Local Authority Savings Progress

SAVINGS PROGRESS - HEADLINES

The 2018/19 budget included £3,119m of savings to be delivered by management during the financial year. As at the end of period 3 a significant number of risks to the delivery of savings have been identified, resulting in a number of budget pressures.

- **£1.45m** (46%) of the savings target is rated '**green**' and has been delivered or is on track for delivery in the year.
- **£0.60m** (19%) of the savings target is rated '**amber**' with some risks or delays to delivery identified.
- **£1.07m** (34%) of the savings target is rated '**red**' due to significant risks or delays which means some or all of the savings amount is not expected to be delivered in year. This is resulting in budget pressures in a number of service areas.

- Adults savings are at risk of delay or non-delivery in a number of areas, although other savings are being identified elsewhere in the service to offset these pressures.
- Within Operations and Neighbourhoods the new Car parking provision at Darnton Road was expected to generate additional income of £0.500m per annum. Delays in the construction of the spaces has resulted in the non delivery of the saving in 2018/19 of £0.275m.
- Growth savings of £0.533m will not be delivered in 2018/19. These included forecast savings from the re-provision of the Additional Services contract with the Local Education Partnership (LEP) which has been extended as a result of the collapse of Carillion, and additional income from the purchase of the Plantation Industrial Estate which is no longer proceeding.

CCG Recovery Plan & TEP Update: June 2018 (M3)

- The CCG has a Targeted Efficiency Plan (TEP, also known as QIPP) target for 2018/19 of £19.8m.
- In our submitted plans, the CCG has reported that financial control totals will be met. However we have also reported a net risk against achieving this.
- Because of the size of the QIPP target and the reported risk against our overall financial position, an improvement plan has been requested by GMHSCP. These slides update on our progress.
- In the M3 position, a net risk of £2.5m has been reported, which is consistent with the position reported last month:

- The CCG has entered into a risk share agreement with the Local Authority as part of a wider ICF (Integrated Commissioning Fund). While there is scope to use the ICF to balance the CCG position on a non recurrent basis, any increase in council contribution in 18/19 would result in an increase in the CCG contribution in future years.

- As such, it is not appropriate to use the ICF risk share as justification to reduce reported net risk in 18/19 - an approach would ignore the true underlying position. That said the chart to the left includes an aspirational high level trajectory showing how we hope our reported risk will reduce in the months to come.
- Key to reducing the CCGs financial risk is achievement of the £19.8m QIPP target (internally branded as TEP). The table below summarises expected achievement at the end of June, together with a comparison to the position reported last month:

Value of savings about which we are certain (i.e. blue & green schemes)

13,194,487

- Against an annual CCG target of £19,800k, £7,599k (38%) of the required savings have been banked in the first three months of the year.
- In addition to this there is a further £5,595k, which we are completely confident of realising in future months. This leaves savings of £6,606k still to find.
- After application of optimism bias, we anticipate making further savings of £4,069k from schemes currently rated as amber or red. Reducing the TEP gap to £2,537k.
- £6,852k (35%) of the expected savings will be delivered on a recurrent basis, contributing toward closing the recurrent economy wide gap.
- Overall the value of planned savings has increased by £940k since last month. The main drivers of this are:
 - **+£1,240k Cross Year Benefit.** Cross year impacts from 2017/18 have now been fully calculated and transacted. There have been a combination of both pressures and benefits, but the net effect is positive for the CCG position and this benefit has been released to QIPP on a non recurrent basis. Areas where we have taken a benefit include prescribing, continuing care, mental health and acute providers (both NHS and independent sector). These were offset by estates and some other NHS/independent sector acute contracts.
 - **-£300k Associate Providers.** Targets were set on the basis of stopping all growth. Only two months of activity data is currently available, so it is difficult to establish a trend. But there is some overspend in these early months (particularly on critical care and outpatients). We have reduced the QIPP forecast in response to this and will continue to monitor and re-assess risk as more data becomes available.

- The post optimism savings gap has reduced by £1,240k since last month. This improvement was driven through the changes already discussed (note the associate provider scheme is amber rated so only a £150k impact post optimism bias). Plus a re-assessment of risk for 'running costs' and 'budget management'.
- The post optimism TEP gap has reduced from £4,847k at the start of the year to £2,537k today (a reduction of £2,310k over 3 months).
- This reduction is a result of non recurrent quick wins in Q1 (cross year benefit, mental health slippage and release of reserves). The pace of improvement is expected to be slower in Q2 and Q3:

- We will continue to closely monitor our TEP schemes, with an aspiration of closing some of this gap as amber and red schemes are converted to green.
- Our detailed TEP database includes a number of 'Emerging Pipeline Schemes', some of which are unquantified. But these, together with any new schemes identified through our financial savings programme will be used to further reduce the gap in forthcoming months

BUDGET VARIATIONS

The net variance reflects a number of underspends and pressures including:

Underspends:

- £0.115m - Vacant posts in Learning Disabilities Day Services expected to be filled part year
- £0.071m – Vacant posts in the Integrated Urgent Care Team expected to be filled part year.
- £0.100m - Independent Living Fund (ILF) expenditure forecast to be under budget due to hours being delivered by in-house service (Homemakers)

Pressures:

- (£0.141m) - Increase in Direct Payments in line with Government expectations.

SAVINGS

The 2018/19 budget included £0.697m of savings to be delivered by management during the financial year.

- £0.212m** is rated '**green**' and has been delivered or is on track for delivery in the year.
- The remaining £0.485m of the savings target is rated '**red**' or '**amber**' with some risks or delays to delivery identified.
- Other savings are being identified across the service which it is expected will compensate for non-delivery of the planned savings.

BUDGET VARIATIONS

The net variance reflects a number of underspends and pressures including:

Underspends:

- Vacant posts within the structure that are not currently filled are resulting in projected underspends in some areas.

Pressures:

- The Council continues to experience extraordinary increases in demand for Children's Social Care Services, placing significant pressures on staff and resources. The number of Looked after Children has gradually increased from 612 at 31 March 2018 to 640 at 30 June 2018.
- Despite the additional financial investment in the service in 2017/18 and 2018/19, the service is projecting to exceed the approved budget mainly due to additional placement costs £3.012m and other minor variations across the service below £0.050m .
- It should be noted that the 2018/19 placements budget was based on the level of Looked After Children at December 2017 (585) ; the current level at 30 June 2018 is 640; a resulting increase of 55 (9.4%). This should also be considered alongside the current average weekly cost of placements in the independent sector with residential at £3,628 and foster care £765.

BUDGET VARIATIONS

The variance is a net position and reflects a number of underspends and pressures including:

Underspends:

- £0.345m - Vacant posts across the whole service.
- £0.110m - budgetary saving to be utilized to offset overspending in other areas of Education

Pressures:

- (£0.346m) - Special Educational Needs Transport due to increase in children eligible for statutory support, and other minor variations .
- (0.338m) - Increase in statutory work regarding Education Healthcare Plans (EHCP) Assessments, and other minor variations less than 50k.

BUDGET VARIATIONS

The net variation reflects a number of underspends and pressures across the service, including:

Underspends:

- Part year vacancies due in part to retirements and difficulties in recruitment in Cultural and Customer Services, Design and Delivery, Environmental Services (Public Protection) are resulting in the forecast underspends in these areas.
- Vacancies in Operations & Greenspace, and in Highways & Transport are reducing the net pressures being reported in these areas.

Pressures:

- Pressures in Environmental Services Management relate to the Waste Levy and Passenger Transport Levy due in part to a late notification of a final adjustment relating to 2017/18.

BUDGET VARIATIONS

Pressures (continued):

- Highways & Transport - Pressure of £0.275m relates to the Darnton Road Car park income, as it is unlikely the Council will be able to fully achieve the additional income forecast as a saving. Additional construction costs relating to Darnton Road have created a further pressure of £0.122m, and the car parking service is currently projecting a shortfall in income from car parks income of £0.156m.
- Operations & Greenspace are forecasting a continued shortfall in income from Ashton Market due to the ongoing development works in Ashton Town Centre. There are also additional waste disposal costs within the street cleansing service.
- Waste Management have incurred expenditure on caddy liners to encourage recycling of food waste, however there is no budget provision for this.

SAVINGS

The 2018/19 budget included £580k of savings to be delivered by management during the financial year.

- The £0.580m savings target is rated '**red**' or '**amber**' with some risks or delays to delivery identified.
- Most of this savings target relates to the new Car parking provision at Darnton Road which was expected to generate additional income of £0.500m per annum. Delays in the construction of the spaces has resulted in the forecast additional income for this financial year being reduced to £0.225m.

BUDGET VARIATIONS

The net variation reflects a number of underspends and pressures across the service, including:

Underspends:

- The Ecology Unit is a GM wide hosted service funded by contributions from AGMA. The unit also receives income from Grants and Trading. Any surplus in 2018/19 will be taken to reserves to fund ongoing Ecology projects and ensure the service is self-funding.

Pressures:

- Corporate Landlord pressures relate mainly to additional fees being charged by PwC and non delivery of savings. Following the liquidation of Carillion the appointed liquidator PwC has been managing the contracts to enable the smooth transfer to other providers. The costs of this service were not budgeted for, and will continue to be incurred until everything is finalised. Forecast savings from the re-provision of the Additional Services contract with the Local Education Partnership (LEP) will not be realised in 2018/19.

BUDGET VARIATIONS

Pressures (continued):

- Estates budget pressures relate to a shortfall in income due to a number of factors. Income is no longer being received on properties that have been sold and other income is not being realised because facilities are being used for Council purposes. Forecast savings following the purchase of the Plantation Industrial Estate will not be realised until the purchase is complete. The purchase is complex and expected to take several months to complete. Additional security costs are also being incurred following a fire.
- Within the Planning Service, Building Control income is forecast to be less than budget due to a reduction in the number of applications. Development and Control income is also forecast to be under budget.

SAVINGS

The 2018/19 budget included £0.898m of savings to be delivered by management during the financial year.

- **£0.340m** is rated '**green**' and has been delivered or is on track for delivery in the year.
- The remaining £0.558m of the savings target is rated '**red**' or '**amber**' with some risks or delays to delivery identified.

Growth savings of £0.533m will not be delivered in 2018/19. These included forecast savings from the re-provision of the Additional Services contract with the Local Education Partnership (LEP) which has been extended as a result of the collapse of Carillion, and additional income from the purchase of the Plantation Industrial Estate which is no longer proceeding.

Underspends:

- £0.044m - Staffing Vacancies and staff having not taken up the pension option.
- £0.089m – Additional MFD Income to the service. This is subject to a review that will be carried out.

Pressures:

- (£0.036m) - School Income target - underachieved due to academy conversions.
- (£0.198m) - Additional year on year Corporate Costs increasing including additional Microsoft Licenses, Increase of back up costs, Wireless access point maintenance and increased security products.

BUDGET VARIATIONS

Underspends:

- The 2018/19 budget for capital and financing costs did not include any amounts for investment income on the Manchester Airport Shareholder Loan. The first installment of the Manchester Airport Investment took place in July 2018 with a second installment due in December. Net additional investment income of £0.413m is now expected in 2018/19 in respect of this investment.
- Additional Adult Social Care grant of £0.413m was notified after the 2018/19 budget was set. The grant has been allocated to contingency pending decisions regarding utilisation.
- Savings and additional income in corporate costs includes an additional £0.813m of dividends from Manchester airport following receipt of the final dividend for 2017/18. The dividend income is not guaranteed and will be reviewed again on receipt of the interim dividend in December 2018. Also included within corporate costs are forecast savings of £0.366m in respect of contributions to AGMA and £0.276m of savings relating to Pension Increase Act Contributions.

SAVINGS

The 2018/19 budget included £0.122m of savings to be delivered by management during the financial year.

- The **£0.122m** is rated '**green**' and has been delivered or is on track for delivery in the year.

SIGNIFICANT SCHEMES AND BUDGET VARIATIONS

Progress reports on major projects and significant areas of capital expenditure are provided to the Strategic Planning and Capital Monitoring Panel (SPCMP). A detailed capital expenditure monitoring report will be produced at month 4 and presented to the SPCMP in September 2018.

VISION TAMESIDE

- **Public Realm** - As a result of a delay in the completion of the Tameside One building, the Public Realms works will not be complete until 2019/20. Plans are being developed to give detailed proposals. The projected Outturn is £0.2m in 18/19 and £3.579m has been rephased into 19/20.

EDUCATION

- No individually significant variations over £0.100m.

TRANSPORT

- **Procurement of 58 fleet** - The vehicles now being procured have had a change to the original specification as no one could supply what was requested previously. The tender is still out so the exact cost cannot be confirmed however delivery should be before the end of the financial year.

DEVELOPMENT & INVESTMENT

- **Ashton Town Centre and Civic Square** - Works on this project cannot be completed until we have a confirmed programme for the Vision Tameside project. The projected outturn of £0.200m is based on the assumption we will be in a position to order materials within this financial year. The budget variation will need to be slipped into 2019/20.

ACTIVE TAMESIDE

- **Denton Wellness Centre** - Denton Wellness Centre : This scheme has been delayed to October 2018 and £9.079m will need to be re-phased in 19/20. Subject to Planning permission, the land purchase of £1.5m will take place in October 2018 before the build starts. The estimated development spend is £5.500m in 18/19.

Notes:

- Acute healthcare contract performance is based on only 2 months of 18/19 activity data, making it difficult to establish trends in activity. We are seeing small pressures emerge at some of the associate providers, but these do not pose a significant concern at this stage in the year.
- However overspend at Manchester FT is of more concern. £169k of the £300k YTD pressure relates to excess bed days and critical care, both areas where spend can be very volatile, driven by the discharge of high cost long length of stay patients. Other areas contributing to the pressures on the Manchester FT contract include macular (£86k pressure) and outpatients with an overspend of £115k. Time will tell if this is a non recurrent anomaly or part of a sustained trend, but in response to the YTD pressure the QIPP forecast for associate providers has been reduced by £300k to £1,000k. There is a risk that the adverse variance will increase if the level of activity at M2 persists.
- Budgets for ambulances were set based on advice received from lead commissioner for this service. Budgets did not include any allowance for settlement of an ongoing dispute around price. This dispute was settled in mediation and resulted in a £135k pressure for the CCG.
- Underspend on independent sector contracts (mainly cataracts and musculoskeletal) offsets much of the associate provider/ambulance pressure.

Notes:

- In January 2018 the MH investment plan went to SCB for approval to close the funding gap in order to meet the 5YFV and MHIS. The gap in 18/19 started at £1.7m which took the total additional recurrent investment into Mental Health to be £2.5m. Since then there has been significant delays in recruitment and delivery of service plans.
- As a result, the refreshed plans identify an in-year non-recurrent slippage of £0.6m. This was moved to QIPP in Month 2 and is showing as banked savings. A further £0.4m towards QIPP is expected over the next couple of months on a non-recurrent basis and will be green rag rated with a further £1m QIPP in MH as amber.
- All assumptions around QIPP are built into the reported position above

Notes:

- At time of writing we only have April prescribing data available. Because of this we want to be cautious about establishing trends or reading too much into a reported underspend via PMD. Consequently we have set forecast to equal budget.
- However early indications are encouraging and on the assumption the trend continues we will be in a strong position to bank further QIPP savings at month 4. £590k of TEP has been posted this month for prescribing, which relates to cross year benefit from higher than expected achievement against schemes in February and March.
- In delegated Co-Commissioning the latest data relating to QOF (Quality Outcomes Framework) suggests that practices will not earn the originally anticipated quality payment in 2018/19.
- The forecast for Out of Hours has reduced, as charges for central infrastructure to support the IM&T hub are no longer being funded via CCG budgets.

Notes:

- Growth in the cost and volume of individualised packages of care is the amongst the biggest financial risks facing the Strategic Commissioner.
- Expenditure growth in this area was 14% in 2017/18, with similar double digit growth rates seen over the previous two years.
- Spend in T&G is significantly higher on a per capita basis when benchmarked against other CCGs in GM.
- A continuation of historic growth rates is not financially sustainable and should not be inevitable that T&G is an outlier against our peers.
- Currently forecasting £2,982k overspend in 2018/19 against core CHC budgets, most of which related to fully funded CHC for adults.
- A financial recovery plan is now in place, with the next detailed update due to be presented at Finance & QIPP Assurance Group in August.

Notes:

- The £28.8m community services budget relates to services provided by the ICFT within the scope of the block contract. Payments are fixed and will not change throughout the year.
- Commissioning responsibility for £23.9m of these community services has switched from the CCG side of the strategic commissioner to the Council side. Formal approval to transact this change did not exist at the start of the year and consequently invoices were paid at historic rates and via historic routes. This has created YTD variances against the ICFT block both in the community and acute directorates. Formal approval for changes to the community budgets is now in place and payments in M4 will be adjusted to align actuals to budgets.
- Other services within the community directorate are on track to spend in accordance with budget.

Notes:

- Services within this directorate such as BCF, estates, safeguarding and patient transport are spending broadly in line with budget and do not present a risk to the CCG position.
- We have received £1.6m of the approved £6.3m transformation funding so far this year. Allocations for the remainder will be transacted later in the year and we have plans in place to spend.
- On the face of things we appear to reporting a significant favorable variance against the commissioning reserve line. However, it is important to understand that this forecast has been calculated in order to balance the CCG position. This forecast can only be delivered if the CCG is able to fully achieve the £19.8m TEP target.
- As reported in the recovery plan slides earlier in this report, there is a £2.5m risk attached to fully closing the QIPP gap.

Notes:

- The CCG receives an earmarked allocation of £5.2m to fund running costs. We are not allowed to exceed this limit, but any underspend on running costs can be used to offset pressures in our programme budgets.
- In the first quarter of the year we have made QIPP savings of almost £1m. Much of this is the result of recurrent schemes carried forward from 2017/18 (e.g. New Century House, Chief Operating Officer and Shared Services).
- We are forecasting that full year savings in the region of £1.2m are possible in this area.
