

Greater Manchester Pension Fund Statement of Accounts 2019/20

******* DRAFT UNAUDITED *******

(Full Report)

Greater Manchester Pension Fund Statement of Accounts 2019/20

Fund Account for the Year Ended 31 March 2020

31 March 2019 £000		Note	31 March 2020 £000
	<u>Contributions and benefits</u>		
(145,922)	Contributions from employees	5	(152,068)
(447,440)	Contributions from employers	5	(460,162)
(593,362)			(612,230)
(313,591)	Transfers in (bulk)		0
(24,031)	Transfers in (individual)		(25,694)
(930,984)			(637,924)
803,614	Benefits payable	6	860,202
42,967	Payments to and on account of leavers	7	42,351
32,505	Management expenses	8	34,769
879,086			937,322
	<u>Returns on investments</u>		
(436,702)	Investment income	9	(523,638)
(868,166)	Increase in fair value of investments	11	2,029,030
5,192	Taxation	10	3,973
4,496	Loss on foreign currency		56
(1,295,180)	Net profit on investments		1,509,421
(1,347,078)	Net (increase)/decrease in the Fund during the year		1,808,819
(22,496,545)	Net assets of the Fund at start of year		(23,843,623)
(23,843,623)	Net assets of the Fund at end of year		(22,034,804)

Greater Manchester Pension Fund Statement of Accounts 2019/20

Net Assets Statement at 31 March 2020

31 March 2019 £000		Note	31 March 2020 £000
3,611,360	UK equities		2,832,381
3,577,832	Overseas equities		4,996,751
1,003,365	Bonds	11	1,433,695
369,914	Overseas index linked government bonds		416,356
881,991	Investment property	11	835,885
0	Derivative contracts	11	13,975
13,453,499	Pooled investment vehicles	11	10,783,943
755,437	Cash and deposits	11	484,347
212,544	Other investment assets	11	186,718
23,865,942	Investment assets		21,984,051
0	Derivative contract liabilities	11	(1,354)
(73,279)	Other investment liabilities	11	(6,219)
(73,279)	Investment liabilities		(7,573)
73,556	Current assets	11	78,517
(22,596)	Current liabilities	11	(20,206)
50,960	Net current assets		58,311
23,843,623	Net assets of Fund		22,034,789

Notes to Greater Manchester Pension Fund

1. Notes to the Accounts

From 1 April 2010 GMPF was required to prepare its financial statements under International Financial Reporting Standards (IFRS). The financial statements have been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 based on IFRS, published by the Chartered Institute of Public Finance and Accountancy (CIPFA). This requires that GMPF accounts should be prepared in accordance with International Accounting Standard (IAS) 26, except where interpretations or adaptations to fit the public sector are detailed in the Code. The financial statements summarise the transactions of GMPF and deal with net assets at the disposal of the Management Panel. They do not take account of obligations to pay pensions and benefits which fall due after the end of the GMPF financial year. Under IFRS, GMPF is required to disclose the actuarial present value of promised retirement benefits. This is disclosed as a separate note (Note 25). The full actuarial position of GMPF which does take account of pension and benefit obligations falling due after the year end is outlined in Note 22. These financial statements should be read in conjunction with that information.

1b. The Management and Membership of the Greater Manchester Pension Fund

Tameside MBC is the statutory Administering Authority for the Greater Manchester Pension Fund (GMPF). The administration and investment performance of GMPF is considered and reviewed every quarter by the Management Panel, which consists of 21 elected Members (12 from Tameside MBC, being the Administering Authority, and nine from other Greater Manchester local authorities) and a representative from the Ministry of Justice.

The Management Panel is advised in all areas by the Advisory Panel. Each of the ten Greater Manchester local authorities and the Ministry of Justice are represented on the Advisory Panel and there are six employee representatives nominated by the North West TUC. There are also four External Advisors who assist the Advisory Panel, in particular, regarding investment related issues.

As a result of the Public Service Pensions Act 2013 and subsequent Local Government Pension Scheme Regulations, each public sector pension fund has been required to establish a Local Pension Board from 1 April 2015.

The GMPF Local Pensions Board is not a decision-making body. However, it is required to assist the Administering Authority in complying with regulations and ensuring that appropriate governance is in place.

GMPF also currently has four Working Groups, which consider particular areas of its activities and make recommendations to the Management Panel. Governance arrangements for GMPF are continually under review. The Working Groups in operation in 2019/20 covered:

- Investment Monitoring and Environment, Social and Governance
- Pensions Administration, Employer Funding and Viability
- Policy and Development

There are three Officers to GMPF:

- Director of Governance & Pensions – administrator of GMPF and link for Panel Members, advisors and investment managers between meetings
- Chief Executive and Director of Governance & Pensions (Solicitor and statutory monitoring officer) – jointly responsible for the provision of legal and secretarial services to the Management and Advisory Panels
- Director of Finance – responsible for preparation of Administering Authority's accounts, which includes GMPF's Statement of Accounts

GMPF's investment strategy is implemented by management arrangements, which include:

- one external investment manager that manage multi asset briefs
- two external managers with a global equity brief
- one external manager with a global credit brief
- two external managers with a direct and indirect UK property brief, i.e. one discretionary UK and one advisory local
- Internal management of cash, private equity, infrastructure, generalist pooled property funds, local and other unquoted investments

GMPF subscribes to an industry performance measurement service run by Portfolio Evaluation Ltd in order to analyse/benchmark GMPF's performance relative to market returns and relevant industry comparators. In addition to this, GMPF also subscribes to the Local Authority Pension Performance Analytics Service supplied by Pensions Investment Research Consultants Ltd (PIRC) to enable assessment of its performance relative to all other funds that operate under the same regulations.

GMPF is a pension fund which administers the statutory Local Government Pension Scheme (LGPS), set up to provide death and retirement benefits for local government employees other than teachers, fire fighters and police officers for whom separate arrangements exist. In addition, other qualifying bodies, which provide similar services to that of local authorities, have been admitted to GMPF.

GMPF operates a career average scheme whereby as each year goes by members build up a set portion of pay as a pension. It is funded by contributions from employees, which are set out in regulations, and variable contributions from employers, which take account of the relationship of assets held to liabilities accrued (see Actuarial Review of GMPF – Note 22). The benefits of the Scheme are prescribed nationally by Regulations made under the Public Service Pension Schemes Act 2013.

The membership of GMPF as at 31 March 2020 and the preceding year is shown below:

31 March 2019		31 March 2020
111,520	Contributors	112,274
128,704	Pensioners	132,068
135,799	Deferred Members *	140,153
376,023	Total Membership	384,495

** Includes former contributors who have retained a right to a refund of contributions or a transfer of pension benefits to another scheme.*

The contributions received from GMPF employers can be found in Note 20.

Further information is published in the Greater Manchester Pension Fund Annual Report 2019/20 and Funding Strategy Statement (FSS). The FSS is available from www.gmpf.org.uk and the Annual Report will be published on the website following the completion of the external audit of GMPF's 2019/20 Statement of Accounts.

2. Accounting Policies

Basis of preparation: The accounts have been prepared on an accruals basis. That is, income and expenditure is recognised as it is earned or incurred including contributions receivable and pension benefits payable. The exception is that individual and bulk transfers, due to uncertainty over final settlement and timing of payments, are recognised on a received or paid basis.

Financial assets and liabilities: On initial recognition, GMPF is required to classify financial assets and liabilities into amortised cost, fair value through profit and loss, fair value through other comprehensive income investments. Financial assets may be classified as at fair value through profit and loss only if such classification eliminates or significantly reduces a measurement or recognition of inconsistency.

Contribution income: Normal contributions, both from the members and from the employer, are accounted for on an accruals basis at the percentage rate recommended by the fund actuary in the payroll period to which they relate. Employer funding contributions are accounted for on the due dates on which they are payable under the schedule of contributions set by the scheme actuary or on receipt if earlier than the due date.

Employers' augmentation contributions and pensions strain contributions are accounted for in the period in which the liability arises. Any amount due in year but unpaid will be classed as a current financial asset. Amounts not due until future years are classed as long-term financial assets

Additional Voluntary Contributions (AVC): GMPF provides an AVC scheme for its contributors, the assets of which are invested separately from GMPF. These AVC sums are not included in GMPF's financial statements because GMPF has no involvement in the management of these assets. Members participating in this arrangement each receive an annual statement confirming the amount held in their account and the movements in the year. Further details are provided in Note 24.

Additional Voluntary Contributions Income: Where a member is able and chooses to use their AVC fund to buy scheme benefits, this is treated on a cash basis and is categorised within Transfers In.

Investment Income: Interest, property rent and dividends on fixed interest and equity investments and on short-term deposits has been accounted for on an accruals basis.

Accrued Investment Income: Accrued investment income has been categorised within investments in accordance with the appropriate Pensions Statement of Recommended Practice (SORP).

Foreign Income: Foreign income is translated into sterling at the rate applicable at the date of conversion. Income due at the year-end is translated at the rate applicable at 31 March 2020.

Foreign Investments: Foreign investments are translated at the exchange rate applicable at 1 March 2020. Any gains or losses arising on translation of investments into sterling are accounted for as a change in market value of investment.

Rental income: Rental income from operating leases on investment properties owned by GMPF is recognised on a straight-line basis over the term of the lease. Any lease incentives granted are recognised as an integral part of the total rental income over the term of the lease. Contingent rents are only recognised when contractually due.

Benefits: Benefits includes all benefit claims payable by GMPF during the financial year.

Investment Values: All financial assets are valued at their fair value as at 31 March 2020 determined as follows:

At 31 March 2020	Valuation basis/technique	Main assumptions
Equities and bonds	Pricing from market data providers based on observable bid price quotations.	Use of pricing source. There are minor variations in the price dependent upon the pricing feed
Direct investment property	Independent valuations for freehold and leasehold investment properties at fair value; the main investment property portfolio has been valued by Colliers International Valuation UK LLP, Chartered Surveyors, as at 31 March 2020. The Greater Manchester Property Venture Fund portfolio has been valued as at 31 March 2020 by Avison Young. In both cases valuations have been in accordance with Royal Institute of Chartered Surveyors (RICS) Red Book.	Investment properties have been valued on the basis of open market value (the estimated amounts for which a property should exchange between a willing buyer and seller) and market rent (the expected benefits from holding the asset) in accordance with the RICS Appraisal and Valuation Manual. The values are estimates and may not reflect the actual values. See caveat below *
Indirect property (part of Pooled Investment Vehicles)	Independent valuations for freehold and leasehold properties less any debt within the individual property fund plus/minus other net assets.	Freehold and leasehold properties valued on an open market basis. Valuation carried out in accordance with the principles laid down by the RICS Appraisal and Valuation Manual and independent audit review of the net assets within the individual property fund.
Cash and other net assets	Value of deposit or value of transaction.	Cash and account balances are short-term, highly liquid and subject to minimal changes in value.

* Valuations were caveated with the following:

The outbreak of the Novel Coronavirus (COVID-19), declared by the World Health Organisation as a "Global Pandemic" on 11 March 2020, has impacted global financial markets. Travel restrictions have been implemented by many countries. Market activity is being impacted in many sectors. As at the valuation date, we consider that we can attach less weight to previous market evidence for comparison purposes to inform opinions of value. Indeed, the current response to COVID-19 means that we are faced with an unprecedented set of circumstances on which to base a judgement. Our valuation(s) is / are therefore reported on the basis of "material valuation uncertainty" as per VPS 3 and VPGA 10 of the RICS Red Book Global. Consequently, less certainty – and a higher degree of caution - should be attached to our valuation than would normally be the case. Given the unknown future impact that COVID-19 might have on the real estate market, we recommend that you keep the valuation of the properties in this portfolio, under frequent review.

At 31 March 2020	Valuation basis/technique	Main assumptions
Derivatives	<p>Derivative contracts are valued at fair value.</p> <p>Futures contracts' fair value is determined using exchange prices at the reporting date. The fair value is the unrealised profit or loss at the current bid market quoted price. The amounts included in change in market value are the realised gains and losses on closed futures contracts and the unrealised gains and losses on open futures contracts.</p> <p>The fair value of the forward currency contracts is based on market forward exchange rates at the year-end date and determined as the gain or loss that would arise if the outstanding contract was matched at the year end with an equal and opposite contract.</p>	
Private equity, infrastructure and special opportunities portfolios	<p>The funds are valued either in accordance with Accounting Standards Codification 820 or with International Financial Reporting Standards (IFRS). The valuation basis, determined by the relevant fund manager, may be any of quoted market prices, broker or dealer quotations, transaction price, third party transaction price, industry multiples and public comparables, transactions in similar instruments, discounted cash flow techniques, third party independent appraisals or pricing models. The valuation of these assets can take up to six months to come through. GMPF practice when closing accounts is to use the latest available valuation and adjust for cashflows. For this year, given the uncertainty over valuations, the cut off for receipt of valuations was left as late as possible. Whilst up to 20% of valuations may not be a 31 March valuation from an external source, the ultimate effect is not estimated to be material by management.</p>	<p>In reaching the determination of fair value, the investment managers consider many factors including changes in interest rates and credit spreads, the operating cash flows and financial performance of the investments relative to budgets, trends within sectors and/or regions, underlying business models, expected exit timing and strategy and any specific rights or terms associated with the investment, such as conversion features and liquidation preferences. The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates, and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expense. The estimates and assumptions are reviewed on an on-going basis.</p>

Financial instruments at fair value through the profit and loss: Financial assets and liabilities are stated at fair value as per the Net Assets Statement, which is prepared in accordance with the Pensions SORP, requiring assets and liabilities to be reported on a fair value basis. Gains and losses on financial instruments that are classified as at fair value through the profit and loss are recognised in the Fund account as they arise. The carrying values are therefore the same as fair values.

Loans and receivables: Non-derivative financial assets which have fixed or determinable payments and are not quoted in an active market are classified as loans and receivables.

Cash and cash equivalents: Cash comprises of cash in hand and demand deposits. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and that are subject to minimal risk of changes in values.

Acquisition costs of investments: Acquisition costs of non-equity investments are included in the purchase price.

Management Expenses: Investment management expenses paid directly by GMPF are included within Management Expenses within the Fund account on page XXX. These costs together with other management costs are met from within the employer contribution rate. Certain of GMPF's external securities managers have contracts which include performance fees in addition to the annual management fees. The performance fees are based upon one off, non-rolling, 3 yearly calculations. It is GMPF policy to accrue for any performance fees which are considered to be potentially payable.

In addition, certain investments in pooled vehicles, predominantly in private markets, alternatives and property have investment costs deducted directly by the investment managers. These costs are not charged directly to the Fund account nor analysed in Note 8. They are included in the fair value adjustments applied to assets concerned within the Fund account and corresponding notes. The performance of these investments is reported on a net basis. In line with CIPFA recommendations on improving disclosure of investment costs, Note 11a includes an estimate of these costs for this financial year and previous financial year. Administration Expenses are included within Management Expenses within the Fund account. These costs are accounted for on an accruals basis. The costs of administration are met by employers through their employer contribution rate. All staff costs of the administering authority's pension service are charged direct to GMPF.

Net (Profit)/Loss on Foreign Currency: Net (profit)/loss on foreign currency comprise the change in value of short-term deposits due to exchange rate movements during the year.

Actuarial present value of promised retirement benefits: The actuarial present value of promised retirement benefits is assessed on an annual basis by the Actuary in accordance with the requirements of IAS19 and relevant actuarial standards. As permitted under IAS26, GMPF has opted to disclose the actuarial present value of promised retirement benefits by way of a Note to the Net Asset Statement (see Note 25).

Derivatives: GMPF uses derivative financial instruments to manage its exposure to specific risks arising from its investment activities. GMPF does not hold derivatives for speculative purposes. Derivative contract assets are fair valued at bid prices and liabilities are fair valued at offer prices. Changes in fair value of derivative contracts are included in change in fair value. Future contracts are exchange traded and fair value is determined using exchange prices at their reporting date. Amounts due or owed to the broker are amounts outstanding in respect of initial margin and variation margin. Forward foreign exchange contracts are over the counter contracts and are valued by determining the gain or loss that would arise from closing out the contract at the reporting date, by entering into an equal and opposite contract at that date.

Transfers: Transfer values represent amounts received and paid during the period for individual members who have either joined or left GMPF during the financial year and are calculated in accordance with Local Government Pension Scheme Regulations.

Individual transfers in/out are accounted for when received/paid, which is normally when the member liability is accepted or discharged. This reflects when liabilities are transferred and received. Transfers in from members wishing to use the proceeds of their additional voluntary contributions to purchase scheme benefits are accounted for on a receipts basis and are included in transfers in. Bulk (group) transfers are accounted for on an accruals basis.

Taxation: GMPF is a registered public service scheme under section 1(1) of Schedule 36 of the Finance Act 2004 and as such is exempt from UK income tax on interest received and from capital gains tax on the proceeds of investments sold. Income from overseas investments suffers withholding tax in the country of origin, unless exemption is permitted. Irrecoverable tax is accounted for as a fund expense as it arises.

2a. Critical judgements in applying accounting policies

In applying the policies, GMPF has had to make certain judgements about complex transactions, or those involving uncertainty. Those with most significant effect are:

- GMPF will continue in operational existence for the foreseeable future as a going concern
- No investments are impaired (further detail on the investment strategy and approach to managing risk can be found in Note 4)

Any judgements made in relation to specific assets and liabilities, in addition to information stated in the relevant notes, can also be found in Note 2: Accounting Policies.

Compliance with IFRS requires the assumptions and uncertainties contained within figures in the accounts and the use of estimates to be explained. GMPF accounts contain estimated figures, taking into account historical experience, current trends and other relevant factors, as detailed below:

Unquoted equity, infrastructure and special opportunities investments

Unquoted equities are valued by the investment managers in accordance with Accounting Standards Codification 820 or with International Financial Reporting Standards (IFRS). The value of unquoted equities, infrastructure and special opportunities held via investment in specialist pooled investment vehicles at 31 March 2020 was £2,942,866,000 (£2,160,177,000 at 31 March 2019).

The valuation of these assets can take up to six months to come through. GMPF practice when closing accounts is to use the latest available valuation and adjust for cashflows. For this year, given the uncertainty over valuations, the cut off for receipt of valuations was left as late as possible. Whilst up to 20% of valuations may not be a 31 March valuation from an external source, the ultimate effect is not estimated to be material by management.

Pension Fund Liability

The present value of GMPF's liabilities is calculated every three years by an appointed actuary. For the purpose of reporting the actuarial present value of promised retirement benefits, this liability value is updated annually in intervening years by the Actuary. The methodology used is in line with accepted guidelines and in accordance with IAS 19. Assumptions underpinning the valuations are agreed with the Actuary and are summarised in Note 25. This estimate is subject to significant variances based on change to the underlying assumptions.

3. Classification of Financial Instruments

Accounting policies describe how different asset classes of financial instruments are measured and how income and expenses, including fair value gains and losses, are recognised. The following table analyses the carrying amounts of financial assets and liabilities by category and net assets statement heading. No financial assets were reclassified during the accounting period.

	At 31 March 2020		
	Designated as fair value through profit and loss £000	Loans and receivables £000	Financial liabilities at amortised cost £000
Financial assets:			
Equities	7,829,132	0	0
Bonds	1,433,695	0	0
Index linked	416,356	0	0
Derivatives	13,975	0	0
Pooled investment vehicles	10,783,943	0	0
Cash	0	484,347	0
Other investment assets	0	186,718	0
Current assets	0	78,517	0
	20,477,101	749,582	0
Financial liabilities:			
Derivatives	0	0	(1,354)
Other investment liabilities	0	0	(6,219)
Current liabilities	0	0	(20,206)
	0	0	(27,779)
Total	20,477,101	749,582	(27,779)

	At 31 March 2019		
	Designated as fair value through profit and loss £000	Loans and receivables £000	Financial liabilities at amortised cost £000
Financial assets:			
Equities	7,189,192	0	0
Bonds	1,003,365	0	0
Index linked	369,914	0	0
Derivatives	0	0	0
Pooled investment vehicles	13,453,499	0	0
Cash	0	755,437	0
Other investment assets	0	212,544	0
Current assets	0	73,556	0
	22,015,970	1,041,537	0
Financial liabilities:			
Derivatives	0	0	0
Other investment liabilities	0	0	(73,279)
Current liabilities	0	0	(22,596)
	0	0	(95,875)
Total	22,015,970	1,041,537	(95,875)

Note: the above tables do not include investment property.

Net Gains and Losses on Financial Instruments

All gains and losses on financial instruments were at fair value through the profit and loss. The net loss for the year ending 31 March 2020 was £1,947,000 (£849,767,000 net profit as at 31 March 2019).

3a. Valuation of assets carried at fair value

The table below provides an analysis of the assets and liabilities of GMPF that are carried at fair value in the GMPF Net Asset Statement grouped into levels 1 to 3 based on the degree to which fair value is observable. Further details of the values shown can be found in Note 11.

	At 31 March 2020			
	Level 1 £000	Level 2 £000	Level 3 £000	Total £000
Financial assets:				
Equities	7,829,132	0	0	7,829,132
Fixed interest	0	1,433,695	0	1,433,695
Index linked	0	416,356	0	416,356
Derivatives	0	13,975	0	13,975
Pooled investment vehicles	0	5,997,916	4,786,027	10,783,943
Non-financial assets (at fair value through profit & loss):				
Directly held investment property	0	0	835,885	835,885
Total	7,829,132	7,861,942	5,621,912	21,312,986
	At 31 March 2019			
	Level 1 £000	Level 2 £000	Level 3 £000	Total £000
Financial assets:				
Equities	7,189,192	0	0	7,189,192
Fixed interest	0	1,003,365	0	1,003,365
Index linked	0	369,914	0	369,914
Derivatives	0	0	0	0
Pooled investment vehicles	0	9,496,019	3,957,480	13,453,499
Non-financial assets (at fair value through profit & loss):				
Directly held investment property	0	0	881,991	881,991
Total	7,189,192	10,869,298	4,839,471	22,897,961

The valuation of assets has been classified into three levels according to the quality and reliability of information used to determine the fair values.

Level 1

Inputs to Level 1 are quoted prices on the asset being valued in an active market where there is sufficient transaction activity to allow pricing information to be provided on an ongoing basis. Financial instruments classified as Level 1 predominantly comprise actively traded shares.

Level 2

Level 2 prices are those other than Level 1 that are observable e.g. composite prices for fixed income instruments and fund net asset value prices. This is considered to be the most common level for all asset classes other than equities.

Level 3

Level 3 prices are those where at least one input, which could have a significant effect on the instrument's valuation, is not based on observable market data. Such instruments would include the GMPF private equity and infrastructure investments which are valued using various valuation techniques that require significant management judgement in determining appropriate assumptions, including earnings multiples, public market comparables and estimated future cash flows.

The valuation techniques used by GMPF are detailed in Note 2.

A reconciliation of fair value measurements in Level 3 is set out below:

31 March 2019		31 March 2020
£000		£000
3,692,987	Opening balance	4,839,471
1,200,046	Acquisitions	1,134,685
(382,477)	Disposal proceeds / Return of capital	(470,917)
0	Transfer in of Level 3	0
	Total gains/losses included in the Fund account:	
86,992	- on assets sold	173,172
241,923	- on assets held at year end	(54,498)
4,839,471	Closing balance	5,621,912

GMPF has cash, other investment assets and liabilities. No valuation technique is required in relation to these investments and therefore assignment to a level is not applicable.

4. Financial risk management

The Management Panel of GMPF recognises that risk is inherent in any investment activity. GMPF has an active risk management programme in place and the measures, which it uses to control key risks are set out in its Funding Strategy Statement (FSS).

The FSS is prepared in collaboration with GMPF's Actuary, Hymans Robertson LLP, and after consultation with GMPF's employers and investment advisors.

The FSS is reviewed in detail at least every 3 years in line with triennial valuations being carried out. A full review was completed by 31 January 2020.

GMPF's approach to investment risk measurement and its management is set out in its Investment Strategy Statement (ISS). The overall approach is to reduce risk to a minimum where it is possible to do so without compromising returns (e.g. in operational matters), and to limit risk to prudently acceptable levels otherwise (e.g. in investment matters).

The means by which GMPF minimises operational risk and constrains investment risk is set out in further detail in its ISS (available at www.gmpf.org.uk).

Some risks lend themselves to being measured (e.g. using such concepts as 'Active Risk' and such techniques as 'Asset Liability Modelling') and where this is the case, GMPF employs the relevant approach to measurement. GMPF reviews new approaches to measurement as these continue to be developed.

GMPF's exposures to risks and its objectives, policies and processes for managing and measuring the risks have not changed throughout the course of the year.

Market risk

Market risk is the level of volatility in returns on investments caused by changes in market expectations, interest rates, credit spreads, foreign exchange rates and other factors.

This is calculated as the standard deviation of predicted outcomes. GMPF is exposed to market risk through its portfolio being invested in a variety of asset classes.

GMPF seeks to limit its exposure to market risk by diversifying its portfolio as explained within its ISS and by restricting the freedom of its fund managers to deviate from benchmark allocations. The asset allocation has been made with regard to the balance between expected returns and expected volatility of asset classes and using advice from GMPF's investment advisor, Hymans Robertson LLP.

The table below shows the expected market risk exposure or predicted volatilities of GMPF's investments:

	Potential Market Movements (+/-)	
	31 March 2019 p.a.	31 March 2020 p.a.
Asset Type		
UK equities	16.6%	27.5%
Overseas equities	16.9%	28.0%
Fixed interest - gilts	9.7%	7.6%
Index linked gilts	7.2%	7.4%
Corporate bonds	10.1%	9.8%
High yield debt	7.3%	8.7%
Investment property	14.3%	14.2%
Private equity	28.3%	28.4%
Infrastructure	16.0%	15.6%
Cash and other liquid funds	0.5%	0.3%
GMPF	10.4%	15.2%

The volatilities for each asset class and correlations used to create the total GMPF volatility have been estimated using standard deviations of 5,000 simulated one-year total returns using Hymans Robertson Asset Model, the economic scenario generator maintained by Hymans Robertson LLP.

The overall GMPF volatility has been calculated based on GMPF's target asset split as at 31 March 2019 and 2020. The calibration of the model is based on a combination of historical data, economic theory and expert opinion.

If the market price of GMPF's investments increases or decreases over a period of a year in line with the data within the table above, the change in the market value of the net assets available to pay benefits as at 31 March 2019 and 2020 would have been as shown in the tables below.

Greater Manchester Pension Fund Statement of Accounts 2019/20

Asset Type	31 March 2020 £000	% Change p.a.	Value on increase £000	Value on decrease £000
UK equities	2,898,333	27.5%	3,695,375	2,101,291
Overseas equities	6,906,510	28.0%	8,840,333	4,972,687
Fixed interest bonds	950,169	7.6%	1,022,382	877,956
Index linked bonds	1,323,200	7.4%	1,421,117	1,225,283
Corporate bonds	1,958,368	9.8%	2,150,288	1,766,448
High yield debt	1,255,301	8.7%	1,364,512	1,146,090
Investment property	1,864,851	14.2%	2,129,660	1,600,042
Private equity	2,364,324	28.4%	3,035,792	1,692,856
Infrastructure	1,392,737	15.6%	1,610,004	1,175,470
Cash and other liquid funds	1,070,258	0.3%	1,073,469	1,067,047
GMPF	21,984,051	15.2%	25,325,627	18,642,475

Asset Type	31 March 2019 £000	% Change p.a.	Value on increase £000	Value on decrease £000
UK equities	3,932,738	16.6%	4,585,573	3,279,903
Overseas equities	8,622,694	16.9%	10,079,929	7,165,459
Fixed interest bonds	1,281,083	9.7%	1,405,348	1,156,818
Index linked bonds	1,203,621	7.2%	1,290,282	1,116,960
Corporate bonds	1,330,625	10.1%	1,465,018	1,196,232

Infrastructure	1,157,776	16.0%	1,343,020	972,532
Cash and other liquid funds	1,320,966	0.5%	1,327,571	1,314,361
GMPF	23,865,942	10.4%	26,348,000	21,383,884

Note: the above tables do not include investment liabilities and net current assets.

Interest rate risk

GMPF invests in financial assets for the primary purpose of obtaining a return on investments whilst recognising that there is a risk that returns will not be as expected. Changes in the level of interest rates will contribute to the volatility of returns in all asset classes. The table in the section on market risk shows the expected volatility over one year for GMPF's investment portfolio. One area directly affected by interest rate changes is the level of income expected from floating rate cash instruments. As at 31 March 2020, GMPF had £153,187,000 (2018/19 £323,963,000) invested in this asset via pooled investment vehicles. Therefore, a 1% change in interest rates will increase or reduce GMPF's return by £1,532,000 (2018/19 £3,234,000) on an annualised basis.

Currency risk

GMPF invests in financial assets for the primary purpose of obtaining a return on investments whilst recognising that there is a risk that returns will not be as expected. Changes in the level of foreign exchange rates will contribute to the overall volatility of overseas assets. GMPF's approach is to consider these risks in a holistic nature. The table in the section on market risk shows the expected volatility over one year for GMPF's investment portfolio including overseas assets which are separately identified.

Credit risk

Credit risk represents the risk that the counterparty to a transaction or a financial instrument will fail to discharge an obligation and cause GMPF to incur a financial loss. The market values of investments generally reflect an assessment of credit risk in their pricing and consequently the risk of loss is implicitly provided for in the carrying value of GMPF's financial assets and liabilities. The volatility of credit risk is encapsulated within the overall volatility of assets detailed in the table showing market risk.

In essence, GMPF's entire investment portfolio is exposed to some form of credit risk. However, the selection of high-quality counterparties, brokers and financial institutions minimises the credit risk that may occur through the failure to settle a transaction in a timely manner.

Contractual credit risk is represented by the net payment or receipt that remains outstanding, and the cost of replacing the derivative positions in the event of counterparty default. The residual risk is minimal due to the various insurance policies held by the exchanges to cover defaulting counterparties.

Deposits are not made with banks and financial institutions unless they are rated independently and meet Tameside MBC's (TMBC), as administering authority, credit criteria. TMBC has also set limits as to the maximum percentage of the deposits placed with any one class of financial institution. In addition, TMBC invests an agreed percentage of its funds in the money markets to provide diversification. Money market funds chosen all had a "AAA" rating from a leading ratings agency.

TMBC believes it has managed its exposure to credit risk and has had no experience of default or uncollectable deposits. GMPF's cash holding under its Treasury Management arrangements at 31 March 2020 was £391,100,000 (31 March 2019 £724,524,000). This was held with the following institutions:

Greater Manchester Pension Fund Statement of Accounts 2019/20

Totals		724,524	391,100

Liquidity risk

Liquidity risk represents the risk that GMPF will not be able to meet its financial obligations as they fall due. TMBC therefore take steps to ensure that GMPF has adequate cash resources to meet its commitments. This will particularly be the case for cash from the liability matching mandates from the main investment strategy to meet the pensioner payroll cost; and also, cash to meet investment commitments.

TMBC has immediate access to the GMPF cash holdings, with the exception of investments placed with other local authorities – where periods are fixed when the deposit is placed. GMPF had in excess of £391 million cash balances at 31 March 2020.

All financial liabilities at 31 March 2020 are due within one year.

The majority of GMPF assets are liquid - their value could be realised within one week. The table below shows GMPF investments in liquidity terms:

31 March 2019 £000	Liquidity terms	31 March 2020 £000
18,677,471	Assets realisable within 7 days	16,126,139
101,000	Assets realisable in 8-30 days	96,000
75,000	Assets realisable in 31-90 days	0
5,012,471	Assets taking more than 90 days to realise	5,761,912
23,865,942	Total	21,984,051

Management prepares periodic cash flow forecasts to understand and manage the timing of GMPF's cash flows. The appropriate strategic level of cash balances to be held is a central consideration when preparing GMPF's annual investment strategy.

The effects of reductions in public expenditure are expected to result in a significant maturing of GMPF's liabilities, with fewer employee members and more pensioner and deferred members. However, when income from investments is taken into account, GMPF is expected to continue to be cash flow positive for the foreseeable future and it will not be a forced seller of investments to meet its pension obligations.

5. Contributions

By Category		
31 March 2019 £000		31 March 2020 £000
(145,922)	Employees contributions	(152,068)
(427,822)	Employers: Normal contributions	(445,468)
(19,618)	Deficit recovery contributions	(14,694)
(447,440)	Total employers contributions	(460,162)
(593,362)	Total contributions	(612,230)

By Authority

31 March 2019 £000		31 March 2020 £000
(351,231)	Part 1 Schedule 2 Scheme Employers	(372,796)
(119,325)	Designating bodies	(123,258)
(106,582)	Community admission bodies	(95,521)
(16,224)	Transferee admission bodies	(20,655)
(593,362)		(612,230)

Scheme employers can be split into those listed in Part 1 of Schedule 2 of the Local Government Pension Scheme (Administration) Regulations 2013 (as amended) (such as local authorities), which participate automatically, and those listed in Part 2 (such as town councils) which can only participate if they choose to do so by designating employees or groups of employees as eligible. Part 2 employers are called designating bodies. Community admission bodies provide a public service in the United Kingdom otherwise than for the purposes of gain and have sufficient links with a Scheme employer. Transferee admission bodies are commercial organisations carrying out work for local authorities under a best value or other arrangement. Further analysis of contributions by employer is contained in Note 20 of these statements.

At the 2016 Actuarial Valuation, GMPF was assessed as 93% funded. The employer contribution rates specified are minimum rates. Some employers make voluntary payments in excess of these minimum rates and some make contributions in excess of their future service rate in order to help repay a deficit position over a period. In addition, a small number of employers were required to make explicit lump sum deficit payments – details of these can be found in the 2016 Actuarial Valuation report located www.gmpf.org.uk.

6. Benefits Payable

By Category

31 March 2019 £000		31 March 2020 £000
670,179	Pensions	707,822
115,419	Commutation & lump sum retirement benefits	134,077
18,016	Lump sum death benefits	18,303
803,614		860,202

By Authority

31 March 2019 £000		31 March 2020 £000
602,643	Part 1 Schedule 2 Scheme Employers	641,407
33,659	Designating bodies	38,413
151,301	Community admission bodies	161,833
16,011	Transferee admission bodies	18,549
803,614		860,202

Scheme employers can be split into those listed in Part 1 of Schedule 2 of the Local Government Pension Scheme (Administration) Regulations 2008 (as amended) (such as local authorities) which participate automatically, and those listed in Part 2 (such as town councils) which can only participate if they choose to do so by designating employees or groups of employees as eligible. Part 2 employers are called designating bodies. Community admission bodies provide a public service in the United Kingdom otherwise than for the purposes of gain and have enough links with a Scheme employer. Transferee admission bodies are commercial organisations carrying out work for local authorities under a best value or other arrangement. Further analysis of contributions by employer is contained in Note 20 of these statements.

7. Payments to and on account of leavers

31 March 2019 £000		31 March 2020 £000
1,526	Group transfers to other schemes	0
39,784	Individual transfers to other schemes	40,726
48	Payments for members joining state scheme	(54)
(18)	Income for members from state scheme	(12)
1,627	Refunds to members leaving service	1,691
42,967		42,351

8. Management Expenses

The costs of administration and investment management are met by the employers through their employer contribution rate. In June 2016, CIPFA published guidance on Accounting for LGPS Management Costs. The aim of this guidance is to assist in the improvement of consistent and comparable data across LGPS funds. GMPF Scheme management costs have been categorised in accordance with this guidance in the tables below.

Investment management expenses:

31 March 2019 £000		31 March 2020 £000
1,311	Employee costs	1,538
292	Support services including IT	756
5,520	Transaction costs (public managers) *	5,967
17,683	Management fees	19,010
238	Custody fees	253
25,044		27,524

* Transaction costs are incremental costs directly attributable to the sale and purchase of UK and Overseas equities. They comprise £2,002,000 (2019 £1,601,000) Commissions and £3,965,000 (2019 £3,919,000) Other Costs which included UK stamp duty and market levies.

Administrative costs:

31 March 2019 £000		31 March 2020 £000
3,889	Employee costs	4,563
1,674	Support services including IT	1,088
186	Printing and publications	16
5,749		5,667

Oversight and governance costs:

31 March 2019 £000		31 March 2020 £000
559	Employee costs	376
402	Support services including IT	239
167	Governance and decision making costs	159
27	Investment performance monitoring	19
67	External audit fees *	59
108	Internal audit fees	114
130	Actuarial fees - investment consultancy	108
252	Actuarial fees	504
1,712		1,578

* Total fee paid to external auditors in 2019/20 is £58,970 (2018/19 £67,383) of which £22,800 (2018/19 £24,000) was paid in relation to work carried out on behalf of GMPF's main scheme employers.

The above costs include set up costs for Northern LGPS Pool – see Note 8a for further details.

8a. Costs related to the Northern LGPS Pool

	At 31 March 2020			
	Direct £000	Indirect £000	Total In Year £000	Cumulative £000
Set up costs:				
Recruitment	0	0	0	0
Legal	6	0	6	71
Procurement	0	0	0	30
Other support costs	0	0	0	0
Share purchase/subscription costs	0	0	0	0
Other working capital provided	0	0	0	0
Staff costs	0	0	0	0
Other costs	64	0	64	146
Total set up costs	70	0	70	247
	At 31 March 2019			
	Direct £000	Indirect £000	Total £000	Cumulative £000
Set up costs:				
Legal	65	0	65	65
Procurement	30	0	30	30
Other costs	82	0	82	82
Total set up costs	177	0	177	177

9. Investment income

31 March 2019 £000		31 March 2020 £000
(41,777)	Fixed interest (corporate and government bonds)	(41,231)
(281,532)	Equities	(319,926)
(2,259)	Index linked	(2,801)
(70,730)	Pooled investment vehicles	(118,040)
(41,166)	Investment property (gross)	5,580
6,233	Investment property non-recoverable expenditure	(38,650)
(4,760)	Interest on cash deposits	(7,799)
(711)	Stocklending	(771)
(436,702)		(523,638)

In accordance with IAS 12 Income Taxes, investment income includes withholding taxes and irrecoverable withholding tax is analysed separately as a tax charge. Income received by Legal and General pooled funds is automatically reinvested within the relevant sector fund and thus excluded from the above analysis. Similarly, UBS pooled funds for Emerging Market Equities, Stone Harbor pooled funds for global credit, Aviva Investors Property Fund, Standard Life Pooled Property Pension Fund, Standard Life Investments UK Property Development Fund, EID Unit Fund and Darwin Leisure Property Fund in which GMPF invest have income automatically reinvested with that fund.

10. Taxation

GMPF is exempt from UK income tax on interest and from capital gains tax on the profits resulting from the sale of investments. GMPF is exempt from United States withholding tax on dividends and can recover all or part of the withholding tax deducted in some other countries. The amount of withholding tax deducted from overseas dividends which GMPF is unable to reclaim in 2019/20 amounts to £3,973,000 (2018/19 £5,192,000) and is shown as a tax charge.

As Tameside MBC is the Administering Authority for GMPF, VAT input tax was recoverable on all GMPF activities including expenditure on investment and property expenses.

11. Investments at fair value

The change in market value of investments during the year comprises all increases and decreases in the market value of investments held at any time during the year, including profits and losses realised on sales of investment during the year.

Change in fair value is reconciled in the table below:

	£000	31 March 2020 £000
Unrealised losses at 31 March 2020	2,024,256	773,149
Unrealised (profits) at 31 March 2020	(1,251,107)	
Realised losses 1 April 2019 to 31 March 2020	198,425	(933,305)
Realised (profits) 1 April 2019 to 31 March 2020	(1,131,730)	
Less:		
Unrealised (profits) at 31 March 2019	2,346,455	2,189,185
Unrealised losses at 31 March 2019	(157,270)	
Reduction/(Increase) in fair value of investments year ending 31 March 2020		2,029,030

	£000	31 March 2019 £000
Unrealised losses at 31 March 2019	157,270	(2,189,185)
Unrealised (profits) at 31 March 2019	(2,346,455)	
Realised losses 1 April 2018 to 31 March 2019	40,906	(538,208)
Realised (profits) 1 April 2018 to 31 March 2019	(579,114)	
Less:		
Unrealised (profits) at 31 March 2018	2,193,939	1,859,227
Unrealised losses at 31 March 2018	(334,712)	
Reduction/(Increase) in fair value of investments year ending 31 March 2019		(868,166)

Greater Manchester Pension Fund Statement of Accounts 2019/20

The following tables analyse the carrying amounts of the financial assets and liabilities by category.

Value at 1 April 2019 £000		Purchases £000	Sales £000	Change in fair value £000	Value at 31 March 2020 £000
	Designated as at fair value through the fund account

Bonds

31 March 2019 £000		31 March 2020 £000
43,590	UK public sector quoted	52,049
180,358	Overseas public sector quoted	442,782
704,702	UK corporate quoted	541,544
74,715	Overseas corporate quoted	397,320
1,003,365		1,433,695

Investment Property

31 March 2019 £000		31 March 2020 £000
756,645	UK - Main investment property portfolio	671,430
125,346	UK - Greater Manchester Property Venture Fund	164,455
881,991		835,885

All investment property is located in England, Wales or Scotland and, in order to reduce risk, is diversified over several sectors that include offices, industrial/logistics, high street retail, shopping centres, retail parks, leisure, healthcare and student accommodation. Gross and net rental income is shown in Note 9 of these accounts.

With the sole exception of one investment property, where a rent sharing agreement is in place with the freeholder, no directly held investment property has restrictions on its realisation, remittance of income or disposal proceeds.

Committed expenditure in relation to investment property can be found at Note 17.

In accordance with the Investment Property Strategy, hold/sell decisions for the investment properties remain under active review, subject to business plan progress and investment market sentiment. Whilst some assets are likely to be sold over the short to medium term, no assets were being marketed or prepared for immediate sale at 31 March 2020.

The following tables summarise the movement in the fair value of investment properties over the year:

Movement in the fair value of investment properties in 2019/20	£000
Balance at 1 April 2019	881,991
Purchases	32,809
Expenditure during year	42,892
Disposals	(40,166)
Net gains/ (losses) from fair value adjustments	(81,641)
Balance at 31 March 2020 *	835,885

** No properties were being marketed at 31 March 2020*

Movement in the fair value of investment properties in 2018/19	£000
Balance at 1 April 2018	755,145
Purchases	136,893
Expenditure during year	3,772
Disposals	(32,218)
Net gains/ (losses) from fair value adjustments	18,399
Balance at 31 March 2019	881,991

Future operating lease rentals receivable

31 March 2019 £000		31 March 2020 £000
35,455	Not later than 1 year	36,599
124,811	Later than 1 year, but not later than 5 years	123,091
167,099	Later than 5 years	194,836
327,365	Total	354,526

The future minimum lease payments due to GMPF under non-cancellable operating leases are stated above.

Where a lease contains a “tenant’s break” clause, it is only up to this point that the aggregation is made.

Derivatives

31 March 2019 £000		31 March 2020 £000
	Investment assets:	
0	Forward currency contracts	4,878
0	Financial futures	14,041
0		18,919
	Investment liabilities:	
0	Forward currency contracts	(6,232)
0	Financial futures	(66)
0	Net (liability)/asset	12,621

Derivative receipts and payments represent the realised gains and losses on futures contracts and forward currency contracts. GMPF’s objective in entering into derivative positions was to decrease risk in the portfolio.

190,225	Other investment balances and net assets	238,810

11a. Transaction and management costs not charged directly to the Fund Account

Public managers

Since 1 April 2016 transaction costs in respect of the purchase and sale of equities have been respectively excluded or included in the prices reported in the Net Assets Statement and charged to the Fund Account. Details may be seen at Note 8.

Directly held property

Transaction costs continue to be capitalised and are implicit within the value of the assets concerned. These amounted to £1,999,000 for 2019/20 (2018/19 £7,397,000).

The CIPFA Code of Practice (and guidance related to the Code) does not require 'bid-offer spread' to be reported as a transaction cost.

Management Costs

Certain investments in pooled vehicles predominantly in private markets, alternatives and property have investment costs met within the vehicle rather than an explicit charge paid by GMPF. Thus, costs are not charged directly to the Fund Account nor analysed in Note 8. They are included in the fair value adjustments applied to assets concerned within the Fund Account and corresponding notes. The performance is reported on a net basis.

The table below shows estimates made for these costs during the current and previous financial year using methodology agreed with external advisers on private assets and include potential accrued performance fees.

31 March 2019 £000		31 March 2020 £000
	Private market and alternative investments	
59,533	- performance related	64,237
56,421	- non-performance related	66,948
	Pooled Investments	
9	- performance related	37
2,560	- non-performance related	4,843
	Indirect investment property	
1,253	- performance related	12,502
15,503	- non-performance related	25,544
135,279		174,111

12. Local investments

GMPF invests within the North West of England with a focus on the Greater Manchester conurbation in property development and redevelopment opportunities. This programme of investments is delivered through Greater Manchester Property Venture Fund

31 March 2019 £000		31 March 2020 £000
125,346	Greater Manchester Property Venture Fund	164,455

13. Designated funds

A small number of employers within GMPF have a materially different liability profile. Some earmarked investments are allocated to these employers. The investments of the designated fund incorporated in the Net Asset statement are as follows:

31 March 2019 £000		31 March 2020 £000
38,900	UK equities	0
57,787	Overseas equities	0
77,389	UK corporate bond	173,485
458,378	UK Index linked	473,287
18,633	Cash instruments	21,074
57,483	Cash	53,622
29,622	Inflation funds	26,507
214,774	High yield debt	197,306
952,966		945,281

14. Summary of managers' portfolio values at 31 March

2019			2020	
£m	%		£m	%
		Externally managed

3,967	16.7%		4,951	22.5%
23,844	100.0%	Total	22,034	100.0%

15. Concentration of investment

As at 31 March 2020, GMPF held, respectively, 15.08% and 1.38% of its net assets in insurance contracts MF32950 and MF36558 with Legal & General Assurance (Pensions Management) Limited. They are linked long term contracts under Class III of Schedule 1 of the Insurance Companies Act 1982 and not "with profits" contracts. During the year contract MF37010 was terminated.

The policy documents have been issued and the values are incorporated in the Net Asset statement within pooled investment vehicles. The policies' underlying asset classes are as follows:

31 March 2019 £000	POLICY MF32950	31 March 2020 £000
1,624,228	Overseas equities	1,325,995
381,111	UK fixed interest	217,765
186,556	UK corporate bonds	413,617
89,088	Overseas fixed interest	219,088
306,773	UK Index linked	206,607
0	Overseas index linked	209,385

600,010	Private debt portfolio	Commitment to fund	514,238
3,505,639			3,384,778

The above expenditure was contractually committed as at 31 March and a series of staged payments are to be made at future dates.

18. Related party transactions

In the course of fulfilling its role as administering authority to GMPF, Tameside MBC incurred costs for services (e.g. salaries and support costs) of £7,894,000 on behalf of GMPF and reclaimed from HMRC VAT of £5,535,000 net. Total payments due to Tameside MBC therefore, amounted to £2,359,000 (2018/19 £8,402,000). As GMPF had reimbursed Tameside MBC £4,726,000 for these charges, there is a Debtor of £2,367,000 owing to GMPF at the year-end (2018/19 £2,218,000 Creditor). This debt will be netted off future payments due to Tameside MBC.

There is no direct charge to GMPF for the services of the Director of Governance & Pensions. This is also the case for the Chief Executive and the Director of Finance but a contribution towards their cost is included in the recharge as detailed above. They receive no additional salary or remuneration for undertaking these roles. Details of the total remuneration of these officers will be published on the Tameside MBC website. The remuneration of the Chair of the Management Panel can be found by accessing the following link: <http://www.tameside.gov.uk/constitution/part6>

Other key management personnel full time and total remuneration, including employer's pension contributions, are as shown below:

	Salary Entitlement (Full Time Equivalent)	Salary, Fees & Allowances (Paid in year)	Employers Pensions Contributions (Paid in year)	Total (Paid in year)
Assistant Director of:				
	£	£	£	£
Pensions (Special Projects)	92,320	41,031	8,617	49,648
Pensions (Investments)	92,320	92,320	19,387	111,707
Pensions (Funding & Business Development)	92,320	92,320	19,387	111,707
Pensions (Local Investments & Property)	92,320	92,320	19,387	111,707
Pensions (Administration)	81,495	81,495	17,114	98,609

Note: There were no payments for Compensation for Loss of Office in 2019/20

Paragraph 3.9.4.3 of the CIPFA Code of Practice on Local Authority Accounting in the United Kingdom exempts Local Authorities on the Key Management Personnel disclosure requirements of IAS 24, on the basis that the disclosure requirements for officer remuneration and members' allowances detailed in Section 3.4 of the code (which are derived from the requirements of Regulation 7(2)-(4) of the Accounts and Audit (England) Regulations 2011 and Regulation 7A of the Accounts and Audit (Wales) Regulations (2005) satisfy the Key Management Personnel disclosure requirements of paragraph 16 of IAS 24.

The disclosures required by regulation 7(2)-(4) of the Accounts and Audit (England) Regulations can be found in the main accounts of the administering authority - Tameside MBC.

No senior officers responsible for the administration of GMPF have entered into any contract (other than their contract of employment) with Tameside MBC (administering authority).

Greater Manchester Pension Fund Statement of Accounts 2019/20

A number of officers responsible for the administration of GMPF have directorships in companies which have been incorporated for the sole purpose of the investment administration and management of GMPF's assets and other assets which GMPF has a joint interest with other LGPS funds. These are:

Name	Position in GMPF 2019/20	Company in which directorship is held	Company Registration Number

The above receive no remuneration for these directorships.

Under legislation introduced in 2003/04, Councillors were entitled to join the pension scheme. However, separate legislation came into effect from 2014 rescinding this and all Councillors in the LGPS had their benefits deferred on expiry of their terms of office.

The following members of the Management and Advisory Panels are consequently deferred pensioners:

Name	Position
Cllr J Fitzpatrick	Councillor member
Cllr D Ward	Councillor member
Cllr C Patrick	Councillor member
Cllr L Drennan	Councillor member
Cllr A Jabbar	Councillor member
Cllr T Halliwell	Councillor member

In addition, the following Members of the Management and Advisory Panels, having attained the appropriate age or other criterion, are in receipt of pension benefits:

Name	Position
Cllr G Cooney	Councillor member
Cllr M Smith	Councillor member
Cllr K Cunliffe	Councillor member
Cllr A Mitchell	Councillor member

The following Members of the Management and Advisory Panels and the Local Board are deferred pensioners by virtue of their membership of GMPF in current or previous employments:

Name	Position
Cllr C Patrick	Councillor member

The following Members of the Management and Advisory Panels and the Local Board, by virtue of their membership of GMPF in previous employments and attaining the appropriate age or other criterion, are in receipt of pension benefits:

Name	Position
Cllr V Ricci	Councillor member
Cllr M Smith	Councillor member
Cllr A Jabbar	Councillor member
Cllr P Andrews	Councillor member
R Paver	Employer representative
J Thompson	Employee representative
F Llewellyn	Employee representative
M Fulham	Employee representative
P Catterall	Scheme member representative

Each member of the Local Board, the GMPF Management and Advisory Panels and Working Groups formally considers declarations of interest at each meeting. In addition, an annual return of all declarations of interest is obtained from the Members by their respective Councils. Those relevant to GMPF Management Panel or Board membership, i.e. where the organisation is a GMPF contributing employer, are listed below:

Name	Position & Organisation	Organisation relationship with GMPF
Cllr B Warrington	Member of Greater Manchester Combined Authority	Contributing employer
Cllr G Cooney	Employee of Manchester City Council Director of Jigsaw Homes Group (Reg No 29433R) Director of Ashton Pioneer Homes Ltd (Reg.No. 03383565) Director of Pioneer Homes Services Ltd (subsidiary of Ashton Pioneer Homes Ltd) (Reg.No. 06546606) Director of Ashton Pioneer Homes Developments Ltd (subsidiary of Ashton Pioneer Homes Ltd) (Reg.No. 03989251) Director of Mechanics' Centre Ltd (Reg.No. 01983373)	Contributing employer Contributing employer Contributing employer Contributing employer Contributing employer Contributing employer
Cllr B Fairfoull	Member of Manchester Airport Consultative Committee	Contributing employer
Cllr A Jabbar	Deputy - Greater Manchester Combined Authority External Member - Oldham College	Contributing employer Contributing employer
Cllr T Sharif	Director of Homestart Oldham, Stockport and Tameside Limited	Contributing employer

Greater Manchester Pension Fund Statement of Accounts 2019/20

P Taylor	Employee of LTE Group	Contributing employer
M Cullen	Employee of Stockport MBC	Contributing Employer

19. Employer related investment

As at 31 March 2020 GMPF had amounts on short-term loan to one contributing employers: Greater Manchester Combined Authority £50,000,000 (2019 £30,000,000). The investment was made by GMPF as part of its day-to-day treasury management activities.

As at 31 March 2019 GMPF had £5,000,000 on short-term loan to Salford City Council. This was repaid during 2019/20. There was £nil on loan to this employer at 31 March 2020.

At 31 March 2019, as part of its normal investment activities conducted through its investment fund managers, GMPF owned shares with a market value of £11,046,090 in First Group PLC, which is the ultimate parent company of three subsidiaries who are contributing employers to GMPF. These shares were divested in year with £nil value remaining at 31 March 2020.

GMPF has a minor holding in the Airport City joint venture, which is developing land adjacent to Manchester Airport for commercial use. The main stakeholder at Airport City being Manchester Airport Group, which is a contributing employer to GMPF.

GMPF has formed a joint venture with Manchester City Council, a contributing employer to GMPF, known as Matrix Homes, to develop residential property, for both sale and to rent, at sites across Manchester.

As at 31 March 2020 Greater Manchester Property Venture Fund includes a standing investment of office accommodation. Part of this property is leased to Irwell Valley Housing Association who are a contributing employer to GMPF.

20. Contributions received, and benefits paid during the year ending 31 March

Contribn from Employers	Contribn from Employees	Benefits Paid		Contribn from Employers	Contribn from Employees	Benefits Paid
2019 £m	2019 £m	2019 £m		2020 £m	2020 £m	2020 £m
(23)	(7)	41	Bolton Borough Council	(24)	(7)	43

(447)	(146)	804		(460)	(152)	860

* A full list of all scheme and admitted bodies can be found in the GMPF Annual Report 2019/20 which will be available at www.gmpf.org.uk.

21. Investment Strategy Statement and Funding Strategy Statement

GMPF has published an Investment Strategy Statement and a Funding Strategy Statement. Both documents can be found on its website - www.gmpf.org.uk.

22. Actuarial Review of GMPF

GMPF's last Actuarial valuation was undertaken as at 31 March 2019. A copy of the valuation report can be found on the GMPF website

<https://www.gmpf.org.uk/getmedia/ae7f4bbc-efb5-4c0d-9715-58be74eaafe9/Greater-Manchester-Pension-Fund-2019-Valuation-Report.pdf>

The funding policy is set out in the Funding Strategy Statement (FSS) dated March 2020. The key funding principles are as follows:

- to ensure the long-term solvency of GMPF using a prudent long-term view. This will ensure that sufficient funds are available to meet all members'/dependants' benefits as they fall due for payment;
- to ensure that employer contribution rates are reasonably stable where appropriate;
- to minimise the long-term cash contributions which employers need to pay to GMPF, by recognising the link between assets and liabilities and adopting an investment strategy which balances risk and return (this will also minimise the costs borne by Council Taxpayers);
- to reflect the different characteristics of different employers in determining contribution rates. This involves GMPF having a clear and transparent funding strategy to demonstrate how each employer can best meet its own liabilities over future years; and
- to use reasonable measures to reduce the risk to other employers, and ultimately to the Council Taxpayer, from an employer defaulting on its pension obligations.

The valuation revealed that GMPF's assets, which at 31 March 2019 were valued at £23,844 million, were sufficient to meet 102% of the present value of promised retirement benefits earned. The resulting surplus was £529 million. The present value of promised retirement benefits at 31 March 2020 can be found in Note 25.

The key financial assumptions adopted for the 2019 valuation were:

	31 March 2019	
	% p.a. Nominal	% p.a. Real
Financial Assumptions		
Discount rate	3.60%	1.30%
Pay Increases *	3.10%	0.80%
Price Inflation/Pension increases	2.30%	-

The liabilities were assessed using an accrued benefits method that takes into account pensionable membership up to the valuation date. It also makes an allowance for expected future salary growth revaluation to retirement or expected earlier date of leaving pensionable membership.

23. Stock lending

GMPF's custodian, Northern Trust, is authorised to release stock to third parties under a stock lending agreement. Under the agreement, GMPF does not permit Northern Trust to lend UK or US equities.

At the year end the value of stock on loan was £313.8 million (31 March 2019: £163.5 million) in exchange for which the custodian held collateral at fair value of £333.7 million (31 March 2019: £176.7 million), which consisted exclusively of government bonds and government guaranteed bonds.

24. AVC Investments

GMPF provides an Additional Voluntary Contributions (AVC) scheme for its contributors, the assets of which are invested separately from GMPF. Therefore, these amounts are not included in the GMPF accounts in accordance with regulation 4(2)(b) of the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009 (SI 2009 No 3093).

GMPF's main AVC provider is Prudential where the sums saved are used to secure additional benefits on a money purchase basis for those contributors electing to pay additional voluntary contributions. The funds are invested in a range of investment products including with profits, fixed interest, equity, cash, deposit, property, and socially responsible funds, as follows:

Contributions paid	£8,499,236
Units purchased	4,867,818
Units sold	3,808,664
Fair value as at 31 March 2020	£72,333,546
Fair value as at 31 March 2019	£73,197,565

25. Actuarial present value of promised retirement benefits

CIPFA's Code of Practice on Local Authority Accounting 2019/20 requires administering authorities of LGPS funds to disclose the actuarial present value of promised retirement benefits in accordance with IAS26 Accounting and Reporting by Retirement Benefit Plans.

Allowance has been made for the impact of indexation relating to the ruling on the equalisation of Guaranteed Minimum Pensions (GMPs) between men and women. No allowance has been made in respect of the impact of GMP equalisation on LGPS funds as the guidance on calculation is yet to be confirmed.

Allowance has been made for the "McCloud" ruling i.e. an estimate of the potential increase in past service benefits arising from the findings of the Court of Appeal in relation to claims of age discrimination in the Firefighters' and Judges' pension schemes case affecting public service pension schemes.

This value has been calculated by GMPF's Actuary, Hymans Robertson LLP, using the assumptions below.

Assumptions used

The assumptions used are those adopted for the administering authority's IAS19 Employee Benefits report at each year end as required by the CIPFA Code of Practice on Local Authority Accounting 2019/20.

Financial Assumptions

31 March 2019 % p.a.	Year ended:	31 March 2020 % p.a.
2.5%	Inflation/pension increase rate	% p.a.
2.6%	Salary increase rate	1.9%
2.4%	Discount rate	2.7%

Mortality

Life expectancy is based on GMPF's VitaCurves with improvements in line with the CMI 2018 model, assuming the current rate of improvements has reached a peak and will converge to a long-term rate of 1.5% p.a. Based on these assumptions, the average future life expectancies at age 65 are summarised below:

	Males	Females
Current pensioners	Males	Females
Future pensioners*	20.5 years	23.1 years

** future pensioners are assumed to be currently aged 45*

Commutation

An allowance is included for future retirements to elect to take 55% of the maximum additional tax-free cash up to HMRC limits for pre-April 2008 service and 60% of the maximum tax-free cash for post-April 2008 service.

Value of promised retirement liabilities

31 March 2019 £m		31 March 2020 £m
30,555	Present value of promised retirement	£m

Liabilities have been projected using a roll forward approximation from the latest formal funding valuation as at 31 March 2019.

Sensitivity analysis

The sensitivities regarding the principal assumptions used to measure the scheme liabilities are set out below.

31 March 2019			31 March 2020	
Approximate % increase to promised retirement benefits	Approximate monetary amount (£m)	Change in assumptions at year ended 31 March	Approximate % increase to promised retirement benefits	Approximate monetary amount (£m)
8%	2,444	0.5% increase in the Pension Increase Rate	9%	2,544
2%	611	0.5% increase in the Salary Increase Rate	1%	283
3%	917	1 year increase in member life expectancy	3%	848
11%	3,361	0.5% decrease in Real Discount Rate	10%	2,826

It should be noted that the above figures are only appropriate for the preparation of the accounts of GMPF. They should not be used for any other purpose.
