 1**.

Expenditure monitoring details are to be provided in the quarter 3 monitoring return that has to be submitted to the BCF national team by 9 February 2024. This will be presented to the Health and Wellbeing Board for approval on 14 March 2024.

**Legal Implications:
(Authorised by the
Borough Solicitor)**

The Better Care Fund Framework 2022/23 is a central government initiative intended to ensuring joint working between health, social care and housing services to help older people and those with complex needs and disabilities to live at home for longer.

As part of this joint working, local authorities are required to develop capacity and demand plans for intermediate care covering both admissions avoidance and hospital discharge across health and social care to help the system prepare for winter.

1. INTRODUCTION

- 1.1 This report provides details of the Quarter 2 monitoring return against the Better Care Fund (BCF) plan 2023/25.
- 1.2 It is a requirement that locality areas provide regular monitoring updates to the Health and Wellbeing board prior to submission. This as part of the national assurance and moderation process.
- 1.3 The core purpose of BCF is to support people to live healthy, independent and dignified lives, through joining up health, social care and housing services seamlessly around the person. The two core BCF objectives are:
 - Enable people to stay well, safe and independent at home for longer
 - Provide the right care in the right place at the right time
- 1.4 The BCF plan 2023/25 includes the following metrics:
 - Unplanned hospitalisations for chronic ambulatory care sensitive conditions,
 - Proportion of hospital discharges to a person's usual place of residence,
 - Admissions to long term residential or nursing care for people over 65,
 - Reablement outcomes (people aged over 65 still at home 91 days after discharge from hospital to reablement or rehabilitation at home), and;
 - Emergency hospital admissions for people over 65 following a fall.

2. 2023/24 MONITORING

- 2.1 As part of the BCF plan 2023/25, the Health & Wellbeing board agreed our integrated plans for Urgent Care, Length of Stay (LOS) and discharge, out of hospital 2 hour urgent care response all of which are supported and embedded through BCF funding and linked to the capacity and demand monitoring.
- 2.2 A key focus on reducing the length of stay for residents/patients both in hospital and in intermediate care has meant the locality has been able to sustain increased demand within existing capacity. However, we have seen an increased demand for community reablement and so capacity has been increased accordingly.
- 2.3 **Appendix 1** provides a copy of the Quarter 2 23/24 monitoring for information and approval.

3. RECOMMENDATIONS
