

**Report To:** EXECUTIVE CABINET

**Date:** 22 January 2020

**Executive Member / Clinical Lead / Reporting Officer:** Cllr Ryan – Executive Member (Finance and Economic Growth)  
Dr Jamie Douglas – Lead Clinical GP  
Kathy Roe – Director of Finance

**Subject:** STRATEGIC COMMISSION AND NHS TAMESIDE AND GLOSSOP INTEGRATED CARE FOUNDATION TRUST – CONSOLIDATED 2019/20 REVENUE MONITORING STATEMENT AT 30 NOVEMBER 2019 AND FORECAST TO 31 MARCH 2020

**Report Summary:** With a gross budget for 2019/20 in excess of £945m, as at month 8 the Integrated Commissioning Fund has a forecast net spend of £617.5m, against a net budget of £617.2m. The forecast overspend of £0.298m is primarily driven by Children's Services, offset by contingency and capital financing. Further detail on the economy wide position is included at **Appendix 1**.

The forecast has improved from last month by £217k, due to improvements in Primary Care, Continuing Care, and CCG QIPP delivery.

**Recommendations:** Members are recommended to :

1. Acknowledge the significant level of savings required during 2019/20 and beyond to deliver a balanced recurrent economy budget together with the related risks which are contributing to the overall adverse forecast.
2. Acknowledge the significant financial pressures facing the Strategic Commission, particularly in respect of Children's Social Care, Acute, and Growth.

**Corporate Plan:** Budget is allocated in accordance with the Community Strategy.

**Policy Implications:** Budget is allocated in accordance with Council Policy.

**Financial Implications:** (Authorised by the Section 151 Officer & Chief Finance Officer) This report provides the 2019/20 consolidated financial position statement at 30 November 2019 for the Strategic Commission and ICFT partner organisations. For the year to 31 March 2020 the report forecasts that service expenditure will exceed the approved budget in a number of areas, due to a combination of cost pressures, shortfalls in income and non-delivery of savings. These pressures are being partially offset by savings and additional income in Capital and Financing, Corporate and Contingency budgets which may not be available in future years.

The report emphasises that there is a clear urgency to implement associated strategies to ensure the projected funding gap in the current financial year is addressed and closed on a recurrent basis across the whole economy. The Medium Term Financial Plan for the period 2019/20 to 2023/24 identifies significant savings requirements for future years. If budget pressures in service areas in 2019/20 are sustained, this will inevitably lead to an increase in the level of savings required in future years to

balance the budget.

It should be noted that the Integrated Commissioning Fund (ICF) for the Strategic Commission is bound by the terms within the Section 75 and associated Financial Framework agreements.

**Legal Implications:  
(Authorised by the Borough  
Solicitor)**

There is a statutory requirement for the Council to deliver a balanced budget whilst ensuring all services deliver value for money. Given the implications for each of the constituent organisations this report will be required to be presented to the decision-making body of each one to ensure good governance and to enable the two organisations to determine how the budget gap will be addressed. As the hospital significantly impacts on the Strategic Commissioning Finances it is important we understand how they are going to manage significant challenges. Additionally there needs to be a clear understanding and evidence that any actions required by Council and CCG budgets are in train and effective. Additionally we need to reflect on the performance evidence shows that where Council's budgets are well managed its services are usually high performing.

**Risk Management:**

Associated details are specified within the presentation.

Failure to properly manage and monitor the Strategic Commission's budgets will lead to service failure and a loss of public confidence. Expenditure in excess of budgeted resources is likely to result in a call on Council reserves, which will reduce the resources available for future investment. The use and reliance on one off measures to balance the budget is not sustainable and makes it more difficult in future years to recover the budget position.
