88/16A AREA BASED REVIEW (ITEM 9) PART A

Following consideration of reports providing an update on the Area Based Review process and likely outcomes, it was :-.

RESOLVED/-

The Greater Manchester Combined Authority notes the proposed outcomes of the Area Based Review process for Greater Manchester. Throughout this Government led process, GMCA has been trying to ensure that the future needs of the Greater Manchester economy and GM learners are met, rather than just a focus on institutional architecture. The review has focused only on FE Colleges and Sixth Form Colleges, and mainly on SFA funding, rather than on the whole post 16 learning architecture in GM and GM's overall aspirations around both Growth and Reform.

On this basis the GMCA remains to be convinced that some of the proposed outcomes deliver the integrated learning infrastructure that is needed, taking GM as a whole, rather than focusing institution by institution. GMCA welcomes the aspiration in some of the proposals, feels others do not go far enough and has concerns that some will deliver short term solutions, but may not be viable in the future to address the needs of individuals and the economy. There are still significant questions to be answered about the curriculum offer across the proposed outcomes, which will need to be addressed both in the short term, and via the longer term commissioning role that GMCA will have in relation to the devolved Adult Education Budget.

We welcome the fact that GMCA will have a leadership role in the implementation phase but request that the Secretary of State gives GMCA, working with Government, the power to make further changes to these proposals should it become clear, in the implementation phase, that the current options cannot deliver a GM wide learning infrastructure that meets needs, in high performing and financially viable institutions which are embedded within the overall Greater Manchester strategy and will help with the Government's productivity agenda to grow the economy and deliver more holistic support to individuals and communities.
