

Report to:	SINGLE COMMISSIONING BOARD
Date:	11 April 2017
Reporting Member / Officer of Single Commissioning Board	Angela Hardman, Executive Director, Public Health and Performance Anna Moloney, Consultant in Public Health
Subject:	DELIVERING EXCELLENCE, COMPASSIONATE, COST EFFECTIVE CARE – GOVERNING BODY PERFORMANCE UPDATE
Report Summary:	<p>This report provides the Single Commissioning Board with a quality and performance report for comment.</p> <p>Assurance is provided for the NHS Constitutional indicators. In addition Clinical Commissioning Group information on a range of other indicators are included to capture the local health economy position. This is based on the latest published data (at the time of preparing the report). This is as at the end of January 2017.</p> <p>The format of this report will include elements on quality from the Nursing and Quality directorate as this report evolves.</p> <p>This report also includes Adult Social Care indicators.</p> <p>This evolving report will align with the other Greater Manchester Health and Social Care Partnership and national dashboard reports.</p> <p>The following have been highlighted as exceptions:</p> <ul style="list-style-type: none"> • Diagnostic standard improving but still failing the standard; • A&E Standards were failed at Tameside Hospital NHS Foundation Trust; • Ambulance response times were not met at a local or at North West level; • Improving Access To Psychological Therapies (IAPT) performance for Access and Recovery remain a challenge; • 111 Performance against Key Performance Indicators; • MRSA; • 62 day Cancer upgrade. <p>Attached for information is the Draft Greater Manchester Partnership dashboard and the latest NHS England Improvement And Assessment Framework (IAF) Dashboard.</p>
Recommendations:	The Single Commissioning Board is asked to note the contents of the performance and quality report, and comment on the revised format.
Financial Implications: (Authorised by the statutory Section 151 Officer & Chief Finance Officer)	The updated performance information in this report is presented for information and as such does not have any direct and immediate financial implications. However it must be noted that performance against the data reported here could potentially impact upon achievement of CQUIN and

QPP targets, which would indirectly impact upon the financial position. It will be important that whole system delivers and performs within the allocated reducing budgets. Monitoring performance and obtaining system assurance particularly around budgets will be key to ensuring aggregate financial balance.

Legal Implications:

(Authorised by the Borough Solicitor)

As the system restructures and the constituent parts are required to discharge statutory duties, assurance and quality monitoring will be key to managing the system and holding all parts to account and understanding best where to focus resources and oversight. This report and framework continues to be developed to achieve this.

How do proposals align with Health & Wellbeing Strategy?

Should provide check & balance and assurances as to whether meeting strategy.

How do proposals align with Locality Plan?

Should provide check & balance and assurances as to whether meeting plan.

How do proposals align with the Commissioning Strategy?

Should provide check & balance and assurances as to whether meeting strategy.

Recommendations / views of the Professional Reference Group:

This section is not applicable as this report is not received by the professional reference group.

Public and Patient Implications:

Patients' views are not specifically sought as part of this monthly report, but it is recognised that many of these targets such as waiting times are a priority for patients. The performance is monitored to ensure there is no impact relating to patient care.

Quality Implications:

As above.

How do the proposals help to reduce health inequalities?

This will help us to understand the impact we are making to reduce health inequalities. This report will be further developed to help us understand the impact.

What are the Equality and Diversity implications?

None.

What are the safeguarding implications?

None reported related to the performance as described in report.

What are the Information Governance implications? Has a privacy impact assessment been conducted?

There are no Information Governance implications. No privacy impact assessment has been conducted.

Risk Management:

Delivery of NHS Tameside and Glossop's Operating Framework commitments 2016/17

1. INTRODUCTION

- 1.1 The purpose of this iterative report is to provide the Board with a quality and performance report for comment. The quality and performance report format aims to provide a dashboard view of indicators and provide exception reporting as appropriate. This evolving report will align with the other Greater Manchester Health and Social Care Partnership and national dashboard reports.
- 1.2 The format of this report will include further elements on quality from the Nursing and Quality Directorate as this report evolves.
- 1.3 It should be noted that providers can refresh their data in accordance with national guidelines and this may result in changes to the historic data in this report.

2. CONTENTS – QUALITY AND PERFORMANCE REPORT

- 2.1 NHS Tameside & Glossop Clinical Commissioning Group: NHS Constitution Indicators (January 2017).
- 2.2 Adult Social services indicators. (Quarter 3 16/17) - these will be further expanded on in future iterations of this report.
- 2.3 Exception Report - the following have been highlighted as exceptions:
 - Diagnostic standard improving but still failing the standard;
 - A&E Standards were failed at Tameside Hospital Foundation Trust;
 - Ambulance response times were not met at a local or at North West level;
 - Improving Access To Psychological Therapies (IAPT) performance for Access and Recovery remain a challenge;
 - 111 Performance against Key Performance Indicators;
 - MRSA Bacteraemia;
 - Cancer 62 day upgrades.

The exception reports in future reports will evolve as clarity is provided on the comparators.

- 2.4 Greater Manchester Combined Authority (GMCA) / NHS Greater Manchester (NHSGM) Performance Report:
 - Better Health;
 - Better Care;
 - Sustainability;
 - Well Led.
- 2.5 NHS England Improvement and Assessment Framework (IAF) dashboard.
- 2.6 There are a number of indicators where the Clinical Commissioning Group is deemed to be in the lowest performance quartile nationally. These indicators have been highlighted in light orange on the dashboard and are as follows:
- 2.7 **Better Health**
 - Maternal Smoking at delivery;
 - People with diabetes diagnosed less than a year who attend a structured education course;
 - Utilisation of the NHS e-referral service to enable choice at first routine elective referral;
 - People with a long-term condition feeling supported to manage their condition(s);

- Inequality in emergency admissions for urgent care sensitive conditions;
- Inequality in unplanned hospitalisation for chronic ambulatory care sensitive conditions;
- Quality of life of carers.

2.8 Better Care

- One-year survival from all cancers;
- Proportion of people with a learning disability on the GP register receiving an annual health check;
- Choices in maternity services;
- Emergency admissions for urgent care sensitive conditions;
- Delayed transfers of care per 100,000 population;
- Population use of hospital beds following emergency admission;
- Management of long term conditions.

2.9 Sustainability

- Digital interactions between primary and secondary care.

3. KEY HEADLINES - HEALTH

3.1 Below are the key headlines from the quality and performance dashboard.

Referrals

3.2 GP referrals have increased this month compared to last month however they have continued to decrease overall and have decreased compared to the same period last year. Other referrals have increased compared to last month and have increased compared to the same period last year. Year to date GP referrals have decreased by 8.9% compared to the same period last year and other referrals have increased by 0.6% compared to the same period last year for referrals at Tameside and Glossop Integrated Care Foundation Trust. Referrals to all providers have decreased by 5.3% compared to the same period last year and other referrals have decreased by 2.7%.

18 Weeks Referral to Treatment Incomplete Pathways

3.3 Performance continues to be above the national standard of 92%, currently achieving 93.0% during January. The specialties failing are Urology 90.11%, Trauma and Orthopaedics 89.16%, Neurology 90.00%, and Plastic Surgery 71.81%. There were no patients waiting longer than 52 weeks during January.

Diagnostics 6+ week waiters

3.4 This month the Clinical Commissioning Group failed to achieve the 1% standard with a 1.85% performance. Of the 86 breaches, 37 occurred at Central Manchester (echocardiography, flexi sigmoidoscopy, gastroscopy and MRI). 33 at Tameside and Glossop Integrated Care Foundation Trust (audiology assessments, colonoscopy, CT scans, gastroscopy and NOUS), 9 at Care UK (CT, MRI AND NOUS), 3 at Pennine Acute (Cystoscopy, Gastroscopy and Neurophysiology), 2 at Salford Trust (MRI and NOUS), 1 at Pioneer Healthcare (Neurophysiology) and 1 at South Manchester (Respiratory physiology). Central Manchester performance is due to an ongoing issue with endoscopy which Greater Manchester are aware of. Tameside and Glossop Integrated Care Foundation Trust performance is primarily due to audiology struggling with capacity.

A&E waits Total Time with 4 Hours at Tameside and Glossop Integrated Care Foundation Trust

3.5 The A&E performance for January was 76.22% which is below the target of 95% nationally and below the local target of 90%. The key issue is medical bed capacity which not only cause breaches due to waiting for beds but the congestion in A&E then delays first assessment. There is still medical cover and specialty delays when teams are in Theatres.

The trust reports acuity is high which can lead to people needing more than 4 hours for a decision to be reached on their care need.

Ambulance Response Times Across North West Ambulance Service area

3.6 In January the North West position (which we are measured against) was not achieved against the standards. Locally we also did not achieve any of the standards. Increases in activity have placed a lot of pressure on North West Ambulance Service and ambulances have experienced delays in handovers at acutes which together have impacted on its ability to achieve the standards.

3.7 111

The North West NHS 111 service is performance managed against a range of Key Performance Indicators reported as follows for January:

- Calls Answered (95% in 60 seconds) = 77.5%;
- Calls abandoned (<5%) = 7.1%;
- Warm transfer (75%) = 32.9%;
- -Call back in 10 minutes (75%) = 38.4%.

3.8 The benchmarking data shows that the North West NHS 111 service was ranked 42nd out of 42 for calls answered in 60 seconds (78%). This is compared to East London City which is the highest ranked for calls answered in 60 seconds (97%).

3.9 Looking at the dispositions we are also ranked 41st out of 42 for % recommended to dental/pharmacy (2%) compared to the highest ranked provider York and Humber (11%). Percentage recommended home care (3%) we are ranked 42nd out of 42 compared to the highest ranked provider, East London and City (8%).

3.10 In January the North West NHS 111 service experienced a number of issues which lead to poor performance in the month against the four Key Performance Indicators. Performance was particularly difficult to achieve over the weekend periods.

3.11 All of the cancer indicators achieved the standard during January apart from the 62 day Cancer upgrades which was at 75.0% for January against the 85% standard. There were 4 breaches mostly due to late referrals and complex issues.

Improving Access to Psychological Therapies

3.12 Performance continues to be above the Quarterly Standard for the Improving Access to Psychological Therapies (IAPT) access rate (75%) achieving 3.92% during Quarter 2. However, the Quarter 2 performance for IAPT recovery rate remains below the standard at 46.00%. In terms of IAPT waiting times the Quarter 2 performance is above the standard against the 18 week standard (95%) which was reported as 98.6%. The Quarter 2 performance for the 6 week wait standard (75%) was reported as 73.4%.

Healthcare Associated Infections

3.13 Clostridium Difficile: The number of reported cases during January was below plan. Tameside & Glossop Clinical Commissioning Group had a total of 5 reported cases of clostridium difficile against a monthly plan of 7 cases. For the month of January this places Tameside and Glossop Clinical Commissioning Group 2 under plan. Of the 5 reported cases, 2 were apportioned to the acute (1 at Tameside Hospital Foundation Trust and 1 at Stockport Foundation Trust) and 3 to the non-acute. To date (April to January 2017) Tameside and Glossop Clinical Commissioning Group had a total of 68 cases of clostridium difficile against a year to date plan of 82 cases. This places Tameside and Glossop Clinical Commissioning Group 14 cases under plan. Of the 68 reported cases, 36 were apportioned to the acute (27 at Tameside Hospital Foundation Trust, 4 at Central Manchester Foundation Trust, 2 at Christie Hospital Foundation Trust, 1 at The Royal Orthopaedic Hospital Foundation Trust, 2 at Stockport Foundation Trust) and 32 to the non-

acute. In regards to the 2016/17 financial year, Tameside and Glossop Clinical Commissioning Group have reported 68 cases of clostridium difficile against an annual plan of 97 cases. This currently places the Clinical Commissioning Group 29 cases under plan with 2 months of the financial year remaining.

- 3.13 MRSA: In January 2017 Tameside and Glossop Clinical Commissioning Group have reported 2 cases of MRSA against a plan of zero tolerance. To date (April 2016 to January 2017) Tameside and Glossop Clinical Commissioning Group have reported 8 cases of MRSA against a plan of zero tolerance. Breakdown includes 5 acute cases (1 at Tameside Hospital Foundation Trust, 3 at Central Manchester, 1 at South Manchester Foundation Trust) and 3 non acute cases.

Mixed Sex Accommodation

- 3.14 This month there were 2 breaches reported against the Mixed Sex Accommodation standard of zero breaches for Tameside and Glossop Clinical Commissioning Group patients.

Dementia

- 3.15 We continue to perform well against the estimated diagnosis rate for people aged 65+ for January which was 74.8% against the 66.7% standard.

4. ADULT SOCIAL CARE INDICATORS

Introduction

- 4.1 Performance in Adult Social Care is supported by the Adult Social Care Outcomes Framework. The framework contains nationally published qualitative and quantitative indicators. The qualitative indicators are informed by the completion of an annual national survey of a selection of service users and a biannual survey of a selection of Carers- both surveys are administered locally.

- 4.2 It is widely recognised that the quantitative indicators in the Adult Social Care Outcomes Framework do not adequately represent the service delivery of Adult Social Care. Therefore in response, data sets have been developed regionally and locally in order to provide performance data that supports service planning and decision making for Adult Social Care in Tameside.

Proportion of People Using Social Care Who Receive Direct Payments Performance Summary

- 4.3 This measure supports the drive towards personalisation outlined in the Vision for adult social care and Think Local, Act Personal, by demonstrating the success of councils in providing personal budgets and direct payments to individuals using services.
- 4.4 Performance in Tameside in 2015/2016 was 15.43% compared to 23.5% regionally and 28.1% nationally.
- 4.5 Tameside performance as at Quarter 3 2016/2017 is showing 13.62%, which is a reduction of 23 people since 2015/2016.

4.6 Actions

- Review the Direct Payments offer and how this is promoted by front line staff;
- Review the capacity of Direct Payment Officers;
- Gain views from Service Users as to why Direct Payments may not be considered.

People With Learning Disabilities In Employment Performance Summary

- 4.7 The measure is intended to improve the employment outcomes for adults with learning disabilities reducing the risk of social exclusion. There is a strong link between employment and enhanced quality of life, including evidenced benefits for health and wellbeing and financial benefits.
- 4.8 Performance in Tameside in 2015/2016 was 2% compared to 4.1% regionally and 5.8% nationally. 6 Greater Manchester authorities have less than 3% of People with Learning Disabilities in Employment, with only Trafford, Stockport and Rochdale achieving above 4%.
- 4.9 Nationally and regionally we are seeing a steady decline in this indicator - 2012/2013 region 5.5%, national 7%.
- 4.10 Tameside performance at Quarter 3 2016/2017 is showing 1.89%, although the number of people in employment has actually remained the same, the number of people known to social care has increased which has affected the performance out turn.
- 4.11 If Tameside were to be at the National average of 6%, this would mean an additional 20 People with Learning Difficulties into Employment.
- 4.12 If Tameside were to be at the same level as Trafford 14%, this would mean an additional 58 People with Learning Difficulties into Employment. Performance in this area has been a concern for some time and has been impacted upon the reduction of the Learning Difficulties Employment Support Team due to financial restraints.
- 4.13 **Actions**
- Make Contact with Trafford to share best Practice.
 - We have moved the remaining Employment staff into the Employment and Skills corporate team to ensure a more focused approach to employment and access to wider resource and knowledge base.
 - The development of a new scheme focused on supporting people with pre-employment training and supporting people into paid employment including expansion of the Supported Internship Programme for 16-24 year olds.

Considerations of the Quality and Performance Assurance Group

- 4.15 The Quality and Performance group recommended a systematic review of quality & performance reporting. This is essential to clarify reporting requirements and expectations across the Single Commissioning Board, Clinical Commissioning Group Governing Body and Council Board governance, with a view to minimising duplication and providing assurance at the most appropriate system level.

5. RECOMMENDATIONS

- 5.1 As set out on the front of the report.
