Subject: RE: Land at Windsor Park Denton - Assets of Community Value

Hi Ade, draft response for Daniel as requested. Bill - Daniel has requested contact details for each of the tenants – Have you supplied?

Hi Daniel - **Re - Nominations to list 4 pieces of land in Denton as assets of community value – Observations as requested.**

The following are my observations/comments in relation to the four applications;

Horse Grazing Fields – Area 1 on the attached plan – Riding Stables lease expires August 2024.

- The grazing of horses is not an activity which is made widely available to the community. It appears to benefit only a small number of people and does not obviously improve the social well-being and interest of the local community - I would argue that use is not broad or inclusive across the community.

Denton West Cricket Club – Area 2 on the attached plan - Lease to the club has expired – Holding over.

- Generally you need to be a member of the club to participate in activities. However the club is freely open to spectators from the local community who attend training sessions and match days.

Denton West Boys and Girls Club – Area 3 on the attached plan – Lease to The Greater Manchester Federation of Boys Clubs - expires 23 June 2021

- Generally you need to be a member of the club to participate in activities. However the club is freely open to spectators from the local community who attend training sessions and match days.

Dane Bank Angling Club – Area not illustrated on the plan – No lease in place.

- Only limited evidence of a constituted club available on the internet.
- The club doesn't have any rights to use the ponds under the terms of the current lease.
- It appears to benefit only a small number of people and does not obviously improve the social well-being and interest of the local community - I would argue that use is not broad or inclusive across the community.

Hope this Helps

30 JAN 2017

Dear Sirs

Nomination of Various Assets of Community Value at Windsor Park Denton

I am writing in response to your letter dated 9th January 2017 seeking my comments, as owner of the relevant leasehold interest, in respect of the nomination of four assets as being of community value.

As these are four separate applications (to be determined as such by the Council) I address each one separately.

Legal Tests

As you will be aware the statutory regime governing the listing of assets of community value is the Localism Act 2011 (section 88 onwards) which is supported by the Assets of Community Value (England) Regulations 2012.

To be listed as an Asset of Community Value (ACV) one of the following two criteria must be met:

1. In the opinion of the authority—
 - an actual current use of the is that it furthers the social wellbeing or social interests of the local community; and
 - the use is not ancillary; and
 - realistically, the non-ancillary use of the land that furthers the social wellbeing or social interests of the local community can continue.
2. If in the opinion of the local authority—
 - there is a time in the recent past when an actual use of the land furthered the social wellbeing or interests of the local community; and
 - the use is not ancillary;
 - realistically there is a time in the next five years when there could be non-ancillary use of the building or other land that would further the social wellbeing or social interests of the local community.

The land must also not be excluded from listing under the Assets of Community Value Regulations 2012.

In light of the above I would comment on the applications as follows.

Grazing Field, Windsor Park Denton

An application has been made to list the grazing field adjacent to the stables on the grounds that the land has been used for many years as a grazing paddock.

The grazing land is in private ownership and there is no general access to members of the public other than in association with their use of the adjacent stables and riding school. There is certainly no general right for the local community to use the land for their general own interests.

The primary use of the land subject to the application, and the current planning use of the land, is agricultural. Agricultural use is not a planning use that can reasonably be said to be one which furthers the social wellbeing or social interests of the local community. Any use of the land for anything other than grazing horses is incidental to the primary agricultural use.

There is no evidence to suggest that in its recent past it has had an actual use which furthers the social wellbeing or social interests of the local community nor any future intention to allow such a use.

I would respectfully suggest that the grazing field, which is the subject of this application, does not meet the criteria required and as such should not be listed as an ACV.

Dane Bank Angling Club

The application relates to three ponds which are located within the grazing land.

The ponds are used by the Angling Club on an unofficial basis (they have no lease or licence in place to the ponds) and the club currently has only a handful of members.

The recent case of *Haddon Property Development v Cheshire East Council CR/2015/0017* confirmed that where a class of people that use a particular facility is highly exclusive and limited there may be circumstances where it cannot be said to further the social wellbeing or social interests of the *community* and as such does not confer a community benefit. The area surrounding the ponds is home to thousands of people. It is difficult to see how use of the ponds by several enthusiasts could be classed as having a benefit for the *community*.

The application places great emphasis on the fact the ponds are used by '*anglers from all over the north-west of England*'. The entire north west of England would not fall within the definition of a '*community*'.

Due to the limited and exclusive number of *local* persons using these ponds for fishing it cannot be said that the ponds further the interests of the *community* and as such do not meet the necessary criteria and should not be listed as ACVs. The fact the ponds are apparently used by larger numbers of non-local persons is not material and not a valid ground for listing the asset as an ACV.

In addition the ponds are located within, and are part of the same planning unit as, a piece of land which has a planning designation of agricultural land (the grazing land). Agricultural land is not a use which can be said to be of community value (as defined in s88 Localism Act 2011) and further the social wellbeing or social interests of the community. Any use by the club of the ponds for angling is clearly ancillary to their designated use.

Denton West End AFC

I do not have a leasehold interest in this property and as such have no comment at this time on this application.

Denton West End Cricket Club

I do not have a leasehold interest in this property and as such have no comment at this time on this application.

Summary and Conclusions

For the reasons set out in this letter I respectfully suggest that the grazing field and the ponds do not meet the criteria in order to be listed as ACV and as such these two applications should all be refused.

Yours Faithfully

Dear Mr Limbert,

Re: Nomination of Various Assets of Community Value at Windsor Park Denton

Further to my letter dated 23 December 2016, I regret to inform you that there has been a slight delay in processing your nominations and that the Council is unable to determine the applications within the 8 week period stated within the Assets of Community Value (England) Regulations 2012. Please accept my apologies for this.

Unfortunately, due to an internal error which resulted in the incorrect contact details for the registered leasehold owners of the cricket and football clubs being provided, the registered owners have not been formally consulted. Given the Council is required under Regulation 8 of the Regulations to take all practicable steps to give information that it is considering whether land nominated by a community nomination should be included in the list this process must be undertaken as otherwise the owner would be able to successfully review any listing.

Whilst Regulation 7 of the Regulations states that the responsible authority must decide whether land nominated by a community nomination should be included in the list within eight weeks of receiving the nomination, the Regulations and Localism Act 2011 are silent upon what would occur should this not happen. In the absence of any provision which renders the process invalid, your nominations remain valid.

I can confirm that correspondence has today been issued to the registered owners of the leasehold interest of the two properties and a request that they provide any comments or observations they may have as soon as possible. It is the Council's intention to fully consider your nominations within the next 4 weeks and the outcome will be confirmed to you in writing.

Once again, please accept my apologies for the delays in determining your nominations.

Yours sincerely
