4. Intermediate Care helps people avoid going into hospital unnecessarily and supports people to come out of hospital as quickly as possible. It helps people stay in their own homes and to keep their independence for as long as possible. The Intermediate Care offer across Tameside & Glossop will include a home-based service, which will give a more intensive amount of care in people's own home. This will be provided by a joint team of social care (carers and social workers) and health professionals (nurses and therapists).

Option 2 (PREFERRED OPTION): Transfer of all bed-based intermediate care to a single location in the Stamford Unit at Darnton House based at Tameside & Glossop Integrated Care NHS Foundation Trust site (96 bed unit).
