

Report to:	EDUCATION ATTAINMENT IMPROVEMENT BOARD
Date:	23 June 2020
Reporting Officer:	Tim Bowman – Assistant Director, Education
Subject:	CHILDCARE SUFFICIENCY ANNUAL REPORT 2019
Report Summary:	The following report outlines the outcome of the childcare sufficiency annual report 2019. The report includes an analysis of the supply and demand for childcare within the Borough collated during 2019 and any changes from the previous year e.g. whether any new provision has been established or childcare closures. These changes can indicate any change in the stability of the childcare market in the Borough. The report sets out how the childcare market is assessed and where there is a need for additional places details any actions recommended or taken for this to be achieved.
Recommendations:	That the Board note the content of the report and endorse its recommendations set out in the Conclusion section and approve it for publication on the Council’s website.
Corporate Plan:	The report supports two elements of the Community Strategy - Prosperous and Learning Tameside.
Policy Implications:	In line with Council Policy.
Financial Implications: (Authorised by the statutory Section 151 Officer & Chief Finance Officer)	There are no direct financial implications as a result of this report. Early year’s education is funded from ring-fenced Dedicated Schools Grant.
Legal Implications: (Authorised by the Borough Solicitor)	As the report explains, Section 6 of the Childcare Act 2006 introduced a statutory duty on local authorities to ensure sufficient childcare to meet demand. Members should be satisfied that the council is complying with this duty, and is sufficiently resourced to meet the identified recommendations as non-compliance of any statutory duty means the Council cannot robustly defend any legal/judicial review/ombudsman challenge. It will be necessary given the impact of Covid-19 to understand the impact on service providers and the continuing duty of sufficiency.
Risk Management:	The risk of not complying with the statutory duty identified in the report is balanced by regular analysis and assessment, which does take place, as described in the report.
Access to Information:	This report does not contain information which warrants its consideration in the absence of the press or members of the public.

Background Information:

The background papers relating to this report can be inspected by contacting Jacqueline Nurney, Early Education Funding and School Organisation Manager by:

Telephone: 0161 342 2384

email: jacqueline.nurney@tameside.gov.uk

1. INTRODUCTION

- 1.1 The Early Education and Childcare statutory guidance for local authorities sets out the outcome for securing sufficient childcare, which is to ensure that parents are able to work because childcare places are available, accessible and affordable and delivered flexibly in a range of high quality settings. In order to carry out this statutory duty the Council needs to carry out an annual sufficiency audit which includes all types of early year's providers located within the Borough that provide childcare services to families.
- 1.2 The guidance is not prescriptive on the method of reporting but indicates that as part of the process local authorities should collate an annual report to elected council members on how they are meeting their duty.
- 1.3 The report sets out how the childcare market is assessed and where there is a need for additional places details any actions recommended or taken for this to be achieved.

2. CHILDCARE SUFFICIENCY

Context

- 2.1 The report includes the supply and demand for childcare within the borough and any changes from the previous year e.g. whether any new provision has been established or childcare closures. These changes can indicate any change in the stability of the childcare market in the Borough.
- 2.2 The childcare sufficiency report is compiled by the Early Years Funding Team using a range of information to assess supply and demand. The primary source of information is the assessment from previous years available on the Council's website which is updated (<https://www.tameside.gov.uk/childcare>). Information from parents and carers is obtained through enquiries to the Families Information Service and collated to give an assessment of where demand is greater than supply. Other primary information used includes annual birth rate information, national census data; information on the local economy and school readiness. Information on the supply of places and numbers and types of providers is generated through the Early Years Funding Team and the Families Information Service. All of this is considered within the Childcare Sufficiency Assessment, analysed and recommendations made.
- 2.3 It includes a more detailed analysis of places for free early education places for 2, 3 and 4 year olds which includes places available at the time of the snapshot, the take up of places and the number of vacancies available within each ward within the Borough.

3. CONCLUSION

The 'Childcare Sufficiency Annual Report 2018' was approved at the Education and Attainment Board, June 2019 and the attached report provides an updated position on the assessment of childcare sufficiency during 2019.

The data indicates that the childcare market in Tameside has remained stable and overall the number of childcare places available across the Borough has increased since the previous assessment which impacts positively on parental choice.

The report provides a number of recommendations but these are based on the data provided during the assessment which for some providers is voluntary. It is worth noting that not all providers within Tameside who offer childcare services contributed to the audit therefore a full assessment of all childcare available was not possible.

Report Recommendations/Actions

The report does not highlight any major gaps in provision within the Borough based on the data available during the snapshot period however it does provide brief recommendations for action which include:

1. To continue to work with all our childcare providers to improve the quality and content of the data provided, to inform on the annual assessment of childcare available for all age ranges. This will be implemented by circulating the approved report to all providers and by updating them prior to the next data collection to underline the importance of submitting timely and accurate information to improve the sufficiency assessment and to ensure gaps are not identified incorrectly.
2. To promote to all providers to regularly report on their vacancies and to ensure their information published online is current. To further promote the online childcare search function to enable parents to be able to make electronic enquiries for childcare using the information provided. Achieved by Families Information Service requesting providers to regularly update their information to ensure online information is up to date and relevant which will also ensure improved marketing of providers and to promote use of the Sufficiency Module to provide real time vacancy data.
3. Continue to monitor the number of 2 year places across the Borough to address any identified gaps. To follow up on the actions identified which will inform any future place creation required. This will be achieved by data analysis, collecting termly data on 2 year eligibility, take up and monitoring progress and any trends.
4. To follow up on the capital projects that are currently underway to ensure the new places are available as soon as possible. Both schemes are now completed but one is awaiting its OfSTED registration which has taken 6 months, it is anticipated this scheme should be open early summer and will continue to be progress chased.
5. Review place take up of 30 hours and analyse any trends or shifts in the market place and the sufficiency of the number of places available. Achieved by Data Analysis using termly headcount data, monitoring take up and any trends.
6. To continue to offer a range of support to all providers around the delivery of 30 hours free childcare. A range of additional support is available to providers from the Early Years Funding Team and also the Early Years Quality Improvement Team.
7. To continue to identify strategies to enable providers to become more self-sufficient and responsible for improvement of the quality of their childcare and workforce development. Achieved by encouraging providers to take a proactive approach for the quality of the childcare delivered at their provision e.g. responding to and use of communications received from the Early Years Quality Improvement Team around changes to the OfSTED Inspection processes and how this impacts on OfSTED ratings, attendance to training and continued development of staff. Also by the use of online business support tools which assist with marketing and business sustainability

COVID-19

The attached childcare sufficiency report was collated using data and information provided in 2019, and written prior to the current pandemic.

The Government planning guide provides information and support for all Schools and Early Years Providers which is regularly updated as the situation changes. Tameside Council is working closely with the sector to support the wider opening of schools, colleges and childcare settings.

The additional recommendations for the collection of data to inform the 2020 childcare sufficiency will need to have specific regard to the current situation including:

- collection of data during 2020 and beyond as the childcare market reopens, on attendance, supply and demand, any loss in places and increase to vacancy levels.
- to ascertain the impact of Covid-19 on the long term landscape and sustainability of the childcare market.
- to identify any gaps in provision brought about by changes to the childcare market as it emerges from the current situation.

Approval of the attached Childcare Sufficiency Annual Report 2019 is requested and for the board to approve this report for publication on the Council's website.
<https://www.tameside.gov.uk/childcare>

4. RECOMMENDATIONS

As set out at the front of the report.

Childcare Sufficiency Annual Report 2019

COVID-19

This report was collated using data and information provided in 2019, and written prior to the current pandemic.

The government planning guide provides information and support for all Schools and Early Years Providers which is regularly updated as the situation changes. Tameside Council is working closely with the sector to support the wider opening of schools, colleges and childcare settings.

Contents

1. Introduction
2. Legislation
3. The Borough of Tameside
4. Review of the Local Childcare Market
5. Highlighted Extracts of Previous Full Sufficiency Report
6. Conclusion
7. Recommendations
8. Appendices

1. Introduction

Section 6 of the Childcare Act 2006 introduced a new statutory duty on local authorities to ensure sufficient childcare to meet demand. The act defines sufficient childcare as:

“As far as is reasonably practicable, that the provision of childcare is sufficient to meet the requirements of parents in the area who require childcare in order to enable them:

- a) *To take up or remain in work*
- b) *To undertake education or training which could reasonably be expected to assist them to obtain work”*

The duty also applies to the provision of free early education and childcare for 3 and 4 year old children.

A sufficient childcare market is defined as one that develops sustainable childcare that is affordable and of high quality.

The assessment published in March 2011 reported that Tameside had a healthy and vibrant childcare market that was successfully meeting the needs of its population.

2. Legislation

Local Authorities are required to secure sufficient childcare so far as reasonably practicable for working parents or those studying or training for employment with children aged 0-14 (or up to 18 for disabled children).

Local Authorities should take into account where it is ‘reasonably practicable’ when assessing what sufficient childcare means in the area and include:

- The state of the local childcare market, including supply and demand
- The state of the labour market
- The quality and capacity of childcare providers including funding, staff, premises and experience

The Statutory Guidance for Local Authorities on the Delivery of Free Early Education for Three and Four Year Olds and Securing Sufficient Childcare (2018) suggest that Local Authorities should “report annually to elected council members on how they are meeting their duty to secure sufficient childcare”

3. The Borough of Tameside

3.1 Description

Tameside Borough was created on 1 April 1974 and is one of the ten metropolitan districts of Greater Manchester. It consists of nine towns in a mainly urban area, stretching from the city of Manchester to the Peak District and shares its borders with Stockport, Oldham, Manchester and the Borough of High Peak.

Tameside is comprised of 19 wards and is characterised by some of the worst 5% of deprived areas nationally. Tameside is noted to be the 42nd most deprived borough nationally on the Index of Multiple Deprivation 2010.

See Appendix 1 Indices of Multiple Deprivation 2010 - for further information.

3.2 Population

In 2018 the total population of Tameside was estimated to be 225,197 (estimated via the Office for National Statistics). However, the Census 2011 recorded a population of 233,763 which shows a difference of 8,566 or approximately 3.8%.

3.3 Ethnicity

The following table shows that the majority (91%) of residents in Tameside describe themselves to be White British. The remaining 9% being of Black and Minority Ethnic origins.

	White		BME	
	No.	%	No.	%
Tameside	199,429	90.9	19,895	9.1
East	55,386	95.5	2,604	4.5
North	36,360	79.8	9,196	20.2
South	41,678	90.1	4,555	9.9
West	66,005	94.9	3,540	5.1

Source: Census 2011

3.4 Age

Using data extracted from the Census 2011 the following table shows the breakdown of age across the borough and also by the administrative neighbourhoods – north, east, south and west:

- North - Ashton
- East - Mossley, Stalybridge, Dukinfield
- South - Hyde and Longdendale
- West - Denton, Droylsden, Audenshaw

Notably from a childcare demand perspective, approximately 65% of the population is of working age: 16 to 64 years. This figure becomes significant when considered in conjunction with Birth Rate data.

	0 to 4		0 to 15		16 to 64		65+	
	No.	%	No.	%	No.	%	No.	%
Tameside	14,439	6.6	42,708	19.5	142,415	64.9	34,201	15.6
East	3,797	6.5	11,230	19.4	38,343	66.1	8,417	14.5
North	3,263	7.2	9,288	20.4	29,767	65.3	6,501	14.3
South	3,305	7.1	9,545	20.6	29,636	64.1	7,052	15.3
West	4,074	5.9	12,645	18.2	44,669	64.2	12,231	17.6

Source: Census 2011

3.5 Birth Rate

The graph shows Tameside births from 1974 to 2018 and illustrates there has been an upward trend for births across the borough from 2005 onwards, which caused an increase in demand for childcare places for early years and school age children. The current trend for the last 3 years shows that the birth rate, following a notable decrease has remained fairly static, however traditionally the birth rate tends to follow a fluctuating 25 year cycle. It is expected therefore that this trend will repeat again in future years. During 2018 the birth rate increased slightly to 2813 from 2780 the previous year. Birth rates will continue to be monitored and remain one of the key factors in determining demand for childcare.

3.6 Economic Growth

Since 2008 Tameside's economy has been adversely affected by the global recession and has suffered to a greater extent than most other parts of Greater Manchester. Key indicators and information from Job Centre Plus indicates that Tameside is likely to experience a slower recovery than its neighbouring authorities.

Due to the rollout of Universal Credit and it replacing Jobseeker's Allowance (JSA) and other benefits for a lot of claimants, the following table illustrates the number of people claiming Jobseeker's Allowance plus those who claim Universal Credit and are required to seek work and be available for work. This data set replaces the number of people claiming Jobseeker's Allowance as the headline indicator of the number of people claiming benefits principally for the reason of being unemployed.

Claimant

	North Total	West Total	South Total	East Total	Tameside Total
January 2018	1,020	815	820	1,065	3,720
February 2018	1,110	840	850	1,095	3,895

Source: NOMIS (ONS)

3.7 Economic Activity

The following table indicates the breakdown of the borough according to economic activity which highlights at the time of Census 2011, 68.8% of the borough is economically active.

	Economically Active		Economically Active: Employees		Economically Active: Self Employed		Economically Active: Unemployed		Economically Active: Full Time Student		Economically Inactive	
	No.	%	No.	%	No.	%	No.	%	No.	%	No.	%

Source: Census 2011

3.8 School Readiness

The Early Years Foundation Stage (EYFS) sets the standards that all early years' providers must meet to ensure children learn and develop well and are kept healthy and safe. It promotes teaching and learning to ensure children are school ready and gives them the broad range of knowledge and skills that provide the right foundation for good future progress through school and life (*Statutory Framework for the Early Years Foundation Stage, page 5*).

Tameside accepts that being school ready is about more than just the child being ready for school. This transition needs the support and cooperation of all individuals involved, to create a holistic approach so a child has an enjoyable and positive experience. Schools should be ready for the child as much as the child is ready for school, helping smooth the transition between play based early learning and more formal classroom based teaching. Parents are encouraged to recognise that they are key to preparing their children for school. Key to this successful transition is positive cooperation between parents, childcare professionals and teachers.

Since the 2013 annual report, there has been a change in how data is collected on the number of children who are identified as school ready and is now collated for the borough as a whole and is not available by area.

In July 2019, 67% of children attending in the Early Years Foundation Stage (using Early Years Foundation profile data completed at the end of the year) were identified in Tameside as having a good level of development. This is an increase on the previous year by 1%. The provisional National Average for 2019 has remained at 72% so although the gap is narrowing Tameside remains below the National Average. In the North West in 2019, 69% of children achieved a good level of development which has remained the same. In Greater Manchester combined authorities in 2019 the average was 68%.

Tameside is one of four local authorities in the North West to have improved their Early Years Foundation Stage profile by more than 1% in 2019.

4. Review of the Local Childcare Market

4.1 Childcare Supply

The amount of childcare provision that is currently available has seen some changes since the last annual sufficiency report completed in 2018, notably a decrease in the number of registered childminders within the borough. Out of School Clubs appears to have increased significantly however this year the data collection has improved to include some clubs who previously we had no recorded data for. Overall the childcare market and the number of childcare places have remained stable. With the introduction of 30 hours free childcare from September 2017 for eligible parents, it is anticipated that the childcare market will evolve to meet demand.

Further analysis of the sufficiency of current 2 year and 30 hour provision in the borough is detailed later in this report.

Type	2014	2015	2016	2017	2018	2019	Difference + -
Childminders	329	308	285	280	271	254	-17
Pre-school playgroups	22	21	21	20	17	16	-1
Private nurseries	45	48	49	51	55	54	-1
Out of school clubs	55	54	53	57	54	84	+30
Maintained School Nursery Classes	64	65	66	66	66	66	-
Independent School with Early Years	1	1	1	1	1	1	-

(The figures given above are for providers who are listed with the Families Information Service, some providers are not listed e.g. crèches that are not required to be registered with Ofsted as they offer less than 2 hours of provision).

4.2 Breakdown of Current Childcare by Area

This year following the collection of sufficiency audit and analysis of all the responses received we have collated more accurate data from providers around not just their Ofsted registered number but how the provision manages and allocates its places. This has highlighted a number of changes to place numbers within some areas and moving forward these figures will be used as a benchmark to compare future sufficiency audit questionnaires from providers. The analysis provides more of an accurate reflection of available places. In addition this year we have also received more information from Out of School Clubs to include within the report which will account for some of the changes in some areas.

Ashton Area

Type	2016 No of Providers	2016 No of Places	2017 No of Providers	2017 No of Places	2018 No of Providers	2018 No of Places	2019 No of Providers	2019 No of Places
PDN	12	994	11	977	13	1052	13	1021
Childminder	46	138	51	153	48	144	46	138
Playgroup/ Pre-School	5	167	6	213	4	163	4	193
Out of School (Registered)	10	265	10	275	7	191	16	192
Maintained	16	554	16	598	16	598	16	598
Totals	89	2118	94	2216	90	2148	94	2142

In Ashton-under-Lyne apart from more data being available to report more accurately on all Out of School Clubs there has been a decrease in the number of childminders. The place numbers for pre-school/playgroups also shows an increase again due to more accurate reporting. All other areas remain relatively the same.

Denton/Droylsden/Audenshaw Area

Type	2016 Number of Providers	2016 No of Places	2017 No of Providers	2017 No of Places	2018 No of Providers	2018 No of Places	2019 No of Providers	2019 No of Places
PDN	11	853	12	931	13	990	13	1064
Childminder	109	327	108	324	108	324	101	303
Playgroup/ Pre-School	7	275	7	275	7	280	7	286
Out of School	17	440	19	475	18	504	30	609
Maintained	18	728	18	780	18	780	18	780
Totals	162	2623	164	2785	164	2878	169	3042

This area highlights a decrease in the number of childminders but shows an increase in Out of School Places, the increase is due to more accurate data available on place numbers.

Overall the total number of places available in this area has increased.

Dukinfield/Stalybridge/Mossley Area

Type	2016 Number of Providers	2016 No of Places	2017 No of Providers	2017 No of Places	2018 No of Providers	2018 No of Places	2019 No of Providers	2019 No of Places
PDN	15	1076	17	1216	17	1240	17	1278
Childminder	84	252	80	240	77	231	73	219
Playgroup/ Pre-School	5	133	4	97	3	67	2	47
Out of School	19	532	19	544	20	560	25	667
Maintained	17	572	17	546	17	546	17	546
Independent School	1	20	1	20	1	20	1	20
Totals	140	2565	137	2643	135	2664	135	2771

In this area again it shows a decrease in the number of childminders, and preschools/playgroups, however despite the decreases the overall effect is a similar picture as the number of total places has increased slightly.

Hyde/Longdendale

Type	2016 Number of Providers	2016 No of Places	2017 No of Providers	2017 No of Places	2018 No of Providers	2018 No of Places	2019 No of Providers	2019 No of Places
PDN	11	804	11	804	12	1050	11	885
Childminder	46	138	41	123	38	114	34	102
Playgroup/ Pre-School	4	122	3	77	3	77	3	84
Out of School	7	179	9	208	9	218	13	313
Maintained	15	546	15	494	15	494	15	494
Totals	83	1789	79	1706	77	1953	76	1878

In this area the number of childminders has increased but we have seen a reduction in the number of private day nurseries. Again an increase in the reporting of out of school places increases the number of available places within this sector. However with the reduction of provision within two sectors the overall number of provision and places that are available across the area has decreased slightly.

Totals for Tameside

Type	2016 No of Providers	2016 No of Places	2017 No of Providers	2017 No of Places	2018 No of Providers	2018 No of Places	2019 No of Providers	2019 No of Places
PDN	49	3727	51	3928	55	4332	54	4248
Childminder	285	855	280	840	271	813	254	762
Playgroup/ Pre-School	21	697	20	662	17	587	16	610
Out of School	53	1416	57	1502	54	1473	84	1781
Maintained	66	2400	66	2418	66	2418	66	2418
Independent School	1	20	-	-	1	20	1	14
Totals	474	9095	474	9350	464	9643	475	9833

Across the borough the total number of childcare places available has increased due to more accurate and complete reporting. The childcare market is evolving continually but despite the number of childminders, pre-schools/playgroups and Private Day nursery places decreasing slightly, the overall number of places across the borough has increased, which will also impact positively for parental choice for childcare. The number of childminder places is an estimated number based on each childminder having the capacity to take three children under the age of 5 (as per Ofsted guidance) so this will depend on how many children childminders elect to take under the age of 5.

See Appendix 2 – Maps highlighting Group Provision, Out of School clubs and Childminders

4.3 Demand for Childcare

During 2018 the Families Information Service (FIS) received a total of 3098 enquiries of various types. Of these 1,209 were enquiries where full details were taken. A further breakdown confirmed that a large proportion of these full enquiries initiated, related to childcare, nursery education or 2 year funded places, totaling 88% of the enquiries, which highlights continued demand for formal childcare.

On analysis of the short enquiries where full details were not provided, 81% of this type of enquiry related to childcare, nursery education, 2 year funded places or from childcare providers.

Many parents search online and Tameside provides an 'Online Childcare Finder'. Statistics inform that during the period between January to December 2018 there were 2,420 searches for childcare on the Families Information Service Online service.

This can be accessed from the following web link: <https://www.tameside.gov.uk/childcarefinder>

The Tameside website also provides access to a Service Information Directory which is a much wider online search function providing parents with information on services for children, young people and their parents/carers e.g.

- Activities
- Children Centre Activities
- SEND – Special Educational Needs and Disabilities

- Parenting
- Youth Clubs
- Toddler Groups and more.

This site can be found by accessing the following link <https://www.tameside.gov.uk/Tameside-Service-Information-Directory>

4.4 Free Places for Three and Four Year Old Children

In Tameside according to Department for Education national statistical release data, (provided to all local authorities in 2019 from data sourced from the January census) 98% of 3 and 4 year olds are taking up some or all of their free early education funding.

Year	2013	2014	2015	2016	2017	2018	2019
Percentage	97%	99%	98%	99%	99%	98%	98%

Take up for 2 year funding shows a decrease from the previous year however this could be due to the focus of 30 hours free childcare as most North West local authorities have shown a decrease in take up during 2019. To ensure that this trend is reversed there has been increased activity to assist families to apply and seek a place for their child and participation for autumn 2019 shows a slight increase on the previous term which is encouraging. There are no reported issues with families having difficulties accessing places and there appears to be plenty of choice and opportunity for parents to take up the offer.

Percentage of 2 year old children benefitting from funded early education places by local authority	
All providers - Percentage of population	
Year	2019
Percentage	77%

See Appendix 3 - Map of Childcare providers delivering free Early Education Funding.

4.5 Free Places for Two Year Old Children

From 1st September 2014, 40% of 2 year olds nationally have been entitled to a free 15 hour early education and childcare place. Eligibility is the same as for the entitlement to Free School Meals (e.g. they are families whose income is below £16,190 and on certain benefits) and also families who are in receipt of working tax credit with an annual income of below £16,190, universal credit of no more than £15,400, looked after children and children in receipt of DLA. Target numbers for potentially eligible 2 year olds from the DfE target lists have increased since summer term 2018 when the target number was 1,139 which rose to 1,296 in summer 19. A detailed assessment of the number of two year places was collated during summer 2019 to inform on the number of two year places available within the borough and to identify any further gaps following completion of the initial capital programme. In Tameside we have a good take up of places which are monitored term on term.

The information provided to collate this information was based on the following data sets:

- Potentially eligible families identified by the DFE during April 2019 by ward

- Total number of vacancies – Supplied from all providers delivering free early education (summer 19)
- Total number of 2 year olds attending provision by ward area (summer 19)

All ward areas were showing vacancies but a number of areas indicated minimal places available at the time of the audit e.g.

- Droylsden West
- Hyde Newton
- Ashton Waterloo
- Denton South
- Stalybridge North
- Stalybridge South

The eligible family data was collated, analysed and mapped according to their postal address, and additional data was added to pinpoint group provision and childminders delivering free early education to show location in relation to potentially eligible families.

Consideration was given to other provision located in bordering wards that were also within a reasonable walking distance (approx. half mile radius) to ascertain sufficiency of 2 year old provision.

Droylsden West - Take up on places in this area is 44%. A capital project is underway in the Droylsden area to provide additional places for 2 year olds within walking distance. Based on current information it is expected to open in spring 2020 creating sufficient places and choices for parents in this area.

Hyde Werneth - this area is showing an improvement in take up this year with 75% take up of places. During the 2018 assessment a shortfall of places was identified. A capital project is underway in the Hyde Werneth area to provide additional places for 2 year olds which is expected to be available during spring 2020.

Stalybridge North – this area is showing 62% take up of places. From the 2 year analysis there were vacancies in this area but the data highlighted a small deficit of available places. The amount of deficit places may not necessarily sustain a new provider however there are indications for further new provision to open in this area. In light of this places in Stalybridge South will continue to be monitored.

Stalybridge South - this area is showing 33% take up of places, with minimal vacancies available at the time of the data collection. There are a number of providers in the Dukinfield/Stalybridge that are approximately within half a mile walking distance of some families located on the border of Stalybridge North, which had recorded vacancies and could fill some of the gap. Due to the landscape of the Stalybridge area, which contains a lot of green space some of the provision is located on the outskirts of the ward. The data is highlighting a small deficit of available places within this ward when compared to those who are potentially eligible. With the general downward trend in births, the small number of deficit places may not necessarily sustain new provision. As indications for further new provision to open in neighbouring Stalybridge South, which would be within half a mile distance from some potentially eligible families, in light of this places in Stalybridge North will continue to be monitored.

Denton South – this area is showing 30% take up of places with minimal number of vacancies available. Data is highlighting vacancies in both of its neighbouring wards. Denton North East which has a high number of vacancies is within half a mile walking distance from Denton South for families residing on the border of this ward. Given the location of this ward which is on the outskirts of the borough and adjacent to green spaces, creating new provision may not be sustainable. Currently there are 2 group providers and 3 schools with nursery provision in this area and all will be contacted to identify if there is scope to take further 2 year olds.

Ashton Waterloo – this area is showing 52% take up of places with only a handful of vacancies leaving a potential shortfall of places in this area. Eligible families within this ward are concentrated within a 1 mile area and many border the 3 other Ashton wards. When analysing the data the location of around a third of the potentially eligible families are within a half mile walking distance to other provision in Ashton St Peters and St Michaels which are showing a higher level of vacancies which could support these families. Providers within this area will be contacted to see if there is further scope to increase their 2 year numbers as the number of vacancies required may not be sufficient to sustain new provision. This area will continue to be monitored.

Hyde Newton - this area is showing 53% take up of places with a reasonable amount of vacancies at the time of the data collection, which left a small deficit of places in this area. We are aware of plans to open new provision within the Hyde Godley, Hyde Werneth and Hyde Newton area, therefore until this new provision is on stream this area will continue to be monitored.

Further analysis was obtained to ascertain how families were taking up their places across Tameside and whether they chose provision located in their home ward or elsewhere in the borough. This data highlights that during the summer term which is the busiest of the 3, on average 54% of families took up a 2 year place within the ward in which they live, whereas 43% travelled to a neighbouring ward. The remainder which is around 3% is families who reside outside of Tameside but have chosen to take their 2 year place here.

See Appendix 4 – Analysis of 2 Year Free Places and Take up

Further Action – 2 Year Place Creation

Within the areas of Ashton Waterloo and Denton South further investigation will be carried out to see if there is scope for existing provision to expand their numbers. No further action is planned for place creation in Stalybridge North and South and Hyde Newton. Whilst more information is obtained about potential new provision, all areas will continue to be monitored.

In the Droylsden West area, a new provider will be opening within the Droylsden area which will create much needed 2 year places to bridge the identified gap. Following a delay during the Ofsted registration process it is anticipated that these places should be available during spring 2020 term.

In the Hyde Werneth area, a small gap was identified for further action and additional provision should be available during spring 2020, the delay was due to the feasibility of the original scheme to extend the provision.

At the close of 2019 approximately 134 childminders were registered to accept funded children, and the number of childminders looking to deliver early education places continues to rise, which provides alternative childcare options in all areas of the borough.

4.6 30 Hours Free Childcare

From 1 September 2017 parents/carers that qualify are entitled to a further 15 hours of free early education per week or a maximum of 570 hours per year, giving them up to 30 hours free early education per week over a maximum of 38 weeks. To apply parents/carers must apply directly to Her Majesty's Revenues and Customs (HMRC) and also renew their eligibility regularly as per their renewal dates. Further information can be located on the HMRC website

<https://www.childcarechoices.gov.uk/>

Since September the number of families taking up some or all of their additional entitlement either via their Private, Voluntary or Independent provider or via their school nursery has been steadily increasing.

Term	No's of Families taking all or part of their extended Entitlement
Autumn 2017	1123
Spring 2018	1465
Summer 2018	1742
Autumn 2018	1251
Spring 2019	1651
Summer 2019	1954

The majority of all group providers and childminders on the directory are registered to deliver the offer, plus 42 of the 66 primary schools with a nursery are also delivering the offer or registered to deliver the offer.

30 Hours Free Childcare

After analysis of the data provided during summer 2019, approximately half of all families (48%) taking up their offer sourced provision within their home ward, 44% took up a place in another Tameside ward and approximately 8% of families taking up a place came from outside of Tameside.

This makes it difficult to plan for the sufficiency of places as potentially families are sourcing provision which is convenient for either extended family, on routes into work or as a preference for a particular provider. (See Appendix 5)

The analysis during summer 2019 highlighted a total of 675 vacancies for universal 15 hour entitlement, with recorded vacancies in all wards of Tameside. For the 30 hours or the extended part of the entitlement there were a total of 392 vacancies, again with recorded vacancies in all wards, however there are 3 areas where the level of vacancies were minimal and this will continue to be monitored. (See Appendix 5) Approximately three quarters of these vacancies (280) were recorded in the Private, Voluntary and Independent childcare sector.

Further Action

There is no detailed statistical data available on qualifying numbers of families for 30 hours, so careful termly monitoring will be needed to see where and how families are taking up their place. Also as this offer is predominantly aimed at working parents/carers; to monitor how far parents are travelling from home to a provider e.g. they may source childcare near work or extended family.

The number of recorded vacancies across the whole sector remains at similar levels to the previous year. The analysis also highlights an increase in take up of the extended entitlement (30 Hours) compared to summer 2018 which has increased from 1,736 to 1,954 which represents a 12.55% increase.

Based on vacancy data available during summer 2019, it appears that there are sufficient places available, and no action is needed at present other than continued careful monitoring of places available, take up and vacancies available.

4.7 Childcare for Children Aged 5-11 and During School Holidays

In Tameside at the time of analysis there were 84 Out of School clubs, and an approximate increase of 300 places which appears to have increased dramatically from the previous year. This is largely due to an improved data collection where we obtained additional data for Out of School Provision within the borough to improve reporting within this sector.

Full and Part Time places for 4-8 year olds in School Holidays

The analysis of vacancy data highlighted that there were vacancies for both before and after school places within all wards within the borough, however in some areas the vacancies were minimal e.g. Denton West and Hyde Werneth.

The data also highlighted vacancies available for this age range in all wards within the borough of both full and part time for children to attend during the school holidays.

Maximum Number of Full Time and Part Time places for 8 year olds and over in School Holidays

The analysis of vacancy data highlighted that there were vacancies for both before and after school places within all wards within the borough, however in some areas, vacancies were lower e.g. Hyde Werneth and Longdendale. Again the data highlighted both full and part time places were available for school holiday clubs for this age range.

At the time of analysis there were no major gaps in provision however places will continue to be monitored. It is also worth noting that provision for children aged 5-11 can also be provided by primary schools who are not all included in the above numbers due to lack of data about their service.

4.8 Childcare for Disabled Children and Children with Special Educational Needs (SEND)

The Early Years Provider Development Team provides training and support to childcare settings to enable them to offer inclusive childcare provision. Since October 2013 all providers are able to access SENCO surgeries where they receive guidance to effectively deliver the SEN Code of Practice. The 2011 sufficiency assessment identified that parents of children with additional needs felt there was not enough childcare available to them. However it also found that many childcare providers were able to support children with disabilities and/or additional needs. There also appeared to be a misconception by parents that mainstream childcare settings could not meet their needs and that only specialist childcare settings could do this. This is an issue that is experienced nationally.

Data provided from the Census 2011 highlights that 3.9 % of children in the borough are identified as having a long term health problem or a disability (Age 0 to 15):

	Day-to-day activities limited		Day-to-day activities not limited	
	No.	%	No.	%
Tameside	1,655	3.9	41,053	96.1
East	406	3.6	10,824	96.4
North	387	4.2	8,901	95.8
South	326	3.4	9,219	96.6
West	536	4.2	12,109	95.8

Source: Census 2011

Since July 2017 there has been a dedicated Special Educational Needs Caseworker available for early years. In addition the Early Years Panel where individual cases are referred, meet more frequently to meet demand. Where a need is identified additional support e.g. equipment or additional funding is allocated to enable children to access provision for early years.

Since the last report two 'specialist' Early Years Quality Officers (EYQO) have been appointed to concentrate on SEND in early years provision across the borough. The EYQO will ensure the highest quality of care and education is offered to meet children's needs. They will support the Tameside SEND pathway making sure all early years practitioners are collecting relevant information in preparation for the Early Years SEN Panel, ensuring smooth transitions to the most appropriate educational setting for children with SEND.

From September 2017, two new measures have been introduced to support children with disabilities and special education needs:

- Disability Access Fund
- SEN Inclusion Fund

Both measures are to support providers to make reasonable adjustments and help them better address the needs of individual children to enable them to access their free entitlement.

4.9 Quality of Childcare

The DfE identify within current statutory guidance that they would like the outcome for all children to be able to take up their free hours in a high quality setting. Evidence shows that higher quality provision has greater developmental benefits for children, particularly for the most disadvantaged children, leading to better outcomes.

The Early Years Quality Improvement Team offers support, advice and guidance to the Early Years childcare/education sector with a focus on raising and maintaining high quality childcare. Positive relationships between schools and the PVI settings are improving, becoming more 'joined up' allowing a consistent approach to teaching.

Legislation states Ofsted is the 'sole arbiter of quality'. Therefore the Early Years Quality Improvement Team uses Local Authority GLD (Good Level of Development) data to identify areas of concern to offer targeted interventions to support improvement and close the gaps.

The following table provides a breakdown of all the key types of providers according to their Ofsted rating (data collated as at summer 2019):

Group Settings and Independent Schools	Data Collated Autumn 2016		Data Collated Autumn 2017		Data Collated Autumn 2018		Data Collated Autumn 2019	
	Actual	Percentage %	Actual	Percentage %	Actual	Percentage %	Actual	Percentage %
Inadequate	0	0	1	1.41	0	0	1	1.41
Requires Improvement	5	7.14	4	5.63	2	2.74	2	2.82
Good	37	52.86	40	56.34	52	71.23	51	71.83
Outstanding	12	17.14	12	16.90	14	19.18	12	16.90
Not Yet Graded	16	22.86	14	19.72	5	6.85	5	7.04

There are 71 group providers in total with approximately 89% rated as good or outstanding, which is about the same as the previous year. The number of providers who are awaiting their first inspection has decreased to 7.04% which does reduce the percentage of those good or outstanding. The number of settings rated inadequate or requires improvement has marginally increased on the previous year, which highlights sustained improvements in quality within this sector.

Out of School Clubs	Data Collated Autumn 2016		Data Collated Summer 2017		Data Collated Summer 2018		Data Collated Summer 2019	
	Actual	Percentage %	Actual	Percentage %	Actual	Percentage %	Actual	Percentage %
Inadequate	0	0	0	0	0	0	0	0
Requires Improvement	4	7.55	2	3.51	0	0	3	3.57
Good	24	45.28	29	50.88	36	66.67	58	69.05
Outstanding	6	11.32	8	14.04	10	18.52	12	14.29
Await 1 st Inspection	19	35.85	18	31.58	8	14.81	9	10.71
Exempt	0	0	0	0	0	0	2	2.38

There are now 84 Out of School Clubs with 83.34% rated as good or outstanding, which is an increase on the previous year. In addition 14.81% are awaiting their first inspection. Therefore if those awaiting their first inspection were excluded, the total achieving good or outstanding is actually 100%.

Childminders	Data Collated Autumn 2016		Data Collated Summer 2017		Data Collated Summer 2018		Data Collated Summer 2019	
	Actual	Percentage %	Actual	Percentage %	Actual	Percentage %	Actual	Percentage %
Inadequate	1	0.35	9	3.21	4	1.48	6	2.36
Requires Improvement	46	16.14	13	4.64	7	2.58	7	2.76
Good	148	51.93	174	62.14	174	64.21	164	64.57
Outstanding	12	4.21	12	4.29	16	5.90	15	5.90
Awaiting Inspection					40	14.76	36	14.17

Met	78	27.37	72	25.71	30	11.07	26	10.24
-----	----	-------	----	-------	----	-------	----	-------

(Included in Inadequate are 5 childminders classed as not met e.g. require actions)

In total there are 254 childminders within the borough, a decrease on the previous year. Of these 70.47% of the childminders are rated as good or outstanding, which remains the same as the previous year. There are 62 childminders who have not yet been inspected, or are classed as 'Met'. Therefore if those awaiting inspection are excluded, the total achieving a good or outstanding result is actually 93.22% which is a slight decrease on the previous year.

Schools	Data Collated Summer 16	
	Actual	Percentage %
Inadequate	0	0
Requires Improvement	6	9.09
Good	43	65.15
Outstanding	5	7.58
Yet to be Inspected	12	18.18

In total there are 66 primary schools within the borough that have a nursery class and provide early education, of these 72.73% are rated good or outstanding, however there are 12 schools awaiting inspection which if excluded, the total achieving a good or outstanding result is actually 88.88%. Of the 66 schools, 37 or, 56% are currently offering the 30 hours free childcare for 3/4 year olds which whilst this is a slight decrease of schools since September 2018 is still indicates stability.

4.10 Affordability of Childcare

Childcare costs vary from area to area within the borough and from type to type, however the tables below illustrate typical average childcare costs in Tameside collated for the '2019 Childcare Survey for Local Authorities in England' based on a full time attendance e.g. 50 hours of care per week and 25 hours:

Average cost for group providers offering up to 50 hours per week

Under twos per week attending 50 Hours	£183
Under twos per week attending 25 Hours	£132
Aged 2 plus per week attending 50 hours	£181
Aged 2 plus per week attending 25 Hours	£130

- The most expensive rate for under two's for 25 hours was £60
- The cheapest rate for under two's for 25 hours was £102

Childminders - The typical average weekly costs for a childminder in the area:

Under twos per week attending 50 Hours	£189
Under twos per week attending 25 Hours	£95
Aged 2 plus per week attending 50 hours	£189
Aged 2 plus per week attending 25 Hours	£95

Out of school provision can be offered at various providers however typical costs include:

Out of school club typical average weekly for a place for 15 hours per week	£53.00
-----------------------------------------------------------------------------	--------

According to the Daycare Trust's annual childcare survey 2019 "*childcare prices for children under three have risen slightly above inflation this year. For more detail on the content of the 'Childcare Survey 2019 please refer to the full report on <https://www.familyandchildcaretrust.org/childcare-survey-2019>*

5. Highlighted Extracts from the Summary of the CSA 2011

The report of 2011 did not highlight any major geographical gaps in the borough however in order to determine the state of the market place a full gap analysis was recommended but given the current level of resources available this is no longer feasible. Where there were geographical gaps these were not necessarily reflected in the demand for places as often gaps can exist where there is a low population of people in a large area.

The report identified that half of the parents surveyed felt that while cost of formal childcare was a consideration, quality, location and opening hours were regarded to be more important.

Parents of disabled children reported that they found childcare expensive. Various reasons were given including personal financial circumstances and situations when providers passed on additional resource costs to parents. Parents of children with disabilities also expressed the view that there was not enough choice of childcare providers that they felt confident could safely look after their children. This situation is experienced nationally.

The general opinion of parents and employers is that there was adequate childcare at the times when most people needed it, with the majority using childcare for the working day over Monday to Friday. As expected there is less demand for full week care and limited need for care before 7.30 am or after 6pm.

It was reported that there was an adequate range of childcare for all age ranges although there was less demand for older children. For this age range it was noted there have been some issues with sustainability when expressed demand was not realised resulting in the provision closing in some cases.

6. Conclusion

During 2019 the childcare market in Tameside has remained stable, there has been a small reduction in the number of places at Private Day Nurseries and childminders however the number of places within pre-schools/playgroups and Out of School Clubs has increased. Overall the number of childcare places available across the borough has increased which impacts positively on parental choice.

The number of families that were potentially eligible for a 2 year place at the time of the data collection (summer 19) has increased which impacts on demand. At the time of the data collection the data highlights a slight reduction in participation since autumn 2018.

Further analysis of two year provision highlighted a number of areas to monitor. Two areas with a small identified gap are also identified for further action. With the need to ensure sustainability, all existing provision in both wards will be contacted to ascertain any scope for increasing their 2 year places.

Analysis of the sufficiency of two year places and the take up of the free entitlement for three and four year olds will remain under review. The DfE statistical release 2019 indicates that take up of 3 and 4 year olds is 98%; this is considered to be a high take up and is evident across the borough at maintained, private, voluntary and independent providers.

Changes are noted within the childcare market but from the information available no identified gaps in provision have been highlighted other than two specific wards within the borough where there appears to be a small gap in provision for the two year age range.

Not all sectors of childcare providers responded to the request to provide data, which prevents a full assessment of the sufficiency of childcare places in all areas. In particular at the time of concluding the report not all Out of School clubs and Childminders had responded, however from those that did respond, most were reporting vacancies. Without any other anecdotal information to highlight any specific gaps in provision for out of school club places and childminders, we have been unable to fully assess sufficiency of all places, but conclude from the vacancies available from those that did submit that there is still sufficient provision.

30 Hours Free childcare

The roll out of 30 hours free childcare is now in its second year and at this point there are no reported issues with parents experiencing insufficient provision. Approximately over half of the boroughs primary schools with a nursery have also offered 30 hours which provided much needed additional places. At the time of data collection during the busiest reported term, (summer) there were vacancies for 30 hours in all areas of the borough. This will be continually monitored and reported upon annually.

7. Recommendations

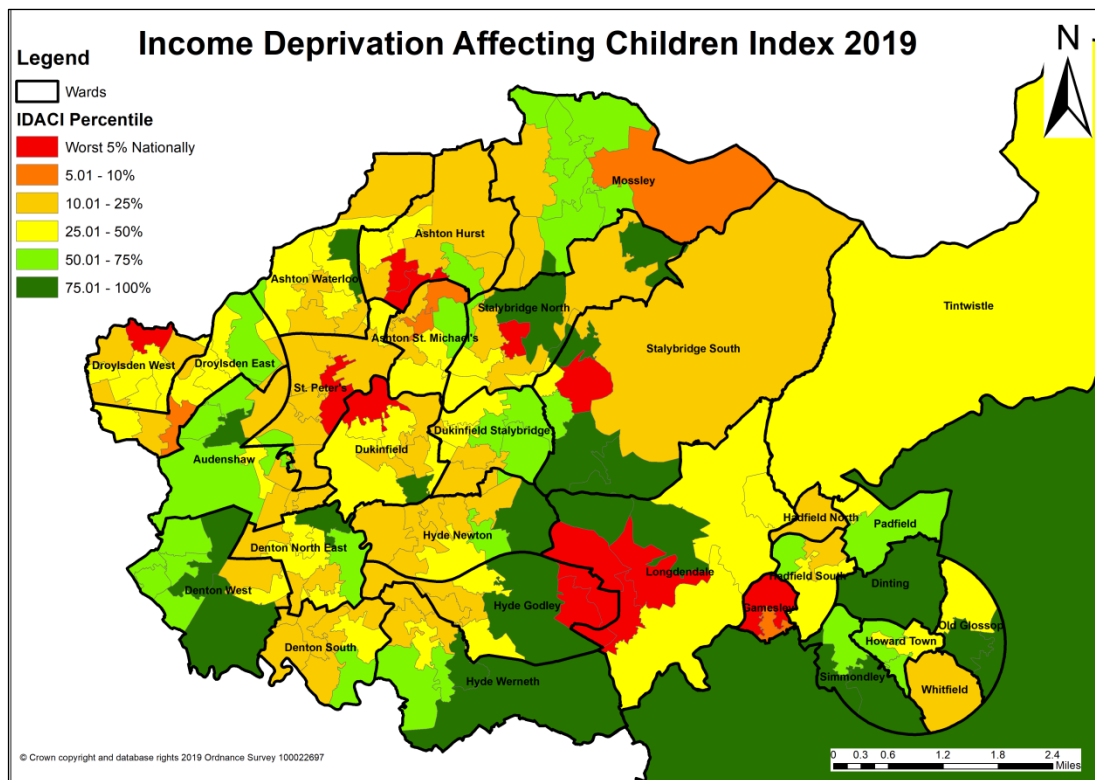

The report of 2011 and the annual report of 2013 did not highlight any major gaps in the borough. The data compiled for this report shows that the position is broadly similar, however to ensure sufficiency the following recommendations are suggested:

1. To continue to work with all our childcare providers to improve the quality and content of the data provided, to inform on the annual assessment of childcare available for all age ranges
2. To promote to all providers to regularly report on their vacancies and to ensure their information published online is current. To further promote the online childcare search function to enable parents to be able to make electronic enquiries for childcare using the information provided

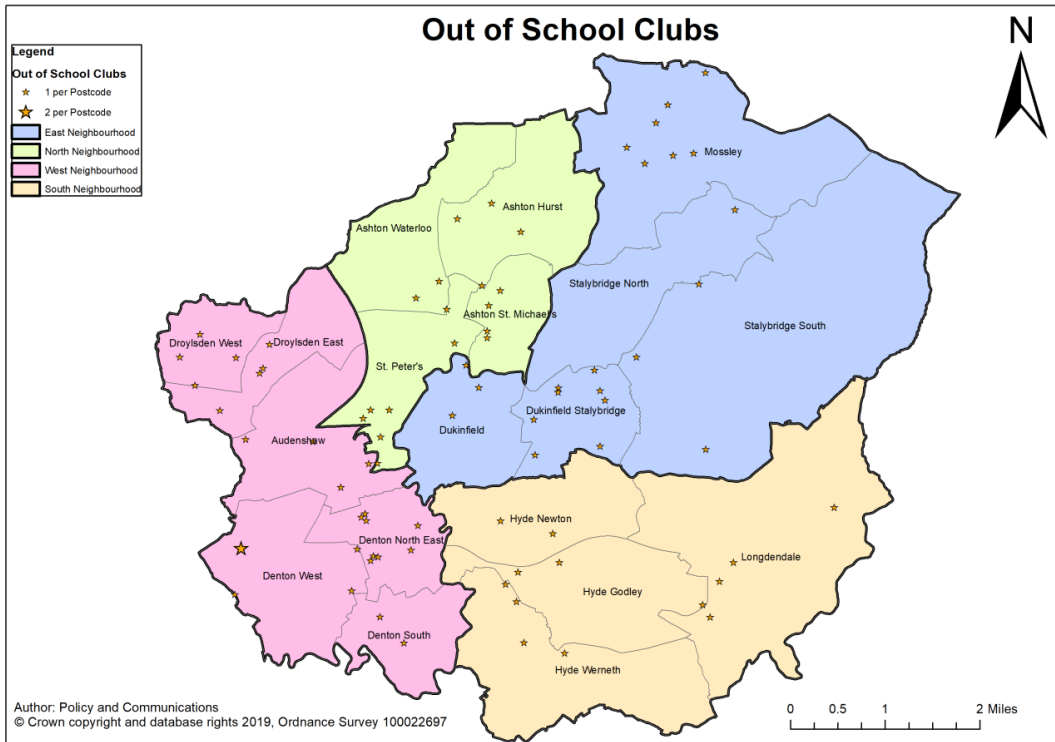

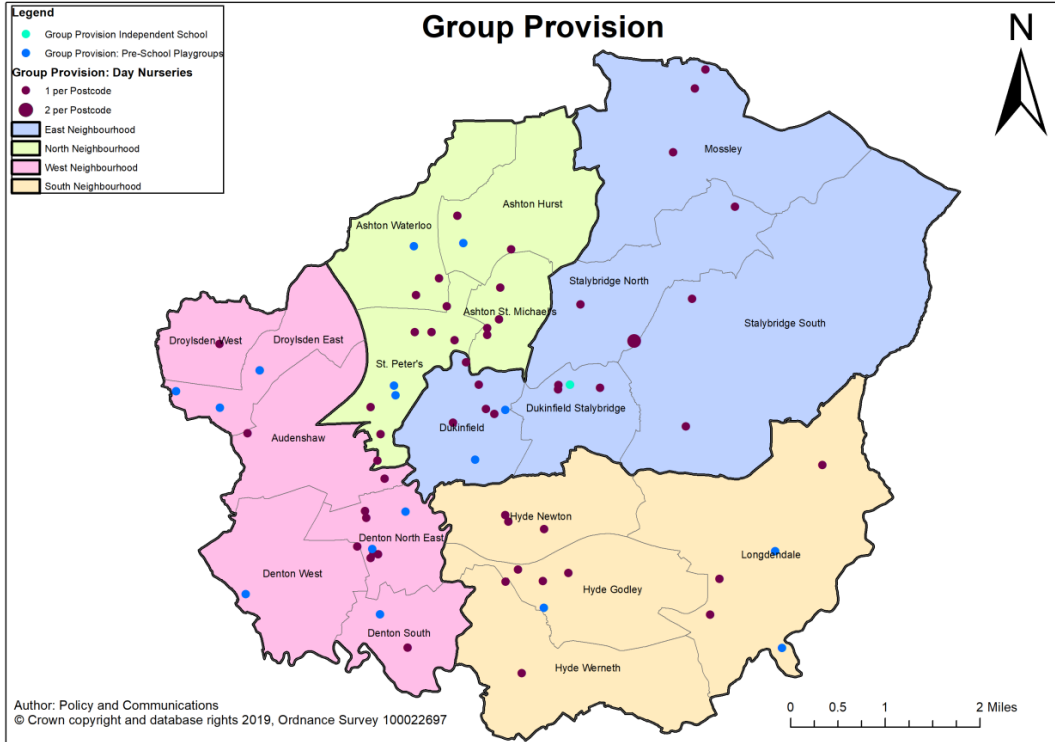

3. Continue to monitor the number of 2 year places across the borough to address any identified gaps. To follow up on the actions identified which will inform any future place creation required
4. To follow up on the capital projects that are currently underway to ensure the new places are available as soon as possible
5. Review place take up of 30 hours and analyse any trends or shifts in the market place and the sufficiency of the number of places available
6. To continue to offer a range of support to all providers around the delivery of 30 hours free childcare
7. To support provider's to embed strategies for delivery of high quality early years childcare/education in both the maintained and non-maintained childcare settings.
