# **Narrative Report and Financial Summary**

This section identifies and briefly explains each part of the document and includes an overview by the Assistant Executive Director, Finance (Section 151 Officer) on the Council's financial performance during the accounting period.

## **Narrative Report and Financial Summary**

The following pages present the Council's accounts for the financial year ended 31 March 2016. By producing this report, the Council aims to give all interested parties – electors, local residents, Council Members, partners, local businesses and others - confidence that the public money that has been received and spent has been properly accounted for and that the financial standing of the Council is secure.

The purpose of this Narrative Report is to provide an overall explanation of the Council's financial position, including major influences affecting the accounts, and to enable readers to understand and interpret the accounting statements. It sets out:

- 1) Corporate Leadership and Strategy;
- 2) The Profile of the Borough;
- 3) The year in review: Financial Performance in 2015/16;
- 4) Outlook: 2016/17 and future years;
- 5) The basis of the accounts;
- 6) The Financial Statements; purpose and summary; and
- 7) Financial strategy and the outlook for the future;

It should be noted that although the Statement of Accounts is produced annually, the Members and Senior Officers of the Council receive quarterly financial reports throughout the year on overall performance against budget for both revenue and capital budgets, which are also published on the website. The Medium Term Financial Strategy (MTFS), which sets out the financial plan for the current year and the next four years, is also updated during the year and reported formally to both Members and Officers before being placed on the Council's website. The figures presented in the accounts are consistent with all other reports that have been published across the year.

It is good financial management to require a detailed periodic review of all accounts. The effectiveness with which the Council has been able to prepare its accounts, meeting the stringent requirements of quality and timeliness that are set for us, is an important measure of the overall quality of our financial management. These accounts have been prepared two weeks in advance of previous years in preparation of the statutory deadlines being brought forward to 31 May and 31 July respectively in 2017/18.

### **1) Corporate Leadership and Strategy**

The Corporate Plan 2016-21 is the Council's key strategic document for identifying its vision, ambitions and priorities. These are all influenced by local priorities, input from public consultation and consultation with local businesses, Government policies, performance information and external inspections. In the light of future financial constraints it has become even more important that the Council continues to align limited revenue and capital resources with key policy priorities. This involves the Council focussing more clearly on core services and priorities, whilst making difficult decisions to reduce or cease activity in other areas.

As an organisation the Council uses its resources such as money and people to get maximum benefit for communities in Tameside. The Corporate Plan 2016-21 sets out how we will have to change the way we work to achieve our vision and priorities. The Council is committed to only doing what matters, by understanding what people need, designing services to meet this need and reducing any costs and duplications that may exist.

The Council's political leadership is responsible for delivering the priorities and the Executive Cabinet determines which areas receive additional investment and which receive less in line with these priorities. This process culminates in the annual Budget Report through which the Executive Cabinet recommends to the Council the overall budget. The same principles are applied to the formulation of the capital programme.

At the heart of the leadership structure is the Executive Leader, supported by the Executive Cabinet Members. In turn, they are supported by the Executive Team led by the Chief Executive. Plans drawn up for each service area identify the priorities for that area within the context of the Council's overall priorities.

More information on the activities, leadership structure and governance of the Council (including meeting agendas and minutes) can be found on the Council's website, located at [www.tameside.gov.uk](http://www.tameside.gov.uk).

## **2) The Profile of the Borough**

The profile of the Borough in terms of its population and economy is a key driver of the scope and type of services the Council provides to local people. Set out below are some key facts which provide some detail of the nature of the Borough.

### **Population**

The demographic of Tameside is similar to that in the rest of England, although it has slightly more under 16's than average and slightly fewer older people than average. It is also slightly less diverse than the England average. Office for National Statistics Mid-Year Estimates for 2014 show that Tameside had a total estimated population of 220,800. Within Tameside's population:

- 43,400 were aged 0-15 years (19.6% of Tameside's population);
- 139,600 were aged 16-64 (63.2% of Tameside's population); and
- 37,800 were aged 65 or over (17.1% of Tameside's population).

Tameside has a slightly higher proportion of residents aged under 16 (19.6% compared to 19% England overall) and fewer people aged 65 or over (17.1% compared to 17.6% England overall). Tameside's population is projected to increase to around 229,100 by 2024. Much of this growth is due to projected increases in the number of people aged 65 and over; a projected 18.1% change in this age group between 2014 and 2024. Clearly, this increase in the 65+ population will continue to increase demand for social care services in the future.

According to the 2011 Census, the majority of Tameside's residents belong to the White ethnic group (90.9% compared to 85.4% England overall). Within Tameside's population:

- Of the 90.9% of residents who belong to the White ethnic group, the majority (88.5%) are White British; and
- The second largest ethnic group in Tameside is Asian/Asian British (6.6%); of which Pakistani (2.2%) and Bangladeshi (2.0%) are the largest groups.

### **Deprivation**

The Government collates a variety of economic and social measures to create indices of relative affluence and deprivation based on geographical areas. These help the Council to target services to our most vulnerable residents, as well as helping to identify areas of lesser need where early intervention will help prevent costs at a later date. According to the Indices of Deprivation 2015:

- Of the 141 areas in Tameside, 8 of these fall within the worst 5% nationally and a further 16 fall within the worst 10% nationally;
- In total, 13% of Tameside residents live in income-deprived households;<sup>[1]</sup>
- Of those children aged 0-15, 14% live in income-deprived households (Income Deprivation Affecting Children Index); and

---

<sup>[1]</sup> Based on the number of residents that fall within the worst 5% and 10% nationally for a particular indicator.

- Of those residents aged 65 and over, 5% live in income-deprived households (Income Deprivation Affecting Older People Index).

## **Education**

- Around 19% of school pupils in Tameside are eligible for free school meals<sup>[2]</sup>; and
- In Tameside, 65.1% of school children achieved five or more GCSE grades A\*-C and 57.3% achieved five or more GCSE grades A\*-C including English and Maths in 2015 (national average 64.9% and 53.8% respectively).

## **Economy**

- The median annual income for a full time worker in Tameside in 2015 was £23,485. This is lower than both the North West median of £25,721 and England of £27,869<sup>[3]</sup>;
- The unemployment rate has fallen in Tameside between 2015 and 2016. The proportion of the working age population claiming Job Seekers Allowance (JSA) in Tameside in April 2016 was 1.3% (1.6% in April 2015). The rate in Tameside is slightly lower than the national average of 1.4%. Both female and male unemployment decreased during this period (female unemployment decreased from 1.1% to 1.0% and male unemployment decreased from 2.0% to 1.7%);
- 4.0% of young people aged 16 to 18 in Tameside were not in education, training or employment (NEET) in April 2016 with the highest ward rate in Ashton Waterloo (6.9%). The lowest ward rate was in Audenshaw (1.0%); and
- The Borough hosts over 7,300 business addresses, with a combined rateable valuation of over £151m.

## **Housing**

- There are 101,157 homes on the valuation list in Tameside.
- At the time of the Census in 2011 there were 94,953 households, of which 60,558 (63.8%) are privately-owned, 20,438 (21.5%) are social-rented, 12,573 (13.2%) are privately rented and 1,384 (1.5%) in shared ownership or others; and
- 9.8% of Tameside households are in fuel poverty<sup>[4]</sup>.

## **Health**

Health and wellbeing in Tameside is generally worse than England with cardiovascular disease, respiratory disease, cancer and liver disease being significant issues. Healthy life expectancy at birth is currently 58.8 years for both males and females in Tameside. This has improved somewhat over the last few years but is still significantly lower than the England averages. Life expectancy locally is 6.9 years lower for females and 8.9 years lower for males in the most deprived areas of Tameside compared to the least deprived areas. Driving out the causes of poor health and wellbeing, ensuring that all residents have the same opportunities to live and work well, while reducing the gap in life expectancy that exists between different parts of the Borough is a key priority for Tameside. Promoting positive health and wellbeing and tackling the causes of poor health and wellbeing is crucial in ensuring that everyone has the opportunity to live and work well in the Borough.

## **3) Financial Strategy and the Outlook for the Future**

---

<sup>[2]</sup> Spring School Census 2015

<sup>[3]</sup> Annual survey of hours and earnings - resident analysis (2014). The earnings information collected relates to gross pay before tax, national insurance or other deductions, and excludes payments in kind. Full-time workers are defined as those who work more than 30 paid hours per week or those in teaching professions working 25 paid hours or more per week.

<sup>[4]</sup> 2013 sub-regional fuel poverty data

Financial performance is reported to Councillors quarterly and up to date financial information is available to Officers throughout the year. Additionally, the MTFS is regularly updated and reported to Councillors and Officers. Reports are available to the public via the Council's website.

The MTFS supports the Council's medium term policy and financial planning processes. Fundamentally the strategy is designed to help provide a stable financial base to support savings planning. The strategy also fits within a wider system of corporate planning.

Robust medium term financial planning is a key requirement in the current financial environment and it is actively securing the ongoing viability of service budgets.

The Council's MTFS has now been expanded to cover period up to and including 2019/20. To provide prudent resource estimates for these additional years is challenging but it is also an important part of thinking ahead, and not assuming that things will get easier. Forecasting future years' anticipated resources allows the Council to plan ahead and anticipate the level of savings required, allowing savings plans to be drawn up in advance of need.

The most recent MTFS is summarised below. It takes a prudent view of future income and expenditure and includes appropriate assumptions about likely levels of demand and cost increases, as well as the likely level of available resources. It shows how the cash resources available to the Council are expected to reduce over the near future.

Taken together, the impact of funding reductions and demand pressures has resulted in savings requirements of £24m in 2015/16, £14.1m in 2016/17 and an additional estimated £51m in the next three years from 2017/18 to 2019/20, so it can be seen that the Council is working with ongoing year-on-year pressures. Below is an extract of the Council's MTFS, which was included in the 2016/17 Budget Report approved by Council on 23 February 2016.

	<b>2016/17</b>	<b>2017/18</b>	<b>2018/19</b>	<b>2019/20</b>
	<b>£000</b>	<b>£000</b>	<b>£000</b>	<b>£000</b>
Total Spending Plans	174,024	176,997	182,317	193,911
Total Resources	(174,024)	(162,368)	(151,591)	(147,084)
	0	14,629	30,726	46,827
Savings Already Allocated	14,100			
Savings Not Yet Allocated (Annual)	0	(14,629)	(16,098)	(16,101)
Savings Not Yet Allocated (Cumulative)	0	(14,629)	(30,726)	(46,827)

Despite these pressures, the Council has performed strongly. This was highlighted in the report of the Council's independent external auditor, Grant Thornton. In their Annual Audit Letter from October 2015 they commented that

- "the Council continues to have effective arrangements in place to secure economy, efficiency and effectiveness in its use of resources";
- "the Council has good financial planning and review processes in place, and a track record of delivering financial plans and savings".

Grant Thornton also produce a Value for Money Conclusion each year as part of the statutory external audit, which includes a review to determine if the Council has proper arrangements in place for securing financial resilience. This was presented to Overview (Audit) Panel in September

2015, and Grant Thornton commented that “the Council continues to demonstrate good financial performance, despite the financial and demographic pressures facing Local Government.

They also commended that the Council has been proactive in taking difficult decisions in relation to its cost base during the last five years (with over £100m of cost reductions), but this also means that it is becoming more challenging to identify and deliver additional savings. The Council understands the need for continued focus on proposals to deal with expected future funding reductions combined with rising demand for services.

**4) The Year in Review: Financial Performance in 2015/16**

**a. Revenue Expenditure**

The revenue outturn position for Council services, reported during 2015/16 is shown below. The table shows that the Council’s net expenditure was less than budget by £6.663m at the end of March 2016. This was mainly due to prudent management of risk pressures, savings as a result of changes to calculation of debt and an increased airport dividend.

Where services have spent in excess of their budget this will not be charged against the following years budget allocation. Where services have spent less than their allocation justification has been sought of the need to increase the following years budget allocation.

<b>Directorate</b>	<b>Service</b>	<b>Budget £000</b>	<b>Outturn £000</b>	<b>Outturn Variation £000</b>
People	Children’s Social Care	19,477	24,408	4,931
People	Strategy and Early Intervention	2,237	1,746	(491)
People	Education	3,393	2,983	(410)
People	Adults' Social Care	49,750	55,316	5,566
People	Adults' Early Intervention	1,356	1,196	(160)
People	Stronger Communities	7,141	8,388	1,247
	<b>Total People</b>	<b>83,354</b>	<b>94,037</b>	<b>10,683</b>
Place	Asset and Investment Partnership Management	3,641	3,815	174
Place	Environmental Services	45,854	45,125	(729)
Place	Development Growth and Investment	3,183	3,021	(162)
Place	Digital Tameside	1,875	1,814	(61)
	<b>Total Place</b>	<b>54,553</b>	<b>53,775</b>	<b>(778)</b>
Public Health	Director of Public Health	16,329	16,329	0
Governance	Director of Governance and Resources	12,384	10,081	(2,303)
Other	Corporate Costs	8,420	5,417	(3,003)
Other	Capital Financing	20,296	11,398	(8,898)
Other	Other Cost Pressures and Funding	15,990	13,625	(2,365)
		<b>73,419</b>	<b>56,850</b>	<b>(16,569)</b>
	<b>Total</b>	<b>211,326</b>	<b>204,662</b>	<b>(6,664)</b>

Both the level of Business Rates and Council Tax income has been closely monitored during the financial year and collection rates have remained strong. At the end of March 2016 the Council Tax collection rate was slightly below target by -0.03%. The Business Rates collection rate was also slightly below target by -0.20%.

## **b. Capital Expenditure**

Key capital investments made during the year include a combined £8.62m investment in two new schools in Ashton and Hyde, £2.03m on the redevelopment of Ashton Town Centre, and £2.66m on the rebirth of Ashton Old Baths as a high tech business incubator. There was also £1.35m of investment in domestic adaptations as part of the Disabled Facilities Grant to enable people to live independently for as long as possible.

The Council has also commenced work on the Vision Tameside Project which will involve the demolition of the existing Council Offices on Wellington Road, Ashton-under-Lyne and the construction of a new Joint Service Centre with Tameside College on the existing site. £6.63m of capital expenditure has been incurred to date.

There was some re-profiling within the capital programme which means that some schemes planned to be delivered in 2015/16 will now be delivered in 2016/17. Some funding has also therefore been carried forward.

## **c. Financial Reporting**

The Comprehensive Income and Expenditure Statement (CIES) included within these accounts sets out the cost of services that the Council provides in accordance with the requirements of published accounts, which combine capital and revenue expenditure. However, capital and revenue budgets are reported separately by the Council, to Senior Officers, Members and others. These accounts therefore do not align to the way in which financial information is managed within the organisation during the year. Note 1 sets out the 2015/16 financial position in accordance with the Directorate structure under which the Council operates and the final financial monitoring information that has been presented to Senior Officers and Members.

## **d. Pensions Liability**

The Council's Pension Fund deficit is estimated to have reduced from £348.3m to £273.9m in 2015/16. This is largely due to changes in market conditions and a reduction in liabilities. The expected long-term salary increase rate has reduced from 3.6% p.a. as at 31 March 2015 to 3.5% p.a. as at 31 March 2016.

The deficit is calculated on an accounting basis, and different valuation methods are used in the three-yearly valuation of the Fund. However, both valuations must consider the whole life of the Fund and consider a horizon of 20-25 years. In that context, minor changes in assumed rates for inflation or interest can have a profound impact on the valuation of the scheme in the long term. It is this sensitivity that leads to the high level of fluctuation from year to year. The table below illustrates how this valuation is sensitive to a small change in key assumptions.

<b>Change in Assumptions at 31 March 2016</b>	<b>Approximate % change to Employer Liability</b>	<b>Approximate Monetary Amount £000</b>
0.5% decrease in Real Discount Rate	10%	105,479
1 year increase in Member Life Expectancy	3%	30,937
0.5% increase in the Salary Increase Rate	3%	27,590
0.5% increase in the Pension Increase Rate	7%	76,712

**e. Council Borrowing**

The authorised limit for external debt for the Council for 2015/16 was £257.32m. The actual level of external debt outstanding at year-end totalled £127.08m. The Balance Sheet shows that at 31 March 2016, the Council had £119.26m of long term borrowing. The majority of this borrowing is from the Public Works Loan Board (PWLB), these loans have fixed rates and varying maturity dates from 1-2 years to more than 15 years. The Council also has debt in the form of Lender Option Borrower Option (LOBO) market loans totalling £41.3m. In addition there was £9.71m of loans repayable within 12 months. The Council paid £6.28m (£17.20m including Private Finance Initiative) of interest and similar charges in the year and received £5.722m of interest and investment income.

**f. Investment in Manchester Airport Group (MAG)**

The Council's shareholding remains at 3.22%. The Council's external valuers have advised of an decrease of £1.2m in the fair value of the Council's shareholding during the accounting period. The Council receives dividend income from the investment. It is a key item of income in the Council's MTFs and as such, the Council is highly unlikely to dispose of its shareholding.

**5) Outlook: 2016/17 and Future Years**

From 1 April 2015 the Executive Director of Governance (Borough Solicitor) assumed responsibility for Resources, with Section 151 responsibilities being assumed by the Assistant Executive Director, Finance.

The updated MTFs (discussed above) sets out the anticipated savings targets for 2016-20. However, a number of key challenges are also expected to influence the environment in which the Council operates. These include:

- Continuing to review the delivery of sustainable services to local people from a much reduced level of resources; delivering the necessary further reduction in the overall size of the Council in the coming years and securing ongoing cost reductions;
- Working with partners who are themselves experiencing rapid funding reductions or increasing demand, for example, working with the NHS locally to secure the best value from health and social care expenditure;
- Public sector reform and supporting the developing community budget process in Greater Manchester (including working with troubled families, social care integration and early years intervention);
- Devolution – supporting the delivery of a wider range of activities and responsibilities by working with partners across Greater Manchester;
- Welfare Reform / Universal Credit – planning a safe transition that supports local people where wider national changes are already apparent;
- Increased demands on services from vulnerable adults and children;
- Effective delivery of capital and infrastructure investment;
- Integrated Care Organisation (ICO)/Better Care Fund (BCF) – supporting the delivery of this pooling arrangement and modelling the financial impact to the Council;
- Business Rates Pooling – Working with Councils across Greater Manchester to increase the amount of Business Rates income retained within the area;
- Business Rate Pilot across Greater Manchester; and
- Responsibility for commissioning services for 0-5 year olds which transferred to the Council from the NHS in October 2015.

Members and Senior Officers must remain focused on these issues and key challenges if the Borough is to remain in a strong financial position at the end of the planning period.

## **6) The Basis of the Accounts**

The accounts that follow have been prepared to be:

- a. Relevant:** The accounts provide information about the Council's financial performance and position that is useful for assessing the stewardship of public funds and for making economic decisions.
- b. Reliable:** The financial information:
  - Has been prepared so as to reflect the reality or substance of the transaction and activities underlying them;
  - Is free from deliberate or systematic bias;
  - Is free from material error;
  - Is complete within the bounds of materiality; and
  - Has been prudently prepared.
- c. Comparable:** In addition to complying with the CIPFA Code of Practice on Local Authority Accounting in the United Kingdom 2015/16 ('the Code'), the Service Reporting Code of Practice establishes proper practice to be followed with regard to consistent financial reporting on matters below the high level shown in the Statement of Accounts and therefore aids comparability with other local authorities.
- d. Understandable:** These accounts are based on accounting concepts, treatments and terminology that require reasonable knowledge of accounting and Local Government. However, every effort has been made to use plain language and where technical terms are unavoidable they have been explained in the glossary of terms.

Throughout, consideration has been given to the significance ('materiality') of an item - i.e. whether its misstatement or omission might reasonably be expected to influence assessments of the Council's financial management.

### **e. Underlying Assumptions**

#### Accruals Basis

- The financial statements, other than the cash flow, are prepared on an accruals basis. Income and expenditure is recognised in the accounts in the period in which it is earned or incurred not as the cash is received or paid.

#### Going Concern

- The accounts have been prepared on the assumption that the Council will continue in existence for the foreseeable future.

#### Primacy of Legislation Requirements

- In accordance with the Code, where an accounting treatment is prescribed by law then it has been applied, even if it contradicts accounting standards. The following are examples of legislative accounting requirements have been applied when compiling these accounts:
- Capital receipts from the disposal of property, plant and equipment are treated in accordance with the provisions of the Local Government Act 2003.
- The Local Government Act 2003 requires the Council to set aside a minimum revenue provision

## **7) The Financial Statements: Purpose and Summary**

The accounting statements have been prepared to comply with the requirements of the International Financial Reporting Standards (IFRS). The main statements are shown on pages 15-19, and further detailed information is presented in the accompanying notes.

### **a. Comprehensive Income and Expenditure Statement (CIES)**

This statement sets out the Council's day to day revenue income and expenditure. It shows the cost of providing services in the year in accordance with IFRS, rather than the amount funded from Council Tax, and the cost of other activities of the Council.

The statement shows that the Council's gross expenditure on services in 2015/16 was £491.5m, but after income is included the Cost of Services was £143.4m. Once other items of Operating Expenditure such as Precepts and Levies, as well as Financing and Investment Income and Expenditure and Taxation and Non-specific Grant Income are taken into account, the Council's Deficit on the Provision of Services was £2.2m.

The £36m reduction in the Cost of Services arises because the accounts must contain a number of non-cash items in order to comply with proper accounting practice that do not need to be included in the Council's budget plans. So, the accounts include significant changes arising from revaluations and impairments of non-current assets charged to services, net of a reduction in service expenditure as a result of savings.

The service lines within the Cost of Services section of the CIES represent the full cost of providing that service and include the non-cash items mentioned above. Therefore, it should be noted that a large movement between years does not necessarily represent an increase or reduction in the level of spending in that area.

### **b. Movement in Reserves Statement (MiRS)**

This statement sets out the movements in the main reserves and balances of the Council. It distinguishes between unusable reserves (which are necessary under proper accounting practice, but which cannot be spent) from usable reserves (which can be spent). Usable reserves are further divided into General Fund Balances, Schools Balances, Earmarked Reserves (earmarked to specific objectives), Capital Grants Unapplied, and Capital Receipts Unapplied. It is a requirement placed on all councils that the level of reserves is regularly reviewed by the Assistant Executive Director, Finance (Section 151 Officer) and due consideration is given to all local financial risks and liabilities when doing so (this is also reported in the Budget Report presented to Full Council each year).

At the 31 March 2016, the MiRS shows that the Council retained General Fund Balances of £17.247m. This amount includes general unallocated amounts and includes a core level of working balances set at £17m to provide for truly unexpected liabilities

Also shown within usable reserves are £7.096m of Schools Balances. These amounts accrue from unspent school budgets, and are allocated to be spent in future years. The use of these amounts is determined by schools' governing bodies.

Finally, £185.932m of Earmarked Reserves are also included. These earmarked amounts are allocated to specific purposes or liabilities. Significant amounts within the earmarked reserves include reserves required legally (such as the £2.868m reserve for Health Equalities created from the unspent element of the Public Health Grant) as well as amounts set aside for future liabilities (such as the Health Integration Reserve of £3.118m, set up to support the transition to more integrated working with NHS Tameside and Glossop CCG), or again funds set aside to limit future fluctuations in expenditure (such as the Waste PFI reserve of £2.221m – waste PFI charges will vary within the year depending on the level of recycling achieved by different boroughs within

Greater Manchester). Other earmarked amounts include funds set aside for future capital investment (for example the Capital Investment Reserve of £36.649m which will be used to finance the Council's ongoing capital programme, including the Vision Tameside project).

A large number of the Earmarked Reserves relate to specific liabilities that individual services have identified (such as Winter Gritting) and residual liabilities arising from the Building Schools for the Future programme. The full detail of these is set out in Note 11.

### **c. Balance Sheet**

The Balance Sheet summarises the financial position of the Council at 31 March 2016 and shows the net worth of the Council's assets and liabilities of £178.6m. It includes balances and reserves, and all assets and liabilities employed in the Council's operations. It shows that the Council has non-current assets (mainly Property, Plant and Equipment) with carrying values in the accounts of £568m, an increase of £1m from 31 March 2015. Approximately 20% of the Council's Land and Buildings were revalued in year.

Current Assets have increased in year. There is a change between Cash and Cash Equivalents and Short Term Investments, which is mainly as a result of the Council holding a higher proportion of investments in Fixed Term Deposits (classed as Short Term Investments) rather than as cash balances in Money Market Funds.

Usable reserves have increased in line with the increase in the level of financial risk being faced by the Council. Reserves provide a way for the Council to ensure that any unforeseen financial impacts can be absorbed without immediately impacting on frontline service delivery.

The notes to the accounts provide detailed explanations of the movements on all items within the Balance Sheet.

### **d. Cash Flow Statement**

This summarises the total movement on Cash and Cash Equivalents during the year for revenue and capital purposes.

### **e. Collection Fund**

The Collection Fund is a fund administered by the Council that shows the transactions of the billing authority (the Council), in relation to the collection from taxpayers of Council Tax and Non-Domestic Rates (NDR) and how the income from these sources has been distributed to precepting authorities, Central Government and the Council's General Fund Balances. The Collection Fund is maintained separately, as a statutory requirement.

The Collection Fund shows that the balances to carry forward as at 31 March 2016 were a £7.63m surplus relating to Council Tax (£4.98m surplus in 2014/15) and a £2.37m deficit on NDR mainly attributable to the requirement to account for estimated Business Rates appeals (£0.87m deficit in 2014/15).

### **f. Greater Manchester Metropolitan Debt Administration Fund (GMMDAF)**

At the winding up of the Greater Manchester County Council in 1986, some accumulated debt remained outstanding. This was then legally transferred to the successor councils, including Tameside. The debt will be fully redeemed in 2022. The accounts for GMMDAF are included in the Statement of Accounts for the Council because the Council has the lead responsibility for GMMDAF on behalf of the other Greater Manchester Councils.

This shows that net income and expenditure for the year was zero. The total debt outstanding as at 31 March 2016 is £110m, and this is represented by the assets and liabilities of the Fund. The

Fund has no long term assets (such as land or buildings) as it exists purely to administer the settlement over time, as set out in the statutory instrument.

**g. Greater Manchester Pension Fund (GMPF)**

The accounts of the GMPF are included in the Statement of Accounts of the Council because the Council administers the GMPF. The Fund is administered separately from the Council and has independent governance arrangements. The Accounts show the net assets of the Fund were £17.325bn at 31 March 2016, a reduction of £0.266bn during the financial year.

**h. Accompanying Statements Included in the Statement of Accounts**

The purpose of the various accompanying statements included in the accounts is set out below:

The **Statement of Responsibilities** sets out the respective responsibilities of the Council and the Chief Financial Officer for the accounts.

The **Statement of Assurance** gives a public assurance that the Council has proper arrangements in place to manage all of its affairs. It summarises the Council's responsibilities in the conduct of its business, the purpose and key elements of the system of internal control and the processes applied in maintaining, reviewing and developing the effectiveness of those control systems.

**Acknowledgements**

The production of the Statement of Accounts would not have been possible without the hard work of Members and Officers across the Council. I would like to express my gratitude to all colleagues who have assisted in the preparation of this document, and for their support during the financial year.

**Further Information**

Further information about these accounts is available from the Assistant Executive Director, Finance (Section 151 Officer). If you require further clarification or information about any of the items included in the accounts, please contact me at the address below.

Signed:

12 September 2016

Ian Duncan  
Assistant Executive Director, Finance (Section 151 Officer)

Tameside Metropolitan Borough Council, PO Box 304, Ashton-under-Lyne, OL6 0GA

# Financial Statements

Financial Statements are applicable to all local authorities and comprise:

1. Comprehensive Income and Expenditure Statement (CIES)
2. Movement in Reserves Statement (MiRS)
3. Balance Sheet (Statement of Financial Position)
4. Cash Flow Statement

## Comprehensive Income and Expenditure Statement for the year ended 31 March 2016

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation.

\* Net worth of the Council at that date. Reconciles to Net Assets/ (Liabilities) and Total Reserves shown in the Balance Sheet.

\*\* Taken directly from the CIES.

\*\*\* Adjustments needed to convert the Surplus or Deficit on the Provision of Services to the movement on General Fund Balances as defined by statutory provisions. See Note 8 for a full breakdown of the adjustments required to comply with proper accounting practice.

\*\*\*\* A further breakdown of the Council's Earmarked Reserves can be seen in Note 11.

## Balance Sheet as at 31 March 2016

The Balance Sheet shows the value of the assets and liabilities recognised by the Council. The net assets of the Council (assets less liabilities) are matched by the reserves held by the Council.

	Note	31 March 2016 £000	31 March 2015 £000

**COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT (CIES) NOTES****1. Amounts Reported for Resource Allocation Decisions**

The analysis of income and expenditure by service on the face of the CIES is that specified by the Service Reporting Code of Practice (SERCOP). However, decisions about resource allocation are taken by Cabinet on the basis of internal Budget Monitoring reports analysed across services. These reports are prepared on a different basis from the accounting policies used in the preparation of the financial statements.

The income and expenditure of the Council's principal services recorded in the Budget Monitoring reports is as follows:

	Childrens Services	Community Services and Adult Social Care	Public Health	Environmental Services	Asset & Investment Partnership Management	Exchequer and Corporate Costs	Capital and Financing	Total
2015/16	£000	£000	£000	£000	£000	£000	£000	£000
Fees, charges and other service income	(5,476)	(20,118)	(753)	(24,326)	(17,064)	(7,139)	(1,973)	(76,849)
Government grants and contributions	(16,444)	(4,453)	(38)	(169)	(14,383)	(91,050)	0	(126,537)

**Reconciliation of Service Income and Expenditure to Cost of Services in the CIES**

This reconciliation shows how the income and expenditure of the Council's principal services recorded in the Budget Monitoring report is adjusted due to being prepared on a different basis from the accounting policies used to prepare the Council's Financial Statements.

	2015/16 £000	2014/15 £000
Net expenditure of the Council's principal services	178,542	180,817
Net expenditure of services not included as a principal service	26,124	11,740
<b>Budget Monitoring report</b>	<b>204,666</b>	<b>192,557</b>
Amounts not included in Budget Monitoring but included in the CIES	(26,315)	(8,272)
Amounts included in Budget Monitoring but not included in the CIES	(7,646)	37,259
Amounts reported below the Cost of Services line within the CIES	(27,309)	(42,367)
<b>Cost of Services in the CIES</b>	<b>143,396</b>	<b>179,177</b>

### Reconciliation to Subjective Analysis

Reconciliation between the income and expenditure recorded in the Budget Monitoring report and a subjective analysis of the Cost of Services and Surplus or Deficit on the Provision of Services included in the CIES. Comparative year information is provided in the second table. This is required due to the Budget Monitoring reports being prepared on a different basis from the accounting policies used to prepare the Council's Financial Statements.

**4. Taxation and Non-Specific Grant Income**

*Council Tax and Business Rates income included in the Comprehensive Income and Expenditure Statement includes the Council's share of accrued income recognised by billing authorities in the production of the Collection Fund Statements.*

*The difference between the income included in the Comprehensive Income and Expenditure Statement and the amount required by regulation to be credited to the General Reserve is taken to the Collection Fund Adjustment Account and reported in the Movement in Reserves Statement.*

	31 March 2016 £000	31 March 2015 £000
Council Tax Income	(73,041)	(68,420)
Revenue Support Grant	(44,376)	(60,534)
Retained Business Rates	(27,985)	(26,894)
Business Rates Top Up	(23,844)	(23,397)
Non Ringfenced Government Grants	(10,404)	(18,164)
Capital Grants and Contributions	(12,610)	(16,673)
Collection Fund Surplus	0	(349)
	<b>(192,260)</b>	<b>(214,431)</b>

**5. Grants**

*Grants are recognised as income at the date that the Council has satisfied the conditions of entitlement, and there is reasonable assurance that the monies will be received. Any grant received before these recognition criteria were satisfied would be held as a creditor (receipt in advance). Any grant which had met the recognition criteria but had not been received would be shown as a debtor.*

*Revenue grants will either be received to be used only for a specific purpose, or can be used for general purpose. Those for a specific purpose are recognised in the Comprehensive Income and Expenditure Statement within the Net Cost of Services. Those which are for general purpose are*

*shown within Other Operating (Income) and Expenditure in the Comprehensive Expenditure and Income Statement.*

*The Council recognises capital grants and contributions as being related to capital assets and uses them to fund capital expenditure on those assets. Grants, contributions and donations are recognised as income at the date that the Council has satisfied the conditions of entitlement, and there is reasonable assurance that the monies will be received.*

*Any grant received before these recognition criteria were satisfied would be held as a creditor. Any grant which had met the recognition criteria but had not been received would be shown as a debtor. This is in line with the Accruals Concept Policy.*

*Once the recognition criteria above have been satisfied, capital grants are recognised as income in the Comprehensive Income and Expenditure Statement.*

*In order to not impact on the level of Council Tax, the Council removes the credit from the General Reserves through the Movement in Reserves Statement, and makes a credit to the Capital Grants Unapplied Reserve.*

*Once expenditure has been incurred on the related asset, the credit is removed from the Capital Grants and Other Contributions Unapplied Reserve and credited to the Capital Adjustment Account.*

The Council credited the following to the Taxation and Non Specific Grant Income line in the CIES (see Note 4):

	<b>2015/16</b>	<b>2014/15</b>
	<b>£000</b>	<b>£000</b>
<b>Non Ringfenced Government Grants</b>		
Revenue Support Grant	(44,376)	(60,534)
Retained Business Rates	(27,985)	(26,894)
Business Rates Top Up	(23,844)	(23,397)
Education Services Grant	(2,855)	(3,647)
New Homes Bonus	(3,678)	(3,182)
Section 31 Business Rates Grants	(2,850)	(2,341)
Local Welfare Provision		(1,075)
Council Tax Freeze Grant		(803)
Other Non Ringfenced Government Grants	(1,021)	(7,116)
	<b>(106,609)</b>	<b>(128,989)</b>
<b>Capital Grants and Contributions</b>		
Target Basic Need	0	(6,285)
Schools Basic Need	(2,932)	(3,086)
Local Transport Plan	(2,322)	(1,868)
Schools Capital Maintenance	(1,665)	(1,858)
Greater Manchester Pinchpoint	(50)	(1,235)
Other Capital Grants and Contributions	(5,641)	(2,341)
	<b>(12,610)</b>	<b>(16,673)</b>

The Council credited the following to Cost of Services in the CIES:

Dedicated Schools Grant	(134,697)	(137,553)
Housing Benefit Subsidy Grant	(87,698)	(89,613)
Housing and Council Tax Benefit Administration Grant	(1,547)	(1,907)
Better Care Fund	(15,784)	0
Private Finance Initiative (PFI) Grant	(14,196)	(14,196)
Public Health Grant	(14,291)	(12,600)
Pupil Premium Grant	(10,707)	(10,990)
NHS Tameside & Glossop CCG	0	(3,417)
Universal Infant Free School Meals	(2,460)	(1,721)
Post 16 - Schools Funding Agency	0	(998)
Troubled Families Grant	(556)	(664)
Other Grants	(10,094)	(9,756)
	<b>(292,031)</b>	<b>(283,415)</b>

## 6. Dedicated Schools Grant (DSG)

The Council's expenditure on schools is funded primarily by grant monies provided by the Department for Education. The DSG is ring fenced and can only be applied to meet expenditure properly included in the schools budget, as defined in the School Finance (England) Regulations 2014. Detail of the deployment of the DSG received is as follows:

	<b>Central Expen- diture £000</b>	<b>Individual Schools Budget £000</b>	<b>Total £000</b>
Final DSG for 2015/16 before Academy recoupment	12,630	163,177	175,807
Academy figure recouped for 2015/16	0	41,110	41,110
<b>Total DSG after Academy recoupment</b>	<b>12,630</b>	<b>122,067</b>	<b>134,697</b>
Brought forward from 2014/15	3,621	0	3,621
<b>Final budget distribution for 2015/16</b>	<b>16,251</b>	<b>122,067</b>	<b>138,318</b>
Actual central expenditure	13,052	0	13,052
Actual ISB deployed to schools	0	122,067	122,067
<b>Carry forward to 2016/17</b>	<b>3,199</b>	<b>0</b>	<b>3,199</b>

## 7. Trading Services

The Council has established a number of trading services that operate in a commercial environment and balance their budget by generating income from other parts of the Council, other organisations or the public. Details of those trading services are listed below:

	2015/16			2014/15		
	Expenditure £000	Turnover £000	(Surplus)/ Deficit £000	Expenditure £000	Turnover £000	(Surplus)/ Deficit £000
Cemeteries and Crematorium	1,241	(2,096)	(855)	1,219	(2,127)	(908)
Commercial Refuse Collection	233	(753)	(520)	205	(745)	(540)
Vehicle Maintenance	312	(190)	122	408	(93)	315
Civil Engineering	3,792	(4,004)	(212)	5,537	(5,843)	(306)
Community Buildings	686	(264)	422	515	(297)	218
Building Control	251	(128)	123	349	(281)	68
<b>Total</b>	<b>6,515</b>	<b>(7,435)</b>	<b>(920)</b>	<b>8,233</b>	<b>(9,386)</b>	<b>(1,153)</b>

## **MOVEMENT IN RESERVES STATEMENT (MiRS) NOTES**

### **8. Adjustments Required to Comply with Proper Accounting Practice**

*The Council holds usable revenue reserves for the purpose of funding future expenditure. The General Fund Balance represents the balance of reserves to meet short term, unforeseeable expenditure and to enable significant changes in resources or expenditure to be properly managed over the period of the Medium Term Financial Strategy. Earmarked Reserves represent balances where approval has been received to use the reserve for a specific purpose.*

*Unusable revenue reserves represent timing differences such as those associated with the recognition of retirement benefits, Council tax income and financial instruments.*

*Movement in reserves are accounted through the Movement in Reserves Statement.*

#### **Revenue expenditure funded from Capital under Statute**

*Revenue Expenditure Funded from Capital under Statute represents expenditure which may be properly capitalised, but which does not result in the creation of any non-current asset to the Council. In line with the guidance contained in 'the Code', this expenditure is written off to the Comprehensive Income and Expenditure Statement in the year the expenditure is incurred, because the Council does not control the economic benefits arising from this expenditure.*

#### **Redemption of Debt (Minimum Revenue Provision)**

*Where capital expenditure has been financed by borrowing there is a provision for the repayment of debt to be made in accordance with the Minimum Revenue Provision requirements of the Local Authorities ('MRP' - as set out in Capital Financing and Accounting (Amendment) Regulations 2009).*

*For 2015/16 the Council has adopted the following policy in relation to calculating the Minimum Revenue Provision*

*Borrowing taken up prior to 01/04/2015 will be provided for using a straight-line method of calculating 'MRP'. A total of £185,215,128 will be provided for in equal instalments over 50 years which will result in an annual charge of £3.704m. The debt will be extinguished in full by 31 March 2065. If the Council elects to make additional voluntary MRP then the annual charge will be adjusted accordingly.*

*The following will be required in relation to borrowing taken up on or after 01/04/2015. 'MRP' is to be provided for based upon the average expected useful life of the assets funded by borrowing in*

*the previous year. The debt will be repaid on a straight-line basis over the average useful life calculated; the debt will be fully extinguished at the end of period. If the Council elects to make additional voluntary MRP then the annual charge will be adjusted accordingly*

*For any finance leases and any on-balance sheet private finance initiative (PFI) schemes, the MRP charge will be equal to the principal repayment during the year, calculated in accordance with proper practices.*

*There will be no MRP charge for any cash backed Local Authority Mortgage Scheme (LAMS) that the Council operates. As for this type of scheme, any future debt liability would be met from the capital receipt arising from the deposit maturing after a five year period. Any repossession losses for this type of scheme would be charged to an LAMS reserve.*

	Usable Reserves			Movement in Unusable Reserves £000

## 9. Usable Reserves

*Usable Reserves are those reserves that can be applied to fund expenditure or reduce local taxation. Further details can be found in the MiRS and below.*

	31 March 2016 £000	31 March 2015 £000
General Fund Balances	(17,247)	(17,207)
Schools Balances	(7,097)	(10,166)
Earmarked Reserves	(185,932)	(165,841)
Capital Receipts Unapplied Account	0	0
Capital Grants and Other Contributions Unapplied Reserve	(8,666)	(11,755)
<b>Total</b>	<b>(218,942)</b>	<b>(204,969)</b>

### Capital Receipts Unapplied Account

*Capital receipts arising from the sale of non-current assets are credited to the Capital Receipts Unapplied Account.*

*Any capital receipts relating to the repayment of former Housing Revenue Account (HRA) mortgages (principal amounts) are subject to provisions included within the Local Government Act 2003. The Council is required to pay a specified amount from these receipts to the National Pool. All other capital receipts are usable.*

*Usable capital receipts are shown separately in the Balance Sheet and can be used either to finance new capital investment, to repay grant received in relation to the asset disposed of, to finance the premium sum arising from the rescheduling of debt, or set aside to reduce the Council's underlying need to borrow.*

	2015/16 £000	2014/15 £000
<b>Balance at 1 April</b>	<b>0</b>	<b>(917)</b>
Transfer of sale proceeds credited as part of the gain/loss on disposal to the CIES	(7,903)	(4,898)
Use of the Capital Receipts Unapplied Account to finance new capital	7,721	5,606
Contribution from the Capital Receipts Unapplied Account to finance the payments to the Government Capital Receipts Pool	0	1
Transfer from the Deferred Capital Receipts Reserve upon receipt of cash	(3)	(5)
4% disposal cost allowance	185	213
<b>Balance at 31 March</b>	<b>(0)</b>	<b>0</b>

### Capital Grants and Other Contributions Unapplied Reserve

	2015/16 £000	2014/15 £000
<b>Balance at 1 April</b>	<b>(11,755)</b>	<b>(12,661)</b>
Grants and contributions received in previous years - applied	7,355	8,168
Grants and contributions received in year - not applied	(4,266)	(7,262)
<b>Balance at 31 March</b>	<b>(8,666)</b>	<b>(11,755)</b>

## 10. Unusable Reserves

*Unusable Reserves are those reserves that the Council is not able to utilise to provide services.*

	<b>31 March 2016 £000</b>	<b>31 March 2015 £000</b>
Revaluation Reserve	(25,801)	(22,903)
Capital Adjustment Account	(171,084)	(172,843)
Pensions Reserve	273,932	348,259
Available For Sale Financial Instruments Reserve	(29,585)	(30,785)
Collection Fund Adjustment Account	(5,369)	(4,173)
Short Term Accumulating Compensated Absences Account	3,577	3,580
Holding in Manchester Airport Plc	(5,702)	(5,702)
Financial Instruments Adjustment Account	426	235
Deferred Capital Receipts	(12)	(15)
<b>Total</b>	<b>40,382</b>	<b>115,653</b>

**Holding in Manchester Airport Plc** – Represents shares transferred to the Council on the winding up of Greater Manchester Council at nil cost as opposed to cash share purchases.

## Revaluation Reserve

*The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment. The balance is reduced when assets with accumulated gains are:*

- *Revalued downwards or impaired and the gains are lost;*
- *Used in the provision of services and the gains are consumed through depreciation; or*
- *Disposed of and the gains are realised.*

	<b>2015/16 £000</b>	<b>2014/15 £000</b>

### Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement element of those assets under statutory provisions. The account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the CIES (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Account is credited with the amounts set aside by the Council to finance the costs of acquisition, construction and enhancement.

The Account contains accumulated gains and losses on Investment Properties that have yet to be consumed by the Council. The Account also contains revaluation gains accumulated on Property, Plant and Equipment before April 2007, the date that the Revaluation Reserve was created to hold such gains.

	2015/16 £000	2014/15 £000
<b>Balance at 1 April</b>	<b>(172,843)</b>	<b>(216,261)</b>
<i>Reversal of items debited or credited to the CIES:</i>		
Charges for depreciation of non-current assets	13,899	13,551
Revaluation losses on Property, Plant and Equipment	12,813	50,856
Revaluation gains on Property, Plant and Equipment (used to reverse previous revaluation losses)	(1,762)	(157)
Amortisation of Intangible Assets	289	324
Revenue expenditure funded from capital under statute	12,132	4,526
Amounts of non-current assets written off on disposal or sale as part of the gain/loss on disposal to the CIES	7,671	15,623
	<b>45,042</b>	<b>84,723</b>
Adjusting amounts written out of the Revaluation Reserve	(755)	(4,456)
Net written out amount of the cost of non-current assets consumed in the year	<b>44,287</b>	<b>80,267</b>
<i>Capital financing applied in the year:</i>		
Use of the Capital Receipts Unapplied Account to finance new capital expenditure	(7,721)	(5,606)
Capital grants and contributions credited to the CIES that have been applied to capital financing	(15,443)	(11,171)
Application of grants to capital financing from the Capital Grants and Other Contributions Unapplied Account	(7,355)	(8,168)
Statutory provision for the financing of capital investment charged against the General Fund	(6,531)	(10,396)
Capital expenditure charged against the General Fund	(2,819)	(3,799)
	<b>(39,869)</b>	<b>(39,140)</b>
Movements in the market value of Investment Properties debited or credited to the CIES	(2,659)	2,291
<b>Balance at 31 March</b>	<b>(171,084)</b>	<b>(172,843)</b>

**Pensions Reserve**

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The debit balance on the Pensions Reserve therefore shows a shortfall in the benefits earned by past and current employees and the resources the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

	2015/16 £000	2014/15 £000
<b>Balance at 1 April</b>	<b>348,259</b>	<b>256,066</b>
Actuarial gains or losses on pension assets and liabilities	(89,040)	81,636
Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the CIES	33,759	29,042
Employer's pensions contributions and direct payments to pensioners payable in the year	(19,046)	(18,485)
<b>Balance at 31 March</b>	<b>273,932</b>	<b>348,259</b>

**Available For Sale Financial Instruments Reserve**

The Available for Sale Financial Instruments Reserve contains the gains made by the Council arising from the increases in the value of its investments that have quoted market prices or otherwise do not have fixed or determinable payments. The balance is reduced when investments with accumulated gains are:

- Revalued downwards or impaired and the gains are lost;
- Disposed of and the gains are realised;
- Revalued downwards or impaired and the gains are lost; or
- Disposed of and the gains are realised.

	2015/16 £000	2014/15 £000
<b>Balance at 1 April</b>	<b>(30,785)</b>	<b>(26,486)</b>
Revaluation of investment in Manchester Airport Group (MAG)	1,200	(4,299)
<b>Balance at 31 March</b>	<b>(29,585)</b>	<b>(30,785)</b>

**Collection Fund Adjustment Account**

The Collection Fund Adjustment Account manages the differences arising from the recognition of Council Tax income and NDR income in the CIES as it falls due from Council Tax payers and NDR payers compared with the statutory arrangements for paying across amounts to General Fund Balances from the Collection Fund.

	2015/16 £000	2014/15 £000
<b>Balance at 1 April</b>	<b>(4,173)</b>	<b>(2,715)</b>
Amount by which Council Tax income and NDR income credited to the CIES is different from Council Tax income and NDR income calculated for the year in accordance with statutory requirements	(1,196)	(1,458)
<b>Balance at 31 March</b>	<b>(5,369)</b>	<b>(4,173)</b>

**Short Term Accumulating Compensated Absences Account**

The Short Term Accumulating Compensated Absences Account absorbs the differences that would otherwise arise on General Fund Balances from accruing for compensated absences earned but not taken in the year e.g. annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on General Fund Balances is neutralised by transfers to or from the Account.

	2015/16 £000	2014/15 £000
<b>Balance at 1 April</b>	<b>3,580</b>	<b>3,261</b>
Settlement or cancellation of accrual made at the end of the preceding year	(3,580)	(3,261)
Amounts accrued at the end of the current year	3,577	3,580
Amount by which officer remuneration charged to the CIES on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements	(3)	319
<b>Balance at 31 March</b>	<b>3,577</b>	<b>3,580</b>

**Financial Instruments Adjustment Account**

	2015/16 £000	2014/15 £000
<b>Balance at 1 April</b>	<b>(235)</b>	<b>(28)</b>
Proportion of premiums incurred in previous financial years to be charged against the General Fund Balance in accordance with statutory requirements	(191)	(207)
<b>Balance at 31 March</b>	<b>(426)</b>	<b>(235)</b>

**Deferred Capital Receipts Reserve**

	2015/16 £000	2014/15 £000
<b>Balance at 1 April</b>	<b>(15)</b>	<b>(20)</b>
Transfer to the Capital Receipts Unapplied Account on receipt of cash	3	5
<b>Balance at 31 March</b>	<b>(12)</b>	<b>(15)</b>

**11. Transfers to/from Earmarked Reserves**

Transfers to/from Earmarked Reserves are the net amounts set aside from General Fund Balances in earmarked reserves to provide financing for future expenditure plans, and the amounts posted back from earmarked reserves to meet General Fund expenditure in the accounting period.

Risk Initiatives Reserve	(235)	(56)	(291)	(197)	(38)	(235)	To provide training in areas of high risk insurance claiming with the aim of reducing future claims.
School Funding Reserve	(4,737)	530	(4,207)	(2,072)	(2,665)	(4,737)	Balance of Education grants to utilised on Education and School related services.
Schools Teachers Early Retirement Reserve	(512)	(18)	(530)	(494)	(18)	(512)	To finance the associated ongoing pension liabilities of teachers who retire before the age of 60.

## Notes to the Financial Statements

Tameside Support for Independent Living Reserve	(213)	(175)	(388)	0	(213)	(213)	Balance of a deprivation grant which is to be used to support the Tameside Resettlement Scheme.
Traffic Management Reserve	(619)	(34)	(653)	(72)	(547)	(619)	To support future maintenance of the new development highway infrastructure.
Transport Replacement Fleet Reserve	(954)	(398)	(1,352)	(702)	(252)	(954)	To fund future maintenance of vehicles procured via Prudential Borrowing.
Unspent Revenue Grant and Contribution Reserve	(4,943)	139	(4,804)	(3,722)	(1,221)	(4,943)	Unspent revenue grant, with no conditions attached. IFRS require these grants to be classed as reserves.
Waste PFI Reserve	(1,976)	(245)	(2,221)	(3,819)	1,843	(1,976)	To smooth the impact of future years levy increases and associated managed collection costs.
Winter Gritting Reserve	(603)	100	(503)	(465)	(138)	(603)	To fund additional winter maintenance costs in future years.
<b>Total</b>	<b>(165,841)</b>	<b>(20,091)</b>	<b>(185,932)</b>	<b>(138,516)</b>	<b>(27,325)</b>	<b>(165,841)</b>	

### **BALANCE SHEET NOTES**

#### **NON-CURRENT ASSETS (INCLUDING FINANCIAL INSTRUMENTS)**

##### **12. Property, Plant and Equipment**

#### ***Recognition***

*All expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis. Expenditure on the acquisition of an asset, or expenditure which adds to, and not merely maintains, the value of an existing asset, should be capitalised, provided that it yields benefits to the Council and the services it provides for a period of more than one year.*

*Capital expenditure includes:*

- *The acquisition, reclamation, enhancement or laying out of land;*
- *Acquisition, construction, preparation, enhancement or replacement of roads, buildings and other structures; and*
- *Acquisition, installation or replacement of movable or immovable plant, machinery, apparatus, vehicles and vessels.*

*In this context, enhancement means works which are intended to:*

- *Lengthen substantially the useful life of the asset, or*
- *Increase substantially the market value of the asset, or*
- *Increase substantially the extent to which the asset can or will be used for the purposes of or in conjunction with the functions of the Council.*

*Under this definition, improvement works and structural repairs should be capitalised, whereas expenditure to ensure that the non-current asset maintains its previously assessed standard of performance should be recognised in the revenue account as it is incurred.*

*A de minimis level of £1,000 has been adopted by the Council in relation to capital expenditure.*

#### ***Measurement***

*Initially the assets are measured at cost, comprising the purchase price, plus any costs associated with bringing the asset into use. The measurement of an operational asset acquired other than through purchase is deemed to be its current value. The Code requires that non-operational property, plant and equipment classified as surplus assets are measured at fair value.*

*In accordance with 'the Code', Property, Plant and Equipment is further classified as:*

- *Other Land and Buildings \**
- *Infrastructure assets*
- *Vehicles, Plant and Equipment*

- *Community Assets*
- *Assets under Construction*
- *Surplus Assets*

*Each of these asset classifications are valued on the base recommended by CIPFA and in accordance with the Statements of Asset Valuation Principles and Guidance Notes issued by The Royal Institution of Chartered Surveyors (RICS), as follows:*

- *Infrastructure, Community Assets and Assets Under Construction – depreciated historical cost (DRC)*
- *Other assets (excluding non-operational property) – current value, determined as the amount that would be paid for the asset in its existing use (EUUV)*
- *Surplus assets (non-operational property, plant and equipment) – fair value*

*Where there is no market based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of fair value. Where non-property assets (such as Vehicles, Plant and Equipment) have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for fair value.*

*\*These asset categories are revalued on a five year rolling cycle. The programme of revaluations is continuing on this cyclical basis although values of those assets falling between scheduled valuation dates are reviewed annually to ensure that any material changes to asset valuations is adjusted in the interim period, as they occur. Assets where expenditure of £750,000 or above has been incurred, these are added to the preceding year's revaluation list*

### **Disposals**

*Receipts from the disposal of non-current assets are accounted for on an accruals basis. When an asset is disposed of, the value of the asset in the Balance Sheet is written out to the Comprehensive Income and Expenditure Statement, as is the disposal receipt. These amounts are not a charge or receipt to council tax as the cost of non-current assets is fully provided for under separate arrangements for capital financing. The asset value written out is appropriated to the Capital Adjustment Account, the capital receipt is appropriated to the Capital Receipts Unapplied Account, via the Movement in Reserve Statement. Any revaluation gains that have accumulated in the Revaluation Reserve are transferred to the Capital Adjustment Account.*

*Usable Capital Receipts have been used to finance capital expenditure based on the policy of the Council.*

*Academy Schools are written out of the Council's Balance Sheet at the time that they legally transfer to Academy status. The net book value of the school at the time of the transfer is charged to Other Operating Income and Expenditure within the Comprehensive Income and Expenditure Statement as a loss on disposal/derecognition.*

### **Depreciation / Amortisation**

*Depreciation is provided for on all non-current assets with a finite useful life (this can be determined at the time of acquisition or revaluation) according to the following policy:*

*In accordance with the Service Reporting Code of Practice, all buildings (but not their land) are depreciated over their remaining useful lives. A land and building split has been determined by the Council's external valuers. Estimates of the useful life are determined for each property and where material for components of those properties as part of the valuation process. These estimates of economic life may vary considerably from property to property.*

*Investment Properties are not depreciated, rather an annual review is undertaken of the fair carrying value. Any changes to these values are charged to the Provision of Services within the Comprehensive Income and Expenditure Statement in the period that they occur.*

*Infrastructure is depreciated over a 40 year period.*

*Vehicles, Plant, and Equipment is depreciated over 10 years or less depending on the nature of the asset.*

*Depreciation is calculated on a straight-line basis. Depreciation is not charged in the year of asset acquisition. Depreciation is charged to the Comprehensive Income and Expenditure Statement but does not impact on council tax and is written out to the Capital Adjustment Account via the Movement in Reserves Statement. Where non-current assets have been re-valued the current value depreciation will be higher than the historic cost depreciation, this increased depreciation charge is written out against the Revaluation Reserve with an offsetting entry to the Capital Adjustment Account.*

### **Impairment of Non-current Assets**

*Assets have been reviewed for any impairment loss in respect of the consumption of economic benefit (e.g. physical damage). Where an impairment loss occurs this would be charged to the service revenue account, with a corresponding entry made to reduce the value of the asset in the Balance Sheet.*

*To remove the impact of the impairment loss on the budget, a credit entry is made in the Movement in Reserves Statement as a charge to the Capital Adjustment Account.*

*Impairments reflecting a general fall in prices would be recognised in the Revaluation Reserve, up to the value of revaluation for the individual asset, and any further impairment would be treated as a consumption of economic benefit and charged to the service revenue account.*

### **Revaluations**

*Revaluation of property is undertaken on at least a five year "rolling programme" to ensure all property is measured at current value or fair value as appropriate. A desk top valuation exercise can take place more frequently, however, if the valuer believes that market changes within the year are more significant, an interim valuation will be undertaken. Investment Properties are revalued annually to determine any material change in the carrying value.*

*A Revaluation Reserve for non-current assets (other than Investment Properties) is held in the Balance Sheet made up of unrealised revaluation gains relating to individual non-current assets, with movements in valuations being managed at an individual non-current asset level.*

*Movement in the valuation of Investment Properties are charged or credited to the Comprehensive Income Expenditure Statement. Gains arising from the revaluation of Investment Properties are not held within a revaluation reserve.*

*The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of the reserves formal implementation. Gains arising before that date were subsequently consolidated into the Capital Adjustment Account. Movements in the valuations of non-current assets do not impact on General Fund Balances and are not a charge or credit to council tax levies.*

Details of movements in Property, Plant and Equipment in the year are below:

**Notes to the Financial Statements**

	Land and Buildings £000	Vehicles, Plant and Equipment £000	Infrastructure £000	Community Assets £000	Surplus Assets £000	Assets Under Construction £000	Total Property, Plant and Equipment £000	PFI Assets Included in Property, Plant and Equipment £000

#### a. Assets Held for Sale

	2015/16 £000	2014/15 £000
<b>Balance at start of the year</b>	<b>2,073</b>	<b>407</b>
Assets newly classified as held for sale	877	1,666
Revaluation losses or gains	0	0
Assets declassified as held for sale	0	0
Disposals in year	(1,990)	0
<b>Balance at end of the year</b>	<b>960</b>	<b>2,073</b>

### 13. Heritage Assets

*Heritage Assets are held for their cultural, environmental or historical associations. With the exception of "Statues and Other Monuments", which by their nature are located across the Borough, they are mainly held in the Council's art galleries and museums.*

*This collection of Heritage Assets has been secured over many years from a variety of sources, being mainly bequeaths, donations and long term loans. Assets acquired from these sources may have conditions attached which govern how the assets may be managed in the future. Any assets with conditions attached are recognised in Donated Assets as a long term liability in the Balance Sheet until any outstanding conditions cease.*

*Any acquisitions of Heritage Assets are initially recognised at cost and donations are recognised at valuation with valuations provided by the external valuers. The Council's collections of Heritage Assets are accounted for as follows:*

- *Art Collection;*
- *Militaria;*
- *Civic Regalia and Silver; and*
- *Statues and Other Monuments.*

	Civic Regalia £000	Art Collection £000	Militaria £000	Statues and Other Monuments £000	Total Heritage Assets £000
<b>Cost or Valuation</b>					
At 1 April 2013	578	9,507	1,475	911	12,471
At 31 March 2014	578	9,507	1,475	911	12,471
At 31 March 2015	578	9,507	1,475	911	12,471
At 31 March 2016	578	9,507	1,475	911	12,471

#### 14. Investment Properties

*Investment Property is held solely to earn rental income or for capital appreciation or both. Investment Property is initially recognised at cost, but is subject to valuation at fair value at the end of each accounting period. Losses or gains are recognised in the Comprehensive Income and Expenditure Statement.*

	2015/16 £000	2014/15 £000
Rental income from investment property	(2,051)	(2,221)
Direct operating expenses arising from investment property	1,502	1,395
Gains in fair value of investment property	(4,653)	(1,499)
Losses in the fair value of investment property	1,994	3,790
<b>Net position</b>	<b>(3,208)</b>	<b>1,465</b>

The following table summarises the movement in the fair value of investment properties:

	2015/16 £000	2014/15 £000
<b>Balance at start of the year</b>	<b>27,410</b>	<b>31,663</b>
Additions	31	43
Movements in the fair value of investment property	2,659	(2,291)
Derecognition/disposal of non-current assets	(531)	(1,957)
Assets reclassified in year	(141)	(48)
<b>Balance at end of the year</b>	<b>29,428</b>	<b>27,410</b>

#### 15. Intangible Assets

*Intangible Assets represent non-current assets that do not have physical substance, but are identifiable and are controlled by the Council through custodial or legal rights. All purchased Intangible Assets are capitalised at historical cost in line with 'the Code'.*

*In line with other non-current assets, their useful economic life is determined based on the length of time that the benefit will accrue to the Council. Based on the best estimate of the useful economic life, the Intangible Asset is charged to the Comprehensive Income and Expenditure Statement over this period.*

	2015/16 £000	2014/15 £000
Gross carrying amount	1,963	1,963
Accumulated amortisation	(1,350)	(1,026)
<b>Balance at start of the year</b>	<b>613</b>	<b>937</b>
Additions	0	0
In year amortisation	(288)	(324)
<b>Balance at end of the year</b>	<b>325</b>	<b>613</b>

## 16. Capital Expenditure and Capital Financing

The total amount of capital expenditure incurred in the year is shown in the table below, together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in a decrease in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Council that has yet to be financed.

	2015/16 £000	2014/15 £000
<b>Opening CFR plus PFI added in Year</b>	<b>300,006</b>	<b>300,719</b>
<u>Capital Investment</u>		
Property, Plant and Equipment	28,378	32,458
Investment Properties	31	43
Revenue Expenditure Funded from Capital under Statute	12,132	4,526
Other Long Term Investments	(474)	474
<u>Sources of Finance</u>		
Capital Receipts	(7,721)	(5,606)
Government Grants and Other Contributions	(22,798)	(19,339)
Capital expenditure charged against General Fund Balances	(2,819)	(3,799)
Minimum Revenue Provision	(5,687)	(9,470)
<b>Closing CFR</b>	<b>301,048</b>	<b>300,006</b>

Explanation of movements in year:

	2015/16 £000	2014/15 £000
Change in Underlying Need to Borrow	3,024	1,154
Principal Element of Finance Lease Repayments	(6)	(6)
Principal Element of PFI Lease Repayments	(1,976)	(1,861)
<b>Increase / (decrease) in CFR</b>	<b>1,042</b>	<b>(713)</b>

## 17. Capital Commitments

At the Balance Sheet date, the Council had a number of major commitments for the construction or enhancement of Property, Plant and Equipment in 2016/17 and future years which are shown below.

	31 March 2016 £000
Vision Tameside	36,191
Active Tameside	17,550
Aldwyn Primary School	2,255

### 18. Long Term Debtors

*Long Term Debtors comprise amounts owed to the Council that are not investments and that are not expected to be realised within 12 months of the Balance Sheet date.*

	31 March 2016 £000	31 March 2015 £000
Inspiredspaces Tameside (Holdings 1) Ltd	1,869	1,869
Inspiredspaces Tameside (Holdings 2) Ltd	3,348	3,348
Local Authority Mortgage Scheme (LAMS)	1,000	1,000
Manchester Airport	8,677	8,677
Tameside Sports Trust	2,259	3,019
Other Long Term Debtors	144	179
<b>Total</b>	<b>17,297</b>	<b>18,092</b>

**Inspiredspaces Tameside (Holdings 1) Ltd and Inspiredspaces Tameside (Holdings 2) Ltd** – Loan stock held by the Council.

**LAMS** – A £1m advance with Lloyds Banking Group, which reflects the Council's share of financial assistance through the provision of an indemnity. The indemnity will be in place for a five-year period, at which point the advance will be returned to the Council.

**Manchester Airport** – The Council's share of loan debt relating to the construction of Terminal 2 and the Council's share of debt owing to the Greater Manchester Metropolitan Debt Administration Fund by the Airport. The Airport pays annual fixed interest of 12% on both and will repay the loans by 2055.

**Tameside Sports Trust** – Loans to finance the purchase of equipment and the refurbishment of three leisure centres. The Trust reimburses the Council with the full cost of servicing this debt.

### 19. Financial Instruments

*A Financial Instrument is defined as "any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another". Although this covers a wide range of items, the main implications are in terms of investments and borrowings.*

*As reflected in 'the Code', accounting standards on Financial Instruments IAS 32, 39 and IFRS 7 cover the concepts of recognition, measurement, presentation and disclosure. A financial asset or liability should be recognised in the Balance Sheet when, and only when, the holder becomes a party to the contractual provision of the instrument.*

*Financial liabilities and assets are initially measured at fair value less transaction costs and carried at their amortised cost. Fair value is the amount for which an asset could be exchanged or a liability settled between knowledgeable and willing parties in an arms length transaction. Annual charges to the Comprehensive Income and Expenditure Statement for interest payable and*

receivable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. For the borrowings and investments of the Council, this means that the amount included in the Balance Sheet is the outstanding principal repayable plus accrued interest to the end of the financial year. Interest charged to the Comprehensive Income and Expenditure Statement is the effective amount payable for the year in the loan agreement (which is not necessarily the cash amount payable).

When long term borrowing is reviewed for rescheduling opportunities, the early repayment results in gains and losses (discounts and premiums) which are credited or debited to the Comprehensive Income and Expenditure Statement. If the Council decides to write off these gains or losses on early repurchase/settlement then this can be done over ten years or over the life of the new loan or over a shorter more prudent time scale. The Comprehensive Income and Expenditure Statement is charged with one year related costs with the rest being taken to the Financial Instruments Adjustment Account in the Balance Sheet via the Movement in Reserves Statement. The accounting policy is to charge gains and losses to Net Operating Expenditure in the year of repurchase/settlement.

**a. Financial Instrument Balances**

The borrowings and investments disclosed in the Balance Sheet are made up of the following categories of financial instruments:

	31 March 2016		31 March 2015	
	Long Term £000	Current £000	Long Term £000	Current £000
Financial Liabilities Principal Amount	118,477	8,608	119,585	15,096
Adjustment for Amortised Cost	779	1,246	792	1,871
Financial Liabilities at amortised cost	119,256	9,854	120,377	16,967
<b>Total Borrowing</b>	<b>119,256</b>	<b>9,854</b>	<b>120,377</b>	<b>16,967</b>
Loans and Receivables Principal Amount	0	156,406	0	150,976
Adjustment for amortised cost	0	167	0	106
Amounts treated as Cash Equivalents	0	(55,419)	0	(117,012)
Loans and Receivables at amortised cost	0	101,154	0	34,070
Other Investments	8	0	8	0
<u>Available for Sale</u>				
Inspiredspaces Tameside (Holdings 1) Ltd	852	0	852	0
Inspiredspaces Tameside (Holdings 2) Ltd	1,509	0	1,509	0
Manchester Airport Group (MAG)	39,800	0	41,000	0
<b>Total Investments</b>	<b>42,169</b>	<b>101,154</b>	<b>43,369</b>	<b>34,070</b>

There are material changes to the Fair Value notes, some based on the category of their initial valuation:

- Level 1 Inputs – quoted prices (unadjusted) in active markets for identical assets or liabilities that the authority can access at the measurement date.
- Level 2 Inputs – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 Inputs – unobservable inputs for the asset or liability.

Some of the authority's financial assets are measured in the balance sheet at fair value on a recurring basis and are described in the following table, including the valuation techniques used to measure them. There have been no transfers between valuation levels, additions, disposals or recognised gains or losses.

## Financial Assets Measured at Fair Value

Recurring fair value measurements	Input level	Valuation Technique	31 March 2016 £'000	31 March 2015 £'000
Available for Sale				
Inspiredspaces Tameside (Holdings 1) Ltd	Level 3	Discounted cash flow (see * below)	852	852
Inspiredspaces Tameside (Holdings 2) Ltd	Level 3	Discounted cash flow (see * below)	1,509	1,509
Manchester Airport Group (MAG)	Level 2	Market Value	39,800	41,000
<b>Total</b>			<b>42,161</b>	<b>43,361</b>

**Inspiredspaces Tameside (Holdings1) Ltd and Inspiredspaces Tameside (Holdings2) Ltd** – The Council's equity holding remained unchanged during the accounting period.

**MAG** – The Council's shareholding remains at 3.22%. The Council's external valuers have advised of a decrease of £1.2m in the fair value of the Council's shareholding during the accounting period. The Council receives dividend income from the investment, which is included in Financing and Investment Income and Expenditure. It is a key item of income in the Council's Medium Term Financial Strategy and as such, the Council is highly unlikely to dispose of its shareholding.

#### b. Fair Value of Financial Assets and Liabilities Carried at Amortised Cost

Financial assets and liabilities represented by loans and receivables are carried on the Balance Sheet at amortised cost. Their fair value (level 2) can be assessed by calculating the present value of the cash flows that take place over the remaining life of the instruments, using the following assumptions:

Where an instrument has a maturity of less than twelve months the fair value is taken to be the principal outstanding;

- The fair value of receivables is taken to be the invoiced or billed amount;
- Short term debtors and creditors are carried at cost.

The fair values for financial liabilities have been determined by reference to the PWLB redemption rules and prevailing PWLB redemption rates at the Balance Sheet date, and include accrued interest. The fair value of non-PWLB debt has also been calculated using the same procedures and interest rates. The fair values are as follows:

	31 March 2016		31 March 2015	
	Carrying Amount £000	Fair Value £000	Carrying Amount £000	Fair Value £000
PWLB Debt	80,310	126,027	91,838	136,975
Non PWLB Debt	48,654	71,860	45,379	54,333
	<b>128,964</b>	<b>197,887</b>	<b>137,217</b>	<b>191,308</b>

The fair value is greater than the carrying amount because the Council's portfolio of loans includes a number of fixed rate loans where the interest rate payable is higher than the rates available for similar loans in the market at the Balance Sheet date. The difference between the carrying amount and the fair value measures the additional interest that the authority will pay over the remaining terms of the loans under the agreements with the PWLB, against what would be paid if the loans were at prevailing market rates.

However, the Council has a continuing ability to borrow at concessionary rates from the PWLB rather than from the markets. A supplementary measure of the additional interest that the Council will pay as a result of its PWLB commitments for fixed rate loans is to compare the terms of these loans with the new borrowing rates available from the PWLB. If a value is calculated on this basis, the carrying amount of £80.311m would be valued at £107.15m. But, if the Council were to seek to avoid the projected loss by repaying the loans to the PWLB, the PWLB would raise a penalty charge for early redemption in addition to charging a premium for the additional interest that will not now be paid. The exit price for the PWLB loans would include the penalty charge of £26.85m, principal of £79.6m and accrued interest of £0.711m, totalling £107.161m.

	31 March 2016		31 March 2015	
	Carrying Amount £000	Fair Value £000	Carrying Amount £000	Fair Value £000
<u>Money Market Loans</u>				
Less Than 1 Year	156,573	156,573	147,005	147,005
Long Term Debtors	17,297	17,297	18,092	18,092
<b>Total Loans and Receivables</b>	<b>173,870</b>	<b>173,870</b>	<b>165,097</b>	<b>165,097</b>

### c. Mark to Model Valuation for Financial Instruments

As at 31st March the Council held £156.57m financial assets and £128.96m financial liabilities for which Level 3 valuations will apply. All the financial assets are classed as Loans and Receivables and held with Money Market Funds, Local Authorities and Notice Accounts. The financial liabilities are held with PWLB and Market lenders. All of these investments and borrowings were not quoted on an active market and a Level 1 valuation is not available. To provide a fair value which provides a comparison to the carrying amount, we have used a financial model valuation provided by Capita Asset Services. This valuation applies the Net Present Value approach, which provides an estimate of the value of payments in the future in today's terms as at the balance sheet date. This is a widely accepted valuation technique commonly used by the private sector. Our accounting policy uses early repayment rates to discount the future cash flows.

## 20. Nature and Extent of Risks Arising from Financial Instruments

### Key Risks

The Council's activities expose it to a variety of financial risks, the key risks are:

- Credit risk – the possibility that other parties might fail to pay amounts due;

- Liquidity risk – the possibility that the Council might not have funds available to meet its commitments to make payments;
- Re-financing risk – the possibility that the Council might be required to renew a financial instrument on maturity at disadvantageous interest rates or terms;
- Market risk – the possibility that financial loss might arise for the Council as a result of changes in such measures as interest rate movements.

### **Overall Procedures for Managing Risk**

The Council's overall risk management procedures focus on the unpredictability of financial markets, and are structured to implement suitable controls to minimise these risks. The procedures for risk management are set out through a legal framework in the *Local Government Act 2003* and the associated regulations. These require the Council to comply with the CIPFA Prudential Code, the CIPFA Treasury Management in the Public Services Code of Practice and Investment Guidance issued through the Act. Overall these procedures require the Council to manage risk in the following ways:

- By formally adopting the requirements of the Code of Practice;
- By the adoption of a Treasury Policy Statement and treasury management clauses within its constitution;
- By approving annually in advance prudential indicators for the following three years limiting:
  - The Council's overall borrowing;
  - Its maximum and minimum exposures to fixed and variable rates;
  - Its maximum and minimum exposures to the maturity structure of its debt; and
  - Its maximum annual exposures to investments maturing beyond a year.
- By approving an investment strategy for the forthcoming year setting out its criteria for both investing and selecting investment counterparties in compliance with the Government Guidance.

These are required to be reported and approved at or before the Council's annual budget setting meeting. These items are reported with the annual Treasury Management Strategy which outlines the detailed approach to managing risk in relation to the Council's financial instrument exposure. Actual performance is also reported bi-annually to Members.

The 2015/16 Budget Report, which incorporates the prudential indicators, was approved by Council on 24 February 2015 and is available on the Council website. The key indicators were:

<b>Indicator</b>	<b>Limit</b>	<b>Outturn</b>
Ratio of financing costs to net revenue stream	8%	4%
Capital financing requirement	£211,163,000	£181,510,826
Capital expenditure in year	£53,763,000	£39,996,736
Incremental impact on capital investment decisions	£8	£3
Authorised limit for external debt	£257,319,000	£127,084,517
Operational boundary for external debt	£237,319,000	£127,084,517
Upper limit for fixed interest rate exposure	£211,163,000	-£11,421,290
Upper limit for variable interest rate exposure	£63,348,900	-£17,900,185
Upper limit for total principal sums invested for over 364 days	£30,000,000	£0

These policies are implemented by the Treasury Management team. The Council maintains written principles for overall risk management, as well as written policies covering specific areas, such as interest rate risk, credit risk, and the investment of surplus cash through Treasury Management practices. These Treasury Management practices are a requirement of the Code and are reviewed periodically.

## Credit Risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Council's customers.

This risk is minimised through the Annual Investment Strategy, which requires that deposits are not made with financial institutions unless they meet identified minimum credit criteria, in accordance with the Fitch, Moody's and Standard and Poor Ratings Services. The Annual Investment Strategy also imposes a maximum amount and time limits in respect of each financial institution. Deposits are not made with banks and financial institutions unless they meet the minimum requirements of the investment criteria outlined above. Additional selection criteria are also applied after this initial criteria is applied.

The key areas of the Investment Strategy are that the minimum criteria for investment counterparties include:

- Credit ratings of Short Term F1, Long Term A- or greater. There may be occasions when the counterparty ratings from one rating agency are marginally lower than these ratings but may still be used. In these instances consideration will be given to the whole range of ratings available, or other topical market information, to support their use.
- Domiciled in a country which has a minimum sovereign rating AA;
- UK Institutions provided with support from the UK Government.

The full Investment Strategy for 2015/16 was approved by Full Council on 24 February 2015 and is available on the Council's website.

The Council's maximum exposure to credit risk in relation to its investments in banks and financial institutions of £60.4m cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of irrecoverability applies to all of the Council's deposits, but there was no evidence at the Balance Sheet date that this was likely to crystallise.

The following analysis summarises the Council's potential maximum exposure to credit risk, based on experience of default, adjusted to reflect current market conditions.

	Amount at 31 March 2016	Historical experience of default	Adjustment for market conditions at 31 March 2016	Estimated maximum exposure to default
	£000	%	%	£000
	(a)	(b)	(c)	(a * c)
Deposits with banks and financial institutions (principal amount)	60,400	0	0	0

No breaches of the Council's counterparty criteria occurred during the year and the Council does not expect any losses from non-performance by any of its counterparties in relation to deposits.

The Council does not generally allow credit for its trade debtors. At the Balance Sheet date a balance of £11.664m was outstanding and is analysed by age below:

	31 March 2016 £000	31 March 2015 £000
Less than three months	4,196	5,421
Three to four months	163	217
Four to five months	253	175
More than five months	7,052	5,478
<b>Total</b>	<b>11,664</b>	<b>11,291</b>

### Liquidity Risk

The Council manages its liquidity position through the risk management procedures above, as well as through a comprehensive cash flow management system, as required by the Code. This seeks to ensure that cash is available when it is needed.

The Council has ready access to borrowings from the Money Markets to cover any day to day cash flow need, and the PWLB and Money Markets for access to longer term funds. The Council is also required to provide a balanced budget through the Local Government Finance Act 1992, which ensures sufficient monies are raised to cover annual expenditure. There is therefore no significant risk that it will be unable to raise finance to meet its commitments under financial instruments.

The maturity analysis of financial assets (principal amount) is as follows:

	31 March 2016 £000	31 March 2015 £000
Less than one year	156,406	150,976
<b>Total</b>	<b>156,406</b>	<b>150,976</b>

All investments placed in the year were restricted to a maximum maturity period of twelve months; this policy reduced the risk that the Council would hold an investment with an institution that had a declining credit rating.

### Refinancing and Maturity Risk

The Council maintains a significant debt and investment portfolio. Whilst the cash flow procedures above are considered against the refinancing risk procedures, longer term risk to the Council relates to managing the exposure to replacing financial instruments as they mature. This risk relates to both the maturing of longer term financial liabilities and longer term financial assets.

The approved prudential indicator limits for the maturity structure of debt and the limits placed on investments of greater than one year in duration are the key parameters used to address this risk. The Council's approved Treasury Management and Investment Strategies address the main risks and the Treasury Management team address the operational risks within the approved parameters. These include:

- Monitoring the maturity profile of financial liabilities and amending the profile through either new borrowing or the rescheduling of the existing debt; and
- Monitoring the maturity profile of investments to ensure sufficient liquidity is available for the Council's day to day cash flow needs, and the spread of longer term investments provide stability of maturities and returns in relation to the longer term cash flow needs.

The maturity analysis of financial liabilities (principal amount) is as follows, with the maximum and minimum limits for fixed interest rates maturing in each period:

	Approved maximum limits %	Approved minimum limits %	31 March 2016 £000	31 March 2015 £000
Less than one year	15	0	8,607	15,227
Between one and two years	15	0	6,466	1,108
Between two and five years	30	0	1,003	7,118
Between five and ten years	40	0	4,983	5,334
More than ten years	100	50	106,025	106,025
<b>Total</b>			<b>127,084</b>	<b>134,812</b>

## Market Risk

**Interest rate risk** - The Council is exposed to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Council, depending on how variable and fixed interest rates move across differing financial instrument periods. For instance, a rise in variable and fixed interest rates would have the following effects:

- Borrowings at variable rates – the interest expense charged to the CIES will rise;
- Borrowings at fixed rates – the fair value of the borrowing liability will fall (no impact on revenue balances);
- Investments at variable rates – the interest income credited to the CIES will rise;
- Investments at fixed rates – the fair value of the assets will fall (no impact on revenue balances).

Borrowings are not carried at fair value on the Balance Sheet, so nominal gains and losses on fixed rate borrowings would not impact on the CIES. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the CIES and affect General Fund Balances, subject to influences from Government grants. Movements in the fair value of fixed rate investments that have a quoted market price will be reflected in the CIES.

The Council has a number of strategies for managing interest rate risk. The Annual Treasury Management Strategy draws together the Council's prudential indicators and its expected treasury operations, including an expectation of interest rate movements. From this Strategy a prudential indicator is set which provides maximum and minimum limits for fixed and variable interest rate exposure. The Treasury Management team will monitor the market and forecast interest rates within the year to adjust exposures appropriately. For instance during periods of falling interest rates, and where economic circumstances make it favourable, fixed rate investments may be taken for longer periods to secure better long term returns, similarly the drawing of longer term fixed rate borrowing would be postponed.

If all interest rates had been 1% higher (with all other variables held constant) the financial effect would be:

	31 March 2016 £000	31 March 2015 £000
Decrease in the fair value of fixed rate borrowings liabilities (no impact on CIES)	33,237	29,282

The approximate impact of a 1% fall in interest rates would be as above but with the movements being reversed. These assumptions are based on the same methodology as used in Note 19 –

Fair value of Financial Assets and Liabilities Carried at Amortised Cost. If using new borrowing rates rather than redemption rates, the equivalent change in fair value would be £25.046m.

**Price Risk** - The Council, excluding the Greater Manchester Pension Fund, does not generally invest in equity shares but does in common with all Greater Manchester Districts have a 3.22% shareholding in Manchester Airports Group (except Manchester City Council which holds 35.5%). The shares are shown in the Balance Sheet at an estimated fair value of £39.8m. Whilst this holding is generally illiquid, the Council is exposed to losses arising from movements in the price of the shares.

As the shareholding has arisen from the acquisition of a specific interest, the Council is not in a position to limit its exposure to price movements by diversifying its portfolio. Instead the Council monitors factors that might cause a fall in the value of its shareholding.

**Foreign Exchange Risk** - The Council has no financial assets or liabilities denominated in foreign currencies. It therefore has no exposure to loss arising from movements in exchange rates.

## **Current Assets**

### **21. Inventories**

*Materials or supplies that will be consumed in producing goods or providing services or will be sold or distributed as part of the Council's ordinary business. Inventories are valued at the lower of cost and net realisable value.*

	Consumable Stores		Maintenance Materials		Work In Progress		Total	
	2015/2016	2014/2015	2015/2016	2014/2015	2015/2016	2014/2015	2015/2016	2014/2015
	£000	£000	£000	£000	£000	£000	£000	£000

Purchases	615	2,618	411	376	0	0	1,026	2,994
Recognised as an expense in the year	(751)	(2,595)	(431)	(431)	(1)	0	(1,183)	(3,026)
<b>Balance outstanding at year -end</b>	<b>182</b>	<b>318</b>	<b>138</b>	<b>158</b>	<b>27</b>	<b>28</b>	<b>347</b>	<b>504</b>

### **22. Short Term Debtors**

*Short Term Debtors comprise amounts due to the Council that are not investments and that have not been received at the Balance Sheet date.*

*The Council maintains an allowance for bad or doubtful debts for any potential non-payment of debtors. Assessment is made based on the risk of the debtors' ability to pay future cash flows due under the contractual terms. The allowance for bad or doubtful debts is offset against the debtor amount shown, the movement in the allowance is charged against the relevant service line in the CIES.*

	31 March 2016 £000	31 March 2015 £000
Central Government Bodies	5,436	6,039
Allowance for Bad or Doubtful Debts	(15,955)	(13,062)

Payments In Advance	4,094	1,910
Transferred Services	34	37
<b>Total</b>	<b>37,745</b>	<b>32,939</b>

### 23. Cash and Cash Equivalents

*Cash and Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.*

	31 March 2016 £000	31 March 2015 £000
Cash held by the Council	25	31
Short Term Investments	55,419	117,012
Bank Current Accounts	157	9,104
Bank Overdraft	0	0
<b>Total</b>	<b>55,601</b>	<b>126,147</b>

### Current Liabilities

#### 24. Short Term Creditors

*Short Term Creditors comprise amounts owed by the Council for work done, goods received or services rendered, for which payment has not been received at the Balance Sheet date.*

	31 March 2016 £000	31 March 2015 £000
Central Government Bodies	(8,556)	(10,500)
NHS Bodies	(1,547)	(344)
Other Local Authorities	(360)	(664)
Other Entities and Individuals	(16,176)	(15,510)
Public Corporations and Trading Funds	(770)	(374)
<b>Total</b>	<b>(27,409)</b>	<b>(27,392)</b>
Capital Creditors	(4,875)	(3,307)
Deposits and Receipts in Advance	(2,176)	(4,129)
Short Term Accumulating Compensated Absences	(3,577)	(3,580)
<b>Total</b>	<b>(38,037)</b>	<b>(38,408)</b>

## 25. Other Long Term and Short Term Liabilities

*Other Long Term and Short Term Liabilities comprise amounts due to individuals or organisations which will have to be paid at some time in the future. Long term liabilities are usually payable more than one year from the Balance Sheet date.*

	Note	Long Term £000	Short Term £000	Total £000
<b>2015/16</b>				
Pension Liability	30	(273,932)		(273,932)
PFI	28	(107,764)	(2,432)	(110,196)
Finance Leases	27	(2,623)	(6)	(2,629)
Former Transferred Debt		(6,088)		(6,088)
Donated Assets		(10,658)		(10,658)
Rent Deposit on Leased Buildings		(16)		(16)
<b>Total</b>		<b>(401,081)</b>	<b>(2,438)</b>	<b>(403,519)</b>
<b>2014/15</b>				
Pension Liability	30	(348,259)	0	(348,259)
PFI	28	(110,196)	(1,976)	(112,172)
Finance Leases	27	(2,630)	(6)	(2,636)
Former Transferred Debt		(6,932)	0	(6,932)
Donated Assets		(10,658)	0	(10,658)
Rent Deposit on Leased Buildings		(14)	0	(14)
<b>Total</b>		<b>(478,689)</b>	<b>(1,982)</b>	<b>(480,671)</b>

**Former Transferred Debt** – The debt associated with the non-current assets of the former Greater Manchester and Lancashire County Councils, passed to the successor authorities with debt administration being managed by the Council.

**Donated Assets** – Assets donated to the Council with conditions attached are recognised until any conditions cease.

## 26. Provisions

*Provision has been made in the Balance Sheet for liabilities that have been incurred by the Council, but where the amounts or dates on which they will arise are uncertain.*

*Provisions are required to be recognised when the Council has a present obligation, as a result of a past event, where it is probable that an outflow of resources embodying economic benefit or service potential will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When expenditure is incurred to which the provision relates, it is charged directly against the provision in the Balance Sheet and not against the CIES.*

*The Council has made a provision for the costs of settling claims for back pay arising from discriminatory payments incurred before the Council implemented its equal pay strategy. However, statutory arrangements allow settlements to be financed from General Fund Balances in the year that payments actually take place, not when the provision is established. The provision is therefore balanced by an entry within the Capital Adjustment Account (CAA) created from amounts credited to the General Fund Balance in the year the provision was made or modified. The balance within the CAA will be debited back to the General Fund Balance in the MiRS in future financial years as payments are made.*

**Short Term Provisions**

	2015/16 £000	2014/15 £000
Land Charges Provision	(31)	(192)
Provision for Business Rates Appeals	(2,916)	(2,684)
<b>Total</b>	<b>(2,947)</b>	<b>(2,876)</b>

**Long Term Provisions**

	Insurance Fund £000	Pay Provision £000	Other Provisions £000	Total £000
<b>Balance at 1 April 2015</b>	<b>(4,065)</b>	<b>(6,455)</b>	<b>(73)</b>	<b>(10,593)</b>
Additional provisions made in the period	(1,404)	0	(84)	(1,488)
Amounts used	1,144	0	34	1,178
<b>Balance at 31 March 2016</b>	<b>(4,325)</b>	<b>(6,455)</b>	<b>(123)</b>	<b>(10,903)</b>

**Insurance Fund** – is mainly to cover the third party and employer’s liability claims that are settled for amounts less than the excess on the policy for that year. External insurers continue to cover claims for amounts above the excess.

**Pay Provision** – established following job evaluation and the establishment of a new pay and grading structure in January 2011. This provides for any claims that have been lodged.

**27. Leases**

*The Council recognises a lease to be any agreement which transfers the right to use an asset for an agreed period in exchange for payment, or a series of payments. This includes; leases, hire purchase, rental, contracts of service, service level agreements and any other arrangement where the ability to use an asset is conveyed.*

**Finance Leases**

*A finance lease is where substantially all of the risks and rewards relating to ownership transfer to the lessee.*

*Tests to give an indication of the transfer of risk and reward are:*

- *If the lessee will gain ownership of the asset at the end of the lease term (e.g. hire purchase)*
- *If the lessee has an option to purchase the asset at a sufficiently favourable price that it is reasonably certain, at the inception of the lease, that it will be exercised*
- *If the lease term is for the major part of the economic life of the asset even if the title is not transferred. Measures to identify this are:*
  - *The economic life of the asset is deemed to be that which is consistent with the class of asset in the depreciation policy.*
  - *The Council recognises ‘major part’ to be 75% of the life of the asset, unless on an individual case basis this would not give a true representation of the substance of the transaction.*
- *At the inception of the lease, the present value of the minimum lease payments amounts to at least substantially all of the fair value of the leased asset. Measures to identify this are:*
  - *Fair value of the leased asset is assessed by a RICS qualified valuer.*
  - *The present value of the minimum lease payments is calculated by discounting at the rate inherent in the lease.*
  - *If this rate cannot be determined the incremental borrowing rate applicable for that year is used.*

- *The Council recognises ‘substantially all’ to be 75% of the value of the asset, unless on an individual case basis this would not give a true representation of the substance of the transaction.*

- *The leased assets are of such a specialised nature that only the lessee can use them without major modifications.*
- *If the lessee cancels the lease, the losses of the lessor, associated with the cancellation are borne by the lessee.*
- *Gains or losses from the fluctuation in the fair value of the residual accrue to the lessee (e.g. in the form of a rent rebate equalling most of the sales proceeds at the end of the lease).*
- *The lessee has the ability to continue the lease for a secondary period at a rent that is substantially lower than market rent.*

*A suitably experienced accountant, with assistance from qualified valuers, will make a judgement based on the level of risk and reward held by the Council as to whether an asset is operating or finance.*

*Lessor Accounting for a Finance Lease*

*Where the Council is the lessor for a finance lease, the asset is not recognised in the asset register; however a long term debtor at the present value of minimum lease payments is recognised. Income received is split between capital – credited against the debtor, and finance income – credited to the Comprehensive Income and Expenditure Statement as interest receivable.*

*Lessee Accounting for a Finance Lease*

*Where the Council is tenant in a property, or is, by definition of IFRIC 4, leasing an asset which is deemed under IAS 17 to be a finance lease the Council will recognise that asset within the asset register, and account for that asset as though it were an owned asset.*

*The initial recognition of the asset is at the fair value of the property, or if lower, the present value of the minimum lease payments. A liability is also recognised at this value, which is reduced as lease payments are made.*

The Council had three assets under finance leases in the year. The assets acquired under these leases are carried as Property, Plant and Equipment in the Balance Sheet at the following net amounts:

	<b>31 March 2016 £000</b>	<b>31 March 2015 £000</b>
Other Land and Buildings	2	2
<b>Total</b>	<b>2</b>	<b>2</b>

The Council is committed to making minimum payments under these leases comprising settlement of the long term liability for the interest in the property acquired by the Council, and finance costs that will be payable by the Council in future years while the liability remains outstanding. The minimum lease payments are made up of the following amounts:

	31 March 2016 £000	31 March 2015 £000
Finance lease liabilities (net present value of minimum lease payments):		
- current	(6)	(6)
- non-current	(2,625)	(2,630)
Finance costs payable in future years	(16,491)	(16,712)
<b>Minimum lease payments</b>	<b>(19,122)</b>	<b>(19,348)</b>

The minimum lease payments will be payable over the following periods:

	Minimum Lease Payments 2015/16 £000	Finance Lease Liabilities 2015/16 £000	Minimum Lease Payments 2014/15 £000	Finance Lease Liabilities 2014/15 £000
Not later than one year	(226)	(6)	(226)	(6)
Later than one year and not later than five years	(898)	(26)	(901)	(25)
Later than five years	(17,998)	(2,600)	(18,221)	(2,605)
	<b>(19,122)</b>	<b>(2,632)</b>	<b>(19,348)</b>	<b>(2,636)</b>

### Operating Leases

*The Council recognises an operating lease to be a lease which is not a finance lease. Where the Council is the lessor for an operating lease, normally the asset is classified as an Investment Property. Any rental income is credited to the relevant service income.*

The Council had nine assets under operating leases in the year, with typical lives of 1-5 years. The future minimum lease payments due under non-cancellable leases in future years are:

	2015/16 £000	2014/15 £000
Not later than one year	137	155
Later than one year and not later than five years	9	34
	<b>146</b>	<b>189</b>

The expenditure charged to Cost of Services in the CIES during the year in relation to these leases was:

	2015/16 £000	2014/15 £000
Minimum lease payments	414	392

### Council as Lessor

During the year the Council continued to lease land and buildings by means of operating leases. The future minimum lease payments due under non-cancellable leases in future years are:

	2015/16 £000	2014/15 £000
Not later than one year	1,297	1,352
Later than one year and not later than five years	3,696	4,027
Later than five years	79,410	80,279
	<b>84,403</b>	<b>85,658</b>

## 28. Service Concession Agreements (Private Finance Initiatives (PFI) and Similar Contracts)

*PFI and similar contracts are agreements to receive services, where the responsibility for making available the property, plant and equipment needed to provide the services passes to the PFI contractor. PFI and similar contracts are assessed against criteria within IFRIC 12 Service Concession Arrangements to determine whether the risks and rewards incidental to ownership lie with the Council or the contractor.*

*Those which lie with the contractor – payments made during the life of the contract are chargeable to revenue as incurred.*

*Those which lie with the Council – are recognised as an asset in the Balance Sheet for the construction costs of the asset. Once recognised this asset is treated in line with all capital assets. A corresponding long term liability is also recognised at the construction value. Payments made during the life of the contract are split into finance costs, capital costs and service costs. Determining the split of payments is calculated at the inception of the contract and is based on the inherent interest rate within the original agreement. Finance costs are chargeable to the Comprehensive Income and Expenditure Statement as interest payable. Capital costs reduce the level of liability in the Balance Sheet. Service costs are chargeable to the relevant revenue service expenditure. Pre-payments reduce the level of liability at the start of the contract.*

*PFI credits are treated as general revenue government grants.*

### **General**

The Council has entered into three PFI contracts to construct, finance, maintain and operate various schools across the Borough. These contracts are:

- Hattersley Schools PFI Project;
- Inspiredspaces Tameside (Project Co 1) Ltd; and
- Inspiredspaces Tameside (Project Co 2) Ltd.

### **Hattersley Schools PFI Project**

The Council entered into a 30 year PFI contract on 19 June 2002 to deliver new schools and facilities management services for Arundale Primary and Nursery School, Pinfold Primary School and Alder Community High School. Services commenced at the primary schools on 9 September 2002 and at the high school in April 2003.

The Council pays an annual unitary charge for the provision of accommodation and facilities management at the schools of £2.548m in 1 April 2001 prices. 44% of the unitary charge is subject to inflation at RPI which mirrors the proportion of cost base that is variable, i.e. operational costs, versus the proportion that is fixed, i.e. relating to funding / capital costs.

The Council has set up an interest bearing equalisation reserve effective for the period of the contract, to ensure that future estimated unitary charge payments are provided for over the remaining term of the contract. The affordability of future unitary charge payments will be assessed on an annual basis.

The Council does not hold an equity share in this contract.

**Inspiredspaces Tameside (Project Co 1) Ltd – Mossley Hollins & St Damians PFI Contract**

The Council entered into a 25 year Building Schools for the Future (BSF) PFI agreement to deliver new schools and facilities management services for Mossley Hollins and St Damians High Schools on 4 February 2009. Services commenced at Mossley Hollins in February 2011 and St Damians in April 2011.

The Council pays an annual unitary charge for the provision of accommodation and facilities management at the schools of £5.405m in 1 April 2008 prices. 40% of the unitary charge is subject to inflation at RPIx which mirrors the proportion of cost base that is variable, i.e. operational costs, versus the proportion that is fixed, i.e. relating to funding / capital costs.

The Council has a 46% equity shareholding in this contract.

**Inspiredspaces Tameside (Project Co 2) Ltd – Five School PFI Contract**

A second 25 year BSF PFI contract was signed in April 2010, to deliver new facilities and services for Hyde Community College, Thomas Ashton School, Denton Community College, White Bridge College and Elmbridge School. The first school, White Bridge College, was completed and services commenced in September 2011, with the remaining four being completed with services commencing in January 2012.

The Council pays an annual unitary charge for the provision of accommodation and facilities management at the schools of £9.409m in 1 April 2010 prices. 27% of the unitary charge is subject to inflation at RPIx which mirrors the proportion of cost base that is variable, i.e. operational costs, versus the proportion that is fixed, i.e. relating to funding / capital costs.

The Council has a 46% equity shareholding in this contract.

**Affordability**

The affordability of the PFI contracts was tested on the basis of predetermined, sensitivities of projected budgets, inflation and interest rates as determined by HM Treasury, prior to the contracts being agreed by the Government.

The cost of the unitary charge is met by pre-agreed payments as follows:

- An annual PFI grant from the Government;
- Pre agreed capital contributions;
- Annual contributions from the schools from the Dedicated Schools Grant;
- Contributions from individual school budgets; and
- Accumulation of interest, equity returns and directors fees.

However, there have been significant changes in the way that the Department for Education allocate revenue funding to schools in recent years, meaning that more and more funding is allocated to schools through a formula and there is less opportunity to provide support for individual schools. Inflation and interest rates have also been significantly different from that projected.

The process of reviewing the affordability position on the BSF contracts commenced in March 2013. This review takes account of changes in any of the assumptions around expenditure, income, interest and inflation rates. The balance of the BSF Affordability Reserve at 31 March 2016 is £6.489m (£5.306m at 31 March 2015).

Details of movements in PFI assets in the accounting period are below:

## 29. Pension Schemes Accounted for as Defined Contribution Schemes

### Pensions Costs

Employees of the Council are members of three separate pension schemes:

**Teachers' Pension Scheme** is a defined benefit scheme administered by Capita Teachers' Pensions on behalf of the Department for Education (DfE). The assets and liabilities of the Teachers' Pension Scheme are not attributable to the Council, therefore the Council accounts for the scheme as if it were a defined contribution scheme. This means that the Children and Education Services line in the CIES will include the Council's contributions payable to the scheme.

**NHS Pension Scheme** is a defined benefit scheme administered by EA Finance NHS Pensions. The assets and liabilities of the NHS Pension Scheme are not attributable to the Council, therefore the Council accounts for the scheme as if it were a defined contribution scheme. This means that the Public Health Services line in the CIES will include the Council's contributions payable to the scheme.

**Greater Manchester Local Government Pension Scheme** is administered by the Council and is accounted for as a defined benefit scheme. The liabilities of the scheme attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, and projections of future earnings for current employees.

*Pension liabilities are measured using the projected unit method, discounted using the rate on high quality corporate bonds of equivalent term to the liabilities. The discount rate is the weighted average of "spot yields" on AA rated corporate bonds.*

*The change in the net pensions liability is analysed into the following components:*

*Service cost comprising:*

**Current service cost** – *the increase in liabilities as a result of years of service earned this year – allocated in the CIES to the services for which the employees worked.*

**Past service cost** – *the increase in liabilities as a result of a scheme amendment or curtailment whose effect relates to years of service earned in earlier years will be debited to the Surplus or Deficit on the Provision of Services in the CIES as part of Non Distributed Costs.*

**Net interest** on the net defined benefit liability *i.e. net interest expense for the Council - the change during the period in the net defined benefit liability that arises from the passage of time is charged to the Financing and Investment Income and Expenditure line of the CIES. This is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability at the beginning of the period, taking into account any changes in the net defined benefit liability during the period as a result of contribution and benefit payments.*

*Re-measurement comprising:*

**The return on plan assets** – *excluding amounts included in net interest on the net defined benefit liability – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.*

**Actuarial gains and losses** – *changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.*

*In relation to retirement benefits, statutory provisions require the General Fund Balance to be charged with the amount payable by the Council to the Pension Fund in the year, not the amount calculated according to the relevant accounting standards. Adjustments are therefore made in the Movement in Reserves Statement.*

#### **Early Retirement, Discretionary Payments**

*The Council has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff (including teachers) are accrued in the year of the decision to make the award and accounted for using the same policies which are applied to the Local Government Pension Scheme.*

#### **Teachers' Pension Scheme**

In 2015/16 the Council paid £8.054m to the Teachers' Pension Agency in respect of the employers' contribution rate for teacher's pensions (£7.425m in 2014/15). These contributions are based on a national rate of 14.1% to 31 August and 16.48% from 1 September.

In addition, the Council is responsible for all pension payments relating to added years that it has awarded (plus annual related increases). The Council is also responsible for apportioned pension costs for supported early retirements (teachers taking early retirement between the ages of 50 to 60), together with the related increases. In 2015/16 these costs amounted to £1.972m (£1.970m in 2014/15). All the above figures exclude teachers' pay and pension contributions for the academies that have retained responsibility for their own payrolls.

The Council is responsible for any additional benefits awarded upon early retirement outside of the terms of the teachers' scheme. These costs are accounted for on a defined benefit basis and detailed in Note 30.

#### NHS Staff Pension Scheme

In 2015/16, the Council paid £0.074m (£0.096m in 2014/15) to the NHS Pension Scheme in respect of former NHS staff retirement benefits. These contributions are based on a national rate of 14.1% throughout the financial year.

The Council is responsible for the costs awarded upon early retirement outside the terms of the NHS scheme; however no such additional benefits have been awarded in 2015/16.

### **30. Defined Benefit Pension Schemes**

As part of the terms and conditions of employment of its Officers, the Council makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments and this needs to be disclosed at the time that employees earn their future entitlement.

All employees (except those mentioned in Note 29) are, unless they have opted out, members of The Greater Manchester Pension Fund which is administered by the Council and operates in accordance with the rules of the Local Government Pension Scheme. This is a funded scheme, meaning that the Council and employees pay contributions into a fund, calculated at a level intended to balance the pension liabilities with investment assets.

In 2015/16 the Council paid an employer's contribution of £15.54m (£14.87m in 2014/15) into the Fund representing 19.6% (19% in 2014/15) of pensionable pay. The Council also paid £1.585m (£1.646m in 2014/15) for pension payments relating to added years that it has awarded, together with related increases for these representing 2% (2.1% in 2014/15) of pensionable pay.

The following transactions have been made in the CIES and General Fund Balances via the MiRS during the year:

#### Transactions Relating to Post-employment Benefits

The cost of retirement benefits is recognised in the reported Cost of Services when they are earned by the employees rather than when they are eventually paid as pensions. However, the charge made against Council Tax is based on the cash payable in the year, so the real cost of post employment /retirement benefits is reversed out of General Fund Balances through the MiRS. The following transactions have been made in the CIES and General Fund Balances through the MiRS during the year:

	2015/16 £000	2014/15 £000
<b>Service Cost</b>		
- Current service costs	22,205	17,455
- Past service costs (including curtailments)	354	593
<b>Total Service Cost</b>	<b>22,559</b>	<b>18,048</b>
<b>Financing and Investment Income and Expenditure</b>		
- Interest income on scheme assets	(24,526)	(29,842)
- Interest cost on defined benefit obligation	35,726	40,836
<b>Total Net Interest</b>	<b>11,200</b>	<b>10,994</b>
<b>Total Post Employment Benefit Charged to the Surplus or Deficit on the Provision of Services</b>	<b>33,759</b>	<b>29,042</b>
Remeasurements of the Net Defined Liability		
- Return on plan assets excluding amounts included in net interest	29,008	(50,685)
- Actuarial losses arising from changes in financial assumptions	(100,146)	139,974
- Other experience	(17,902)	(7,653)
<b>Total Remeasurements Recognised in Other Comprehensive Income and Expenditure</b>	<b>(89,040)</b>	<b>81,636</b>
<b>Total Post Employment Benefits Charged to the Comprehensive Income and Expenditure Statement</b>	<b>(55,281)</b>	<b>110,678</b>
Movement in Reserves Statement		
- Reversal of net charges made to the surplus or deficit on provision of services	52,805	47,527
- Employers' Contribution payable to the scheme	19,046	18,485

#### a. Pensions Assets and Liabilities Recognised in the Balance Sheet

The amount included in the Balance Sheet arising from the Council's obligation in respect of its defined benefit scheme is as follows:

	2015/16 £000	2014/15 £000
Fair value of employers assets	757,314	771,020
Present value of funded liabilities	(986,083)	(1,068,164)
Present value of unfunded liabilities	(45,163)	(51,115)
<b>Net liability arising from Defined Benefit obligation</b>	<b>(273,932)</b>	<b>(348,259)</b>

Reconciliation of the Movements in Fair Value of Scheme Assets:

	<b>2015/16</b>	<b>2014/15</b>
	<b>£000</b>	<b>£000</b>
Opening fair value of scheme assets	<b>771,020</b>	<b>698,386</b>
Interest income	24,526	29,842
<u>Remeasurement gain</u>		
- Return on plan assets excluding amounts included in net interest	(29,008)	50,685
Contributions from employer	19,046	18,485
Contributions from employees into the scheme	5,036	5,008
Benefits paid	(33,306)	(31,386)
<b>Closing fair value of scheme assets</b>	<b>757,314</b>	<b>771,020</b>

Reconciliation of Present Value of Scheme Liabilities (Defined Benefit Obligation):

	<b>2015/16</b>	<b>2014/15</b>
	<b>£000</b>	<b>£000</b>
<b>Opening fair value of scheme liabilities</b>	<b>(1,119,279)</b>	<b>(954,452)</b>
Current service cost	(22,205)	(17,455)
Interest cost	(35,726)	(40,836)
Contributions from scheme participants	(5,036)	(5,008)
<u>Remeasurement gain</u>		
- Actuarial losses arising from changes in financial assumptions	100,146	(139,974)
- Other experience	17,902	7,653
Past service cost	(354)	(593)
Benefits paid	33,306	31,386
<b>Closing fair value of scheme liabilities</b>	<b>(1,031,246)</b>	<b>(1,119,279)</b>

### b. Basis for Estimating Assets and Liabilities

Liabilities in respect of the Greater Manchester Pension Fund have been assessed on an actuarial basis using the projected unit method. The Local Government scheme has been assessed by Hymans Robertson, an independent firm of actuaries, estimates for the Local Government Pension Scheme being based on the latest valuation of the scheme as at 31 March 2015. The significant assumptions used by the actuary have been:

	2015/16 £000	2014/15 £000
<b>Mortality assumptions *</b>		
Longevity at 65 for current pensioners:		
Men	21.4	21.4
Women	24.0	24.0
Longevity at 65 for future pensioners:		
Men	24.0	24.0
Women	26.6	26.6
Rate of inflation	2.20%	2.40%
Rate of increase in salaries	3.50%	3.60%
Rate of increase in pensions	2.20%	2.40%
Rate for discounting scheme liabilities	3.50%	3.20%

\* The mortality assumptions included in the table above are measured using VitaCurves, which is a method of measuring mortality to specifically fit the membership profile of the Fund.

An allowance is included for future retirements to elect to take 55% of the maximum additional tax free cash up to the HRMC limits for pre-April 2008 service and 80% of the maximum tax-free cash for post-April 2008 service.

### c. Sensitivity Analysis

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out above. The sensitivity analysis below has been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes, while all the other assumptions remain constant.

The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below are consistent with that adopted in the previous year.

Change in Assumptions at 31 March 2016	Approximate % change to Employer Liability	Approximate Monetary Amount £000
0.5% decrease in Real Discount Rate	10%	105,479
1 year increase in Member Life Expectancy	3%	30,937
0.5% increase in the Salary Increase Rate	3%	27,590
0.5% increase in the Pension Increase Rate	7%	76,712

### d. Impact on the Council's Cash Flows

The objectives of the scheme are to keep employers' contributions at as constant a rate as possible. The Council has agreed a strategy with the scheme's actuary to achieve a funding level of 90.5% over the next 3 years. Funding levels are monitored on an annual basis. The next triennial valuation is due to be completed at 31 March 2016.

The scheme will need to take account of the national changes to the scheme under the Public Pensions Services Act 2013. Under the Act, the Local Government Pension Scheme in England and Wales and other main existing public service schemes may not provide benefits in relation to service after 31 March 2015 (or service after 31 March 2016 for other main existing public service pension schemes in England and Wales). The Act provides for scheme regulations to be made

within a common framework, to establish new career average revalued earnings schemes to pay pensions and other benefits.

The Council anticipates paying £16.019m contributions to the scheme in 2016/17. The weighted average duration of the defined benefit obligation for scheme members is 18 years.

**CASH FLOW STATEMENT NOTES**

**31. Operating Activities**

The cash flows for operating activities include the following items:

a) Adjust net surplus or deficit on the provision of services for non-cash movements	2015/16 £000	2014/15 £000
Depreciation and amortisation of non-current assets	(14,187)	(13,875)
Movement in Allowance for Bad or Doubtful Debts	(2,893)	(5,171)
(Increase)/Decrease in Creditors	4,258	(3,055)
Increase/(Decrease) in Debtors	7,335	630
Pensions Liability	(14,713)	(10,557)
Contributions (to)/from Provisions	(381)	(1,028)
Revaluation Losses	(12,813)	(50,856)
Carrying value on disposal of non-current assets	(7,671)	(15,623)
Other non-cash adjustments	2,379	(3,560)
	<b>(38,687)</b>	<b>(103,095)</b>

b) Adjust for items included in the net surplus or deficit on the provision of services that are investing or financing activities	2015/16 £000	2014/15 £000
Proceeds from the sale of non-current assets	7,903	4,898
Capital grants received	19,709	18,433
Contribution from the Capital Receipts Reserve to finance the payments to the Government Capital Receipts Pool	0	(1)
	<b>27,612</b>	<b>23,330</b>

c) Interest received, interest paid and dividends received	2015/16 £000	2014/15 £000
Interest received	(1,863)	(3,863)
Interest paid	6,562	18,772
Dividends received	(3,249)	(1,000)
	<b>1,450</b>	<b>13,909</b>

**32. Investing Activities**

	2015/16 £000	2014/15 £000
Purchase of non-current assets	28,409	33,436
Purchase of short term and long term investments	153,100	170,100
Other movements in investing activities	12,132	(2,351)
Proceeds from the sale of non-current assets	(7,903)	(4,898)
Proceeds from short term and long term investments	(86,100)	(192,595)
Capital grants received	(19,709)	(17,240)
<b>Net cash flows from investing activities</b>	<b>79,929</b>	<b>(13,548)</b>

**33. Financing Activities**

	2015/16 £000	2014/15 £000
Cash receipts of short term and long term borrowing	(7,355)	(4,077)
Cash payments for the reduction of the outstanding liabilities relating to finance leases and on-balance sheet PFI contracts	1,982	1,867
Repayments of short term and long term borrowing	4,077	1,023
Billing Authority - Council Tax and NDR adjustments	739	(1,735)
<b>Net cash flows from financing activities</b>	<b>(557)</b>	<b>(2,922)</b>

**OTHER NOTES****34. Member's Allowances**

	2015/16 £000	2014/15 £000
Payments to Members	1,181	1,197

**35. Termination Benefits**

*Termination benefits are amounts payable as a result of a decision by the Council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy and are charged on an accruals basis to the relevant service lines in the Comprehensive Income and Expenditure Statement at the earlier of when the Council can no longer withdraw the offer of those benefits or when the Council recognises costs for a restructuring.*

*Where termination benefits involve the enhancement of pensions, statutory provisions require General Fund Balances to be charged with the amount payable by the Council to the Pension Fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the Pension Fund and pensioners and any such amounts payable but unpaid at the year-end.*

Exit package cost band (including special payments)	Number of Compulsory Redundancies		Number of other departures agreed		Total number of exit packages by cost band		Total cost of exit packages in each band	
	2015/16	2014/15	2015/16	2014/15	2015/16	2014/15	2015/16 £000	2014/15 £000

## Changes to the Executive Team Structure

The Executive Team has reduced as the Executive Director of Finance (Borough Treasurer) left the Council on 31 March 2015 and responsibility for Resources was transferred to the Executive Director of Governance (Borough Solicitor) and the Section 151 officer responsibility transferred to the Assistant Executive Director of Finance. Executive Team pay remains frozen and has not been increased from 2008/09 levels.

## Employees' Remuneration

The Council's other employees, including teachers, (excluding the Chief Executive and members of the Executive Team) receiving more than £50,000 remuneration for the year (excluding employer's pension contributions) were paid the following amounts:

Remuneration Band	Number of employees (excluding severance payments) 2015/16	Number of employees (including severance payments) 2015/16	Number of employees (excluding severance payments) 2014/15	Number of employees (including severance payments) 2014/15
£50,000 - £54,999	81	82	65	65
£55,000 - £59,999	50	59	47	47
£60,000 - £64,999	30	32	30	31
£65,000 - £69,999	18	19	13	13
£70,000 - £74,999	9	10	9	10
£75,000 - £79,999	11	12	14	14
£80,000 - £84,999	3	3	4	4
£85,000 - £89,999	3	4	2	2
£90,000 - £94,999	1	0	0	0
£95,000 - £99,999	0	0	0	0
£100,000 - £104,999	1	1	1	1
£105,000 - £109,999	1	1	0	0
£110,000 - £114,999	0	0	0	0
£115,000 - £119,999	1	1	0	0
£120,000 - £124,999	0	1	0	0
£125,000 - £129,999	1	1	0	0
<b>Total</b>	<b>210</b>	<b>226</b>	<b>185</b>	<b>187</b>

A number of employees in the accounting period received one off severance payments and left the organisation. The figures above have been presented both excluding and including this payment.

## 37. Contingent Liabilities

*A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably. Contingent liabilities are not recognised in the Balance Sheet but have been disclosed below.*

The Council has the following contingent liabilities at the Balance Sheet date:

### **Manchester Airport Group (MAG)**

In 2009/10 there was a restructure of various loans used to finance capital expenditure that the Airport had agreed to reimburse the Council. As a consequence, the loans to the Airport that were previously secured became unsecured but a higher coupon rate became receivable. The loan agreement expires in 2055. Provision has not been made in the Balance Sheet to cover the total potential losses to the Council from this agreement.

### **Guarantees**

The Council is guarantor for Tameside Sports Trust in respect of the Pulse Fitness Agreements.

The Council is also guarantor in respect of employer's liability arising out of admission agreements made under the Local Government Pension Scheme Regulations 1997 for Ashton Pioneer Homes Limited (transferred staff), the Cash Box Credit Union Limited, Meridian Healthcare Limited (previously Tameside Care Limited), Tameside Citizens Advice Bureau, Groundwork MSSTT (Ex-Tameside staff), Carillion AMBS Ltd (Ex-Tameside staff).

### **Warranties relating to the housing transfer**

The Council has warranties relating to the housing transfer. These cover unlimited environmental warranties for which the Council has taken out insurance.

### **Pay**

As reported in previous years' accounts, the local pay and grading review, arising from the National Single Status Agreement of 1997 together with the later report by the Local Government Pay Commission, has now been completed. The new payline was implemented in 2010/11. Arising from this new payline some claims for backdated pay have been received by the Council and may result in subsequent payments being required. Any resulting liability cannot be quantified in advance and additional resources will be needed to settle the outstanding claims, which may go to employment tribunal.

### **Maintenance of Pathways and Roads**

Court rulings have determined that councils have a statutory duty to maintain certain footways, carriageways and public rights of way on former council housing estates that have been transferred to housing associations and other social landlords. This ruling has had an impact on the maintenance and insurance liabilities of the Council and the cost of maintaining highways within the Borough. The matter is still under active consideration by the Council's legal services team, in conjunction with the solicitors instructed on behalf of the Council's public liability insurers.

### **Greater Manchester Loan Funds Guarantee**

The Council agreed to enter into an indemnity agreement to support the Greater Manchester Loan Fund. The fund was set up to provide loans to new and growing business in Greater Manchester. This was entered into alongside other Greater Manchester Authorities and given to Manchester City Council in order to underwrite the initial £12m to £14m capital in proportion to its percentage of GM population at the date of the establishment of the fund (June 2013).

For Tameside Council the maximum indemnity will be £1.138m which is 8.13% of the total indemnity.

At 31 March 2016 loans totalling £4.050m have been advanced.

The risk of the indemnity being called upon is considered to be low.

### **Droylsden Canalside Development**

The Council received grant income of £5.86m from the North West Development Agency (NWDA) on 15 May 2006. The funding agreement contains a potential claw back provision that would require the Council to return funding in certain events. The end date of the claw back period is 6 years from completion of the development.

### **Housing Investment Fund**

The Greater Manchester Devolution Agreement provides for a Housing Investment Fund of £300m over ten years, to be invested in the form of recoverable loans and equity into property investments to deliver the growth ambitions of Greater Manchester (GM).

The Fund was set-up on 1 April 2015 and is administered by Manchester City Council as accountable body.

The Fund provides the opportunity to invest in locally prioritised schemes and give the flexibility required to stimulate the market, accelerate growth and increase housing supply.

In return for GM receiving this Fund it must guarantee that 80% of the funds drawn down, to a maximum of £240m, will be repaid to Her Majesty's Treasury (HMT) at the end of the Fund life (this is likely to be in 2028 when all loans advanced are repaid). The Department of Communities and Local Government (DCLG) will underwrite the first 20% of any loss to the Fund (up to a maximum of £60m).

Each GM District will indemnify a proportion of the Fund based on its percentage of GM population as at 1 April 2015. For Tameside Metropolitan Borough Council the maximum indemnity will be £19.388m which is 8.08% of the total indemnity.

At 31 March 2016 the amount drawn down was £11.063m.

It is not currently anticipated that there will be any call on this indemnity.

### **38. Contingent Assets**

*A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent assets are not recognised in the Balance Sheet but have been disclosed below where it is probable that there will be an inflow of economic benefits or service potential.*

### **Disabled Facilities Grants**

There is an outstanding claim for VAT in respect of Disabled Facilities Grants (covering the period 1 April 1994 to 31 March 2015) is £245k. It is anticipated, if the claim is accepted by HMRC, that simple interest on this claim would be in the region of 100% of the claim amount. An additional claim for £29k covering the period 1 April 2015 to 31 March 2016 will be submitted to HMRC imminently.

### **Business Rates Growth Pilot**

The Council, along with other Greater Manchester Local Authorities and Cheshire East Council, entered into a pilot scheme for the full retention of Business Rates Growth beyond inflation (as measured by RPI) plus a stretch target of 0.5%. The commencement date for the growth pilot is 1 April 2015. The baseline for calculating growth will be based on the 2015/16 original estimate for

business rates revenue (as per Councils' NDR 1 forms) together with a further adjustment for appeals.

Specific and detailed arrangements for calculating the baseline and measuring growth have yet to be agreed with the Government. Furthermore, discussions are currently ongoing regarding the methodology for calculating growth shares across Greater Manchester Districts, Cheshire East Council and the Greater Manchester Combined Authority (GMCA). The mechanism for releasing retained monies to member authorities is also yet to be agreed.

Current calculations suggest that the Council may benefit from additional funds resulting from the Business Rates growth pilot in the financial year 2015/16. However until the calculation for growth, the sharing mechanism and the process for releasing the funds has been approved by Central Government, member authorities and the GMCA, it is considered prudent not to recognise any potential receipts.

**39. External Audit Costs**

The Council has incurred the following costs in relation to services provided by the Council's external auditors (Grant Thornton):

	<b>2015/16 £000</b>	<b>2014/15 £000</b>
Fees payable with regard to external audit services	105	141
Fees payable for the certification of grant claims and returns	39	32
Fees payable in respect of other services	22	20
Audit fee rebate	0	(12)
<b>Total</b>	<b>166</b>	<b>181</b>

**40. Events after the Balance Sheet Date**

*Events after the Balance Sheet date are reflected up to the date when the Statement of Accounts is authorised for issue. This date and who gave that authorisation is disclosed in the notes to the accounts, including confirmation that this is the date up to which events after the Balance Sheet date have been considered.*

*Where a material event is identified after the Balance Sheet date, whether favourable or unfavourable, for which it can be shown that the conditions already existed at the Balance Sheet date, it is an adjusting event and the amounts in the accounts would be adjusted accordingly.*

*However, where a material event is identified which occurred after the Balance Sheet date but it cannot be shown that the conditions existed before the Balance Sheet date, then it is a non-adjusting event and the accounts would not be adjusted (although a disclosure would be made in the notes to the accounts).*

The Audited Statement of Accounts was authorised for issue by the Assistant Executive Director, Finance (Section 151 Officer) on 12 September 2016. Events taking place after this date are not reflected in the financial statements or notes. Where events taking place before this date provided information about conditions existing at 31 March 2016, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information.

## **41. Accounting Policies**

*The accounting policies adopted by the Council determine the accounting treatment that is applied to transactions during the financial year and in the preparation of the Statement of Accounts at the year end. They determine the specific principles, bases, conventions, rules and practices that will be applied by the Council in preparing and presenting its financial statements.*

### **General Policies**

The Statement of Accounts summarises the Council's transactions for the 2015/16 financial year and its position at 31 March 2016.

The Council is required to prepare an annual Statement of Accounts by the Accounts and Audit Regulations 2003 (as amended), which require the accounts to be prepared in accordance with proper accounting practices.

These practices primarily comprise the CIPFA Code of Practice on Local Authority Accounting in the United Kingdom 2015/16 ('the Code') and the CIPFA Service Reporting Code of Practice (SERCOP) for Local Authorities 2015/16, supported by International Financial Reporting Standards (IFRS) and statutory guidance issued under section 12 of the 2003 Act.

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

The Council's accounting policies are included in the relevant notes to the accounts, in the section to which they relate. The general accounting principles that have been adopted by the Council are shown below:

### **Going Concern**

The Council prepares its accounts on the basis that it remains a going concern; that is that there is the assumption that the functions of the Council will continue in operational existence. In the case of a pending local government reorganisation, where assets and liabilities are due to be redistributed, the Council would still account on the basis of going concern as the provision of services would continue in another Council.

### **Accruals Concept**

The Council accounts for income and expenditure in the period to which the service has taken place, rather than when cash payments are received or made.

Where income and expenditure has been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Equally, where cash has been received or paid which is not yet recognised as income or expenditure, a creditor (income in advance) or debtor (payment in advance) is recorded in the Balance Sheet.

### **Cost of Services**

The costs of overheads and support services are charged to those that benefit from the supply or service in accordance with the costing principles of the CIPFA Service Reporting Code of Practice (SERCOP) for Local Authorities 2015/16.

All recharges of support service costs are consistent with the principles outlined in the SERCOP. The total absorption costing principle is used. This means the full cost of overheads and support services are shared between users in proportion to the benefits received, with the exception of:

- Corporate and Democratic Core costs (as these relate to the Council's status as a multi-functional, democratic organisation).
- Non-Distributed costs (as these are the costs of discretionary benefits awarded to employees retiring early).

These two cost categories are accounted for as separate headings in the Comprehensive Income and Expenditure Statement, as part of Net Cost of Services.

### **Value Added Tax (VAT)**

Income and expenditure transactions exclude any amounts relating to VAT as currently all VAT collected is payable to HM Revenue and Customs and all VAT paid is recoverable from them.

### **Changes in Accounting Policy**

Where there is a known future change in accounting policy required by the CIPFA Code, the Council will disclose the following in the notes to the accounts:

- The nature of the change in accounting policy;
- The reasons why applying the new accounting policy provides reliable and more relevant information;
- For both the current reporting period, and the previous year comparatives reported, the extent to which the change in accounting policy would have impacted on the financial statements if it had been adopted in that year;
- The amount of adjustment relating to years previous to those reported in the set of financial statements, had the proposed policy been adopted retrospectively;
- If retrospective application is impracticable for a particular period, the circumstances that led to the existence of that condition and a description of how and from when the change in accounting policy has been applied.

The Council will also disclose information relating to an accounting standard which has been issued but not yet adopted.

### **Previous Year Adjustments**

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the Council's financial position or financial performance.

Where a change is made it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by way of a prior period adjustment and an appropriate disclosure in the notes to the accounts.

A change to the accounting policy may also require that the basis of estimates is changed. This will be disclosed in accordance with the policy on changes to accounting estimates.

### **Exceptional and Extraordinary Items**

When items of income and expenditure are material, their nature and amount is disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement or in the notes to the accounts, depending on how significant the items are to an understanding of the Council's financial performance.

## **Revenue Recognition**

Revenue is a sub-set of income and is defined as the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net worth.

Revenue is measured at the fair value of the consideration received or receivable. In most cases, the consideration receivable is in the form of cash and cash equivalents and the amount of revenue is the amount of cash and cash equivalents receivable. Where the Council is acting as an agent of another organisation the amounts collected for that organisation are excluded from revenue.

Revenue relating to the sale of goods is recognised when the amount of revenue can be measured reliably, it is probable the revenue will be received by the Council and the risks and rewards of ownership have passed to the purchaser. Revenue relating to the provision of services is recognised when the amount of revenue can be measured reliably, it is probable the revenue will be received by the Council and the stage of completion of the service can be measured.

### **42. Accounting Standards that have been issued but have not yet been adopted**

*'The Code' requires the disclosure of information relating to the expected impact of an accounting change that will be required by a new standard that has been issued but not yet adopted. This applies to the adoption of the following new or amended standards within the 2016/17 Code. The Code requires implementation from 1 April 2016 and there is therefore no impact on the 2015/16 Statement of Accounts.*

- Amendments to IAS19 Employee Benefits (Defined Pension Plans : Employee Contributions);
- Annual Improvements to IFRSs (2010 – 2012 Cycle);
- Amendment to IFRS11 Joint Arrangements;(Accounting for Acquisitions of Interests in Joint Operations);
- Amendment to IAS16 Property, Plant and Equipment and IAS 38 Intangible Assets (Clarification of Acceptable Methods of Depreciation and Amortisation);
- Annual Improvements to IFRSs (2012 – 2014 Cycle);
- Amendment to IAS1 Presentation of Financial Statements (Disclosure Initiative);
- The changes to the format of the Comprehensive Income and Expenditure Statement, the Movement in Reserves Statement and the introduction of the new Expenditure and Funding Analysis;
- The changes to the format of the Pension Fund Account and the Net Assets Statement.

### **43. Critical Judgements in Applying Accounting Policies**

The following are critical management judgements in applying the accounting policies of the Council that have the most significant effect on the financial statements. Critical estimation uncertainties are described in Note 44.

#### **Accounting for Schools – Consolidation**

In line with accounting standards and 'the Code' on group accounts and consolidation, all maintained schools in the Borough are now considered to be entities controlled by the Council. Rather than produce group accounts the income, expenditure, assets, liabilities, reserves and cash flows of each school are recognised in the Council's single entity accounts.

**Accounting for Schools – Balance Sheet Recognition of Schools**

The Council recognises schools in line with the provisions of ‘the Code’; consequently schools are recognised on the Balance Sheet only if the future economic benefits or service potential associated with the school will flow to the Council. The Council regards that the economic benefits or service potential of a school flows to the Council where the Council has the ability to appoint the employees of the school and is able to set the admission criteria.

There are currently five types of schools within the borough:

- Community schools
- Voluntary Controlled (VC) schools
- Voluntary Aided (VA) schools
- Foundation/Trust schools
- Academies

Employees at community schools are appointed by the Council and the Council sets the admission criteria. These schools are therefore recognised on the Council’s Balance Sheet.

In order to comply with the recent amendments to the Code of Practice on Local Authority Accounting the Council has written to each of the diocese who occupy schools within the borough of Tameside in order to establish the accounting arrangements.

Diocese of Salford, The Church of England Diocese of Chester, The Church of England Diocese of Manchester and Diocese of Shrewsbury have all responded in writing to confirm that the schools occupy the school premises under the direction of the trustees and that the legal ownership resides with the religious body. The Council has also had confirmation that the religious bodies referred to above account for the school buildings within their Balance Sheets.

The legal ownership of Voluntary Controlled school buildings belong to a charity, normally a religious body, therefore the Council does not recognise these non-current assets on the Balance Sheet. However the adjoining school playing fields remain in Council ownership and are therefore included on the Council’s Balance Sheet.

Foundation Trust, Voluntary Aided and Academy school employees are appointed by the schools’ governing body, which also set the admission criteria. As a consequence the Council does not receive the economic benefit or service potential of these schools and does not recognise them on the Council’s Balance Sheet. However the playing fields surrounding Voluntary Aided schools remain in Council ownership and are therefore included on the Council’s Balance Sheet.

<b>Type of School</b>	<b>No of Primary School</b>	<b>No of Secondary School</b>	<b>No of Special School</b>	<b>Total</b>
Community	36	6	5	<b>47</b>
Voluntary Controlled (VC)	10	0	0	<b>10</b>
Voluntary Aided (VA)	21	2	0	<b>23</b>
Foundation	0	0	0	<b>0</b>
Foundation Trust	0	0	0	<b>0</b>
<b>Maintained Schools</b>	<b>67</b>	<b>8</b>	<b>5</b>	<b>80</b>
Academies	8	7	1	<b>16</b>
<b>Total</b>	<b>75</b>	<b>15</b>	<b>6</b>	<b>96</b>

## **Accounting for Schools - Transfers to Academy Status**

When a school that is held on the Council's Balance Sheet transfers to Academy status the Council accounts for this as a disposal for nil consideration on the date that the school converts to Academy status, rather than as an impairment on the date that approval to transfer to Academy status is announced.

Where the Council has entered into construction contracts for replacement schools on behalf of an Academy, the Council charges the cost of construction against Assets Under Construction (part of Property, Plant and Equipment), whilst the Academy is constructed. Once the construction is complete the asset is transferred to Property, Plant and Equipment on the date of transfer to Academy status. The Council accounts for this as a disposal for nil consideration.

## **Leases**

The Council has examined its leases, and classified them as either operational or finance leases. In some cases the lease transaction is not always conclusive and the Council uses judgement in determining whether the lease is a finance lease arrangement that transfers substantially all the risks and rewards incidental to ownership. In assessing leases the Council has estimated the implied interest rate within the lease to calculate interest and principal payments.

## **Funding**

There remains uncertainty about future levels of funding for Local Government. However, the Council has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Council might be impaired as a result of a need to close facilities and reduce levels of service provision.

### **44. Assumptions made about the future and other major sources of estimated uncertainty**

## **Property, Plant and Equipment**

An asset is depreciated over a useful life that is dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to the individual asset. The current economic climate makes it uncertain that the Council will be able to sustain its current spending on repairs and maintenance bringing into doubt the useful life assigned to assets. If the useful life of an asset is reduced, the depreciation charge increases and the carrying amount of the asset falls.

An important estimation contained in the accounts is that of the useful economic life of non-current assets (or useful remaining economic life where assets are revalued). This is important as it determines the depreciation charge posted to the Comprehensive Income and Expenditure Statement.

- Property may have a remaining useful life of between 2 and 70 years and the exact amount is determined for each property by chartered surveyors, not less than once every 5 years.
- Infrastructure assets (such as roads) are depreciated over 40 years from the date of capitalisation.
- Investment properties are not depreciated, in line with guidance but are revalued each year.
- Surplus assets are not depreciated as the Council's policy is to revalue them each year.
- Other non-current assets (such as vehicles, plant and equipment) are depreciated over 10 years or less.
- Specific assets may be valued more frequently depending on the wider economic context, particularly if it is expected that there has been a material reduction in their value during the year.

Depreciation could also be calculated by adopting a fixed policy regarding economic life for each identified class of asset. However, it has been determined by the Council that a 'catch-all' policy cannot be as accurate as the case-by-case review that is employed, because of the wide variety of assets held.

### **Business Rates**

Since the introduction of the Business Rates Retention Scheme effective from 1 April 2013, Local Authorities are liable for the cost of successful appeals against business rates charged to businesses in their proportionate share. Appeals are managed by the Valuation Office (VOA) on a case by case basis. The Council cannot be fully aware, at all times, of all changes to businesses and to business premises, and it is the responsibility of the individual business to seek adjustments for their business rates bill where this is appropriate. Therefore, a provision is recognised in the accounts for the best estimate of the possible liability to the Council for business rates appeals, to 31 March 2016. This is calculated using the VOA's latest list of appeals, which includes information on the average levels of successful and unsuccessful claims.

### **Debt Impairment**

All debts due to the Council are regarded as collectible, unless firm evidence transpires that they are uncollectible and so are 'bad' debts. However, some debts which are proving difficult to collect may be properly termed 'doubtful'. The Council has included an impairment allowance for doubtful debts in the accounts based on a review of the Council's significant short term debtor balances. In the current economic climate it is not certain that the impairment allowance for doubtful debts would be sufficient. If collection rates were to deteriorate an increase in the impairment allowance would be required.

### **PFI and Similar Arrangements**

PFI and similar arrangements have been considered to have an implied finance lease within the agreement. In reassessing PFI leases the Council has estimated the implied interest rate within the leases to calculate interest and principal payments. In addition the future RPI increase within the contracts has been estimated as remaining constant throughout the remaining period of the contract.

### **Pensions Fund Liability**

The estimation of the Pension Fund liability depends on a number of complex judgements relating to the discounts used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on Pension Fund assets. A firm of consulting actuaries is engaged to provide the Council with expert advice about the assumptions to be applied.

### **Manchester Airports Group (MAG)**

The Council's shareholding in MAG is valued using the earning based method and discounted cash flow method resulting in the asset being valued at fair value rather than historic cost, therefore requiring an annual valuation. A firm of financial experts and valuers have been engaged to provide an independent valuation which includes reviewing the financial performance, stability and business assumptions of MAG. The valuation provided is based on estimations and assumptions and therefore should the Council sell its shareholding the value held in these statements may not be realised.

MAG's financial statements became available during the period between the Council's subject to audit and audited accounts. MAG had profits for operations before taxation and significant items of £186.9m (153.6m in 2014/15) and after taxation and significant items profit of 116.7m (£68.6m in 2014/15). MAG has total net assets of £1,558.7m at 31 March 2016 (£1,554.6m at 31 March 2015).

## **Housing Benefit Subsidy**

Assumptions contained within the accounts include the final level of housing benefit subsidy grant receivable (included in the Comprehensive Income and Expenditure Statement). The amount will not be finalised until the 30 November 2016 when the auditor-certified claim is submitted and so the amount included in the accounts could differ.

## **Reserves**

A number of assumptions are made regarding the required level of Council reserves. The Government has previously criticised the level of reserves held by councils as being too high. However, the professional consensus is that reserves are more necessary in times of greater risk and uncertainty.

The level of financial risk being faced by the Council continues to increase. Reserves provide a way for the Council to ensure that any unforeseen financial impacts can be absorbed without immediately impacting on frontline service delivery. Currently, potential impacts may arise from a number of sources (see Section 5 for more details), including:

- The further significant loss of Government funding.
- Significant changes to local government responsibilities and the unknown impact of these (e.g. Care Act, Universal Credit, further responsibilities associated with full devolution of business rates).
- Other cost pressures or national policy changes e.g. the impact of an ageing population and pressures within the local health economy.
- Delays in securing further, significant, ongoing savings targets.
- Volatility of the Business Rates base.
- Potential legal judgements and the confirmation of obligations that led the Council to recognise contingent liabilities in the Statement of Accounts.

These and other factors must be borne in mind when estimating the required level of reserves and the anticipated profile of use.

## **Minimum Revenue Provision**

The Council has adopted the following policy in relation to calculating the Minimum Revenue Provision:

- Borrowing taken up prior to 01/04/2015 will be provided for using a straight-line method of calculating MRP. It will be provided for in equal instalments over 50 years. The debt will be extinguished in full by 31 March 2065. If the Council elects to make additional voluntary MRP then the annual charge will be adjusted accordingly.
- The following will be required in relation to borrowing taken up on or after 01/04/2015. 'MRP is to be provided for based upon the average expected useful life of the assets funded by borrowing in the previous year. The debt will be repaid on a straight-line basis over the average useful life calculated; the debt will be fully extinguished at the end of period.

## **45. Related Parties**

*The Council is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council*

*might have been constrained in its ability to operate independently, or might have secured the ability to limit another party's ability to bargain freely with the Council. In this context, related parties include Central Government (UK), Members, Officers, other public bodies and entities controlled or significantly influenced by the Council.*

### **Central Government (UK)**

Central Government (UK) has significant influence over the general operations of the Council. It is responsible for providing the statutory framework within which the Council operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions that the Council has with other parties (e.g. Council Tax billing and Housing Benefits). Grants received from government departments are set out in Note 5.

### **Members**

Members of the Council have direct control over the Council's financial and operating policies. The total of Members' Allowances paid in 2015/16 is shown in Note 34.

The Council holds a Register of Members' Interest, which is open to public inspection during office hours, on appointment, and is also available on the Council's website. In respect of the 2015/16 financial year, a number of Members declared interests in other organisations that the Council transact with. However, these were not deemed to be significant interests that would lead to a related party transaction.

In certain cases, where a Member has an external interest that is declared (e.g. appointed to the Board of another organisation), it is for the purpose of representing the views of the Council. The allocation of places on the Board, however, would mean that while the Council can exert an influence, we cannot determine the outcome of decisions and as such this would not lead to a related party transaction.

### **Officers**

Senior Officers have not disclosed any material transactions with related parties.

### **Other Public Bodies**

The Council pays levies towards the services provided by the Greater Manchester Waste Disposal Authority (£16.519m), the Greater Manchester Combined Authority Transport Levy (£15.854m), the Environment Agency Levy £0.106m and the British Waterways Levy £0.076m.

### **Greater Manchester Pension Fund (GMPF)**

The Council administers the GMPF, but there are separate management and governance arrangements in place to ensure the GMPF is able to act as an independent entity. Further details can be found in the GMPF Statement of Accounts on page 111.

In the course of fulfilling its role as administering authority to the GMPF, the Council incurred costs for services (e.g. salaries and support costs) of £8.832m on behalf of the GMPF and received HMRC VAT (net) of £0.475m. Total payments due from the GMPF, therefore, amounted to £8.357m (2014/15 £13.920m). The GMPF reimbursed the Council £6.588m for these charges and there is a debtor of £0.575m owing from the GMPF at the Balance Sheet date (2014/15 £1.192m).

**Entities Controlled or Significantly Influenced by the Council**

Where the Council has material interests in companies and other entities that have the nature of subsidiaries, associates and joint arrangements, it is required to prepare group accounts. In the Council's own single-entity accounts, the interests in companies and other entities are recorded as investments, i.e. at cost, less any provision for losses.

'The Code' contains revised provisions following the issue of new IFRS standards and the amendment of related existing standards. The new provisions have effect in three main areas:

- A new definition of subsidiaries based on a remodelled control test;
- New classifications for joint operations and joint ventures; and
- Extended and revised disclosure requirements for group accounts.

A group structure may exist where the Council has a controlling (or significant ability to influence) another entity. A group structure would necessitate the preparation of group accounts.

The Council's group boundaries have been assessed using the criteria outlined in 'the Code'. It was determined that the Council had a significant influence over Inspiredspaces Tameside (Holdings1) Ltd and Inspiredspaces Tameside (Holdings2) Ltd, with effective total shareholdings of 46% and two directors represented on the boards. However, on the basis of materiality the Council has determined that the preparation of group accounts for these Associate companies is not required.

The Council also has a 10% stake in Inspiredspaces Tameside Ltd, which itself held 10% of the shares in Inspiredspaces Tameside (Holdings1) Ltd and Inspiredspaces Tameside (Holdings2) Ltd. As the Council's share ownership of Inspiredspaces Tameside Ltd has not changed during the year (10%) and as it is only represented by two of the nine Directors, there is no significant control over this company and, therefore, it will not be consolidated for group accounts purposes.

The net value of transactions with Inspiredspaces Tameside (Holdings1) Ltd and Inspiredspaces Tameside (Holdings2) Ltd during the year is as follows:

	2015/16 £000	2014/15 £000
Inspiredspaces Tameside (Holdings1) Ltd & Inspiredspaces Tameside (Holdings2) Ltd	355	383
	<b>355</b>	<b>383</b>

The following amounts were due from Inspiredspaces Tameside (Holdings1) Ltd and Inspiredspaces Tameside (Holdings2) Ltd at the Balance Sheet date and are included in Short Term Debtors:

	2015/16 £000	2014/15 £000
Inspiredspaces Tameside (Holdings1) Ltd & Inspiredspaces Tameside (Holdings2) Ltd	332	330
	<b>332</b>	<b>330</b>

A review of the Council's relationship with other entities has also been undertaken to ensure they are properly reported. Following the current guidance, with the exception of the investments in the two holding companies above, it is clear that the Council is not in a further group arrangement, as it does not have the ability to exercise either influence or control at a material level over another entity.

## 46. Agency Services and Pooled Budgets

### Agency Services

<b>Receipt in Advance</b>	<b>(1,689)</b>	<b>(1)</b>	<b>32</b>	<b>(955)</b>

#### Hattersley/Mottram Project (HMP)

HMP involves the regeneration of land previously owned by Manchester City Council and the Council mainly for residential use. In addition, the former Manchester City Council housing stock was transferred and is now owned by Peak Valley Housing Association (PVHA). This is being improved and refurbished as part of the latter's business plan, for which £18.5m has been provided from the proceeds from the sale of the land.

The Council's partners in the project are Homes and Communities Agency, Symphony Housing Group and PVHA. The partners operate under a Collaboration Agreement and, in accordance with this Agreement signed by the principal partners, the Council acts as the accountable body on behalf of the partnership. The Council receives funds from the developers (Base Hattersley and CTP Property Holdings Ltd) as per the respective development agreements and distributes the funds to the partners in priority ranking as per the Agreement. The balance will be carried forward into 2016/17 and used to fund the remaining elements of the Hattersley Business Plan.

#### Local E Government Standards Body (LeGSB)

LeGSB was established to develop and promote eStandards that support the efficiency, transformation, and transparency of local public services in the UK. The Council is the lead partner and accountable body for the project. The balance will be carried forward into 2016/17 to continue the work of the project.

#### i-Network

i-Network brings together local authorities, police, fire and health bodies across the North West, Yorkshire and Humberside and West Midlands to support innovation and the transformation of local public services. It is chaired by the Chief Executive of the Council, which acts as accountable body. i-Network charges membership fees in order to sustain the partnership and deliver set outcomes, this is where a significant element of funding for this programme is obtained. The balance will be carried forward into 2016/17.

Greater Manchester Public Health Network (GMPHN)

GMPHN is a collaborative organisation that works on behalf of the Greater Manchester Directors of Public Health. The network supports Greater Manchester Local Authorities to fulfil their statutory public health functions under the Health and Social Care Act 2012. The network works with local partners to help reduce the impact of ill health on individuals and the Greater Manchester economy. The Council has been the accountable body for the GMPHN since 1 April 2013 and the Council's Chief Executive is the lead Chief Executive for Health. The Network is funded by membership. The balance will be carried forward into 2016/17.

**Pooled Budgets**Integrated Community Equipment Service (ICES)

The Council is the host for the ICES. The aim of the ICES is to provide a community equipment service, responsive to authorised requests, which removes the burden and responsibilities from the partners regarding equipment sourcing, centralised storing, distribution, fitting and technical demonstrations, collection, recycling and servicing and maintenance. The net deficit arising on the pooled budget during the year was £0.284m and the Council's share of this deficit was £0.083m.

**47. Building Control**

The Council sets charges for work carried out in relation to building regulations with the aim of covering all costs incurred. The Council aims to ensure that, taking one financial year with the next, Building Control fees are set to cover costs without generating a material surplus or loss.

However, certain activities performed by the Building Control Unit cannot be charged for, such as providing general advice and liaising with other statutory authorities, including pre-application advice of up to one hour duration. The total net cost of operating the Building Control Unit was £0.125m in 2015/16, which was made up of a deficit on chargeable activities of £0.123m and a deficit on non-chargeable activities of £0.002m.

	2015/16

**48. Better Care Fund**

Tameside Council and Tameside & Glossop CCG are partners in the provision of services to support reduced hospital admissions and length of stay. Joint arrangements of this type are permitted under section 75 of the National Health Service Act 2006.

The aims and benefits of the Partners in entering in to this Agreement are to:

- improve the quality and efficiency of the Services;
- meet the National Conditions and Local Objectives;
- make more effective use of resources through the establishment and maintenance of an aligned fund for revenue expenditure on the Services and;
- ensure that people in Tameside will be independent, resilient and self-caring so fewer people reach crisis point;
- for those that need it, to develop an integrated health and care system that enables people to proactively manage their own care with the support of their family, community and the right professionals at the right time in a properly joined up system.

The BCF provides various services to residents of Tameside who would benefit from specific targeted interventions, as well as supporting hospitals to treat people closer to their homes and communities.

The services provided include:

- Reablement services
- Telecare / Telehealth
- Carers support
- Community based initiatives to support independent living and prevent unnecessary hospital admissions

BCF expenditure in 2015/16 totalled £16.941m which was in line with the available BCF funding of £16.941m as shown below in the table.

<b>Funding provided to the pooled budget:</b>	<b>2015/16 £000</b>

## Notes to the Collection Fund

### 1. Overview

The Collection Fund is a statement that reflects the statutory obligation of Tameside as the billing authority to maintain a separate Collection Fund. The statement shows the Council's transactions in relation to the collection from taxpayers of Council Tax and NDR and its distribution to the relevant preceptors and Central Government.

The Council has a statutory requirement to operate a separate Collection Fund. The purpose of the Collection Fund is to isolate the income and expenditure relating to Council Tax and NDR. The administrative costs associated with the collection process continue to be charged to General Fund Balances.

'The Code' stipulates that a Collection Fund Income and Expenditure account is included in the Council's Statement of Accounts. The Collection Fund Balance Sheet meanwhile is incorporated into the Council's Balance Sheet.

### 2. Council Tax

All domestic properties are placed in one of eight valuation bands. Each year the Council must estimate the number of properties in each band and after allowing for discounts, exemptions and losses on collection, the net number of properties is then converted into a Band D equivalent in order to calculate the Council Tax base for tax setting purposes. The income which the Council requires to be raised is then divided by the Council Tax Base to give the Band D equivalent Council Tax for the year.

The Council Tax level for each of the bands is assessed as a proportion of the tax rate for a Band D property.

### 3. NDR

The Council collects NDR for its area based on local rateable values provided by the Valuation Office Agency (VOA) multiplied by a uniform Business Rate set nationally by Central Government.

For 2015/16, the total Non-Domestic Rateable value at the year-end is £149.9m (£149.7m in 2014/15). The national multipliers for 2015/16 were 48p for qualifying small businesses, and the standard multiplier being 49.3p for all other businesses (47.1p and 48.2p respectively in 2014/15).

Local authorities retain a proportion of the total collectable rates due. In the case of Tameside the local share is 49%. The remainder is distributed to the Greater Manchester Fire and Rescue Authority (GMFRA) (1%) and Central Government (50%).

The NDR shares paid in 2015/16 were £28.256m to Central Government, £0.565m to GMFRA and £27.691m to the Council. These sums have been paid in 2015/16 and charged to the Collection Fund in year. The total income from NDR payers collectable in 2015/16 was £58.97m (£58.56m in 2014/15).

Table showing the tax base for the whole Council and Council Tax for properties outside the Mossley Parish Council boundary:

	Total Number Of Dwellings	Equiv- alent After Dis- counts etc.	Specified Ratio	Band D Equiv- alents	Income To Be Raised  £000	Band D Equiv- alent Council Tax  £	2015/16 Council Tax (Exclud- ing Mossley Parish)  £

Trafford MBC	884	1,007
Wigan MBC	10,019	11,409
	<b>109,648</b>	<b>124,862</b>

The outstanding debt of £109.648m at 31 March 2016 includes former Manchester Airport debt of £9.587m and former Greater Manchester Probation Service debt of £0.927m.

Debt for Manchester Airport and Greater Manchester Probation Service is allocated over the 10 Greater Manchester Metropolitan Districts on a population basis.

Manchester Airport re-negotiated the terms of its loan arrangement with the 10 Greater Manchester Councils during 2009/10, as a result of this agreement the 10 Councils have taken responsibility to service the former Manchester Airport debt, previously the debt was serviced by the airport themselves.

**2. Analysis by Type of Loan**

	<b>31 March 2016 £000</b>	<b>Year on Year Change £000</b>	<b>31 March 2015 £000</b>	<b>Year on Year Change £000</b>
Public Works Loan Board	67,963	(31,963)	99,926	(22,000)
Debt administered by other authorities	238	(32)	270	(32)
Debt falling out in next 12 months	32,963	9,706	23,257	9,157
Temporary Loan	7,945	7,022	923	(1,370)
Revenue and other balances temporarily used for capital purposes	539	53	486	61
	<b>109,648</b>	<b>(15,214)</b>	<b>124,862</b>	<b>(14,184)</b>

### 3. Financial Instrument Balances

Under accounting requirements the financial instrument value shown in the Balance Sheet include the principal amount borrowed plus accrued interest.

	31 March 2016		31 March 2015	
	Long Term £000	Current £000	Long Term £000	Current £000
Financial Liabilities Principal Amount	68,201	39,908	100,196	22,923
Adjustment for Amortised Cost	0	2,101	0	1,257
<b>Financial Liabilities at Amortised Cost</b>	<b>68,201</b>	<b>42,009</b>	<b>100,196</b>	<b>24,180</b>
<b>Total Borrowings</b>	<b>68,201</b>	<b>42,009</b>	<b>100,196</b>	<b>24,180</b>

### 4. Financial Instruments Gains / Losses

The gains and losses recognised in the Income and Expenditure Account in relation to Financial Instruments are made up as follows:

	31 March 2016	31 March 2015
	Financial Liabilities Measured at Amortised Cost £000	Financial Liabilities Measured at Amortised Cost £000
Interest expense	(6,397)	(7,832)
Losses on derecognition	0	(1)
<b>Interest payable and similar charges</b>	<b>(6,397)</b>	<b>(7,833)</b>
<b>Net loss for the year</b>	<b>(6,397)</b>	<b>(7,833)</b>

### 5. Fair Value of Financial Assets and Liabilities Carried at Amortised Cost

Financial liabilities and financial assets represented by loans and receivables are carried on the Balance Sheet at amortised cost. Their fair value (level 2) can be assessed by calculating the present value of the cash-flows that take place over the remaining life of the instruments, using the following assumptions:

- Where an instrument will mature in the next 12 months, carrying amount is assumed to approximate to fair value;
- The fair value of trade and other receivables is taken to be the invoiced or billed amount.

The fair values for financial liabilities have been determined by reference to the Public Works Loan Board (PWLB) redemption rules and prevailing PWLB redemption rates at the Balance Sheet date, and include accrued interest.

The fair values are as follows:

	31 March 2016		31 March 2015	
	Carrying Amount £000	Fair Value £000	Carrying Amount £000	Fair Value £000
PWLB Debt	100,905	119,659	124,107	147,055
<b>Total Liabilities</b>	<b>100,905</b>	<b>119,659</b>	<b>124,107</b>	<b>147,055</b>

The fair value is greater than the carrying amount because the portfolio of loans relating to the GMMDAF includes a number of fixed rate loans where the interest rate payable is higher than the rates available for similar loans in the market at the Balance Sheet date. The difference between the carrying amount and the fair value measures the additional interest that the Fund will pay over the remaining terms of the loans under the agreements with the PWLB, against what would be paid if the loans were at prevailing market rates.

However, the GMMDAF has a continuing ability to borrow at concessionary rates from the PWLB rather than from the markets. A supplementary measure of the additional interest that the Fund will pay as a result of its PWLB commitments for fixed rate loans is to compare the terms of these loans with the new borrowing rates available from the PWLB. If a value is calculated on this basis, the carrying amount of £100.905m would be valued at £116.093m. But, if the Fund were to seek to avoid the projected loss by repaying the loans to the PWLB, the PWLB would raise a penalty charge for early redemption in addition to charging a premium for the additional interest that will not now be paid. The exit price for the PWLB loans would include the penalty charge of £15.139m, principal of £99.926m, and accrued interest of £0.979m, totalling £116.044m.

The above represents the fair value of PWLB debt managed by the Council on behalf of the GMMDAF. The fair value of transferred debt relating to GMMDAF will be shown by those authorities that manage this element of the debt.

## **6. Nature and extent of risks arising from Financial Instruments**

Please see Note 20 within the Council's Notes to the Financial Statements.

# **Statement of Responsibilities**

This is a signed statement by the Assistant Executive Director, Finance (Section 151 Officer) certifying that the accounts comply with requirements and 'present a true and fair view' of the Council's financial position as at 31 March 2016.

**Statement of Responsibilities**

**The Council's Responsibilities**

The Council is required to:

- Make arrangements for the proper administration of its financial affairs and to ensure that one of its Officers has the responsibility for the administration of those affairs. In this Council, that Officer is the Assistant Executive Director, Finance (Section 151 Officer);
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets;
- Approve the Statement of Accounts.

**The Assistant Executive Director, Finance (Section 151 Officer) Responsibilities**

The Assistant Executive Director, Finance (Section 151 Officer) is responsible for the preparation of the Council's Statement of Accounts and those of the Greater Manchester Pension Fund in accordance with proper practices as set out in the CIPFA *Code of Practice on Local Authority Accounting in the United Kingdom 2014/15*.

**In preparing this Statement of Accounts, the Assistant Executive Director, Finance (Section 151 Officer) has:**

- Selected suitable accounting policies and then applied them consistently;
- Made judgements and estimates that were reasonable and prudent;
- Complied with the International Financial Reporting Standards (IFRS).

**The Assistant Executive Director, Finance (Section 151 Officer) has also:**

- Kept proper accounting records which were up to date;
- Taken reasonable steps for the prevention and detection of fraud and other irregularities.

**Assistant Executive Director, Finance (Section 151 Officer) Certificate**

I certify that the Statement of Accounts presents a true and fair view of the financial position of the Council and Greater Manchester Pension Fund at 31 March 2016, and its income and expenditure for the year ended 31 March 2016.

Signed: 

Date: 12 September 2016

***I. Duncan***

*(Assistant Executive Director, Finance (Section 151 Officer))*

# **Statement of Assurance**

This is a signed statement by the Executive Leader and Chief Executive certifying how the Council is complying with the Council's Code of Corporate Governance.

**Statement of Assurance**

The Council is responsible for ensuring that its business is conducted in accordance with the law and proper standards, that public money is safeguarded and properly accounted for, and that it is used economically, efficiently and effectively. In discharging this responsibility, Members and Senior Officers must ensure that proper arrangements are put in place for the governance of the Council's affairs and the stewardship of the resources at its disposal. To this end, the Council has approved and adopted a Code of Corporate Governance, which is consistent with these principles and reflects the requirements of the CIPFA/SOLACE Framework *Corporate Governance in Local Government: A Keystone for Community Governance*. A copy of the Code can be found on our website, at: [Tameside Code of Governance](#)

During 2015/16 the Council has maintained strong corporate governance arrangements by reviewing and updating key plans/policies, protocols and systems, for example:

- Constitution; and
- Annual Governance Statement.

In the Annual Audit Letter (presented to the Council's Audit Panel by Grant Thornton in December 2015), the Audit Engagement Lead stated that:

- "We issued an unqualified VFM conclusion on 21 September 2015, confirming that the Council continues to have effective arrangements in place to secure economy, efficiency and effectiveness in its use of resources";
- "The Council has good financial planning and review processes in place, and a track record of delivering financial plans and savings. However, in common with other authorities the Council is continuing to experience real financial pressures to deliver on its medium term financial strategy (MTFS) from 2015-16 onwards";
- "The Council has been proactive in taking difficult decisions in relation to its cost base during the last five years (with over £100m of cost reductions), but this also means that it is becoming more challenging to identify and deliver additional savings. The Council understands the need for continued focus on proposals to deal with expected future funding reductions combined with rising demand for services."

The Council has put in place appropriate management and reporting arrangements and is satisfied that its approach to corporate governance is both adequate and effective in practice. The annual review of the Council's corporate governance arrangements has taken place in accordance with the revised framework and has shown this to be the case.

Signed:

Dated: 12 September 2016

Councillor K. Quinn  
Executive Leader of Tameside Council

Dated: 12 September 2016

S. Pleasant  
Chief Executive of Tameside Council

On behalf of the Members and Senior Officers of the Council.

# **Glossary of Financial Terms**

### **Accruals Basis**

The accruals principle is that income is recorded when it is earned rather than when it is received, and expenses are recorded when goods or services are received rather than when the payment is made.

### **Actuarial Gains and Losses**

Actuaries assess financial and non-financial information provided by the Council to project levels of future pension fund requirements. Changes in actuarial deficits or surpluses can arise leading to a loss or gain because:

- events have not coincided with the actuarial assumptions made for the last valuation;
- the actuarial assumptions have changed.

### **Agency Services**

These are services that are performed by or for another Authority or public body, where the principal (the Authority responsible for the service) reimburses the agent (the Authority carrying out the work) for the costs of the work.

### **Associate Companies**

This is an entity other than a subsidiary or joint venture in which the reporting Authority has a participating interest and over whose operating and financial policies the reporting Authority is able to exercise significant influence.

### **Association of Greater Manchester Authorities (AGMA)**

AGMA represents the ten local authorities in Greater Manchester and works in partnership with Central Government, regional bodies and other Greater Manchester public sector bodies.

### **Billing Authority**

An authority which collects Council Tax, Business Rates and precepts on behalf of itself and other bodies.

### **Capital Expenditure**

This is expenditure on the acquisition of a fixed asset, or expenditure, which adds to, and not merely maintains, the value of an existing fixed asset.

### **Capital Financing Costs**

This is the annual charge to the revenue account in respect of interest and principal repayments and payments of borrowed money, together with leasing rentals.

### **Capital Finance Requirement (CFR)**

Introduced as a result of the Prudential Framework for Capital Accounting and measures the underlying need of the Council to borrow for expenditure of a capital nature.

### **Capital Receipts**

Income received from the sale of land or other capital assets, a proportion of which may be used to finance new capital expenditure.

### **Carrying Amount**

The Balance Sheet value recorded of either an asset or liability.

### **Cash and Cash Equivalents**

Cash is represented by cash in hand and deposits with financial institutions payable without penalty on notice of not more than 24 hours. Cash equivalents are investments which are readily convertible to known amounts of cash with insignificant risk of change in value.

### **Chartered Institute of Public Finance and Accountancy (CIPFA)**

CIPFA is the leading professional accountancy body for public services.

### **Collection Fund**

A fund administered by the Council that shows the transactions of the billing authority, in relation to the collection from taxpayers of Council Tax and NDR and how the income from these sources has been distributed to precepting authorities, Central Government and the Council's General Fund Balances. The Collection Fund is maintained separately, as a statutory requirement.

### **Community Assets**

Non-current assets that an authority intends to hold in perpetuity which have no determinable finite useful life and, in addition, may have restrictions on their disposal. Examples include parks and historical buildings not used for operational purposes.

### **Contingent Liabilities or Assets**

These are amounts potentially due to or from individuals or organisations, which may arise in the future but which at this time cannot be determined accurately, and for which provision has not been made in the Council's accounts.

### **Corporate and Democratic Core**

Corporate and Democratic Core comprises all activities which local authorities engage in specifically because they are elected, multi-purpose authorities.

### **Corporate Governance**

Corporate governance is the Council's accountability for the stewardship of resources, risk management and relationship with the community. It encompasses policies on whistle blowing, fraud and corruption.

### **Council Tax**

This is the main source of local taxation to Local Authorities. Council Tax is levied on households within its area by the Billing Authority and the proceeds are paid into its Collection Fund for distribution to precepting Authorities and for use by its own General Fund Balances.

### **Council Tax Requirement**

This is the estimated revenue expenditure on General Fund services that needs to be financed from the Council Tax after deducting income from fees and charges, certain specific grants and any funding from reserves.

### **Creditors**

Amounts owed by the Council for work done, goods received or services rendered, for which payment has not been made at the date of the Balance Sheet.

### **Current Service Cost**

Current Service Cost is the increase in the present value of a defined benefit pension scheme's liabilities expected to arise from employee service in the current period, i.e. the ultimate pension benefits "earned" by employees in the current year's employment.

### **Debtors**

These are sums of money due to the Council that have not been received at the Balance Sheet date.

### **Deferred Capital Receipts**

These represent capital income still to be received after disposals have taken place and wholly consists of principal outstanding from the sale of council houses.

### **Defined Benefit Scheme**

This is a pension or other retirement benefit scheme other than a Defined Contribution Scheme. Usually, the scheme rules define the benefits independently of the contributions payable and the benefits are not directly related to the investments of the scheme. The scheme may be funded or unfunded (including notionally funded).

**Defined Contribution Scheme**

A Defined Contribution Scheme is a pension or other retirement benefit scheme into which an employer pays regular contributions as an amount or as a percentage of pay and will have no legal or constructive obligation to pay further contributions if the scheme does not have sufficient assets to pay all employee benefits relating to employee service in the current and prior periods.

**Department for Communities and Local Government (DCLG)**

A Department of Central Government with an overriding responsibility for determining the allocation of general resources to Local Authorities.

**Derecognition**

This is when financial assets and liabilities are removed from the Balance Sheet once performance under the contract is complete or the contract is terminated.

**Depreciation**

This is the measure of the wearing out, consumption, or other reduction in the useful economic life of a fixed asset.

**Discounts**

Discounts represent the outstanding discount received on the premature repayment of Public Works Loan Board loans. In line with the requirements of 'the Code', gains arising from the repurchase or early settlement of borrowing have been written back to revenue. However, where the repurchase or borrowing was coupled with a refinancing or restructuring of borrowing with substantially the same overall economic effect when viewed as a whole, gains have been recognised over the life of the replacement loan.

**Earmarked Reserves**

The Council holds a number of reserves earmarked to be used to meet specific, known or predicted future expenditure.

**Exceptional Items**

Material items deriving from events or transactions that fall within the ordinary activities of the Council, but which need to be separately disclosed by virtue of their size and/or incidence to give a fair presentation of the accounts.

**External Audit**

The independent examination of the activities and accounts of Local Authorities to ensure the accounts have been prepared in accordance with legislative requirements and proper practices and to ensure the Council has made proper arrangements to secure value for money in its use of resources.

**Expenditure**

This is amounts paid by the Council for goods received or services rendered of either a capital or revenue nature. This does not necessarily involve a cash payment since expenditure is deemed to have been incurred once the goods or services have been received even if they have not been paid for.

**Fair Value**

Fair value is the price at which an asset could be exchanged in an arm's length transaction, less any grants receivable towards the purchase or use of the asset.

**Finance Lease**

A finance lease is a lease that transfers substantially all of the risks and rewards of ownership of a fixed asset to the lessee.

### **Financial Instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another. The term 'financial instrument' covers both financial assets and financial liabilities and includes both the most straightforward financial assets and liabilities such as trade receivables and trade payables and the most complex ones such as derivatives and embedded derivatives.

### **General Fund Balances**

The main revenue fund of the Council and includes the net cost of all services financed by local taxpayers and Government grants.

### **Greater Manchester Waste Disposal Authority (GMWDA)**

This is a levying Authority that provides a waste disposal strategy, policy and services to nine of the AGMA Councils.

### **Heritage Asset**

A tangible asset with historical, artistic, scientific, technological, geophysical or environmental qualities that is held and maintained principally for its contribution to knowledge and culture.

### **Housing Benefit**

This is an allowance to persons on low income (or none) to meet, in whole or part, their rent. Benefit is allowed or paid by Local Authorities but Central Government refunds part of the cost of the benefits and of the running costs of the services to Local Authorities.

### **Impairment**

A reduction in the value of a non-current asset below its value brought forward in the Balance Sheet. Examples of factors which may cause such a reduction in value include general price decreases, a significant decline in a non-current asset's market value and evidence of obsolescence or physical damage to the asset.

### **Income**

These are amounts due to the Council for goods supplied or services rendered of either a capital or a revenue nature. This does not necessarily involve a cash payment. Income is deemed to have been earned once the goods or services have been supplied even if the payment has not been received (in which case the recipient is a debtor to the Council).

### **Infrastructure Assets**

Those non-current assets from which benefit can be obtained only by continued use of the asset created e.g. highways, footpaths and bridges.

### **Intangible Assets**

These are non-current assets that do not have physical substance but are identifiable and controlled by the Council. Examples include software, licenses and patents.

### **International Financial Reporting Standards (IFRS)**

Defined Accounting Standards that must be applied by all reporting entities to all financial statements in order to provide a true and fair view of the entity's financial position, and a standardised method of comparison with financial statements of the other entities.

### **Inventories**

Amounts of unused or unconsumed stocks held in expectation of future use.

### **Leasing Costs**

This is where a rental is paid for the use of an asset for a specified period of time. Two forms of lease exist: finance leases and operating leases.

### **Liabilities**

These are amounts due to individuals or organisations which will have to be paid at some time in the future. Current liabilities are usually payable within one year of the Balance Sheet date.

### **Liquid Resources**

Current asset investments that are readily disposable by the Council without disrupting its business and are either readily convertible to known amounts of cash at or close to the amount they are held at on the Balance Sheet, or traded in an active market.

### **Materiality**

The concept that any omission from or inaccuracy of the Statement of Accounts should not be large enough to affect the understanding of those statements by the reader. Materiality must be considered for individual amounts and also all amounts together.

### **Medium Term Financial Strategy (MTFS)**

This is a financial planning document that sets out the future years financial forecasts for the Council. It considers local and national policy influences and projects their impact on the general fund revenue budget and capital programme.

### **Minimum Revenue Provision (MRP)**

MRP is the minimum amount which must be charged to a Council's revenue account each year and set aside as provision for credit liabilities, as required by the Local Government and Housing Act 1989.

### **NDR (also known as Business Rates)**

Business Rates is the levy on business property, based on a national rate in the pound applied to the 'rateable value' of the property. The Government determines a national rate poundage each year which is applicable to all local authorities.

### **Net Book Value (NBV)**

The amount at which non-current assets are included in the Balance Sheet, i.e. their historical cost or current value less the cumulative amounts provided for by depreciation.

### **Non-current Asset**

Assets that yield benefits to the Council and the services it provides for a period of more than one year.

### **Non Distributed Costs**

These are overheads for which no user now benefits and should not be apportioned to services.

### **Net Realisable Value (NRV)**

NRV is the open market value of the asset in its existing use (or open market value in the case of non-operational assets) less the expenses to be incurred in realising the asset.

### **Operating Lease**

This is a type of lease, usually of computer equipment, office equipment, furniture, etc. where the balance of risks and rewards of holding the asset remains with the lessor. The asset remains the property of the lessor and the lease costs are revenue expenditure to the Council.

### **Precept**

The amount levied by one authority which is collected on its behalf by another (the billing authority).

### **Premiums**

These are discounts that have arisen following the early redemption of long term debt, which are written down over the lifetime of replacement loans where applicable.

**Prior Period Adjustments**

These are material adjustments which are applicable to an earlier period arising from changes in accounting policies or for the correction of fundamental errors.

**Private Finance Initiative (PFI)**

A Central Government initiative which aims to increase the level of funding available for public services by attracting private sources of finance. The PFI is supported by a number of incentives to encourage authorities' participation.

**Provisions**

Amounts set aside to meet liabilities or losses which it is anticipated will be incurred but where the amount and/or the timing of such costs are uncertain.

**Public Works and Loans Board (PWLB)**

An arm of Central Government which is the major provider of loans to finance long term funding requirements of Local Authorities.

**Related Parties**

Related parties are Central Government, other Local Authorities, precepting and levying bodies, subsidiary and associated companies, Elected Members, all Senior Officers from Assistant Director and above and the Pension Fund.

**Reserves**

Amounts set aside for general contingencies, to provide working balances or earmarked to specific future expenditure.

**Revenue Expenditure**

Expenditure incurred on the day-to-day running of the Council. This mainly includes employee costs, general running expenses and capital financing costs.

**Revenue Expenditure Funded from Capital under Statute (REFCUS)**

Expenditure incurred during the year that may be capitalised under statutory provision but that does not result in the creation of a non-current asset that has been charged as expenditure to the CIES.

**Service Reporting Code of Practice (SeRCOP)**

Prepared and published by CIPFA. SeRCOP establishes proper practices with regard to consistent financial reporting for services.

**Treasury Management**

This is the process by which the Council controls its cash flow and its borrowing and lending activities.

**Treasury Management Strategy**

A strategy prepared with regard to legislative and CIPFA requirements setting out the framework for treasury management activity for the Council.

**Unsupported (Prudential) Borrowing**

This is borrowing for which no financial support is provided by Central Government. The borrowing costs are to be met from current revenue budgets.

**Useful Economic Life**

The period over which the Council will derive benefits from the use of an asset.

# **Greater Manchester Pension Fund Statement of Accounts 2015/16**

**Greater Manchester Pension Fund**

**The Management and Membership of the Greater Manchester Pension Fund**

Tameside MBC is the statutory Administering Authority for the Greater Manchester Pension Fund (GMPF). The administration and investment performance of GMPF is considered and reviewed every quarter by the Management Panel, which consists of 22 elected Members (13 from Tameside MBC, being the Administering Authority, and 9 from other Greater Manchester local authorities) and a representative from the Ministry of Justice in relation to probation staff.

The Management Panel is advised in all areas by the Advisory Panel. Each of the 10 Greater Manchester local authorities and the Ministry of Justice are represented on the Advisory Panel and there are 6 employee representatives nominated by the North West TUC. There are also 3 External Advisors who assist the Advisory Panel, in particular regarding investment related issues.

As a result of the Public Service Pensions Act 2013 and subsequent Local Government Pension Scheme Regulations, each public sector pension fund has been required to establish a Local Pension Board from 1 April 2015.

The GMPF Local Pensions Board is not a decision making body. However, it is required to assist the GMPF in compliance with regulations and ensure that appropriate governance is in place.

GMPF also has 6 Working Groups, which consider particular areas of its activities and make recommendations to the Management Panel. These Working Groups cover:

- Investment Monitoring and Environment, Social and Governance issues
- Alternative Investments
- Pensions Administration
- Property
- Policy and Development
- Employer Funding and Viability

For 2015/16, there are 4 Officers to GMPF:

- Executive Director of Pensions – administrator of GMPF and link for Members, advisors and investment managers between meetings
- Chief Executive and Executive Director of Governance & Resources – responsible for the provision of legal and secretarial services to the Management and Advisory Panels
- Assistant Executive Director (Resources)/Section 151 Officer – responsible for preparation of Administering Authority's accounts which includes GMPF's Statement of Accounts

GMPF's investment strategy is implemented by management arrangements which include:

- 3 external Investment Managers that manage multi asset briefs
- external manager with a global equity brief
- 2 external managers with a direct and indirect UK property brief
- Internal management of cash, private equity, infrastructure, generalist pooled property funds, local and other unquoted investments

GMPF subscribes to an industry performance measurement service run by the WM Company in order to judge GMPF's performance relative to market returns and the rest of the pensions industry. In addition to this, GMPF also subscribes to WM's Local Authority Pension Fund Service to enable assessment of its performance relative to all other funds who operate under the same regulations.

GMPF is a statutory Local Government Pension Scheme (LGPS), set up to provide death and retirement benefits for local government employees other than teachers, fire fighters and police officers for whom separate arrangements exist. In addition, other qualifying bodies, which provide similar services to that of local authorities, have been admitted to GMPF.

GMPF operates a career average scheme whereby as each year goes by members build up a set portion of pay as a pension. It is funded by contributions from employees, which are set out in regulations, and variable contributions from employers, which take account of the relationship of assets to liabilities (see Actuarial Review of the Fund – Note 22). The benefits of the Scheme are prescribed nationally by Regulations made under the Public Service Pension Schemes Act 2013.

The membership of GMPF as at 31 March 2016 and the preceding year is shown below:

<b>31 March 2015</b>		<b>31 March 2016</b>
113,075	Contributors	111,328
110,898	Pensioners	114,444
116,452	Deferred Members *	124,949
<b>340,425</b>	<b>Total Membership</b>	<b>350,721</b>

\* Includes former contributors who have retained a right to a refund of contributions or a transfer of pension benefits to another scheme.

The employers contributing to GMPF can be found in Note 20.

Further information is published in the Greater Manchester Pension Fund Annual Report 2015/16 and Funding Strategy Statement (FSS). The FSS is available from [www.gmpf.org.uk](http://www.gmpf.org.uk) and the Annual Report will be published on the website following the Annual General Meeting in September 2016.

Notes to Greater Manchester Pension Fund

## 1. Notes to the Accounts

From 1 April 2010 GMPF was required to prepare its financial statements under International Financial Reporting Standards (IFRS). The financial statements have been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2015/16 based on IFRS, published by the Chartered Institute of Public Finance and Accountancy (CIPFA). This requires that GMPF accounts should be prepared in accordance with International Accounting Standard (IAS) 26, except where interpretations or adaptations to fit the public sector are detailed in the Code. The financial statements summarise the transactions of GMPF and deal with net assets at the disposal of the Management Panel. They do not take account of obligations to pay pensions and benefits which fall due after the end of the GMPF financial year. Under IFRS, GMPF is required to disclose the actuarial present value of promised retirement benefits. This is disclosed as a separate note (Note 25). The full actuarial position of GMPF which does take account of pension and benefit obligations falling due after the year end is outlined in Note 22. These financial statements should be read in conjunction with that information.

## 2. Accounting Policies

**Basis of preparation:** The accounts have been prepared on an accruals basis. That is, income and expenditure is recognised as it is earned or incurred including contributions receivable and pension benefits payable. Individual transfer values are recognised on a received or paid basis.

**Financial assets and liabilities:** On initial recognition, GMPF is required to classify financial assets and liabilities into held to maturity investments, available for sale financial assets, held for trading, designated at fair value through the Fund account, or loans and receivables. Financial assets may be designated as at fair value through the Fund account only if such designation (a) eliminates or significantly reduces a measurement or recognition of inconsistency, or (b) applies to a group of financial assets, financial liabilities or both that GMPF manages and evaluates on a fair value basis, or (c) relates to an instrument that contains an embedded derivative which is not evidently closely related to the host contract.

**Contribution income:** Normal contributions, both from the members and from the employer, are accounted for on an accruals basis at the percentage rate recommended by the fund actuary in the payroll period to which they relate. Employer deficit funding contributions are accounted for on the due dates on which they are payable under the schedule of contributions set by the scheme actuary or on receipt if earlier than the due date.

Employers' augmentation contributions and pensions strain contributions are accounted for in the period in which the liability arises. Any amount due in year but unpaid will be classed as a current financial asset. Amounts not due until future years are classed as long-term financial assets

**Additional Voluntary Contributions (AVC):** GMPF provides an AVC scheme for its contributors, the assets of which are invested separately from GMPF. These AVC sums are not included in GMPF's financial statements because GMPF has no involvement in the management of these assets. Members participating in this arrangement each receive an annual statement confirming the amount held in their account and the movements in the year. Further details are provided in Note 24.

**Additional Voluntary Contributions Income:** Where a member is able and chooses to use their AVC fund to buy scheme benefits, this is treated on a cash basis and is categorised within Transfers In.

**Investment Income:** Interest, property rent and dividends on fixed interest and equity investments and on short-term deposits has been accounted for on an accruals basis.

**Accrued Investment Income:** Accrued investment income has been categorised within investments in accordance with the appropriate Pensions Statement of Recommended Practice (SORP).

**Foreign Income:** Foreign income is translated into sterling at the rate applicable at the date of conversion. Income due at the year-end is translated at the rate applicable at 31 March 2016.

**Foreign Investments:** Foreign investments are translated at the exchange rate applicable at 31 March 2016. Any gains or losses arising on translation of investments into sterling are accounted for as a change in market value of investment.

**Rental income:** Rental income from operating leases on investment properties owned by GMPF is recognised on a straight line basis over the term of the lease. Any lease incentives granted are recognised as an integral part of the total rental income over the term of the lease. Contingent rents are only recognised when contractually due.

**Benefits:** Benefits includes all benefit claims payable by GMPF during the financial year.

**Investment Values:** All financial assets are valued at their fair value as at 31 March 2016 determined as follows:

<b>At 31 March 2016</b>	<b>Valuation basis/technique</b>	<b>Main assumptions</b>
Equities and bonds	Pricing from market data providers based on observable bid price quotations.	Use of pricing source. There are minor variations in the price dependent upon the pricing feed used.
Direct investment property	Independent valuations for freehold and leasehold investment properties at fair value; the main investment property portfolio has been valued by Colliers International Valuation UK LLP, Chartered Surveyors, as at 31 December 2015 subsequently adjusted for transactions undertaken between 1 January 2016 and 31 March 2016. The Greater Manchester Property Venture Fund portfolio has been valued as at 31 March 2016 by Bilfinger GVA. In both cases valuations have been in accordance with Royal Institute of Chartered Surveyors (RICS) Red Book.	Investment properties have been valued on the basis of open market value (the estimated amounts for which a property should exchange between a willing buyer and seller) and market rent (the expected benefits from holding the asset) in accordance with the RICS Appraisal and Valuation Manual. The values are estimates and may not reflect the actual values.
Indirect property (part of Pooled Investment Vehicles)	Independent valuations for freehold and leasehold properties less any debt within the individual property fund plus/minus other net assets.	Freehold and leasehold properties valued on an open market basis. Valuation carried out in accordance with the principles laid down by the RICS Appraisal and Valuation Manual and independent audit review of the net assets within the individual property fund.

**Greater Manchester Pension Fund Statement of Accounts 2015/16**

At 31 March 2016	Valuation basis/technique	Main assumptions
Derivatives	<p>Derivative contracts are valued at fair value.</p> <p>Futures contracts' fair value is determined using exchange prices at the reporting date. The fair value is the unrealised profit or loss at the current bid market quoted price. The amounts included in change in market value are the realised gains and losses on closed futures contracts and the unrealised gains and losses on open futures contracts. The fair value of the forward currency contracts is based on market forward exchange rates at the year-end date and determined as the gain or loss that would arise if the outstanding contract was matched at the year end with an equal and opposite contract.</p>	
Private equity, infrastructure and special opportunities portfolios	<p>The funds are valued either in accordance with Accounting Standards Codification 820 or with International Financial Reporting Standards (IFRS). The valuation basis, determined by the relevant Fund Manager, may be any of quoted market prices, broker or dealer quotations, transaction price, third party transaction price, industry multiples and public comparables, transactions in similar instruments, discounted cash flow techniques, third party independent appraisals or pricing models.</p>	<p>In reaching the determination of fair value, the investment managers consider many factors including changes in interest rates and credit spreads, the operating cash flows and financial performance of the investments relative to budgets, trends within sectors and/or regions, underlying business models, expected exit timing and strategy and any specific rights or terms associated with the investment, such as conversion features and liquidation preferences. The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates, and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expense. The estimates and assumptions are reviewed on an on-going basis.</p>
Cash and other net assets	Value of deposit or value of transaction	Cash and account balances are short-term, highly liquid and subject to minimal changes in value.

**Financial instruments at fair value through the fund account:** Financial assets and liabilities are stated at fair value as per the Net Assets Statement which is prepared in accordance with the Pensions SORP, requiring assets and liabilities to be reported on a fair value basis. Gains and losses on financial instruments that are designated as at fair value through the Fund account are recognised in the Fund account as they arise. The carrying values are therefore the same as fair values.

**Loans and receivables:** Non-derivative financial assets which have fixed or determinable payments and are not quoted in an active market are classified as loans and receivables.

**Cash and cash equivalents:** Cash comprises of cash in hand and demand deposits. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and that are subject to minimal risk of changes in values.

**Acquisition costs of investments:** Acquisition costs of investments are included in the purchase price.

**Management Expenses:** Investment management expenses paid directly by GMPF are included within Management Expenses within the Fund account on page 115. These costs together with other management costs are met from within the employer contribution rate. Certain of GMPF's external securities managers have contracts which include performance fees in addition to the annual management fees. The performance fees are based upon one off, non-rolling, 3 yearly calculations. It is GMPF policy to accrue for any performance fees which are considered to be potentially payable.

In addition certain investments in pooled vehicles, predominantly in private markets, alternatives and property have investment costs deducted directly by the investment managers. These costs are not charged directly to the Fund account nor analysed in Note 8. They are included in the fair value adjustments applied to assets concerned within the Fund account and corresponding notes. The performance of these investments is reported on a net basis. In line with CIPFA recommendations on improving disclosure of investment costs, Note 11 includes an estimate of these costs for this financial year and previous financial year.

Administration Expenses are included within Management Expenses within the Fund account. These costs are accounted for on an accruals basis. The costs of administration are met by employers through their employer contribution rate. All staff costs of the administering authority's pension service are charged direct to GMPF.

**Net (Profit)/Loss on Foreign Currency:** Net (profit)/loss on foreign currency comprises the change in value of short-term deposits due to exchange rate movements during the year.

**Actuarial present value of promised retirement benefits:** The actuarial present value of promised retirement benefits is assessed on an annual basis by the Actuary in accordance with the requirements of IAS19 and relevant actuarial standards. As permitted under IAS26, GMPF has opted to disclose the actuarial present value of promised retirement benefits by way of a note to the Net Asset Statement (see Note 25).

**Derivatives:** GMPF uses derivative financial instruments to manage its exposure to specific risks arising from its investment activities. GMPF does not hold derivatives for speculative purposes. Derivative contract assets are fair valued at bid prices and liabilities are fair valued at offer prices. Changes in fair value of derivative contracts are included in change in fair value.

Future contracts are exchange traded and fair value is determined using exchange prices at their reporting date. Amounts due or owed to the broker are amounts outstanding in respect of initial margin and variation margin.

Forward foreign exchange contracts are over the counter contracts and are valued by determining the gain or loss that would arise from closing out the contract at the reporting date, by entering into an equal and opposite contract at that date.

**Transfers:** Transfer values represent amounts received and paid during the period for individual members who have either joined or left GMPF during the financial year and are calculated in accordance with Local Government Pension Scheme Regulations.

Individual transfers in/out are accounted for when received/paid, which is normally when the member liability is accepted or discharged. This reflects when liabilities are transferred and received. Transfers in from members wishing to use the proceeds of their additional voluntary contributions to purchase scheme benefits are accounted for on a receipts basis and are included in transfers in. Bulk (group) transfers are accounted for on an accruals basis.

**Taxation:** GMPF is a registered public service scheme under section 1(1) of Schedule 36 of the Finance Act 2004 and as such is exempt from UK income tax on interest received and from capital gains tax on the proceeds of investments sold. Income from overseas investments suffers withholding tax in the country of origin, unless exemption is permitted. Irrecoverable tax is accounted for as a fund expense as it arises.

## **2a. Critical judgements in applying accounting policies**

In applying the policies, GMPF has had to make certain judgements about complex transactions, or those involving uncertainty. Those with most significant effect are:

- GMPF will continue in operational existence for the foreseeable future as a going concern;
- No investments are impaired (further detail on the investment strategy and approach to managing risk can be found in Note 4).

Any judgements made in relation to specific assets and liabilities, in addition to information stated in the relevant notes, can also be found in Note 2: Accounting Policies.

Compliance with IFRS requires the assumptions and uncertainties contained within figures in the accounts and the use of estimates to be explained. GMPF accounts contain estimated figures, taking into account historical experience, current trends and other relevant factors, as detailed below:

### **Unquoted equity, infrastructure and special opportunities investments**

Unquoted equities are valued by the investment managers in accordance with Accounting Standards Codification 820 or with International Financial Reporting Standards (IFRS). The value of unquoted equities, infrastructure and special opportunities held via investment in specialist pooled investment vehicles at 31 March 2016 was £1,043,193,000 (£686,936,000 at 31 March 2015).

### **Pension Fund Liability**

The present value of GMPF's liabilities is calculated every three years by an appointed actuary. For the purpose of reporting the actuarial present value of promised retirement benefits, this liability value is updated annually in intervening years by the Actuary. The methodology used is in line with accepted guidelines and in accordance with IAS 19. Assumptions underpinning the valuations are agreed with the Actuary and are summarised in Note 25. This estimate is subject to significant variances based on change to the underlying assumptions.

## **3. Classification of Financial Instruments**

Accounting policies describe how different asset classes of financial instruments are measured and how income and expenses, including fair value gains and losses, are recognised. The following table analyses the carrying amounts of financial assets and liabilities by category and net assets statement heading. No financial assets were reclassified during the accounting period.

	At 31 March 2016		
	Designated as fair value through profit and loss	Loans and receivables	Financial liabilities at amortised cost
	£000	£000	£000
<b>Financial assets:</b>			
Equities	6,495,402	0	0
Fixed interest	1,055,367	0	0
Index linked	565,447	0	0
Derivatives	0	0	0
Pooled investment vehicles	7,911,323	0	0
Cash	0	627,786	0
Other investment assets	0	132,550	0
Current assets	0	54,283	0
	<b>16,027,539</b>	<b>814,619</b>	<b>0</b>
<b>Financial liabilities:</b>			
Derivatives	(178)	0	0
Other investment liabilities	0	(21,925)	0
Current liabilities	0	(20,702)	0
	<b>(178)</b>	<b>(42,627)</b>	<b>0</b>
<b>Total</b>	<b>16,027,361</b>	<b>771,992</b>	<b>0</b>

Note: the above table does not include investment property.

	At 31 March 2015		
	Designated as fair value through profit and loss	Loans and receivables	Financial liabilities at amortised cost
	£000	£000	£000
<b>Financial assets:</b>			
Equities	6,748,315	0	0
Fixed interest	1,301,494	0	0
Index linked	547,437	0	0
Derivatives	325	0	0
Pooled investment vehicles	7,882,069	0	0
Cash	0	628,823	0
Other investment assets	0	159,956	0
Current assets	0	53,633	0
	<b>16,479,640</b>	<b>842,412</b>	<b>0</b>
<b>Financial liabilities:</b>			
Derivatives	0	0	0
Other investment liabilities	0	(114,206)	0
Current liabilities	0	(25,880)	0
	<b>0</b>	<b>(140,086)</b>	<b>0</b>
<b>Total</b>	<b>16,479,640</b>	<b>702,326</b>	<b>0</b>

Note: the above table does not include investment property.

### Net Gains and Losses on Financial Instruments

All gains and losses were on financial instruments and these were at fair value through the Fund account. The net loss for the year ending 31 March 2016 was £477,962,610 (and the 31 March 2015 net gain of £1,367,751).

### 3a. Valuation of financial instruments carried at fair value

The table below provides an analysis of the financial assets and liabilities of GMPF that are carried at fair value in the GMPF Net Asset Statement grouped into levels 1 to 3 based on the degree to which fair value is observable. Further details of the values shown can be found in Note 11.

	At 31 March 2016			
	Level 1 £000	Level 2 £000	Level 3 £000	Total £000
<b>Financial assets:</b>				
Equities	6,495,402	0	0	6,495,402
Fixed interest	0	1,055,367	0	1,055,367
Index linked	0	565,447	0	565,447
Derivatives	0	(178)	0	(178)
Pooled investment vehicles	0	6,274,360	1,636,963	7,911,323
<b>Total</b>	<b>6,495,402</b>	<b>7,894,996</b>	<b>1,636,963</b>	<b>16,027,361</b>

Note: the above table does not include investment property, cash, other investment assets/liabilities and net current assets.

	At 31 March 2015			
	Level 1 £000	Level 2 £000	Level 3 £000	Total £000
<b>Financial assets:</b>				
Equities	6,748,315	0	0	6,748,315
Fixed interest	0	1,301,494	0	1,301,494
Index linked	0	547,437	0	547,437
Derivatives	0	325	0	325
Pooled investment vehicles	0	6,667,607	1,214,462	7,882,069
<b>Total</b>	<b>6,748,315</b>	<b>8,516,863</b>	<b>1,214,462</b>	<b>16,479,640</b>

Note: the above table does not include investment property, cash, other investment assets/liabilities and net current assets.

The valuation of financial instruments has been classified into three levels according to the quality and reliability of information used to determine the fair values.

#### **Level 1**

Inputs to Level 1 are quoted prices on the asset being valued in an active market where there is sufficient transaction activity to allow pricing information to be provided on an ongoing basis. Financial instruments classified as Level 1 predominantly comprise actively traded shares.

#### **Level 2**

Level 2 prices are those other than Level 1 that are observable e.g. composite prices for fixed income instruments and fund net asset value prices. This is considered to be the most common level for all asset classes other than equities.

#### **Level 3**

Level 3 prices are those where at least one input, which could have a significant effect on the instrument's valuation, is not based on observable market data. Such instruments would include the GMPF private equity and infrastructure investments which are valued using various valuation techniques that require significant management judgement in determining appropriate assumptions, including earnings multiples, public market comparables and estimated future cash flows.

The valuation techniques used by GMPF are detailed in Note 2.

GMPF has cash, other investment assets and liabilities which will mature in the next 12 months. No valuation technique is required in relation to these investments and therefore assignment to a level is not applicable.

#### **4. Financial risk management**

The management panel of GMPF recognises that risk is inherent in any investment activity. GMPF has an active risk management programme in place and the measures which it uses to control key risks are set out in its Funding Strategy Statement (FSS).

The FSS is prepared in collaboration with GMPF's Actuary, Hymans Robertson LLP, and after consultation with GMPF's employers and investment advisors.

The FSS is reviewed in detail every 3 years in line with triennial valuations being carried out. A full review was completed by 31 March 2014.

GMPF's approach to risk measurement and its management is set out in its Statement of Investment Principles (SIP). The Management Panel recognises that risk is inherent in any investment activity. The overall approach is to reduce risk to a minimum where it is possible to do so without compromising returns (e.g. in operational matters), and to limit risk to prudently acceptable levels otherwise (e.g. in investment matters).

The means by which GMPF minimises operational risk and constrains investment risk is set out in further detail in its SIP (available at [www.gmpf.org.uk](http://www.gmpf.org.uk)).

Some risks lend themselves to being measured (e.g. using such concepts as 'Active Risk' and such techniques as 'Asset Liability Modelling') and where this is the case, GMPF employs the relevant approach to measurement. GMPF reviews new approaches to measurement as these continue to be developed.

GMPF's exposures to risks and its objectives, policies and processes for managing and measuring the risks have not changed throughout the course of the year.

#### **Market risk**

Market risk is the level of volatility in returns on investments caused by changes in market expectations, interest rates, credit spreads, foreign exchange rates and other factors.

This is calculated as the standard deviation of predicted outcomes. GMPF is exposed to market risk through its portfolio being invested in a variety of asset classes.

GMPF seeks to limit its exposure to market risk by diversifying its portfolio as explained within its SIP and by restricting the freedom of its fund managers to deviate from benchmark allocations. The asset allocation has been made with regard to the balance between expected returns and expected volatility of asset classes and using advice from GMPF's investment advisor, Hymans Robertson LLP.

The table below shows the expected market risk exposure or predicted volatilities of GMPF's investments:

<b>Asset Type</b>	<b>Potential Market Movements (+/-)</b>	
	<b>31 March 2015 p.a.</b>	<b>31 March 2016 p.a.</b>
UK equities	17.0%	17.1%
Overseas equities	20.1%	19.6%
Fixed interest - gilts	6.7%	6.7%
Index linked gilts	4.8%	5.1%
Corporate bonds	9.5%	9.5%
Overseas bonds	12.6%	12.2%
Property	14.7%	14.7%
Private equity	28.6%	28.7%
Infrastructure	15.9%	15.7%
Cash and other liquid funds	0.6%	0.6%
<b>GMPF</b>	<b>12.0%</b>	<b>12.7%</b>

The volatilities for each asset class and correlations used to create the total GMPF volatility have been estimated using standard deviations of 5,000 simulated one-year total returns using Hymans Robertson Asset Model, the economic scenario generator maintained by Hymans Robertson LLP.

The overall GMPF volatility has been calculated based on GMPF's target split as at 31 March 2015 and 2016. The calibration of the model is based on a combination of historical data, economic theory and expert opinion.

Had the market price of GMPF's investments increased/decreased over a period of a year in line with the data within the table above, the change in the market value of the net assets available to pay benefits as at 31 March 2015 and 2016 would have been as shown in the tables below.

<b>Asset Type</b>	<b>31 March 2016 £000</b>	<b>% Change p.a.</b>	<b>Value on increase £000</b>	<b>Value on decrease £000</b>
UK equities	3,851,532	17.1%	4,510,144	3,192,920
Overseas equities	7,304,655	19.6%	8,736,367	5,872,943
Fixed interest - gilts	531,952	6.7%	567,593	496,311
Index linked gilts	444,852	5.1%	467,539	422,164
Corporate bonds	1,056,847	9.5%	1,157,247	956,446
Overseas bonds	877,508	12.2%	984,564	770,452
Investment property	1,104,677	14.7%	1,267,065	942,289
Private equity	710,218	28.7%	914,051	506,385
Infrastructure	347,338	15.7%	401,870	292,806
Cash and other liquid funds	1,083,567	0.6%	1,090,068	1,077,066
<b>GMPF</b>	<b>17,313,145</b>	<b>12.7%</b>	<b>19,511,915</b>	<b>15,114,376</b>

Note: the above table does not include investment liabilities and net current assets.

<b>Asset Type</b>	<b>31 March 2015 £000</b>	<b>% Change p.a.</b>	<b>Value on increase £000</b>	<b>Value on decrease £000</b>
UK equities	3,834,754	17.0%	4,486,662	3,182,846
Overseas equities	7,765,183	20.1%	9,325,984	6,204,381
Fixed interest - gilts	570,034	6.7%	608,227	531,842
Index linked gilts	543,181	4.8%	569,254	517,108
Corporate bonds	1,147,979	9.5%	1,257,037	1,038,921
Overseas bonds	991,305	12.6%	1,116,210	866,401
Investment property	895,490	14.7%	1,027,127	763,853
Private equity	571,172	28.6%	734,527	407,817
Infrastructure	157,035	15.9%	182,004	132,066
Cash and other liquid funds	1,201,521	0.6%	1,208,730	1,194,312
<b>GMPF</b>	<b>17,677,654</b>	<b>12.0%</b>	<b>19,798,973</b>	<b>15,556,336</b>

Note: the above table does not include investment liabilities and net current assets.

### **Interest rate risk**

GMPF invests in financial assets for the primary purpose of obtaining a return on investments whilst recognising that there is a risk that returns will not be as expected. Changes in the level of interest rates will contribute to the volatility of returns in all asset classes. The table in the section on market risk shows the expected volatility over one year for GMPF's investment portfolio. One area directly affected by interest rate changes is the level of income expected from floating rate cash instruments. As at 31 March 2016, GMPF had £323,232,000 (2014/15 £412,417,000) invested in this asset via pooled investment vehicles. Therefore, a 1% change in interest rates will increase or reduce GMPF's return by £3,232,000 (2014/15 £4,124,170) on an annualised basis.

### **Currency risk**

GMPF invests in financial assets for the primary purpose of obtaining a return on investments whilst recognising that there is a risk that returns will not be as expected. Changes in the level of foreign exchange rates will contribute to the overall volatility of overseas assets. GMPF's approach is to consider these risks in a holistic nature. The table in the section on market risk shows the expected volatility over one year for GMPF's investment portfolio including overseas assets which are separately identified.

### **Credit risk**

Credit risk represents the risk that the counterparty to a transaction or a financial instrument will fail to discharge an obligation and cause GMPF to incur a financial loss. The market values of investments generally reflect an assessment of credit risk in their pricing and consequently the risk of loss is implicitly provided for in the carrying value of GMPF's financial assets and liabilities. The volatility of credit risk is encapsulated within the overall volatility of assets detailed in the table showing market risk.

In essence, GMPF's entire investment portfolio is exposed to some form of credit risk. However, the selection of high quality counterparties, brokers and financial institutions minimises the credit risk that may occur through the failure to settle a transaction in a timely manner.

Contractual credit risk is represented by the net payment or receipt that remains outstanding, and the cost of replacing the derivative positions in the event of counterparty default. The residual risk

is minimal due to the various insurance policies held by the exchanges to cover defaulting counterparties.

Deposits are not made with banks and financial institutions unless they are rated independently and meet Tameside MBC's (TMBC), as administering authority, credit criteria. TMBC has also set limits as to the maximum percentage of the deposits placed with any one class of financial institution. In addition, TMBC invests an agreed percentage of its funds in the money markets to provide diversification. Money market funds chosen all had a "AAA" rating from a leading ratings agency.

TMBC believes it has managed its exposure to credit risk, and has had no experience of default or uncollectable deposits. GMPF's cash holding under its Treasury Management arrangements at 31 March 2016 was £606,958,000 (31 March 2015 £577,813,000). This was held with the following institutions.

<b>SUMMARY</b>	<b>RATING</b>	<b>Balance at 31 March 2015</b>	<b>Balance at 31 March 2016</b>

## Liquidity risk

Liquidity risk represents the risk that GMPF will not be able to meet its financial obligations as they fall due. TMBC therefore take steps to ensure that GMPF has adequate cash resources to meet its commitments. This will particularly be the case for cash from the liability matching mandates from the main investment strategy to meet the pensioner payroll cost; and also cash to meet investment commitments.

TMBC has immediate access to the GMPF cash holdings, with the exception of investments placed with other local authorities – where periods are fixed when the deposit is placed.

GMPF had in excess of £606 million cash balances at 31 March 2016.

All financial liabilities at 31 March 2016 are due within one year.

The majority of GMPF assets are liquid, their value could be realised within one week. The table below shows GMPF investments in liquidity terms.

<b>31 March 2015</b> <b>£000</b>	<b>Liquidity terms</b>	<b>31 March 2016</b> <b>£000</b>
16,023,957	Assets realisable within 7 days	14,960,297
20,000	Assets realisable in 8-30 days	101,000
10,000	Assets realisable in 31-90 days	56,615
1,623,697	Assets taking more than 90 days to realise	2,195,233
<b>17,677,654</b>	<b>Total</b>	<b>17,313,145</b>

Management prepares periodic cash flow forecasts to understand and manage the timing of GMPF's cash flows. The appropriate strategic level of cash balances to be held is a central consideration when preparing GMPF's annual investment strategy.

The effects of reductions in public expenditure are expected to result in a significant maturing of GMPF's liabilities, with fewer employee members and more pensioner and deferred members. However, when income from investments is taken into account, GMPF is expected to continue to be cash flow positive for the foreseeable future and it will not be a forced seller of investments to meet its pension obligations.

## 5. Contributions

### By Category

<b>31 March</b> <b>2015</b> <b>£000</b>		<b>31 March</b> <b>2016</b> <b>£000</b>
(138,267)	Employees contributions	(142,090)
	Employers:	
(404,839)	Normal contributions	(444,978)
(15,408)	Deficit recovery contributions	(9,075)
(485)	Augmentation contributions	(393)
(420,732)	Total employers	(454,446)
<b>(558,999)</b>	<b>Total contributions</b>	<b>(596,536)</b>

**By Authority**

<b>31 March 2015 £000</b>		<b>31 March 2016 £000</b>
(357,785)	Part 1 Schedule 2 Scheme Employers	(366,668)
(79,494)	Designating bodies	(98,708)
(111,628)	Community admission bodies	(115,053)
(10,092)	Transferee admission bodies	(16,107)
<b>(558,999)</b>		<b>(596,536)</b>

Scheme employers can be split into those listed in Part 1 of Schedule 2 of the Local Government Pension Scheme (Administration) Regulations 2008 (as amended) (such as local authorities) which participate automatically, and those listed in Part 2 (such as town councils) which can only participate if they choose to do so by designating employees or groups of employees as eligible. Part 2 employers are called designating bodies. Community admission bodies provide a public service in the United Kingdom otherwise than for the purposes of gain and have sufficient links with a Scheme employer. Transferee admission bodies are commercial organisations carrying out work for local authorities under a best value or other arrangement. Further analysis by employer is contained in Note 20 of these statements.

At the 2013 Actuarial Valuation, GMPF was assessed as 90.5% funded. Contribution increases are phased over the 3 year period ending 31 March 2017. The phasing results in deficit contributions increasing over the period, and some employers will make contributions in excess of their future service rate.

The contribution rates specified in the Actuarial Valuation are minimum contribution rates. Some employers have made voluntary payments in excess of these minimum rates. In addition, a small number of employers were required to make explicit deficit payments – details of these can be found in the 2013 Actuarial Valuation report located at [www.gmpf.org.uk](http://www.gmpf.org.uk).

**6. Benefits Payable**

**By Category**

<b>31 March 2015 £000</b>		<b>31 March 2016 £000</b>
529,224	Pensions	573,447
95,666	Commutation & lump sum retirement benefits	114,724
11,703	Lump sum death benefits	16,606
<b>636,593</b>		<b>704,777</b>

**By Authority**

<b>31 March 2015 £000</b>		<b>31 March 2016 £000</b>
520,745	Part 1 Schedule 2 Scheme Employers	558,866

Transferee admission bodies are commercial organisations carrying out work for local authorities under a best value or other arrangement. Further analysis by employer is contained in Note 20 of these statements.

**7. Payments to and on account of leavers**

<b>31 March 2015 £000</b>		<b>31 March 2016 £000</b>
1,000	Group transfers to other schemes	5,420
25,176	Individual transfers to other schemes	28,343
18	Payments for members joining state scheme	462
(50)	Income for members from state scheme	(155)
342	Refunds to members leaving service	1,048
<b>26,486</b>		<b>35,118</b>

**8. Management Expenses**

The costs of administration and investment management are met by the employers through their employer contribution rate.

In June 2014, CIPFA published guidance on Accounting for LGPS Management Costs. The aim of this guidance is to assist in the improvement of consistent and comparable data across LGPS funds. GMPF Scheme management costs have been categorised in accordance with this guidance in the tables below. The 2015 figures have been restated to be consistent with the 2016 methodology for calculating these costs.

**Investment management expenses:**

<b>31 March (restated) 2015 £000</b>		<b>31 March 2016 £000</b>
1,244	Employee costs	1,211
138	Support services including IT	67
10,699	Management fees	11,541
349	Custody fees	320
<b>12,430</b>		<b>13,139</b>

**Administrative costs:**

<b>31 March (restated) 2015 £000</b>		<b>31 March 2016 £000</b>
3,307	Employee costs	3,695
1,114	Support services including IT	1,031
42	Printing and publications	100
<b>4,463</b>		<b>4,826</b>

**Oversight and governance costs:**

<b>31 March (restated) 2015 £000</b>		<b>31 March 2016 £000</b>
423	Employee costs	412
381	Support services including IT	315
109	Governance and decision making costs	152
53	Investment performance monitoring	56
68	External audit fees	62
102	Internal audit fees	102
109	Actuarial fees - investment consultancy	131
78	Actuarial fees	135
<b>1,323</b>		<b>1,365</b>

\* Total fee paid to external auditors in 2015/16 is £62,337 (2014/15 £68,332) of which £5,996 (2014/15 £11,992) was paid in relation to work carried out on behalf of GMPF's main scheme employers

**9. Investment income**

<b>31 March 2015 £000</b>		<b>31 March 2016 £000</b>
(46,022)	Fixed interest (corporate and government bonds)	(45,208)
(193,904)	Equities	(205,567)
(4,779)	Index linked	(5,106)
(25,343)	Pooled investment vehicles	(31,100)
(24,748)	Investment property (gross)	(28,237)
2,107	Investment property non-recoverable expenditure	3,869
(2,869)	Interest on cash deposits	(4,039)
(1,118)	Stocklending	(744)
(48)	Underwriting	(44)
<b>(296,724)</b>		<b>(316,176)</b>

In accordance with IAS 12 Income Taxes, investment income includes withholding taxes and irrecoverable withholding tax is analysed separately as a tax charge. Income received by Legal and General pooled funds is automatically reinvested within the relevant sector fund and thus excluded from the above analysis. Similarly, UBS pooled funds for Emerging Market Equities, Capital International pooled funds for Emerging Market Equities and High Yield Bonds, Aviva Investors Property Fund, Standard Life Pooled Property Pension Fund and Standard Life Investments UK Property Development Fund in which GMPF invest have income automatically reinvested with that fund.

### **9a. Investment Return by Proxy**

On 1st June 2014, in accordance with Statutory Instrument 1146 (2014), GMPF became the sole administering authority for probation staff and former probation staff in England and Wales that have or are eligible for LGPS membership.

The transfer of assets from the former Administering Authorities was a staged process throughout 2014/15 to 2015/16, with the ceding LGPS funds paying an estimated compensatory amount to GMPF to reflect investment returns for the period between the agreed transfer date and the actual transfer value receipt date. Once the actual investment returns of the transferring funds were established, the amount was refreshed and an adjustment paid to or from GMPF to reflect this return.

### **10. Taxation**

GMPF is exempt from UK income tax on interest and from capital gains tax on the profits resulting from the sale of investments. GMPF is exempt from United States withholding tax on dividends and can recover all or part of the withholding tax deducted in some other countries. The amount of withholding tax deducted from overseas dividends which GMPF is unable to reclaim in 2015/16 amounts to £2,612,000 (2014/15 £2,286,000) and is shown as a tax charge.

As Tameside MBC is the Administering Authority for GMPF, VAT input tax was recoverable on all GMPF activities including expenditure on investment and property expenses.

### **11. Investments at fair value**

The following tables analyse the carrying amounts of the financial assets and liabilities by category.

**Greater Manchester Pension Fund Statement of Accounts 2015/16**

Value at 1 April 2015 £000		Purchases £000	Sales £000	Change in fair value £000	Value at 31 March 2016 £000
	<b>Designated as at fair value through the fund account</b>				
6,748,315	Equities	2,593,343	(2,350,927)	(495,329)	6,495,402
1,301,494	Fixed interest	418,893	(628,383)	(36,636)	1,055,368
547,437	Index linked	379,078	(379,590)	18,522	565,447

73,503	Other investments and net assets				144,206
<b>17,591,201</b>	<b>Total</b>				<b>17,324,623</b>

Value at 1 April 2014 £000		Purchases £000	Sales £000	Change in fair value £000	Value at 31 March 2015 £000
	<b>Designated as at fair value through the fund account</b>				
6,172,402	Equities	3,931,485	(3,771,637)	416,065	6,748,315
1,303,436	Fixed interest	1,136,109	(1,259,002)	120,951	1,301,494
371,426	Index linked	269,197	(137,102)	43,916	547,437
376,835	Property	39,150	(12,260)	5,510	409,235
299	Derivatives	1,831	(17,571)	15,766	325
4,287,243	Pooled investment vehicles	4,148,905	(1,325,131)	771,052	7,882,069
12,511,641		9,526,677	(6,522,703)	1,373,260	16,888,875
	<b>Loans and receivables</b>				
704,032	Cash				628,823
68,381	Other investments and net assets				73,503
<b>13,284,054</b>	<b>Total</b>				<b>17,591,201</b>

The change in market value of investments during the year comprises all increases and decreases in the market value of investments held at any time during the year, including profits and losses realised on sales of investment during the year.

**Investment Property**

31 March 2015 £000		31 March 2016 £000
369,900	UK - Main property portfolio	486,535
39,335	UK - Greater Manchester Property Venture Fund *	38,735
<b>409,235</b>		<b>525,270</b>

**Greater Manchester Pension Fund Statement of Accounts 2015/16**

\* An amount of £47,666,000 (2014/15 £46,239,000) relating to Greater Manchester Property Venture Fund has not been included in this total but is recorded under property unit trusts within Pooled Investment Vehicles analysis section of Note 11

All investment property is located in England, Wales or Scotland and, in order to reduce risk, is diversified over several sectors which include high street retail, offices, industrial/retail warehousing, leisure, healthcare and student accommodation. Gross and net rental income are shown in Note 9 of these accounts.

With the sole exception of two investment properties, where a rent sharing agreement is in place with the freeholder, no directly held investment property has restrictions on its realisation, remittance of income or disposal proceeds.

Committed expenditure in relation to investment property can be found at Note 17.

In accordance with the Investment Property Strategy, decisions have been taken to sell six investment properties. These were either being prepared for sale, were being marketed or prices had been agreed at 31 March 2016 (combined prices totalled £41,070,000).

The following tables summarise the movement in the fair value of investment properties over the year:

<b>Movement in the fair value of investment properties in 2015/16</b>	<b>£000</b>
Balance at 1 April 2015	409,235
Purchases	114,650
Expenditure during year	5,856
Disposals	(26,666)
Net gains/ (losses) from fair value adjustments	22,195
<b>Balance at 31 March 2016*</b>	<b>525,270</b>

\* Of which £41,070,000 relates to properties being marketed at 31 March 2016.

<b>Movement in the fair value of investment properties in 2014/15</b>	<b>£000</b>
Balance at 1 April 2014	376,835
Purchases	37,750
Expenditure during year	1,401
Disposals	(12,260)
Net gains/ (losses) from fair value adjustments	5,509
<b>Balance at 31 March 2015</b>	<b>409,235</b>

**.Future Operating Lease Rentals Receivable**

<b>31 March 2015 £000</b>		<b>31 March 2016 £000</b>
21,177	Not later than 1 year	23,873
63,233	Later than 1 year, but not later than 5 years	78,366
154,921	Later than 5 years	179,671
<b>239,331</b>	<b>Total</b>	<b>281,910</b>

The future minimum lease payments due to GMPF under non-cancellable operating leases are stated above.

Where a lease contains a “tenant’s break” clause, it is only up to this point that the aggregation is made.

**Derivatives**

<b>31 March 2015 £000</b>		<b>31 March 2016 £000</b>
	<b>Investment assets:</b>	
180	Forward Currency contracts	183
318	FTSE 100 Index future	0
498		183
	<b>Investment liabilities:</b>	
(173)	Forward Currency contracts	(361)
<b>325</b>	<b>Net (liability)/asset</b>	<b>(178)</b>

Derivative receipts and payments represent the realised gains and losses on futures contracts and forward currency contracts. GMPF’s objective in entering into derivative positions is to decrease risk in the portfolio.

<b>31 March 2016</b>	<b>Settlement Date</b>	<b>Currency</b>	<b>Currency Bought</b>	<b>Currency</b>	<b>Currency Sold</b>	<b>Asset</b>	<b>Liability</b>

<b>(25,880)</b>	<b>Current liabilities</b>	<b>(20,702)</b>
<b>27,753</b>	<b>Net current assets</b>	<b>33,581</b>
<b>73,503</b>	<b>Other investment balances and net assets</b>	<b>144,206</b>

**11a. Transaction and management costs not charged directly to the fund account**

**Transaction Costs**

The charges for Transaction Costs are currently implicit within the value of assets concerned. Consequently, they are not charged directly to the Fund account nor analysed in Note 8 of these financial statements. Instead, they are reflected in the fair value adjustments applied both to the assets concerned and the Fund account.

Transaction costs include commissions, stamp duty and other fees. With the aim of increasing transparency, the costs generated from acquisitions and disposals in the following investment areas were:-

<b>31 March 2015 £000</b>		<b>31 March 2016 £000</b>
5,330	Public market investments	6,498
944	Directly held investment property	5,797
<b>6,274</b>		<b>12,295</b>

The CIPFA Code of Practice (and guidance related to the Code) does not require 'bid-offer spread' to be reported as a transaction cost.

### **Management Costs**

Certain investments in pooled vehicles predominantly in private markets, alternatives and property have investment costs met within the vehicle rather than an explicit charge paid by GMPF. Thus costs are not charged directly to the Fund account nor analysed in Note 8. They are included in the fair value adjustments applied to assets concerned within the Fund account and corresponding notes. The performance is reported on a net basis.

The table below shows estimates made for these costs during the current and previous financial year using methodology agreed with external advisers on private assets and include potential accrued performance fees.

The 2015 figure has been restated to be consistent with the 2016 methodology for calculating these costs. The data response from the underlying managers has improved as they have understood requirements better. The figures show a trend upwards as amounts invested in these vehicles have increased due to asset allocation changes. The costs are offset by improved risk adjusted investment returns.

<b>31 March 2015 (restated) £000</b>		<b>31 March 2016 £000</b>
18,027	Private market and alternative investments (performance related)	19,551
20,358	Private market and alternative investments (non-performance related)	27,554
2,020	Indirect investment property	2,021
<b>40,405</b>		<b>49,126</b>

### **12. Local investments**

GMPF invests within the North West of England with a focus on the Greater Manchester conurbation in property development and redevelopment opportunities. This programme of investments is delivered through Greater Manchester Property Venture Fund.

<b>31 March 2015 £000</b>		<b>31 March 2016 £000</b>
85,574	Greater Manchester Property Venture Fund	86,400

### 13. Designated funds

A small number of employers within GMPF have a materially different liability profile. Some earmarked investments are allocated to these employers. The investments of the designated fund incorporated in the Net Asset statement are as follows:

<b>31 March 2015 £000</b>		<b>31 March 2016 £000</b>
140,069	Index linked	138,641
134,121	Cash	112,999
1,272	Other investment balances	1,288
<b>275,462</b>		<b>252,928</b>

### 14. Summary of managers' portfolio values at 31 March

<b>2015</b>			<b>2016</b>	
<b>£m</b>	<b>%</b>		<b>£m</b>	<b>%</b>
		<b>Externally managed</b>		
6,446	36.6%	UBS Global Asset Management	6,104	35.1%

### 15. Concentration of investment

As at 31 March 2016, GMPF held, respectively, 16.8% and 15.9% of its net assets in insurance contracts MF32950 and MF36558 with Legal & General Assurance (Pensions Management) Limited. They are linked long term contract under Class III of Schedule 1 of the Insurance Companies Act 1982 and not "with profits" contracts.

The policy documents have been issued and the values are incorporated in the Net Asset statement within pooled investment vehicles. The policies' underlying asset classes are as follows:-

**POLICY MF32950**

<b>31 March 2015 £000</b>		<b>31 March 2016 £000</b>
245,034	UK equities	249,864

0	Greater Manchester Property Venture Fund	Commitment to lend	2,136
<b>675,410</b>			<b>1,539,436</b>

The above expenditure was contractually committed as at 31 March and a series of staged payments are to be made at future dates.

**18. Related party transactions**

In the course of fulfilling its role as administering authority to GMPF, Tameside MBC incurred costs for services (e.g. salaries and support costs) and construction of new pension building of £8,832,000 on behalf of GMPF and reclaimed from HMRC VAT (net) of £475,000. Total payments due to Tameside MBC therefore, amounted to £8,357,000 (2014/15 £13,920,000). GMPF reimbursed Tameside MBC £7,779,000 for these charges and there is a creditor of £578,000 owing to Tameside MBC at the yearend (2014/15 £1,192,000 within Creditors). This creditor has been settled since the year end.

For 2015/16, the Executive Director of Pensions has his entire full-time remuneration and any employer's pension contributions of £111,283 (2014/15 £111,283) charged to GMPF. This amount is also detailed in Tameside MBC's accounts.

Other key management personnel full time and total remuneration and employer's pension contributions are as shown below:-

<b>Job Title</b>	<b>£</b>
Assistant Executive Director - Investments	91,836
Assistant Executive Director - Administration	91,836
Assistant Executive Director - Funding & Business Development	91,836
Assistant Executive Director - Local Investment & Property	91,836

There is no direct charge to GMPF for the services provided by the Chief Executive, the Assistant Executive Director (Resources)/Section 151 Officer and the Executive Director of Governance &

Resource of Tameside MBC, but a contribution towards their cost is included in the recharge as detailed above. They receive no additional salary or remuneration for undertaking this role. Details of the total remuneration of these officers will be published on the Tameside MBC website. The remuneration of the Chairman of the Management Panel can be found by accessing the following link:

<http://www.tameside.gov.uk/constitution/part6>

Paragraph 3.9.4.3 of the CIPFA Code of Practice on Local Authority Accounting in the United Kingdom exempts Local Authorities on the Key Management Personnel disclosure requirements of IAS 24, on the basis that the disclosure requirements for officer remuneration and members' allowances detailed in Section 3.4 of the code (which are derived from the requirements of Regulation 7(2)-(4) of the Accounts and Audit (England) Regulations 2011 and Regulation 7A of the Accounts and Audit (Wales) Regulations (2005) satisfy the Key Management Personnel disclosure requirements of paragraph 16 of IAS 24.

The disclosures required by regulation 7(2)-(4) of the Accounts and Audit (England) Regulations can be found in the main accounts of the administering authority - Tameside MBC.

No senior officers responsible for the administration of GMPF have entered into any contract (other than their contract of employment) with Tameside MBC (administering authority).

A number of members of the Local Board, the Management Panel and officers responsible for the administration of GMPF have directorships in companies which have been incorporated for the sole purpose of the investment administration and management of GMPF's assets. These are:

<b>Name</b>	<b>Position in GMPF 2015/16</b>	<b>Company in which directorship is held</b>
Cllr J Taylor	Management Panel Member	Elisabeth House (General Partner) Limited
Peter Morris	Executive Director - Pensions	GMPF UT (Second Unit Holder) Limited Elisabeth House Nominee 1 Limited Elisabeth House Nominee 2 Limited Elisabeth House (General Partner) Limited Airport City (Asset Manager) Limited
Andrew Hall	Investment Manager	GMPF UT (Second Unit Holder) Limited Matrix Homes (General Partner) Limited Plot 5 First Street GP Limited Plot 5 First Street Nominee Limited
Neil Charnock	Head of Legal Services	Hive Bethnal Green Limited
Patrick Dowdall	Assistant Executive Director - Local Investment & Property	Matrix Homes (General Partner) Limited Hive Bethnal Green Limited GLIL Corporate Holdings Limited Plot 5 First Street GP Limited Plot 5 First Street Nominee Limited
Nigel Driver	Investment Manager	Hive Bethnal Green Limited
Steven Pleasant	Chief Executive	Airport City (General Partner) Limited
Daniel Hobson	Senior Investment Manager	GLIL Corporate Holdings Limited Clyde Windfarm (Scotland) Limited

The above receive no remuneration for these directorships.

Under legislation introduced in 2003/04, Councillors were entitled to join the pension scheme. Councillor J Pantall, member of the GMPF Management Panel, and employee representative F

Llewellyn both received pension benefits from GMPF during the financial year. In addition, the following Councillors, members of the GMPF Management and Advisory Panels, members of the Local Board and employee representatives made pension contributions to GMPF during the financial year:

<b>Name</b>	<b>Position</b>
Cllr K Quinn	Councillor member
Cllr S Quinn	Councillor member
Cllr J Taylor	Councillor member
Cllr G Cooney	Councillor member
Cllr J Fitzpatrick	Councillor member
Cllr J Lane	Councillor member
Cllr M Smith	Councillor member
Cllr A Mitchell	Councillor member
Cllr D Ward	Councillor member
Cllr T Halliwell	Councillor member
D Schofield	Employee representative
J Thompson	Employee representative
M Baines	Employee representative
M Rayner	Employee representative
K Drury	Employee representative

Each member of the Local Board, the GMPF Management and Advisory Panels and Working Groups formally considers declarations of interest at each meeting. In addition, an annual return of all declarations of interest is obtained from the members by their respective Councils. Those relevant to GMPF Management Panel membership are listed on the next page:

The administering authority, Tameside MBC, falls under the influence of The United Kingdom Department of Communities and Local Government. GMPF may have significant holdings of UK Government bonds depending on investment decisions

**19. Employer related investment**

As at 31 March 2016, GMPF had amounts totalling £9,000,000 (2015 £5,000,000) on short-term loan to Salford City Council and £5,000,000 (2015 £nil) to Stockport Metropolitan Borough Council. The investments were made as part of GMPF's day-to-day treasury management activities and are detailed, together with other short-term loans, in Note 4 (Credit Risk).

**20. Contributions received and benefits paid during the year ending 31 March**

Contributions Received 2015 £m	Benefits Paid 2015 £m		Contributions Received 2016 £m	Benefits Paid 2016 £m
(31)	36	Bolton Borough Council	(33)	36
(19)	24	Bury Borough Council	(20)	26
(54)	91	Manchester City Council	(54)	97
(19)	30	Oldham Borough Council	(19)	31
(23)	29	Rochdale Borough Council	(22)	30
(27)	36	Salford City Council	(27)	37
(22)	31	Stockport Borough Council	(24)	28
(20)	29	Tameside Borough Council (administering authority)	(20)	32
(19)	22	Trafford Borough Council	(17)	25
(29)	35	Wigan Borough Council	(32)	38
(174)	177	Other scheme employers *	(197)	205
(122)	97	Admitted bodies *	(131)	120
<b>(559)</b>	<b>637</b>		<b>(596)</b>	<b>705</b>

\* A full list of all scheme and admitted bodies can be found in the GMPF Annual Report 2015/16 which will be available at [www.gmpf.org.uk](http://www.gmpf.org.uk), following the GMPF Annual General Meeting in September 2016.

**21. Statement of Investment Principles and Funding Strategy Statement**

GMPF has published a Statement of Investment Principles and a Funding Strategy Statement. Both documents can be found on its website - [www.gmpf.org.uk](http://www.gmpf.org.uk).

**22. Actuarial Review of the Fund**

GMPF's last Actuarial valuation was undertaken as at 31 March 2013. A copy of the valuation report can be found on the GMPF website –

<http://www.gmpf.org.uk/2014/documents/policies/actuarialvaluation/2013.pdf>

The funding policy is set out in the Funding Strategy Statement (FSS) dated 7 March 2014. The key funding principles are as follows:

- to ensure the long-term solvency of GMPF as a whole and the solvency of each of the notional sub-funds allocated to individual employers;
- to ensure that sufficient funds are available to meet all benefits as they fall due for payment;
- to ensure that employers are aware of the risks and the potential returns of the investment strategy;
- to help employers recognise and manage pension liabilities as they accrue, with consideration as to the effect on the operation of their business where the Administering Authority considers this to be appropriate;
- to try to maintain stability of employer contributions;
- to use reasonable measures to reduce the risk to other employers, and ultimately to the Council Tax payer, from an employer ceasing participation or defaulting on its pension obligations;
- to address the different characteristics of the disparate employers or groups of employers to the extent that this is practical and cost-effective; and
- to maintain the affordability of GMPF to employers as far as is reasonable over the longer term.

The valuation revealed that GMPF's assets, which at 31 March 2013 were valued at £12,590 million, were sufficient to meet 90.5% of the present value of promised retirement benefits earned. The resulting deficit was £1,317 million.

The key financial assumptions adopted for the 2013 valuation were:

	31 March 2013	
	Nominal % p.a.	Real % p.a.
<b>Financial assumptions</b>		
Discount rate	4.80%	2.30%
Pay increases*	3.55%	1.05%
Price inflation/Pension increases	2.50%	-

\* plus an allowance for promotional pay increase.

The liabilities were assessed using an accrued benefits method that takes into account pensionable membership up to the valuation date. It also makes an allowance for expected future salary growth to retirement or expected earlier date of leaving pensionable membership.

### **23. Stocklending**

GMPF's custodian, J P Morgan, is authorised to release stock to third parties under a stocklending agreement. Under the agreement, GMPF do not permit J P Morgan to lend UK or US equities.

At the year end the value of stock on loan was £89.1m (31 March 2015: £255.9m) in exchange for which the custodian held collateral at fair value of £93.4m (31 March 2015: £269.3m), which consisted exclusively of UK, US, and certain other government bonds.

**24. AVC Investments**

GMPF provides an AVC scheme for its contributors, the assets of which are invested separately from GMPF. Therefore, these amounts are not included in the GMPF accounts in accordance with regulation 4(2)(b) of the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009 (SI 2009 No 3093).

The scheme provider is Prudential where the sums saved are used to secure additional benefits on a money purchase basis for those contributors electing to pay additional voluntary contributions. The funds are invested in a range of investment products including with profits, fixed interest, equity, cash, deposit, property, and socially responsible funds, as follows:

Contributions paid	£8,395,506
Units purchased	1,404,232
Units sold	1,020,815
<b>Fair value as at 31 March 2016</b>	<b>£70,710,313</b>
Fair value as at 31 March 2015	£69,607,015

**25. Actuarial present value of promised retirement benefits**

CIPFA's Code of Practice on Local Authority Accounting 2015/16 requires administering authorities of LGPS funds to disclose the actuarial present value of promised retirement benefits in accordance with IS26 Accounting and Reporting by Retirement Benefit Plans.

This value has been calculated by GMPF's Actuary, Hymans Robertson LLP, using the assumptions below.

**Assumptions used**

The assumptions used are those adopted for the administering authority's IAS19 Employee Benefits report at each year end as required by the CIPFA Code of Practice on Local Authority Accounting 2015/16.

**Financial Assumptions**

<b>31 March 2015 % p.a.</b>	<b>Year ended:</b>	<b>31 March 2016 % p.a.</b>
2.40%	Inflation/pension increase rate	2.20%
3.55%	Salary increase rate	3.50%
3.20%	Discount rate	3.50%

**Mortality**

Life expectancy is based on GMPF's VitaCurves with improvements in line with the CMI 2010 model, assuming the current rate of improvements has reached a peak and will converge to a long term rate of 1.25% p.a.. Based on these assumptions, the average future life expectancies at age 65 are summarised below:

	<b>Males</b>	<b>Females</b>
Current pensioners	21.4 years	24.0 years
Future pensioners*	24.0 years	26.6 years

\* future pensioners are assumed to be currently aged 45

### Commutation

An allowance is included for future retirements to elect to take 55% of the maximum additional tax-free cash up to HMRC limits for pre-April 2008 service and 80% of the maximum tax-free cash for post-April 2008 service.

### Value of promised retirement liabilities

<b>31 March 2015 £m</b>		<b>31 March 2016 £m</b>
24,896	Present value of promised retirement benefits	23,051

Liabilities have been projected using a roll forward approximation from the latest formal funding valuation as at 31 March 2013. The liability as at 31 March 2015 and 31 March 2016 includes the liabilities transferred as part of the Ministry of Justice pension transfer on 1 June 2014. No allowance has been made for unfunded benefits.

### Sensitivity analysis

The sensitivities regarding the principal assumptions used to measure the scheme liabilities are set out below.

<b>31 March 2015</b>		<b>Change in assumptions at year ended 31 March</b>	<b>31 March 2016</b>	
<b>Approximate % increase to promised retirement benefits</b>	<b>Approximate monetary amount (£m)</b>		<b>Approximate % increase to promised retirement benefits</b>	<b>Approximate monetary amount (£m)</b>
7%	1,743	0.5% increase in the Pension Increase Rate	7%	1,614
3%	747	0.5% increase in the Salary Increase Rate	4%	922
3%	747	1 year increase in member life expectancy	3%	692
10%	2,490	0.5% decrease in Real Discount Rate	11%	2,536

It should be noted that the above figures are only appropriate for the preparation of the accounts of GMPF. They should not be used for any other purpose.
