1. Werneth Low – A History

Werneth Low is an area rich in history and interest. The story of this special place begins over 4,000 years in the Bronze Age when the Low was used as an outdoor Cathedral for worship and burials. Tribal Britons were defeated in a great battle fought on Werneth Low as the Roman occupation of Britain spread north. A Romano-British fort was built which included a system of ditches and earthworks.

Werneth is mentioned in the Domesday Survey of 1086 as Warnet where it is described as waste, containing woodland three leagues long and two leagues wide and was assessed at 1 Virgate. It was held before 1066, by a free man as a manor, and probably formed part of the Anglo-Saxon Lordship of Longdendale. By 1086 it was held directly by the Earl of Chester.

The manor of Werneth is first recorded as belonging to the Higham family as early as 1330. This family were referred to as freeholders in Werneth by 1445 when a John Higham was listed amongst the knights, gentleman and freeholders of Cheshire.

For the Medieval period the survival of extensive ridge and furrow earthworks, coupled with early field boundaries and farm sites, make the Werneth Low landscape one of the best surviving medieval areas in Greater Manchester.

The best known landmark on Werneth Low is the stone Cenotaph commemorating the 710 lives lost in the Great War 1914 to1919. The majority of those killed were in the Cheshire Regiment in the years 1916 and 1917. The loss of so many from such a small town as Hyde was devastation.

At a council meeting in the Mayor’s Parlour at Hyde Town Hall on 3rd March 1920 it was decided to remember those fallen soldiers, sailors and airmen from Hyde by purchasing by public subscription the Lower Higham Farm Estate. The land to be kept open and free for the “health and recreation of the people of Hyde”.

The Hyde War Memorial Committee reported to the townspeople of Hyde “Those who lived through the war will not forget but those who come after us should be reminded of the sacrifices which have been made”

The appeal for public subscriptions raised by the end of May 1920, £14,013 14s. 8d. The Lower Higham farm and land was purchased for £4,000 and the memorial cenotaph was erected at a cost of £2,000.

The Cenotaph was unveiled on the 25th June 1921 by Mrs Evelyn Welch, built of Grey Cornish Granite the total weight is 34 tons. It was designed by Messrs J. Whitehead & Sons of London.

Unveiling of the Cenotaph 25th June 1921
2. Werneth Low – Site Information

Location and Size

Werneth Low Country Park is located 15km (9½ miles) east of the city centre of Manchester on the edge of the Pennines. All the land in the Country Park is in the Borough of Tameside. The town of Hyde, along with the villages of Gee Cross and Newton, are just 2.5km (1½ miles) away to the west. The Country Park consists of approximately 81 hectares (200 acres) of hilltop and hillside.

Ownership

60 hectares (150 acres) belong to the Hyde War Memorial Trust, including the visitor centre building. Tameside Metropolitan Borough Council owns the remaining 21 hectares (50 acres) of land in the park.

Creation of the Country Park

The Country Park was officially established in 1980 when the Hyde War Memorial Trust and Tameside MBC and the Greater Manchester Council entered into a formal agreement relating to the management of the park. Responsibilities relating to the Greater Manchester County Council were passed on to Tameside MBC in 1986 when the County Council was abolished.

3. Vision for Werneth Low Country Park

The Vision for Werneth Low Country Park is of a place where landscape and nature conservation and informal countryside recreation are in balance. It is a place where natural beauty is enhanced, where wildlife will thrive, and where visitors, regardless of their ability or background, can spend an enjoyable and fulfilling time. It is a place that is cared for and looked after, not just for now but for future generations.

Country Park Overall Aims:

1. To manage the Country Park in a way that sustains and improves the quality and variety of its wildlife and landscape, and where recreation activity is in harmony with this.

2. To facilitate access for all, irrespective of ability or background.

3. To manage the Country Park for its cultural and historic importance.

4. To engender an understanding of the various aspects of the Country Park through programmes of lifelong learning.

5. To provide a high quality service to visitors, involving them in decision making about how the Country Park is run.

6. To maintain a safe and health environment, befitting the Country Park.

These general management aims are supported by the Tameside Greenspace Service Priorities:

1. Improving the quality of Greenspace for residents.

2. Building capacity amongst Friends Groups and Volunteers.

3. Conserving the natural environment and increasing biodiversity.

4. Maximising opportunities to improve the health of all residents.

5. Developing opportunities to bring in external funding.

All Day Ramble to Chadkirk Chapel – April 2018
4. Managing the Country Park

The Country Park is formally managed by the Werneth Low Country Park Joint Management Committee. The Committee is made up of Trustees of the Hyde War Memorial Trust and elected members of Tameside MBC. The Committee meets three times a year and the Greenspace Development Manager, and Greenspace Development Officer, report directly to the Joint Committee.

The Werneth Low Country Park Joint Management Committee receives reports from its officers concerning the care and maintenance of the Park’s fabric and infrastructure ensuring the area is safe and in good condition. The Committee issues instructions to its officers to implement programmes of management, which at times involves outside organisations such as approved contractors.

Programmes of management are produced annually, and triggered by the Country Park Business Plan. The funding of projects is a mixture of both joint and individual organisations which include Tameside Council and The Hyde War Memorial Trust.

All the maintenance of sites programmes are linked directly to conserving and maintaining local distinctiveness and spirit of place.

2018/2019 Highlights

- Annual programme of grass cutting footpaths, picnic sites, cenotaph area, car parks and areas around the visitor centre completed during April to October.
- Minor works programme completed by the Operations Maintenance Team and Contractors:
  - At Riding Track near Golf Course reform ditches.
  - At Ash Cottage installed new steps.
  - At Quarry Car Park rebuild 30 metres of drystone wall.
  - At Baron Fields install new drainage.
  - At Higham Lane repair 30 metres of drystone wall.
  - At Cow Lane install new access gate.
  - At Lower Higham Visitor Centre install new Oak bench
  - At Lower Higham Visitor Centre emergency tree works.
  - At Lower Higham Visitor Centre install new water heater.

The cost of this work was paid for by Tameside Council - £13,033.

![At Ash Cottage Picnic Area new steps installed June 2018](image-url)
5. Involving the Community

Involving the community plays a crucial part in securing the wellbeing of the Country Park. It is an objective that is at the very heart of our management philosophy. Examples of community involvement include: The Country Park Volunteers Service, The Hyde War Memorial Trust, Tenant Farmers, and other tenants of Country Park land such as Werneth Low Golf Club.

The Public Events programme provides an excellent opportunity for people to come together and experience the delights of the outdoors.

2018/2019 Highlights

- We welcomed 3,827 people to the Lower Higham Visitor Centre (Previous year’s total: 3,433).
- The Country Park Greenspace Volunteers completed in total 4,020 work hours (Previous year’s total: 4,182 work hours). See Appendix 1. and Appendix 2.
- During the year the Greenspace Development Officer organized 11 events at which 645 people attended (Previous year’s total: 11 events at which 558 people attended).
- Alder Community High School cross country run around Werneth Low Country Park raised £4,100 for The Christie Hospital.

Alder Community High School run around Werneth Low for the Christie Hospital – 17th April 2018

All Day Ramble Werneth Low to Cown Edge – 30th September 2018
6. **Conserving Habitats and Wildlife**

In January 2010 Werneth Low Country Park, in partnership with Natural England, began a new management agreement for wildlife nature conservation. This new Environmental Stewardship agreement covers the years 2010 to 2020 and it has five primary objectives:

- Wildlife conservation
- Maintenance and enhancement of landscape quality and character
- Natural resource protection
- Protection of the historic environment; and
- Promotion of public access and understanding of the countryside

Environmental Stewardship – Higher Level agreements are only suitable for land that is of “significant environmental interest” so to receive this agreement is confirmation that past management of Country Park land has been correct. The agreement is implemented through a programme of annual works and during the period of this report we have been fully compliant.

The Country Park benefits immensely from the hard work of its tenant farmers. During the period of this report the Park’s tenant farmers were: Mark Cheetham (Low End Farm), Peter Mansfield (Ash Tree Farm) and Carl Hazelhurst (Godley Stud Farm).

**2018/2019 Highlights**

- Environmental Stewardship agreement 9th year compliant securing £1,087 of grant income.
- Environmental Stewardship grant income to date since commencement of agreement in January 2010 £43,507.
- Maintained field boundary habitats, both hedgerows and dry stone walls.
- Maintained all Sites of Biological importance and undertook removal of non-native invasive weeds from adjoining areas.

*Completed by Volunteer Mike Kelly – November 2018 to March 2019*
7. Providing a Quality Service

We work in close partnership with visitors, the local community, groups and organisations and we listen very carefully to their comments, suggestions and ideas. The Lower Higham Visitor Centre, staffed by volunteers, has continued to be open every week throughout the period of this report. The Centre remains the main focal point for visitors for information and assistance.

Planned Developments 2019/2020

- Complete Year 10 of the Environmental Stewardship Agreement.
- Complete the 2019/2020 Maintenance of Sites Programme.
- Complete programme of repairs to footpaths and riding track network.
- Redraft the Country Park Management Plan.

How Much Does it Cost?

During the period of this report the costs of looking after Werneth Low Country Park was provided from the Greenspace Development Budget of Tameside Council with contributions from the Hyde War Memorial Trust. Based on past expenditure and this year’s financial accounts it has cost around £46,100 to run the Country Park during 2018 to 2019. This works out at about 21p a year for each person over the age of 18 who live in Tameside. The costs are for:

- Maintaining the Country Park.
- Organising public event programmes.
- Promoting the Country Park locally and regionally.
- Delivering visitor services including the Visitor Centre.
- Staff Salaries.
